Foreword

The Juvenile Court Judges' Commission (JCJC) is pleased to present the sixth edition of its Juvenile Court Annual Report. Prior to the publication of the 2017 report, Pennsylvania juvenile court statistics were presented in a yearly series entitled Pennsylvania Juvenile Court Dispositions. The series, which ran from 1972 to 2016, focused primarily on juvenile court dispositions.

Beginning in 2017, the Annual Report has undergone a series of enhancements designed to better measure and quantify work by juvenile justice professionals across the state and at various decision points. In 2017, information related to delinquency allegations received by each juvenile probation department was included. Key indicators such as the volume of allegations received, allegation sources, and the most serious offenses alleged are now presented. In 2019, the detention data source used for this report was shifted to the Pennsylvania Juvenile Case Management System (PaJCMS). Prior to 2019, this data was received from juvenile detention centers and included a significant number of unreported detention codes, which is a core performance indicator for the system.

More recently, a chapter was added to the 2020 Juvenile Court Annual Report to track the impact of the COVID-19 pandemic on the juvenile justice system. This chapter, which includes information on the volume of court hearings held, the utilization of advanced communication technology, and the use of residential placement is included again this year. Last year, a new chapter was dedicated entirely to longitudinal juvenile justice trends and youth outcomes. As Pennsylvania systematically integrates data-driven policies and practices at every stage of the juvenile justice system, the key metrics reported here help to demonstrate the impact of such initiatives over time at key decision points.

This year, we are pleased to announce another set of new metrics has been added to the Juvenile Court Annual Report. The metrics include various measures related to school-related delinquency allegations, delinquency allegations involving weapons, Youth Level of Service/Case Management Inventory™ (YLS) risk levels and criminogenic needs, and length of time from allegation to key dispositions. Additionally, the race and ethnicity data are now presented in a single chart to better visualize any disparities occurring at various decision points.

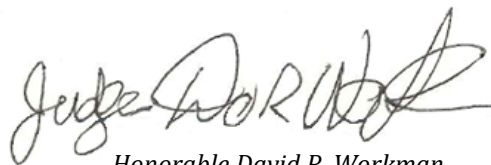

The presentation of the data in this report is intended to help summarize various juvenile court trends within the Commonwealth and therefore includes written narrative, as well as charts and graphs. The data within this year's report are generally organized in a manner that reflect the chronological processing of juvenile court delinquency cases, from allegation through disposition. Some of the data are organized and presented by county class to help readers make comparisons across counties of similar size and demographic composition. Aggregated data for each of Pennsylvania's 67 counties for certain data points are available within the appendices.

The JCJC would like to extend its deepest appreciation to the juvenile courts and juvenile probation departments across the Commonwealth. Without their support, this report would not be possible. It is with great pleasure that we dedicate this report to the judges, probation officers, victim advocates, district attorneys, defenders, service providers, and other professionals who work on a daily basis in the Pennsylvania juvenile court system.

Respectfully submitted,

Robert Tomassini
Executive Director

Honorable David R. Workman
Chair

TOP CRIMINOGENIC NEEDS OF INITIAL YLS ASSESSMENTS

TOP 5 MOST FREQUENT ALLEGED OFFENSE CATEGORIES

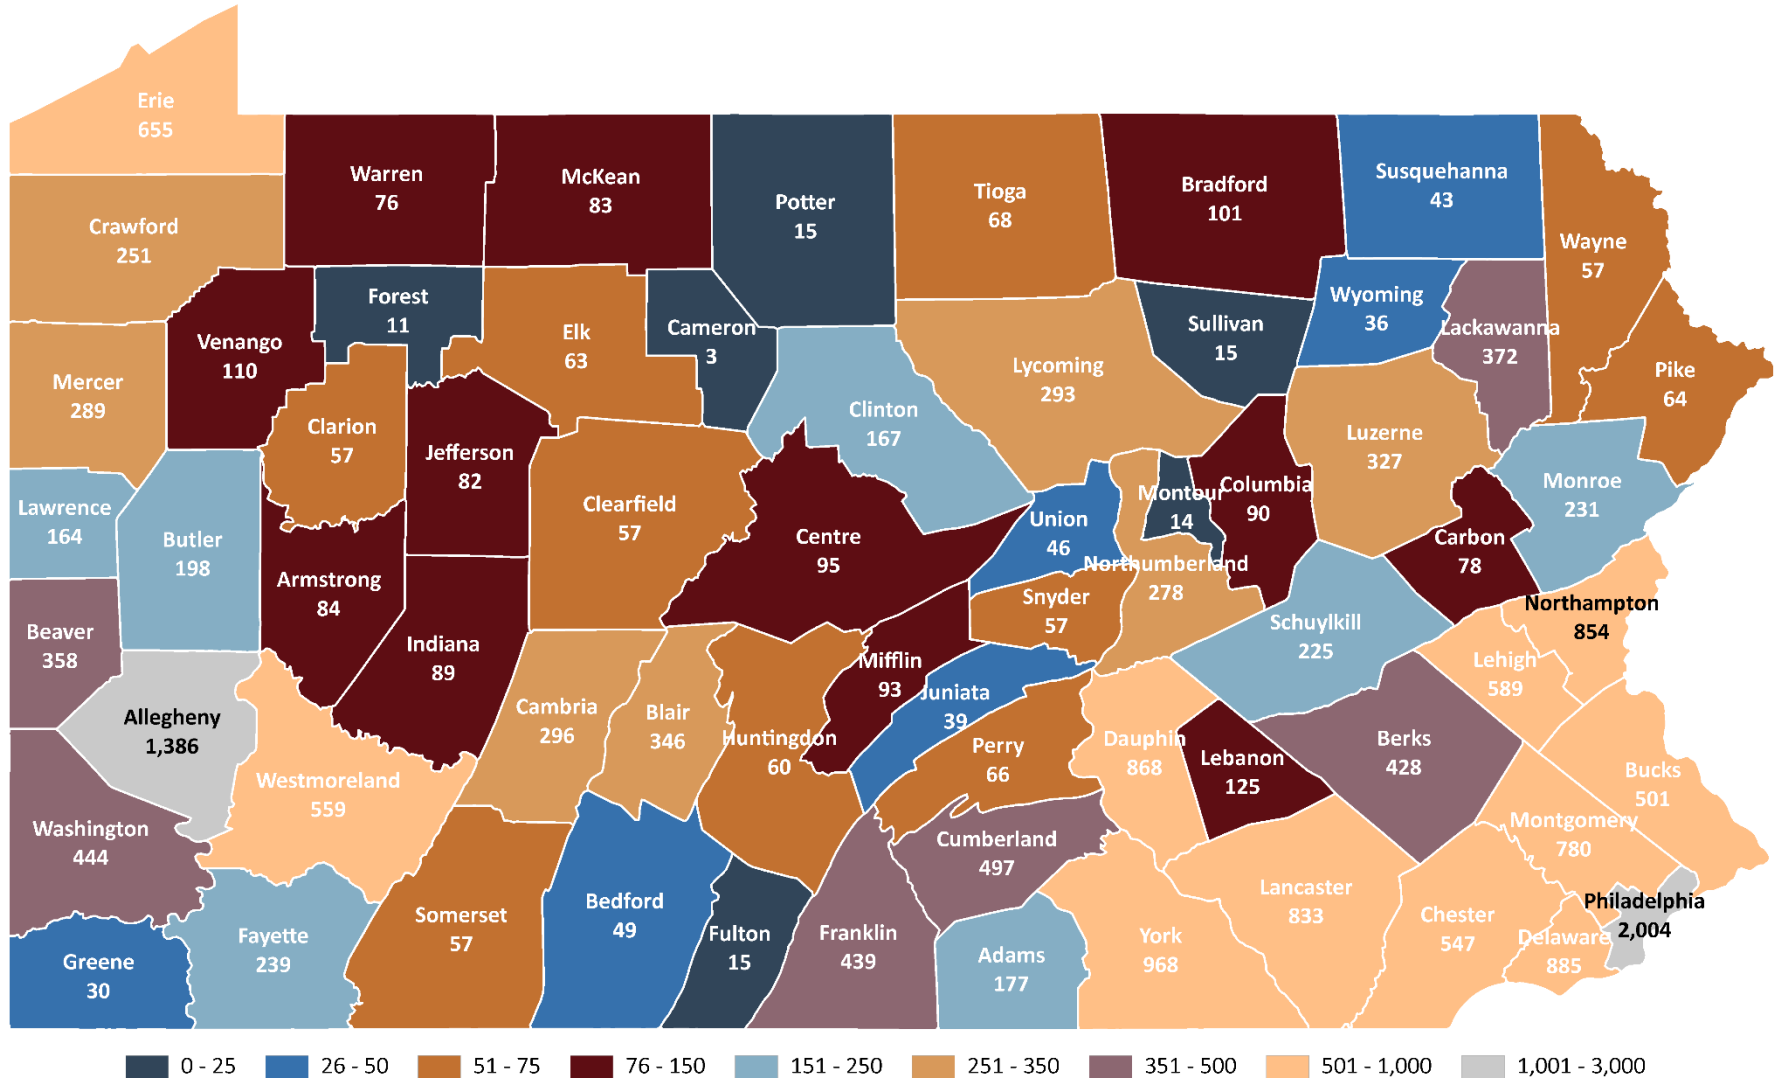

Chapter 1 - Incoming Cases

Section 1: Delinquency Allegations

1. The unit of count for this section is a written allegation. A written allegation is the document submitted by a law enforcement officer or other person to allege a juvenile has committed an act of delinquency. Multiple allegations may result in a single disposition. Allegations are synonymous with the term 'case' in the Pennsylvania Juvenile Case Management System (PaJCMS).
2. Written allegations in this section were filed with a juvenile probation department between January 1, 2022, and December 31, 2022.
3. In Pennsylvania, juvenile court jurisdiction extends over individuals who have been alleged to have committed a delinquent act, as defined by 42 Pa. C. S. § 6301 et seq., on or after their tenth birthday and prior to reaching 18 years of age. Juvenile court supervision can extend until the individual is 21 years of age if the individual is currently under supervision. Age, for purposes of this section, was calculated from the juvenile's date of birth to the date of the offense in the written allegation.
4. Data for this report were compiled from PaJCMS on March 10, 2023. Any delinquency allegations received by a juvenile probation department in 2022, and entered into PaJCMS after this date, will not be included in these statistics. The numbers published in this report, therefore, may not reflect current numbers within the system.
5. Finally, the reader should be cautioned that, beginning in 2020, figures were likely impacted by the COVID-19 pandemic. Figures dropped significantly in 2020 and 2021, before returning close to pre-pandemic levels in 2022. The pandemic's effect on the juvenile justice system is examined further in Chapter 4 – The Impact of COVID-19 on the Pennsylvania Juvenile Justice System.

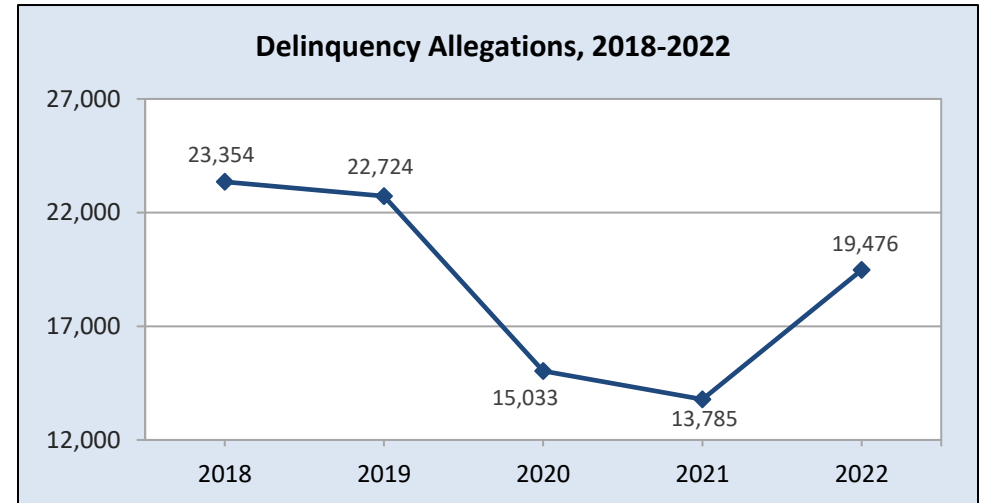

2022 Delinquency Allegations

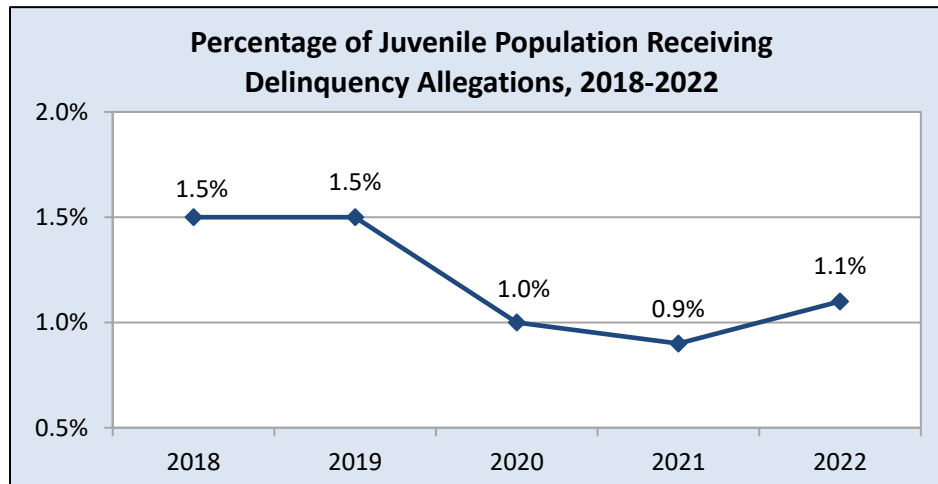

Delinquency Allegations, 2018-2022

There were 19,476 delinquency-related allegations in Pennsylvania in 2022. This represents a 41.3% increase from 2021 to 2022, and a 16.6% decrease from 2018 to 2022. The significant increase in allegations brings the number of allegations close to pre-COVID-19 levels. The pandemic's effect on allegation patterns is examined further in Chapter 4 - The Impact of COVID-19 on the Pennsylvania Juvenile Justice System.

Almost one-third (31.4%) of the total allegations received in 2022 occurred in five jurisdictions (see map on page 3). These jurisdictions are: Allegheny, Dauphin, Delaware, Philadelphia, and York.

Percentage of Juvenile Population Receiving Delinquency Allegations, 2018-2022

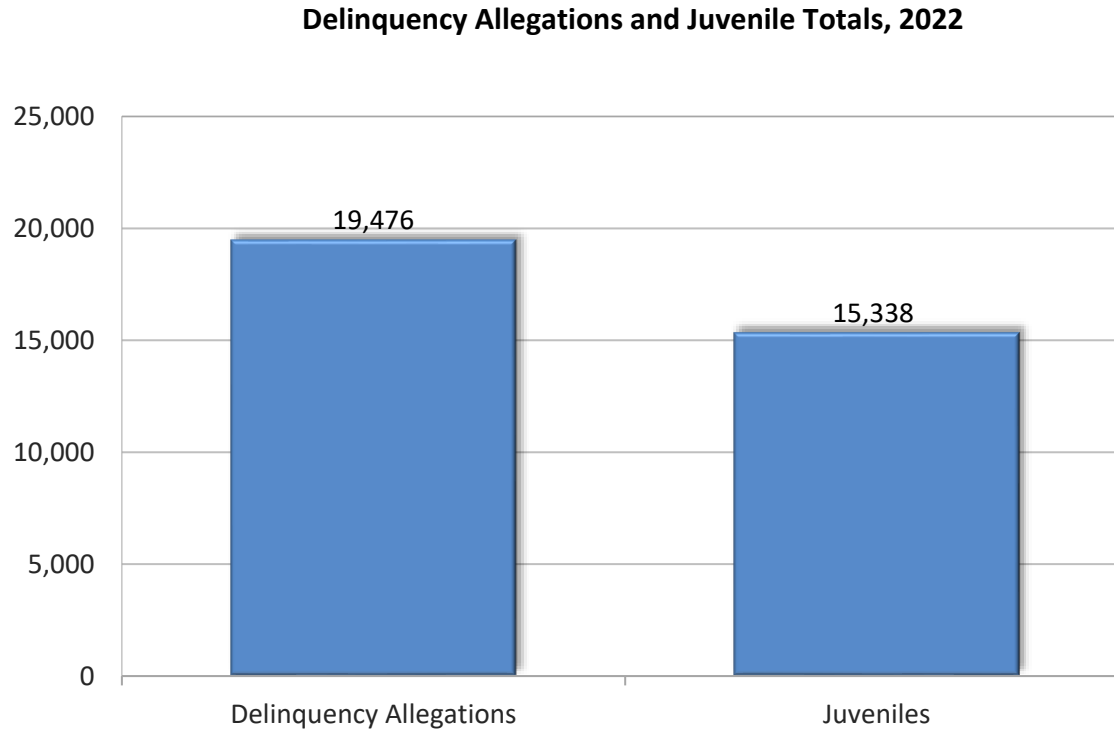

Between 2018 and 2022, the rate of juvenile delinquency allegations as a percent of the Pennsylvania juvenile population aged 10-17 declined by 26.7%, from 1.5% to 1.1%*. Please refer to Appendix 3 for juvenile population figures.

*United States Census Bureau data was used to calculate population figures in this report. In previous years, these population figures were retrieved from The Centers for Disease Control. As such, the reader is cautioned when comparing population figures in this report to previous Pennsylvania Juvenile Court Annual Reports. At the time of publication of this report, the United States Census Bureau had not yet published 2022 population figures. Consequently, 2021 population figures were utilized, which can be retrieved here: <https://data.census.gov>.

Delinquency Allegations and Juvenile Totals, 2022

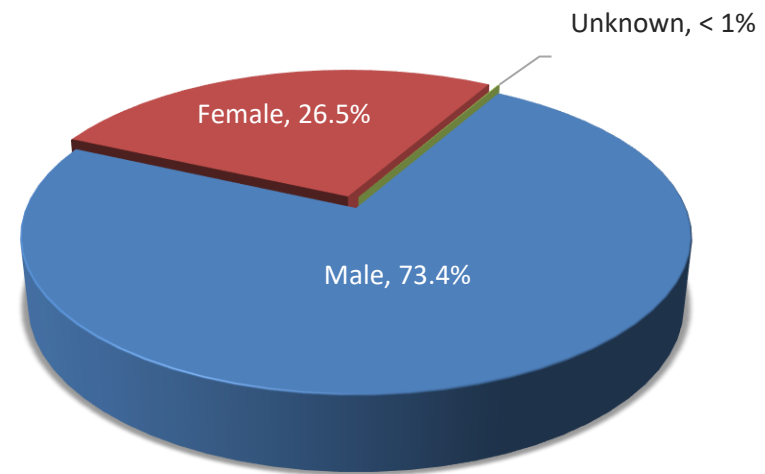

In 2022, 15,338 juveniles accounted for 19,476 delinquency allegations in Pennsylvania. This equates to an average of 1.27 delinquency allegations per juvenile. County-level rates of delinquency allegations per juvenile in 2022 ranged from 1.0 to 1.67 (see Appendix 3).

Delinquency Allegations by Gender, 2022

Juvenile delinquency allegations in Pennsylvania primarily involved males. In 2022, almost three in four (73.4%) delinquency allegations submitted to juvenile probation departments involved males, while a little over one in four (26.5%) involved females.

Delinquency Allegations by Gender, 2022

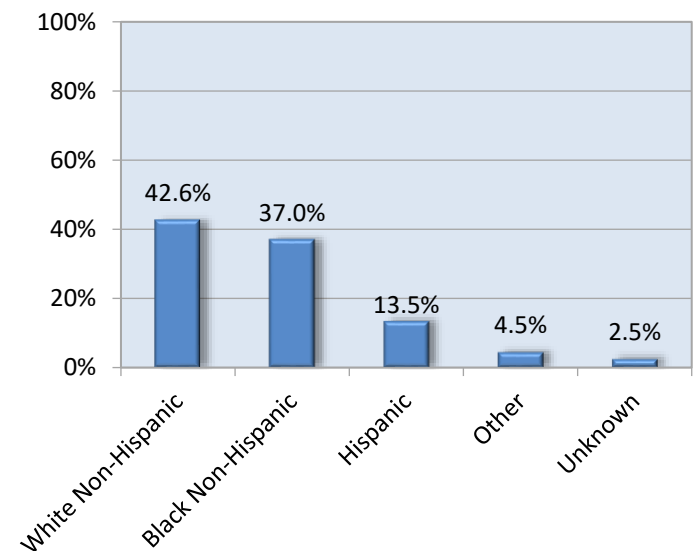

Delinquency Allegations by Race and Ethnicity, 2022

In 2022, White Non-Hispanic youth represented the largest racial/ethnic category for all delinquency allegations.

However, in comparison to the racial/ethnic distribution of all youth in Pennsylvania aged 10-17, the representation of Black Non-Hispanic youth is disproportionate: 12.4% of the total population versus 37.0% of all delinquency allegations*.

When excluding Philadelphia County and Allegheny County, Black Non-Hispanic youth represented 7.2% of the youth population, but 29.4% of all delinquency allegations. See Appendix 4 for the number of delinquency allegations by race and ethnicity for each county.

Delinquency Allegations by Race and Ethnicity, 2022

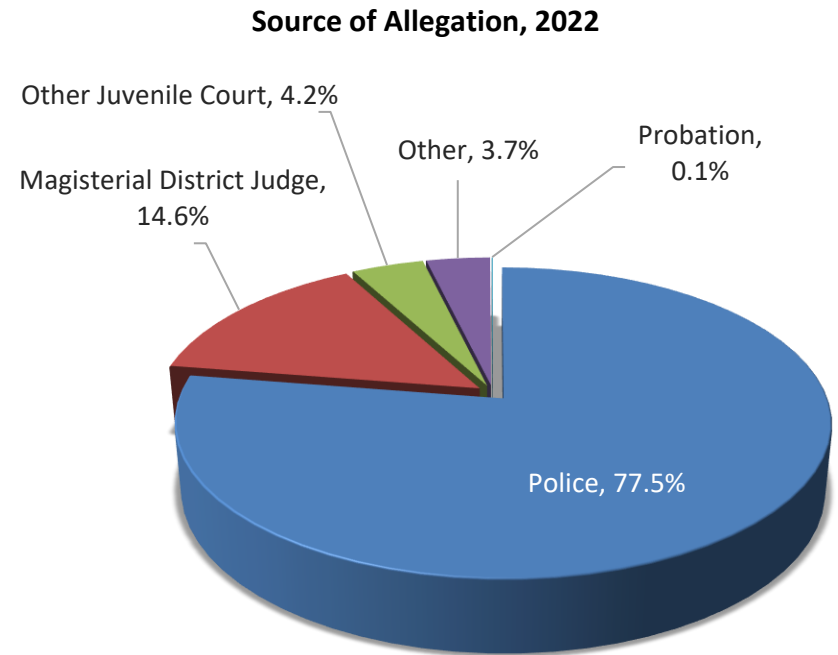

*United States Census Bureau data was used to calculate population figures in this report. In previous years, these population figures were retrieved from The Centers for Disease Control. As such, the reader is cautioned when comparing population figures in this report to previous Pennsylvania Juvenile Court Annual Reports. At the time of publication of this report, the United States Census Bureau had not yet published 2022 population figures. Consequently, 2021 population figures were utilized, which can be retrieved here: <https://data.census.gov>.

Source of Allegation, 2022

Police and Magisterial District Judges were the primary sources of delinquency allegations in 2022 – 77.5% and 14.6%, respectively.

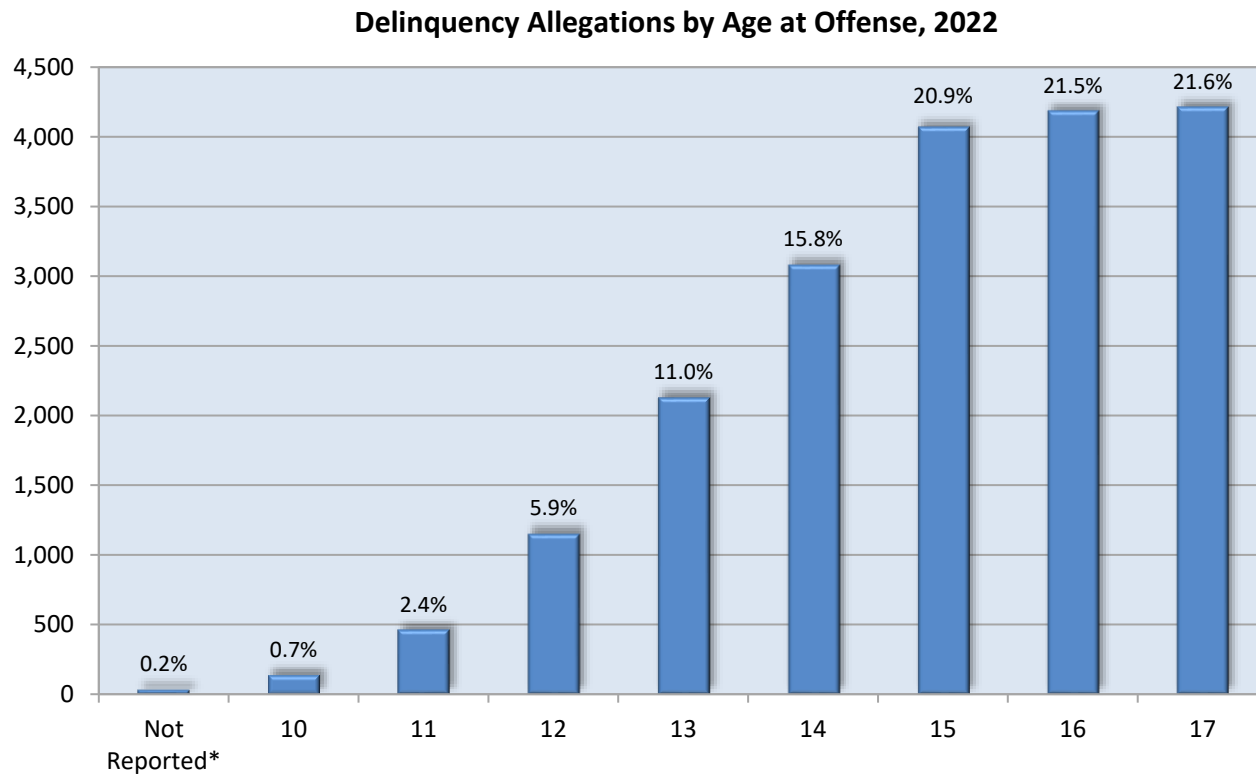

Source of Allegation	Count	Percent
Police	15,091	77.5%
Magisterial District Judge	2,841	14.6%
Other Juvenile Court	813	4.2%
Other	718	3.7%
Probation	13	0.1%
Total	19,476	100.0%

Note: The category “Other” includes delinquency allegations received from schools, social agencies, relatives, and cases transferred from criminal court.

Delinquency Allegations by Age at Offense, 2022

Seventeen-year-olds accounted for 21.6% of all juvenile delinquency allegations in 2022, representing the most allegations for any age group. Juveniles aged 16 accounted for 21.5% of all juvenile delinquency allegations, while 15-year-olds accounted for 20.9% of all juvenile delinquency allegations.

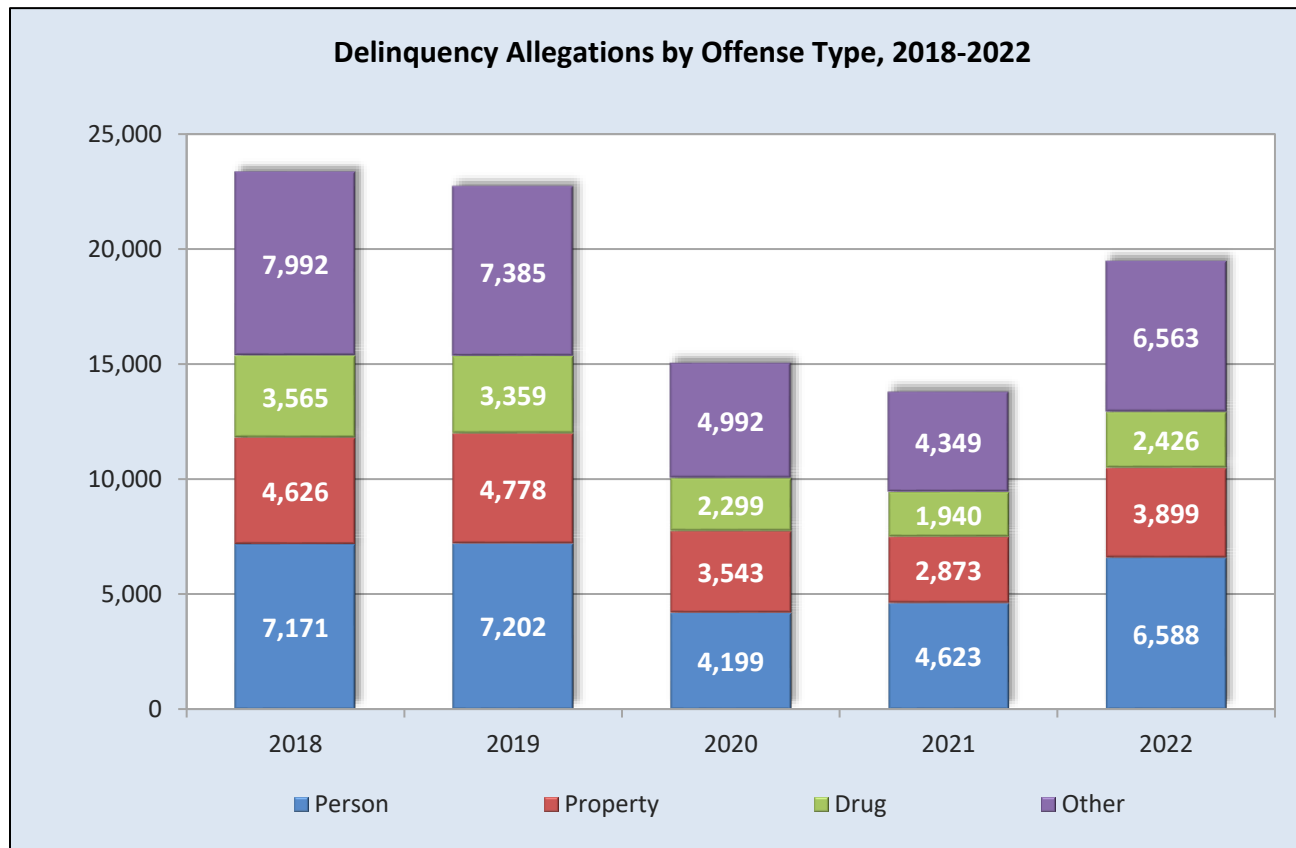

*Includes inter-state transfers and Magisterial District Judge Certifications from the minor judiciary that a juvenile failed to comply with a lawful sentence imposed for a summary offense.

Note: Age is calculated at the time of the alleged delinquent offense.

Delinquency Allegations by Offense Type, 2018-2022

The following information was compiled based on the most serious alleged offense for each juvenile delinquency allegation received in Pennsylvania between 2018 and 2022. That is, only one offense per delinquency allegation is counted in the figures below. These alleged offenses are broken into four offense categories: Person, Property, Drug, and “Other.”

The percentage decreases in the number of offenses per category from 2018 to 2022 were more in line with pre-pandemic percentage decreases. Between 2018 and 2022, the number of allegations received for Drug Offenses decreased at the highest rate (31.9%), followed by “Other” (17.9%), then by Property (15.7%), then by Person (8.1%).

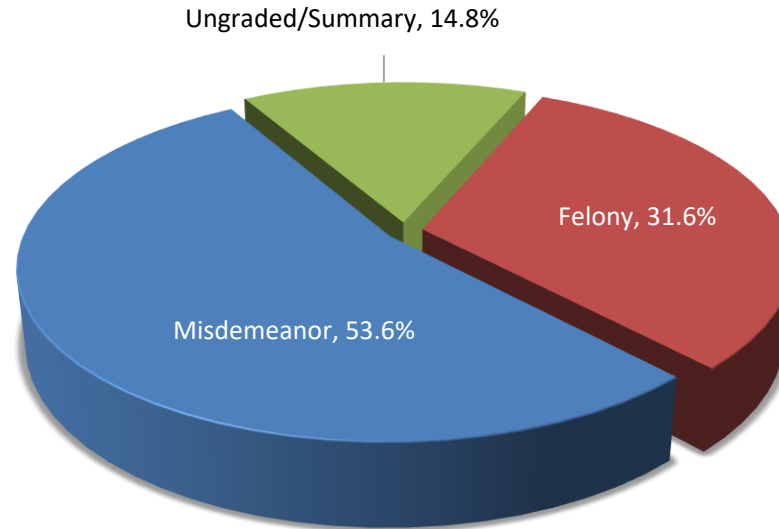

Note: The “Other” Offenses category includes but is not limited to: Public Order Offenses such as Disorderly Conduct or Weapon on School Property; Firearms Offenses; and Certifications from the minor judiciary that a juvenile failed to comply with a lawful sentence imposed for a summary offense.

Delinquency Allegations by Most Serious Alleged Offense Grade, 2022

The following information was compiled based on the most serious alleged offense for each juvenile delinquency allegation received in Pennsylvania in 2022. That is, only one offense per delinquency allegation is counted in the figures below. These alleged offenses are grouped according to the following charge grades: Felony, Misdemeanor, and Ungraded/Summary.

The charge grade of the most serious alleged offense of more than half (53.6%) of allegations received in 2022 was a misdemeanor, and 68.4% of all allegations received were for non-felony offenses.

Delinquency Allegations by Most Serious Alleged Offense Grade, 2022

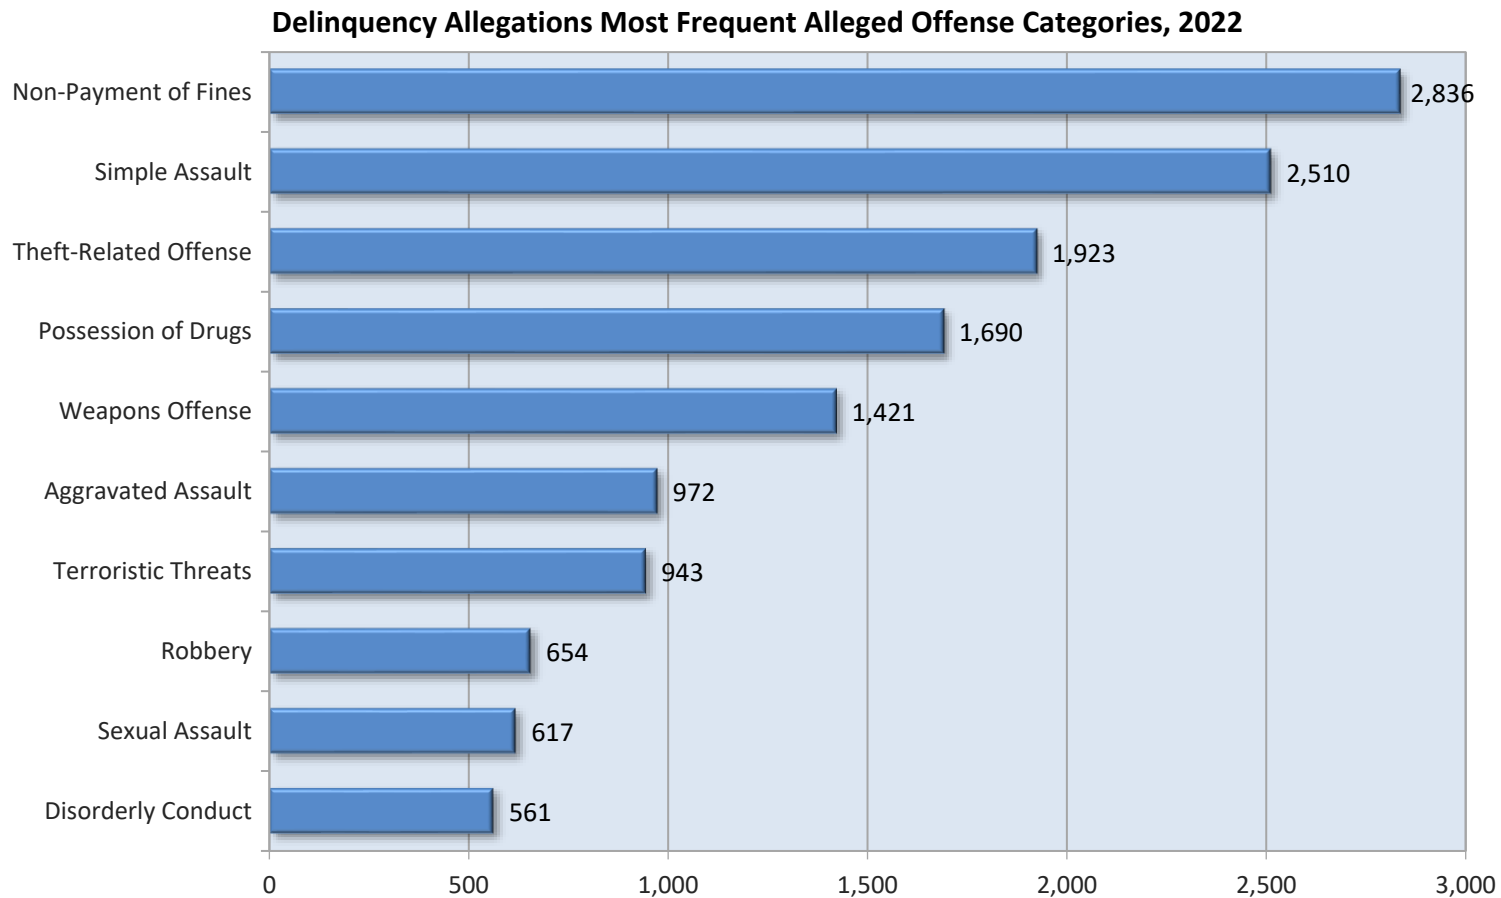

Delinquency Allegations Most Frequent Alleged Offense Categories, 2022

The following information was compiled based on the most serious alleged offense for each juvenile delinquency allegation received in Pennsylvania in 2022. That is, only one offense per delinquency allegation is counted in the figures below.

Non-Payment of Fines, Simple Assault, and Theft-Related Offenses were the most frequently occurring alleged offenses of delinquency allegations received in 2022.

Note: Theft-Related Offenses include: theft, theft by unlawful taking, theft by deception, theft by extortion, theft by receiving stolen property, theft of services, and theft from a motor vehicle. Weapon Offenses include: firearm-related offenses, possession of an instrument of crime, and possession of weapon on school property.

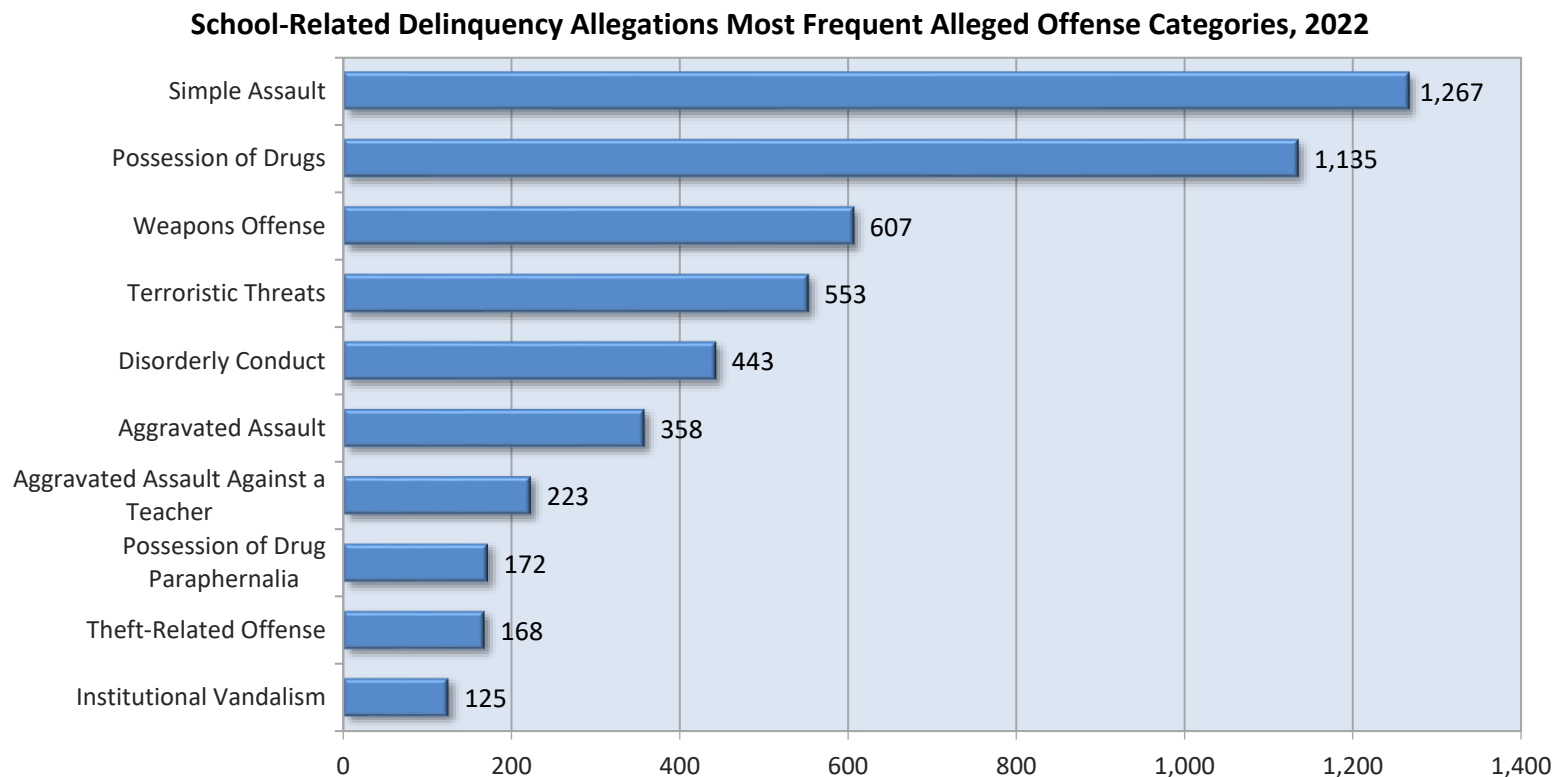

School-Related Delinquency Allegations, 2022

In 2015, the Juvenile Court Judges' Commission added a field to the statewide Pennsylvania Juvenile Case Management System (PaJCMS) to identify school-related offenses, making this a mandatory field in June 2021. A school-related offense is defined as any offense committed in the school setting, including in the school, on school grounds, in school vehicles, at a designated bus stop, or at any activity sponsored, supervised, or sanctioned by the school. Failure to comply offenses are not included. The following information was compiled based on the most serious alleged offense for each juvenile delinquency allegation received in Pennsylvania in 2022. That is, only one offense per delinquency allegation is counted in the figures below. There were 6,154 delinquency allegations received in 2022 with a most serious alleged offense identified as school-related, which is 31.6% of all delinquency allegations.

School-Related Delinquency Allegations Most Frequent Alleged Offense Categories, 2022

Simple Assault, Possession of Drugs, and Weapon Offenses were the most frequently occurring alleged school-related offenses received in 2022.

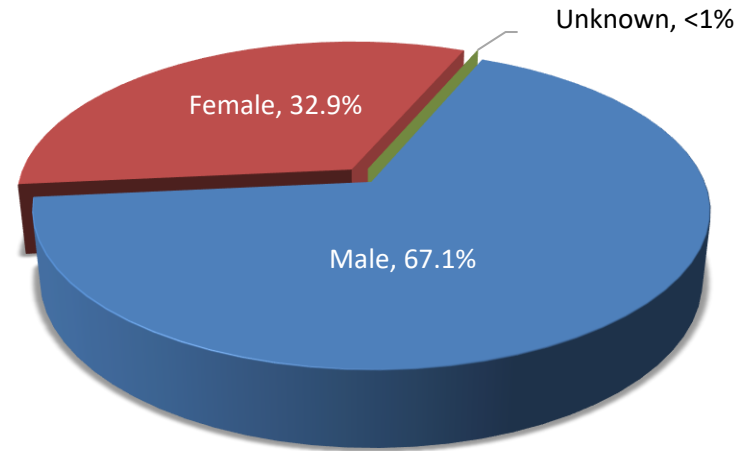

Note: Theft-Related Offenses include: theft, theft by unlawful taking, theft by deception, theft by extortion, theft by receiving stolen property, theft of services, and theft from a motor vehicle. Weapons Offenses include: firearm-related offenses, possession of an instrument of crime, and possession of weapon on school property.

School-Related Delinquency Allegations by Gender, 2022

Females comprised a higher proportion of school-related juvenile delinquency allegations than all juvenile delinquency allegations received in Pennsylvania in 2022. In 2022, 26.5% of all juvenile delinquency allegations involved females while 32.9% of school-related allegations involved females.

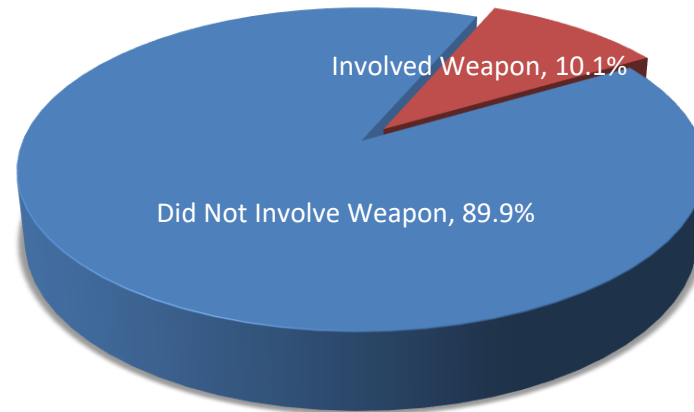

School-Related Delinquency Allegations by Gender, 2022

School-Related Delinquency Allegations Involving Weapon, 2022

In 2022, 10.1% of school-related offenses reported involved a weapon.

School-Related Delinquency Allegations Involving Weapon, 2022

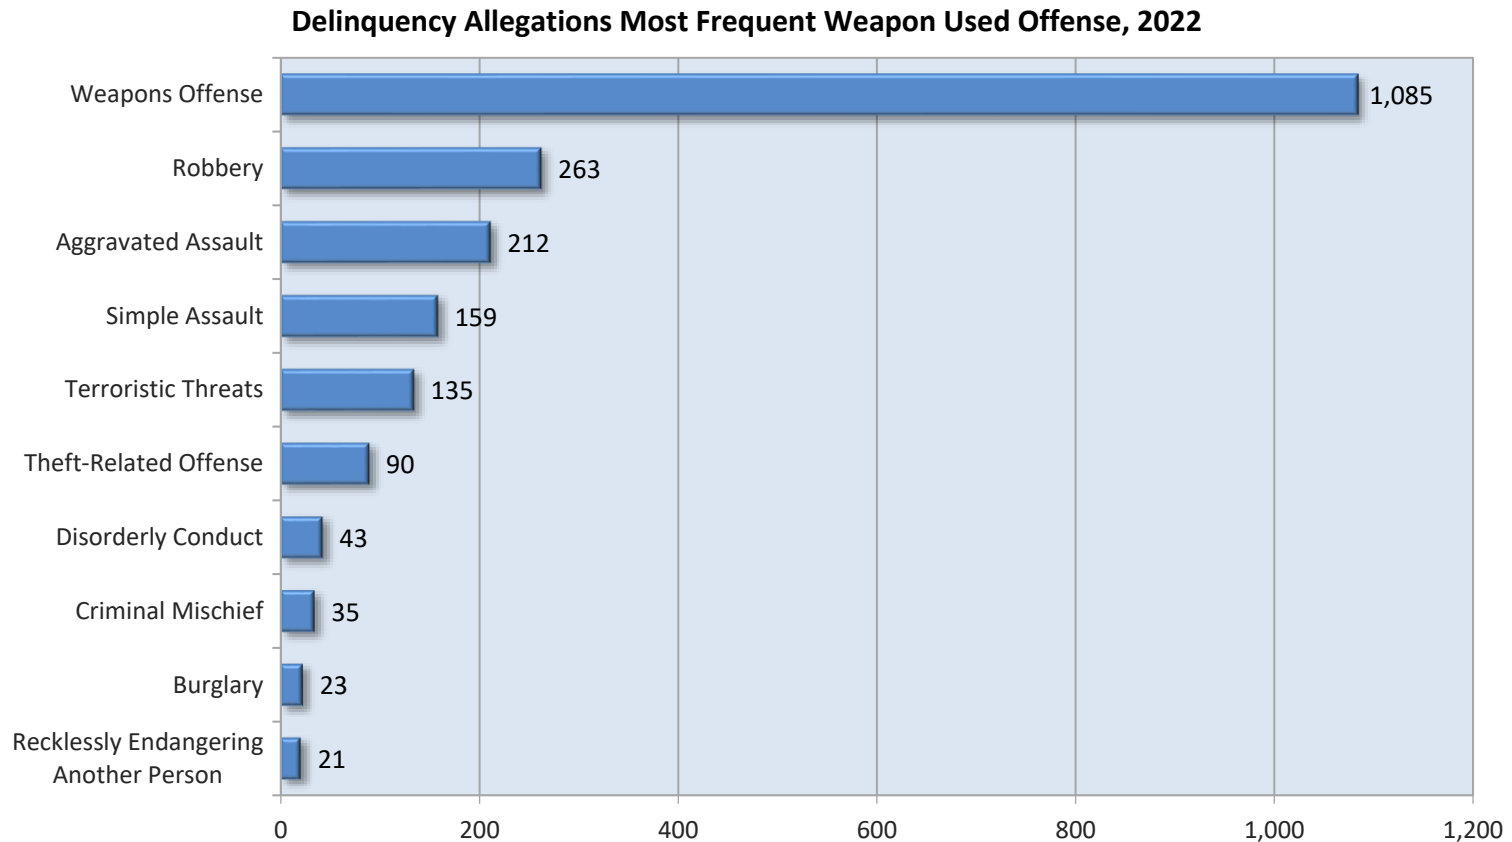

Delinquency Allegations with Weapon Use, 2022

The following information was compiled based on the most serious alleged offense for each juvenile delinquency allegation received in Pennsylvania in 2022. That is, only one offense per delinquency allegation is counted in the figures below. There were 2,812 delinquency allegations received in 2022 with a most serious alleged offense with weapon use, which is 14.4% of all delinquency allegations.

Delinquency Allegations Most Frequent Weapon Used Offense, 2022

Weapon Offenses, Robbery, and Aggravated Assault were the most frequently occurring alleged offenses with weapon use.

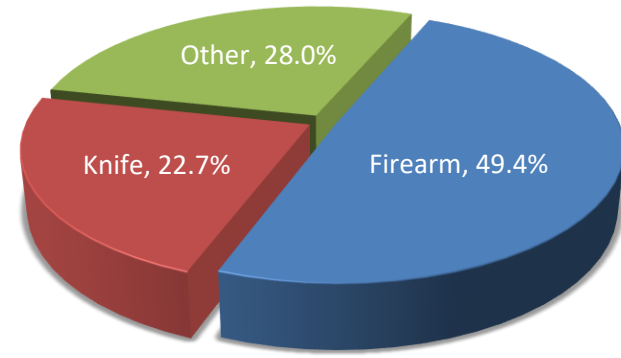

Note: Theft-related Offenses include: theft, theft by unlawful taking, theft by deception, theft by extortion, theft by receiving stolen property, theft of services, and theft from a motor vehicle. Weapons Offenses include: firearm-related offenses, possession of an instrument of crime, and possession of weapon on school property.

Delinquency Allegations with Weapon Use by Weapon Type, 2022

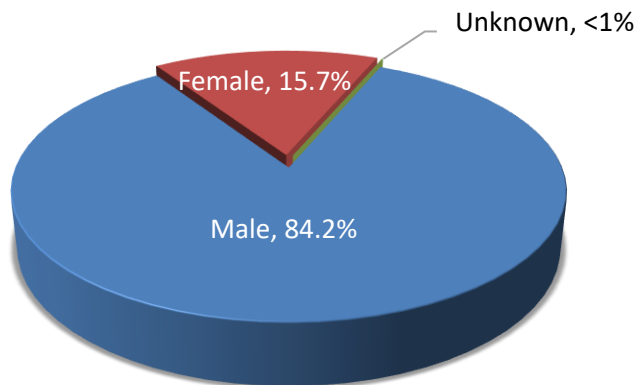

In 2022, firearms were utilized in almost half (49.4%) of delinquency allegations when the most serious alleged offense involved a weapon.

Delinquency Allegations with Weapon Use by Weapon Type, 2022

Delinquency Allegations with Weapon Use by Gender, 2022

Delinquency Allegations with Weapon Use by Gender, 2022

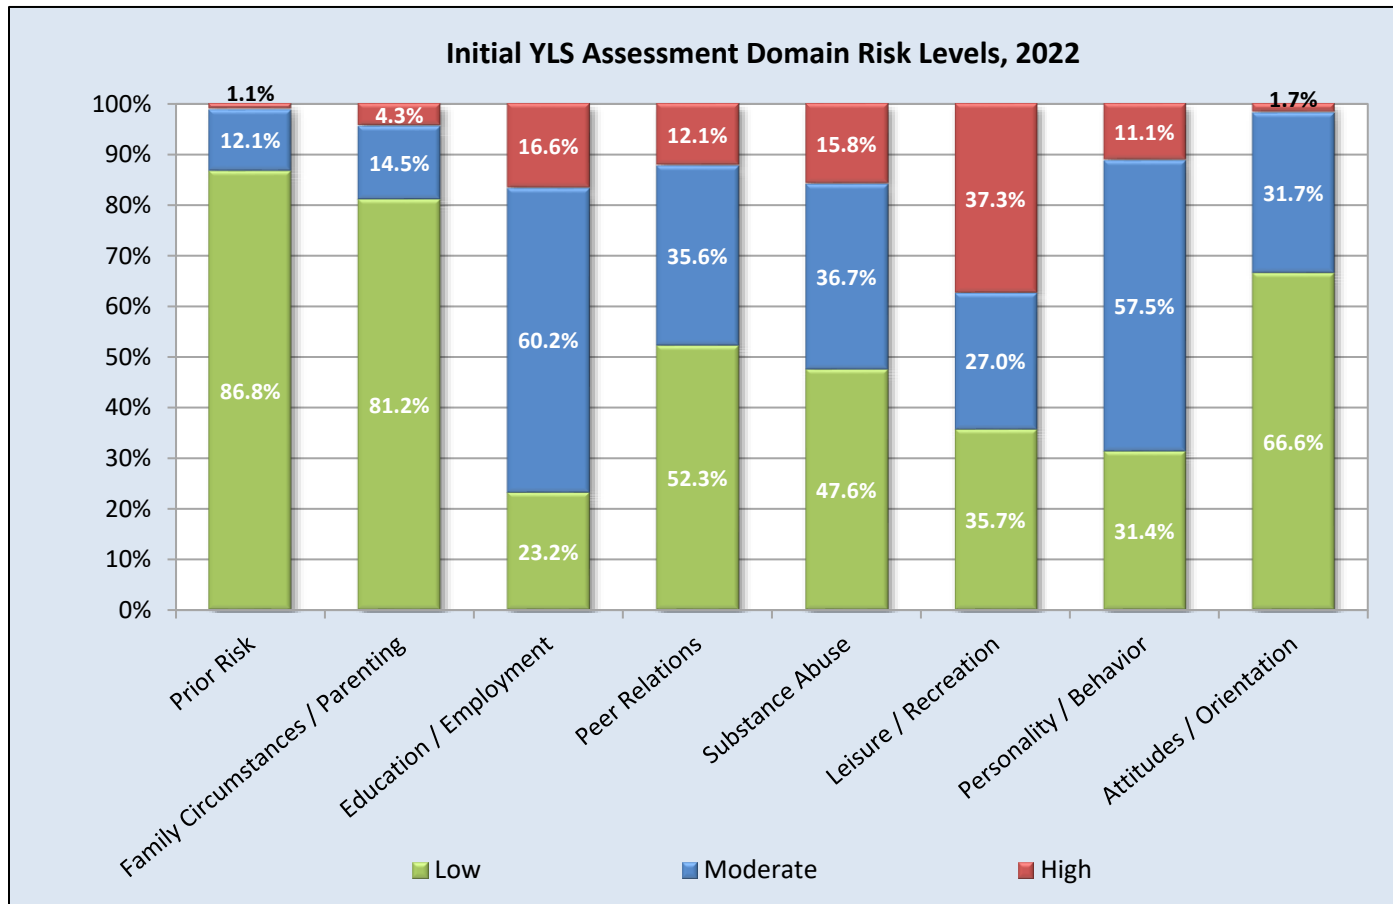

Females comprised a smaller proportion of juvenile delinquency allegations with weapon use than all juvenile delinquency allegations received in Pennsylvania in 2022. In 2022, 26.5% of all juvenile delinquency allegations involved females, while 15.7% of delinquency allegations with weapon use involved females.

Youth Level of Service/Case Management Inventory™ (YLS) Assessments, 2022

The use of the Youth Level of Service™ (YLS) is the cornerstone of Pennsylvania’s Juvenile Justice System Enhancement Strategy (JJSES). The tool, which is a validated research-based assessment, is designed to determine a juvenile’s risk to re-offend and the presence of criminogenic needs. The YLS measures 42 static and dynamic risk factors, divided into eight domains, that have been identified as most predictive of youthful re-offending. Generally, juveniles are assessed at the time they enter the juvenile justice system. Upon completion of the YLS assessment, juveniles are assigned a numeric score and risk level (i.e., low, moderate, high, or very high) and their top criminogenic needs (those factors recognized as driving their delinquent behavior) are identified. These results assist juvenile probation officers in targeting a juvenile’s specific needs through treatment, interventions, and services.

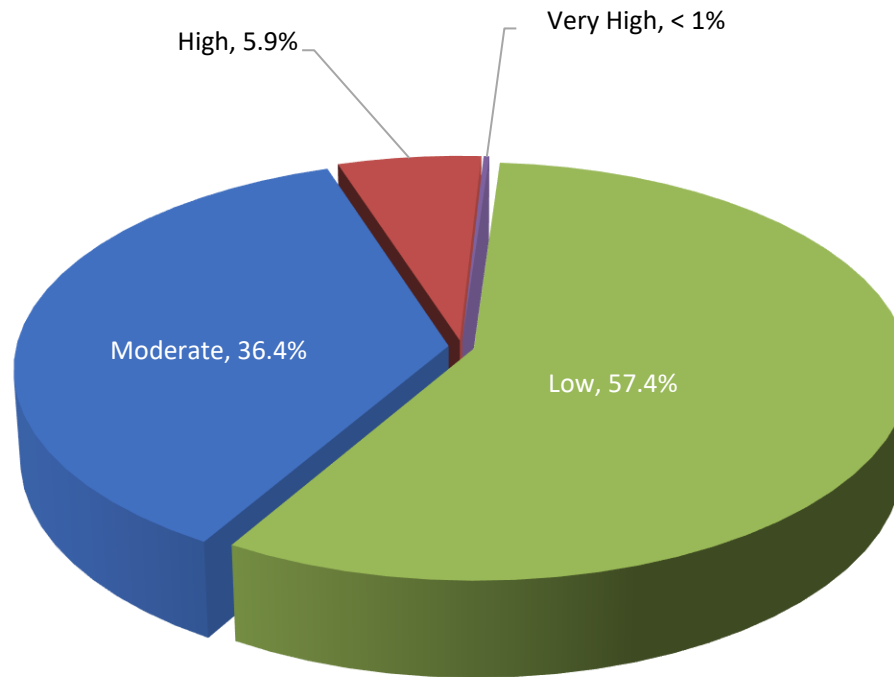

The domains with the largest percentages of juveniles scoring moderate or high risk were Education/Employment (76.8%), Personality/Behavior (68.6%), and Leisure/Recreation (64.3%). The domain with the highest percentage of juveniles scoring low risk were Prior Risk (86.8%), Family Circumstances/Parenting (81.2%), and Attitudes/Orientation (66.6%).

Distribution of Risk Level of Initial YLS Assessments, 2022

In 2022, 8,581 initial YLS assessments were completed. Among those initial assessments, 57.4% of youth scored as low risk to re-offend, 36.4% scored as moderate risk to re-offend, and 5.9% scored as high risk to re-offend. Less than 1% of youth scored as very high risk to re-offend.

Distribution of Risk Level of Initial YLS Assessments, 2022

Section 2: Secure Detention

In accordance with the Juvenile Court Judges' Commission's Standards Governing Secure Detention, all counties report their secure detention admissions to the Commission. Beginning in 2019, the detention data was extracted from the Pennsylvania Juvenile Case Management System (PaJCMS). Prior to 2019, this data was extracted from the secure detention database at the Juvenile Court Judges' Commission's Center for Juvenile Justice Training and Research, which was populated with data reported directly from juvenile detention centers each month. With this change, there has been a large decrease in the number of Unknown/Other secure detention section codes, as noted on page 23.

When interpreting the data contained in these tables, the reader should note the following:

- 1) The unit of count is the admission of a juvenile to a secure detention center.
- 2) A juvenile who is admitted to a secure detention center and subsequently transferred to another secure detention center without release is counted as two admissions.

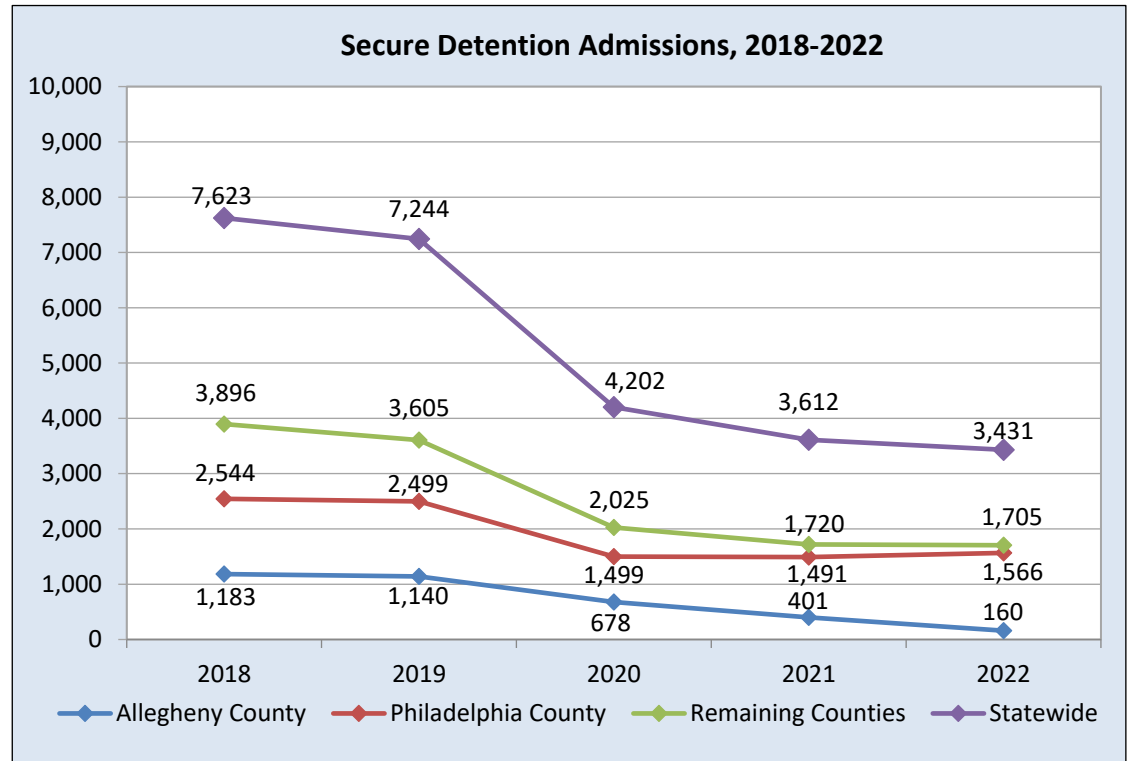

Codes Related to JCJC Standards Governing the Use of Secure Detention Under the Juvenile Act

Each month, all juvenile detention centers report a Statement of Facts and Reasons that must accompany every probation-authorized admission to secure detention. Below are the Section Codes related to this process.

- 100 Codes* Circumstances under which secure detention may be authorized on the basis of an alleged offense or on the basis of an alleged offense and the child's current status with the court or prior record.
- 200 Codes* Circumstances under which secure detention may be authorized on the basis of a child's status as an absconder or fugitive; on the basis of a child's record of failing to appear at previous juvenile proceedings; or because of extraordinary circumstances which require secure detention to prevent a child from absconding.
- 300 Codes* Circumstances under which secure detention may be authorized on the written request of the child or child's attorney.
- 400 Codes* Circumstances under which secure detention may be ordered pending disposition, subsequent to a finding that a child committed a delinquent act or is a delinquent child.
- 500 Codes* Circumstances under which secure detention may be ordered following disposition pending transfer to placement.
- 600 Codes* Circumstances under which secure detention may be authorized on the basis of the child's status, pending or subsequent to a disposition review proceeding.
- Code 701* Circumstances under which secure detention may be authorized on the basis of extraordinary and exceptional circumstances.

Secure Detention Admissions, 2018-2022

Detention admissions have declined 55.0% statewide since 2018 and 5.0% from 2021 to 2022. Allegheny County detention admissions decreased by 60.1% from 2021 to 2022, and Philadelphia County admissions increased by 5.0% during the same time period. Overall statewide admissions, excluding Allegheny and Philadelphia, decreased by 0.9% from 2021 to 2022. Philadelphia County and Allegheny County account for 45.6% and 4.7%, respectively, of all secure detention admissions.

PERCENTAGE CHANGE OF DETENTION ADMISSIONS				
	2018-2019	2019-2020	2020-2021	2021-2022
STATEWIDE	-5.0%	-42.0%	-14.0%	-5.0%
ALLEGHENY COUNTY	-3.6%	-40.5%	-40.9%	-60.1%
PHILADELPHIA COUNTY	-1.8%	-40.0%	-0.5%	5.0%
REMAINING COUNTIES	-7.5%	-43.8%	-15.1%	-0.9%

Length of Stay in Secure Detention, 2022

In 2022, the statewide median length of stay in secure detention was 15.0 days, with an increase of one day from 2021. The table below shows the median length of stay by county, from greatest to least number of days. Multiple counties with identical length of stay are listed alphabetically. This data, sorted by greatest to least number of admissions, can be found in Appendix 12.

COUNTY	NUMBER OF ADMISSIONS	MEDIAN LENGTH OF STAY IN DAYS
CAMBRIA	1	99.0
JEFFERSON	1	77.0

*TOTAL	3,298	15.0

*Includes 119 secure detention admissions to the Out-of-State Detention Centers by the following counties: Allegheny (18); Beaver (12); Butler (5); Cambria (1); Delaware (1); Fayette (13); Greene (4); Indiana (2); Lycoming (6); Mercer (1); Washington (53); Westmoreland (2); and Wyoming (1).

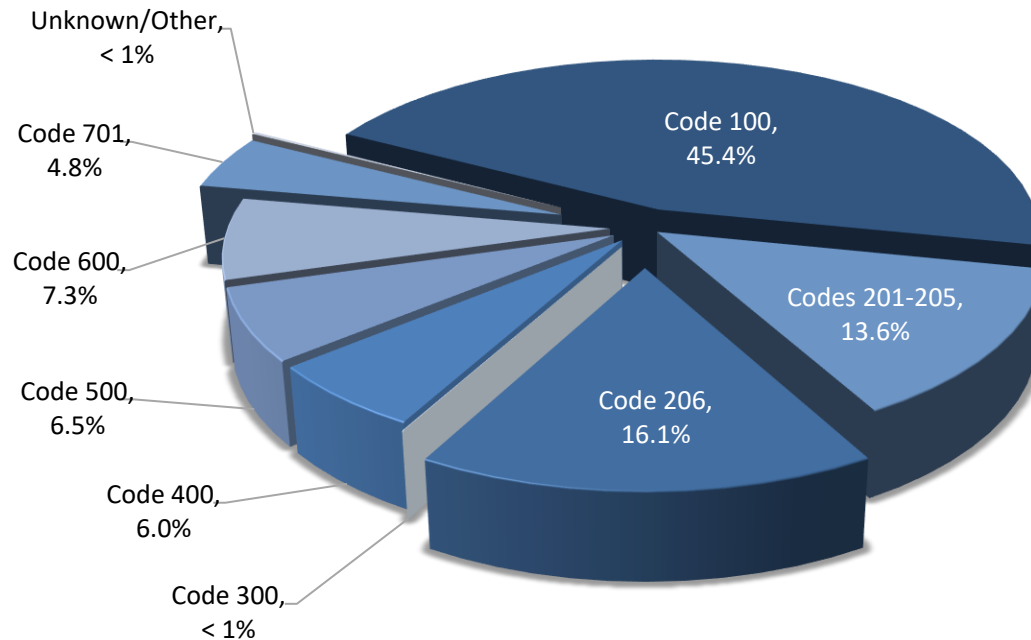

Note: This table only includes those admissions for which a date of release was reported.

Secure Detention Admissions by Standard Section Codes, 2022

In 2022, the majority of secure detention admissions were authorized under the 100 and 200 Codes – 45.4% and 29.7%, respectively. This trend has remained consistent since 2017.

Special attention is given to the utilization of Codes 206 (extraordinary circumstances), 701 (extraordinary and exceptional circumstances), and Unknown/Other. In instances where secure detention is authorized under Codes 206 or 701, the juvenile probation officer is required to provide a detailed written explanation of the reasons that necessitate secure detention. These codes were intended to be utilized in limited circumstances where the other codes are not applicable.

**Detention Section Codes
as a % of Total Admissions, 2022**

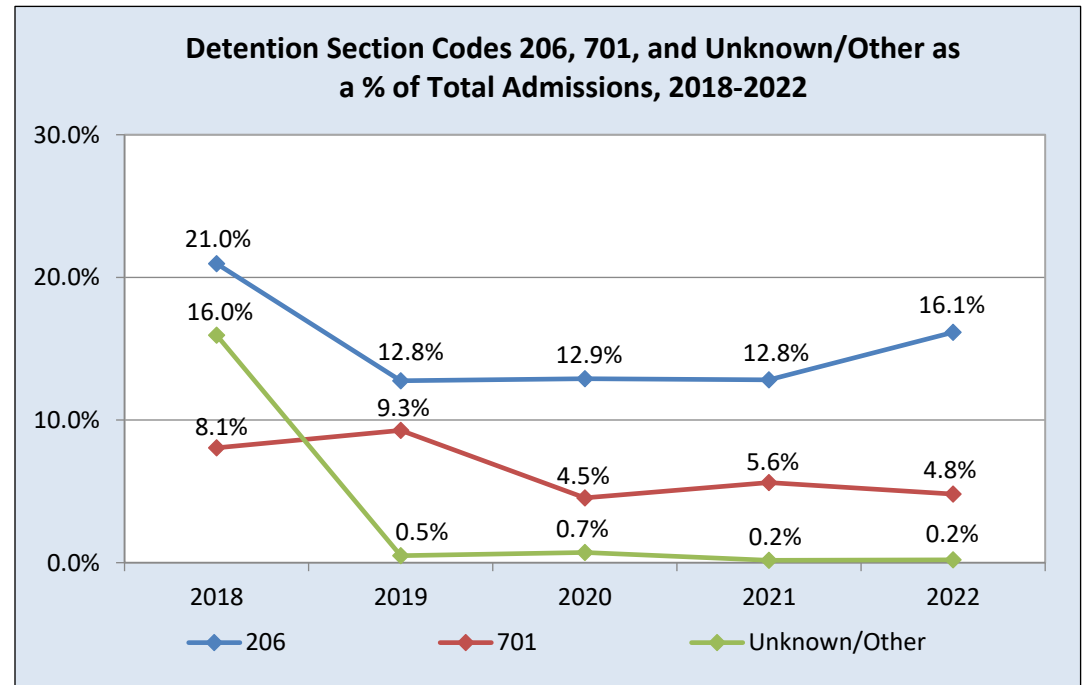

Secure Detention Admissions by Standard Section Codes, 2018-2022

The utilization of Codes 206 (extraordinary circumstances), 701 (extraordinary and exceptional circumstances), and admissions with an Unknown/Other Code accounted for 21.1% of all secure detention admissions in 2022. The utilization of Code 206 increased from 12.8% in 2021 to 16.1% in 2022. The Unknown/Other Codes* remained the same at 0.2% from that same time period. The use of Code 701 decreased from 5.6% in 2021 to 4.8% in 2022.

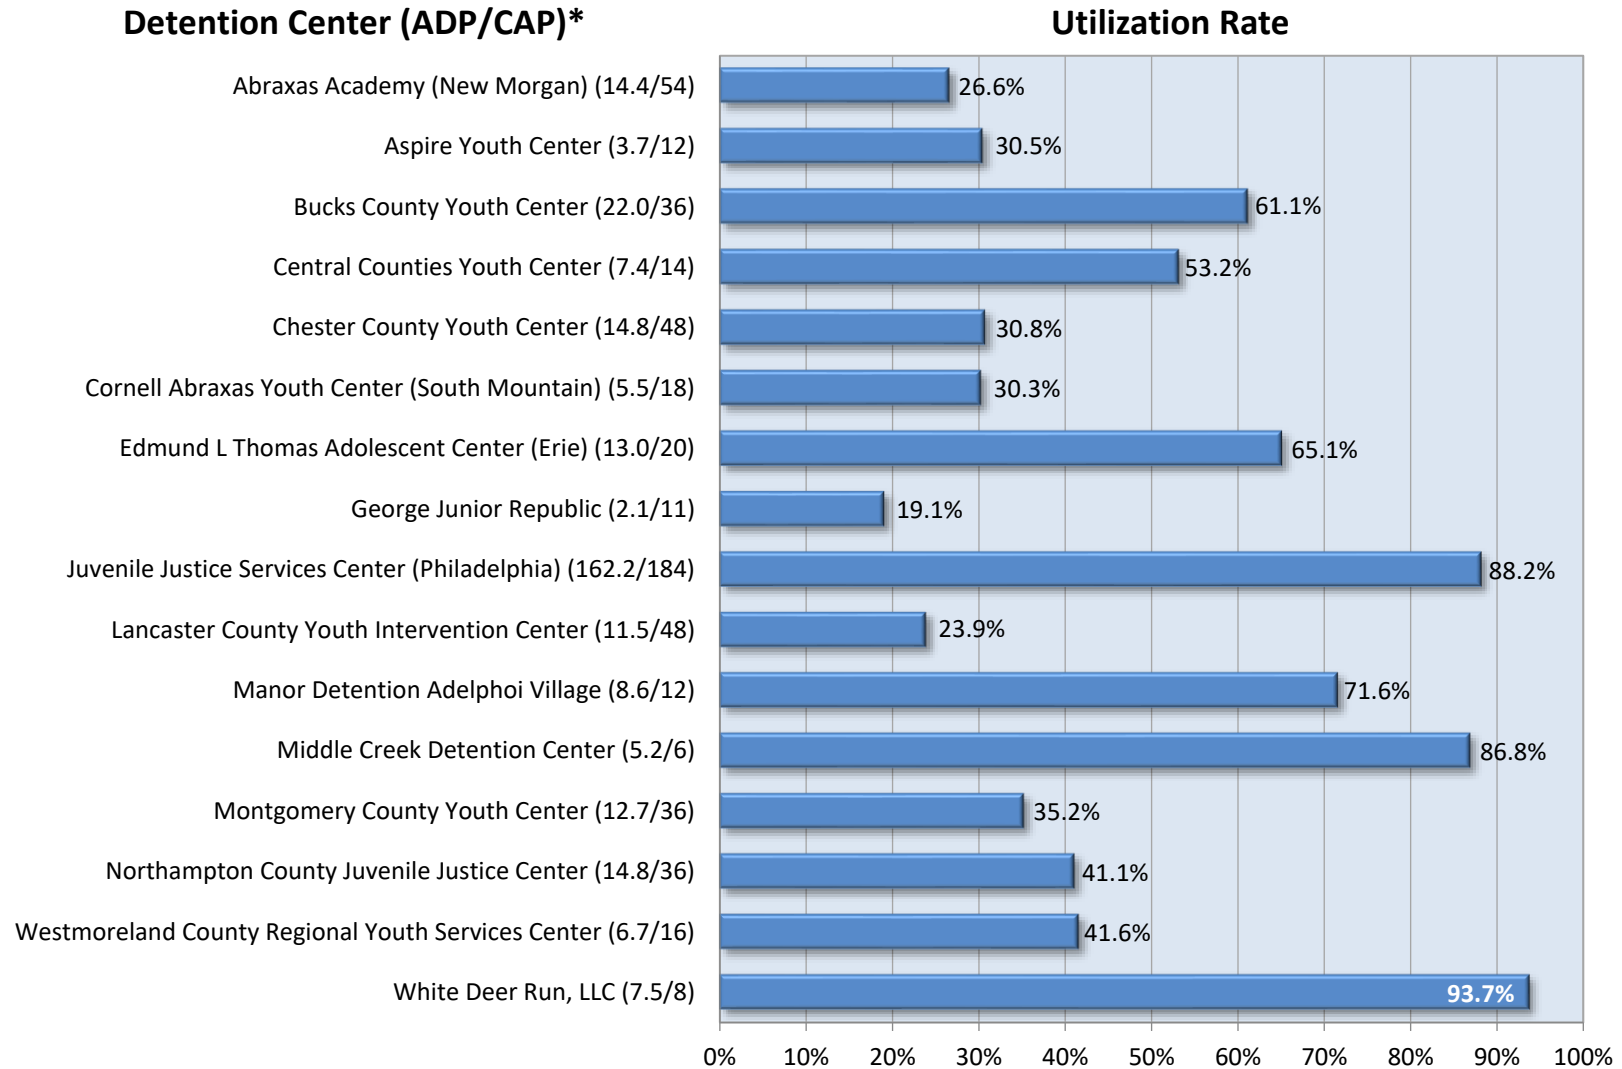

Code 206 - The child presents extraordinary circumstances requiring secure detention to prevent him/her from absconding. (Such circumstances may include, but are not limited to: the child's age, character, mental condition, ties to the community, the nature of the child's family relationships, drug or alcohol addiction, and substance abuse.)

Code 701 - Circumstances under which secure detention may be authorized on the basis of extraordinary and exceptional circumstances.

**Unknown/Other - As reported in the secure detention introduction, the 2022 secure detention admission data was extracted from PaJCMS. This data was validated for accuracy, which resulted in the Unknown/Other code decrease. For the majority of 2022 cases, the county reported the detention admissions were handled via a court order during a hearing, and no secure detention code was appropriate under these circumstances.*

Utilization Rates for Pennsylvania Juvenile Detention Centers, 2022

*A center's utilization rate is equal to its average daily population (ADP) divided by the licensed bed capacity (CAP). Average daily population (ADP) is calculated by the sum of all utilized bed days divided by the number of days in the reporting period. The rates on the bar chart are the actual calculated rates and may not match the rate calculated by the displayed ADP due to rounding of the ADP number. The licensed bed capacity may be different from the staffed bed capacity.

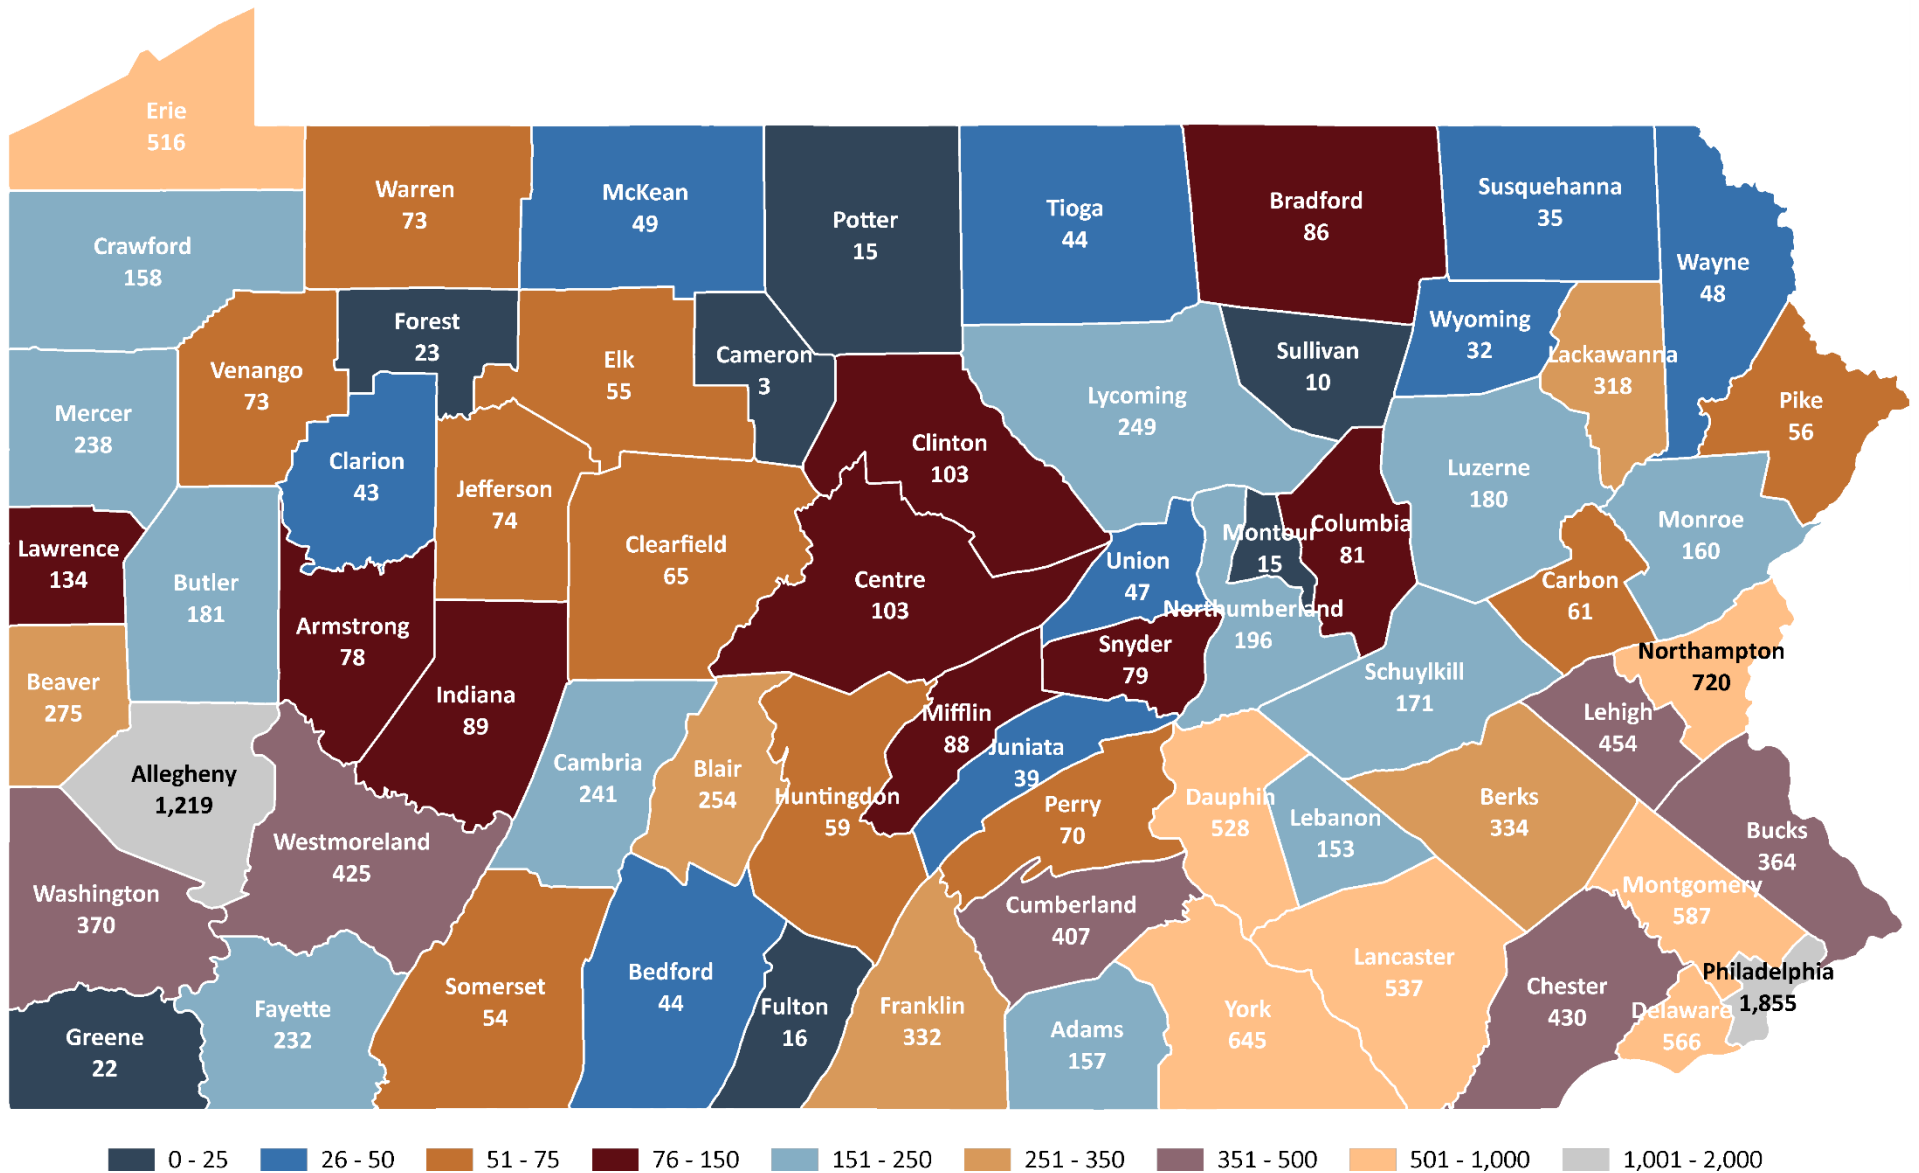

Note: The Aspire Youth Center was closed in March 2022; the Cornell Abraxas Youth Center (South Mountain) was closed in August 2022; and the White Deer Run, LLC was closed in July 2022. George Junior Republic was opened in October 2022; and the Manor Detention Adelphoi Village was opened in September 2022.

Chapter 2 - Juvenile Court Processing

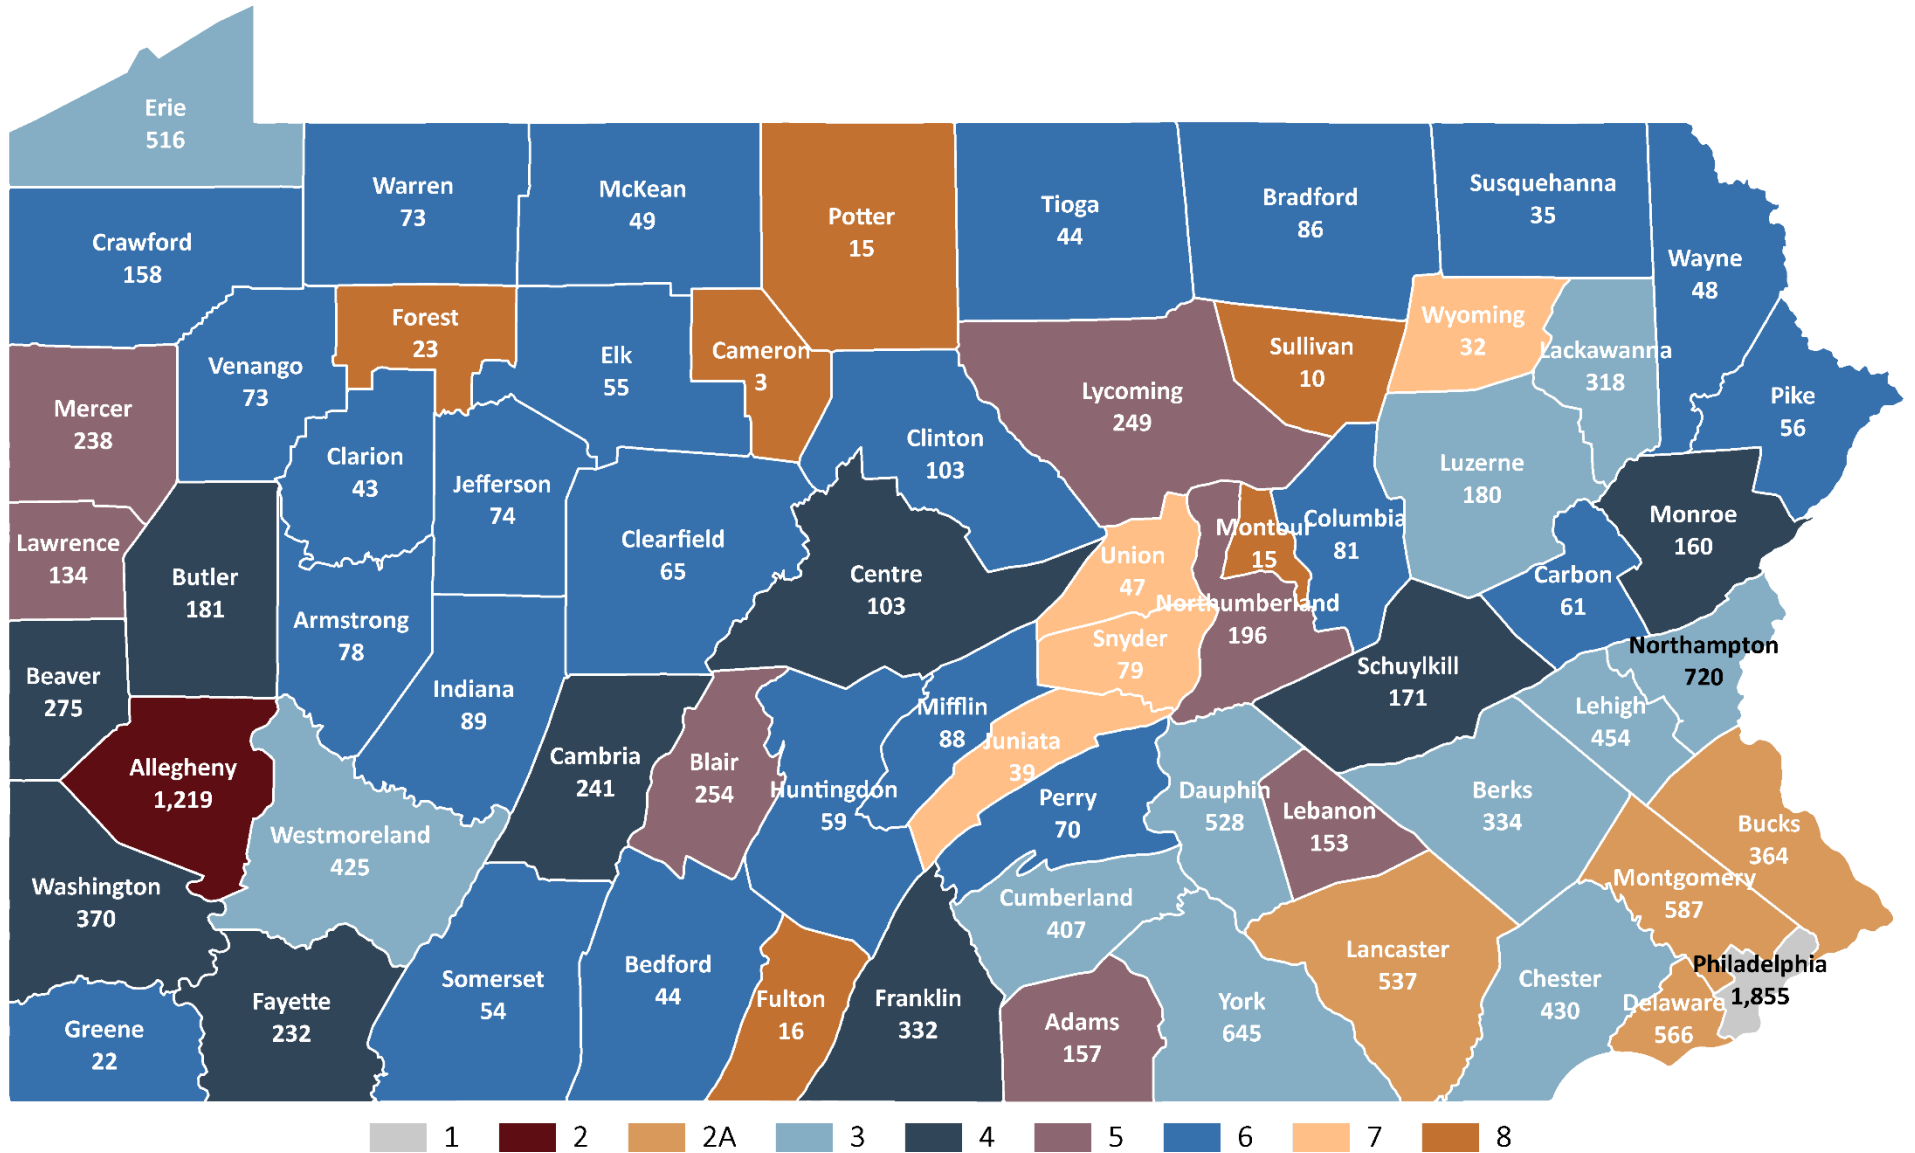

Section 1: Delinquency Dispositions

1. The unit of count for this section of the report is the disposition. A disposition is defined as an allegation of delinquency disposed of by the juvenile probation department and/or the court. Any one youth may be involved in a number of dispositions within a calendar year containing multiple allegations. In addition, a youth may be referred on more than one occasion and receive only one disposition. Therefore, the reader is cautioned NOT to attempt to interpret dispositions as the number of youth who are processed by the court or the number of offenses. Dispositions in this section occurred between January 1, 2022, and December 31, 2022.
2. In Pennsylvania, juvenile court jurisdiction extends over individuals who have been alleged to have committed a delinquent act, as defined by 42 Pa. C. S. § 6301 et seq., on or after their tenth birthday and prior to reaching 18 years of age. Juvenile court supervision can extend until the individual is 21 years of age if the individual is currently under supervision. Age, for purposes of this section, was calculated from the juvenile's date of birth to the date of the offense in the written allegation.
3. Only the most serious delinquency offense is captured in the delinquency disposition data.
4. Data for this report were compiled from the Pennsylvania Juvenile Case Management System (PaJCMS) on March 10, 2023. Any delinquency dispositions received by a juvenile probation department in 2022, and entered into PaJCMS after this date, will not be included in these statistics. The numbers published in this report, therefore, may not reflect current numbers within the system.
5. Dispositions of pending, deferred, and termination of court supervision/case closed, not court ordered, are not included in these statistics.
6. The unit of disposition count was modified in the 2017 report to more accurately reflect the outcomes of delinquency allegations. If two allegations were disposed of on the same date, and resulted in the same disposition, these were counted as one disposition. If two allegations were disposed of on the same date, but had two different dispositions, these were counted as two dispositions. The reader is cautioned NOT to compare this year's disposition figures to reports prior to 2017.
7. Finally, the reader should be cautioned that, beginning in 2020, figures were likely impacted by the COVID-19 pandemic. Figures dropped significantly in 2020 and 2021, but increased 25.5% between 2021 and 2022. The pandemic's effect on the juvenile justice system is examined further in Chapter 4 – The Impact of COVID-19 on the Pennsylvania Juvenile Justice System.

2022 Delinquency Dispositions

2022 Delinquency Dispositions by County Class

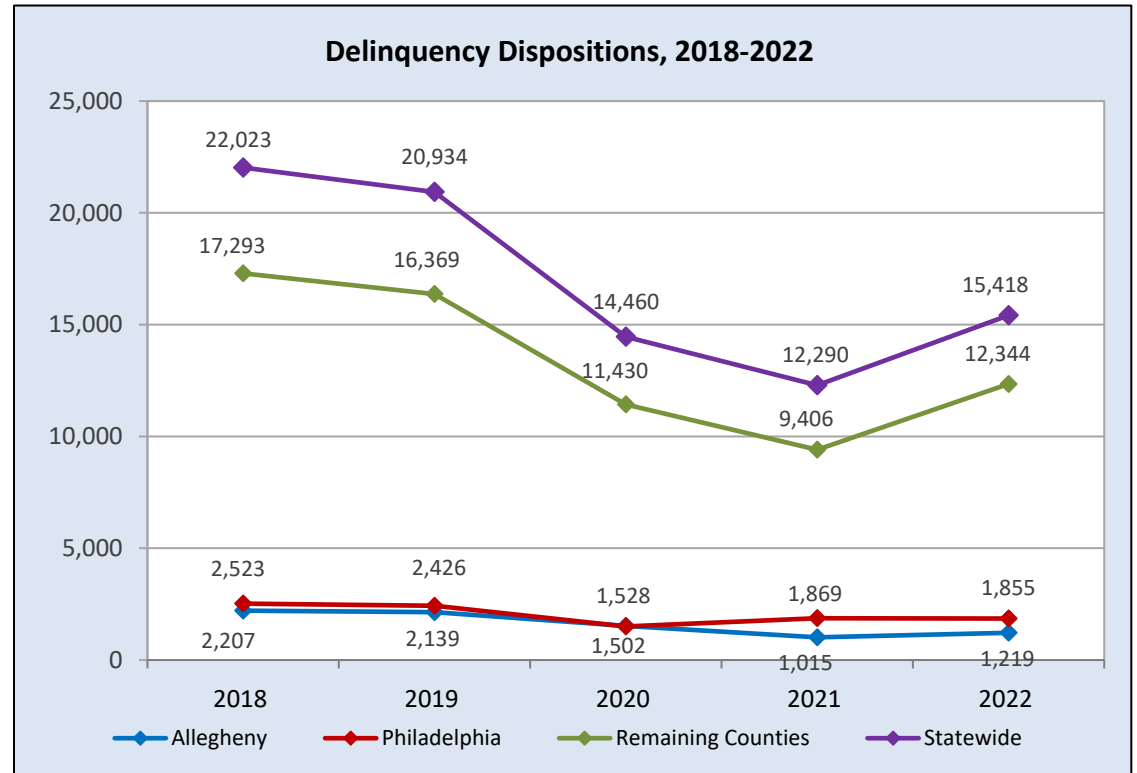

Note: 2022 County Class reflects the county status during year 2022. County Class data was retrieved from County Commissioners Association of Pennsylvania at <https://www.pacounties.org/who-we-are/pennsylvania-county-by-class>.

Delinquency Dispositions, 2018-2022

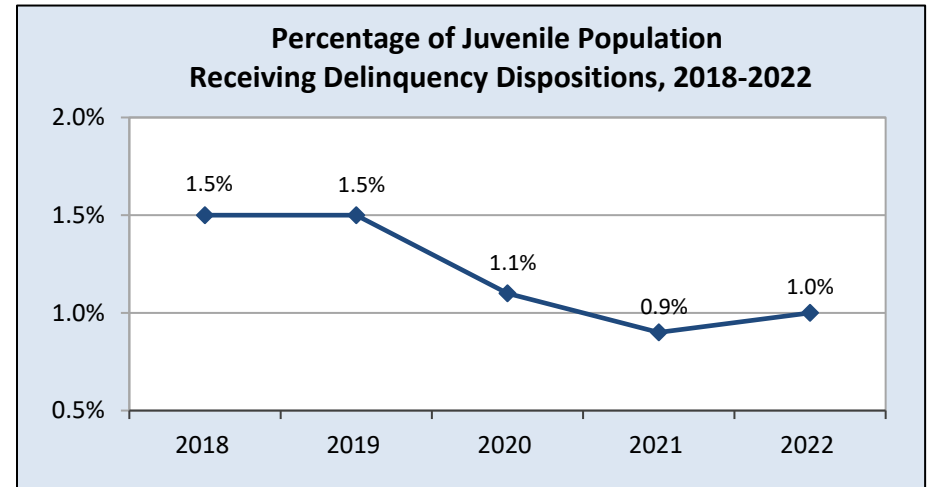

There were 15,418 delinquency dispositions in Pennsylvania during 2022. This represents a 25.5% increase from 2021, but still remains below pre-COVID figures. Overall, there was a 30.0% decrease in delinquency dispositions from 2018 to 2022. Allegheny County reported an increase of 20.1% from 2021 to 2022, and Philadelphia County reported a 0.7% decrease for this time period. The remaining counties reported a 31.2% increase. The pandemic's effect on disposition patterns are examined further in Chapter 4 – The Impact of COVID-19 on the Pennsylvania Juvenile Justice System.

Note: Dispositions resulting from disposition reviews, placement reviews, and dependency referrals are not included.

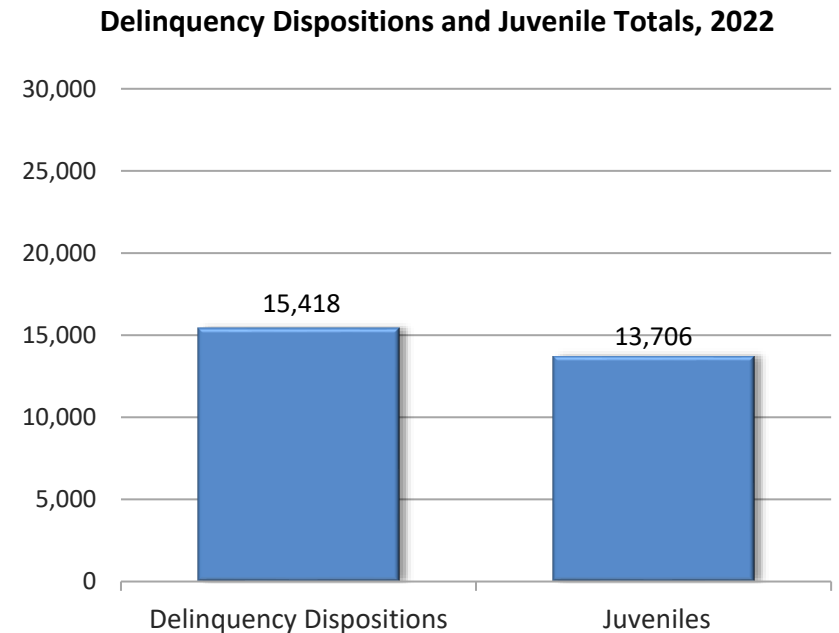

Percentage of Juvenile Population Receiving Delinquency Dispositions, 2018-2022

Between 2018 and 2022, the rate of juvenile delinquency dispositions as a percent of the Pennsylvania juvenile population declined by 33.3%, from 1.5% to 1.0%. Please refer to Appendix 18 for juvenile population figures.

Delinquency Dispositions and Juvenile Totals, 2022

There were 13,706 juveniles accounting for 15,418 delinquency dispositions in Pennsylvania in 2022. This equates to an average of 1.12 delinquency dispositions per alleged delinquent juvenile. The county-level rates of delinquency dispositions per alleged juvenile in 2022 ranged from 1.0 to 1.30 (see Appendix 18).

Frequencies of Statewide Delinquency Dispositions, 2022

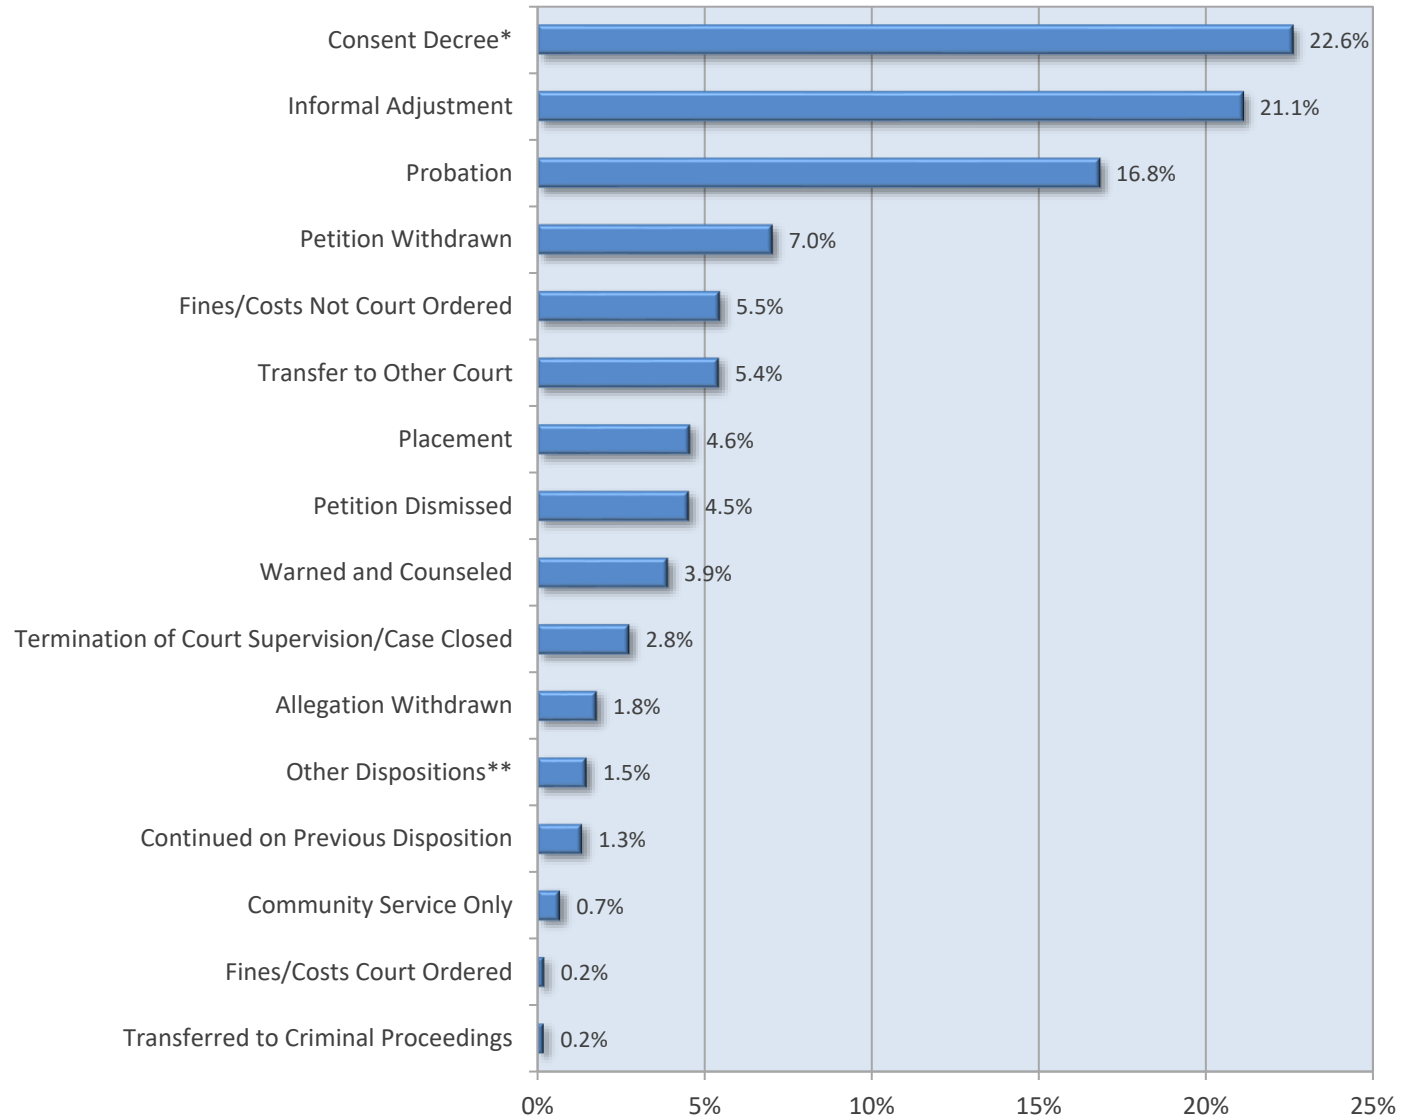

Dispositions of Consent Decree, Informal Adjustment, and Probation continued to represent over half (60.6%) of all dispositions.

*The following counties had a total of 385 cases where the Delinquent New Allegation Disposition was reported as Deferred Adjudication with no reported adjudication of delinquency at the time of disposition. These dispositions have been included in the disposition of Consent Decree. (Chester-1, Delaware-2, Franklin-1, Philadelphia-381).

**The "Other Dispositions" category includes dispositions of Accepted Courtesy Supervision, Referred to Other Agency/Individual, and Restitution Only.

Note: Does not include dispositions resulting from Disposition and Placement Review hearings.

Frequencies of Statewide Delinquency Dispositions, 2022

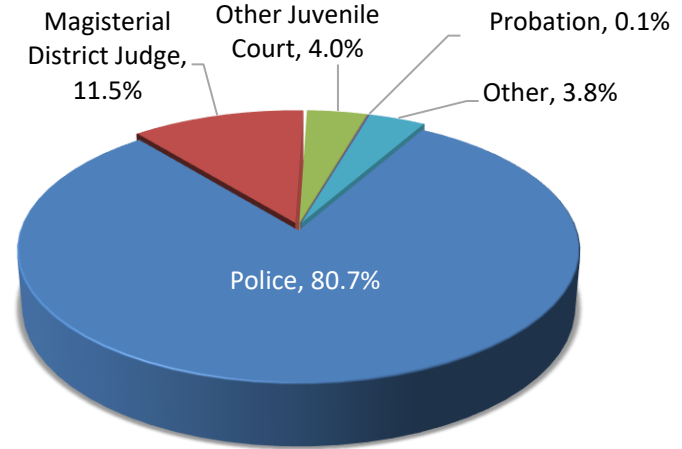

Delinquency Dispositions by Source of Allegation, 2022

Police and Magisterial District Judges continued to be the primary allegation sources of delinquency dispositions – 80.7% and 11.5%, respectively.

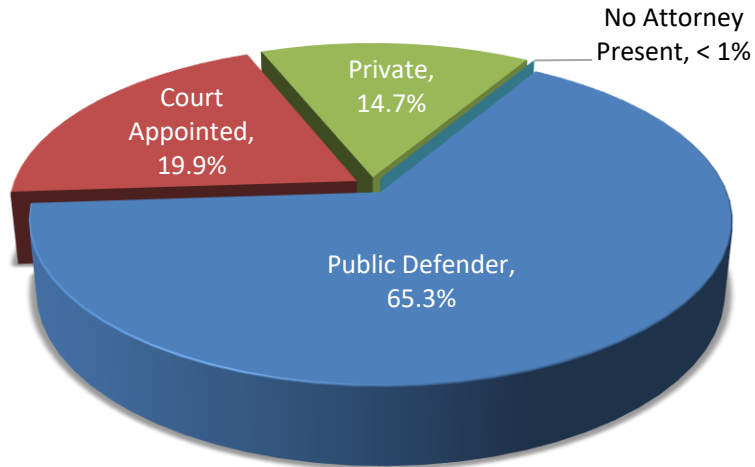

Note: The category of "Other" includes delinquency allegations received from schools, social agencies, relatives, and cases transferred from criminal court.

Delinquency Dispositions by Source of Allegation, 2022

Attorney Representation in Formal Delinquency Proceedings, 2022

Attorney Representation in Formal Delinquency Proceedings, 2022

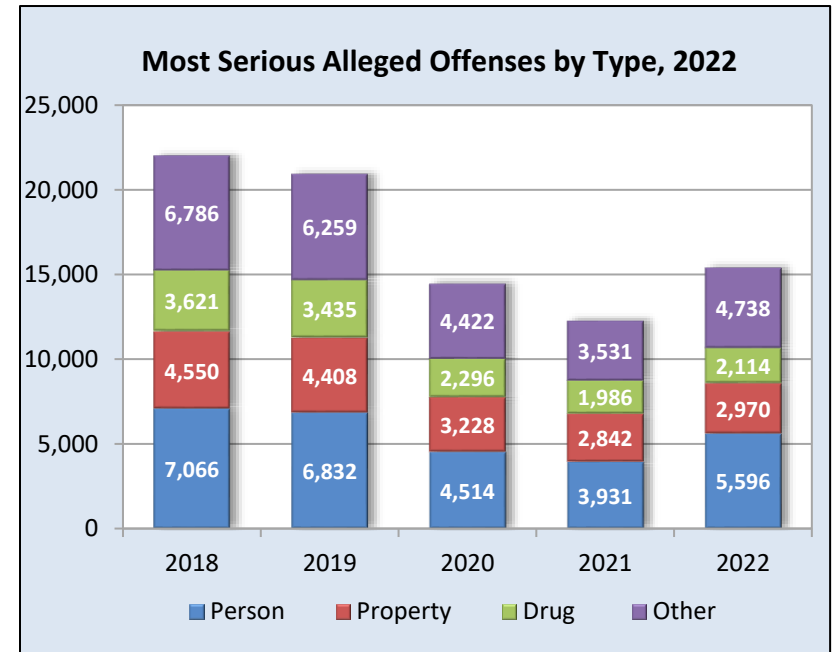

Legal representation provided by Public Defenders continued to be the most common form of representation in delinquency proceedings (65.3% in 2022). Legal representation was provided by Court Appointed or Private Counsel in 34.6% of delinquency proceedings. (*An entry of "Court Appointed" includes cases where counsel other than the public defender was appointed by the court.*) In less than 1% of all delinquency proceedings, the attorney was not present for the proceedings.

Most Serious Alleged Offenses by Type, 2022

The following information was compiled based on the most serious alleged offense for each juvenile delinquency disposition in Pennsylvania between 2018 and 2022. Only one offense per delinquency disposition is counted in the figures. As mentioned previously, the total number of dispositions decreased by 30.0% from 2018 to 2022, and increased by 25.5% from 2021 to 2022. The number of alleged offenses within the Person Offense category has shown the largest increase (42.4%) from 2021 to 2022, followed by “Other” Offenses (34.2%), Drug Offenses (6.4%), and Property Offenses (4.5%).

Since 2018, Drug Offenses have shown the sharpest decline (41.6%). Property and “Other” Offenses have also declined considerably, 34.7% and 30.2%, respectively. Person Offenses decreased 20.8% over this five-year time period.

Note: The “Other” Offenses category includes but is not limited to: Public Order Offenses such as Disorderly Conduct or Weapon on School Property; Firearms Offenses; and Certifications from the minor judiciary that a juvenile failed to comply with a lawful sentence imposed for a summary offense.

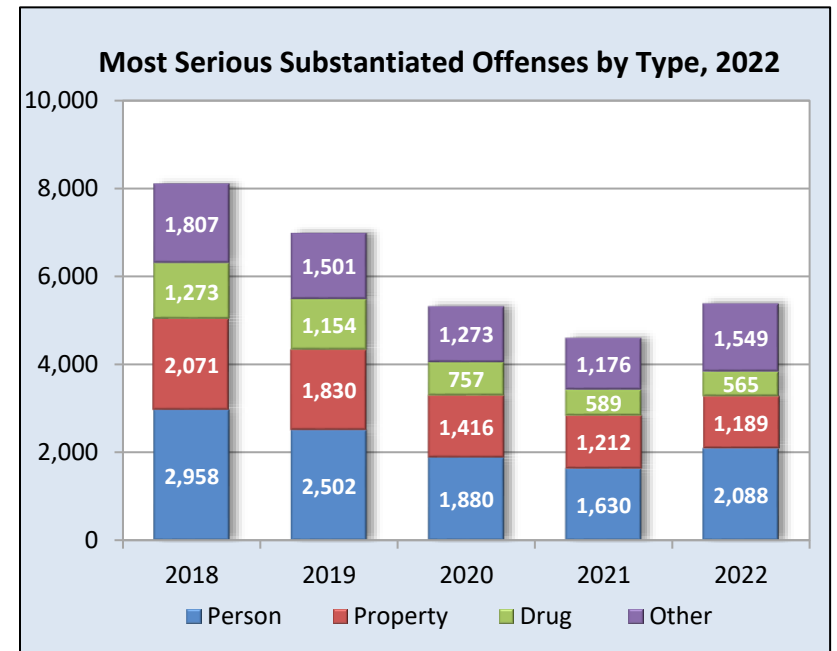

Most Serious Substantiated Offenses by Type, 2022*

From 2021 to 2022, the difference in the number of substantiated offenses varied across offense types. “Other” and Person Offenses increased, 31.7% and 28.1% respectively, during this time period. While the number of substantiated offenses decreased for Drug (4.1%) and Property (1.9%) Offenses.

The total number of substantiated offenses in 2022 remained well below 2018 levels (5,391 vs. 8,109). Similarly, each category of substantiated offenses (Person, Property, Drug, and “Other”) remained below their respective 2018 levels.

*A substantiated offense is any petitioned offense the court finds the juvenile committed.

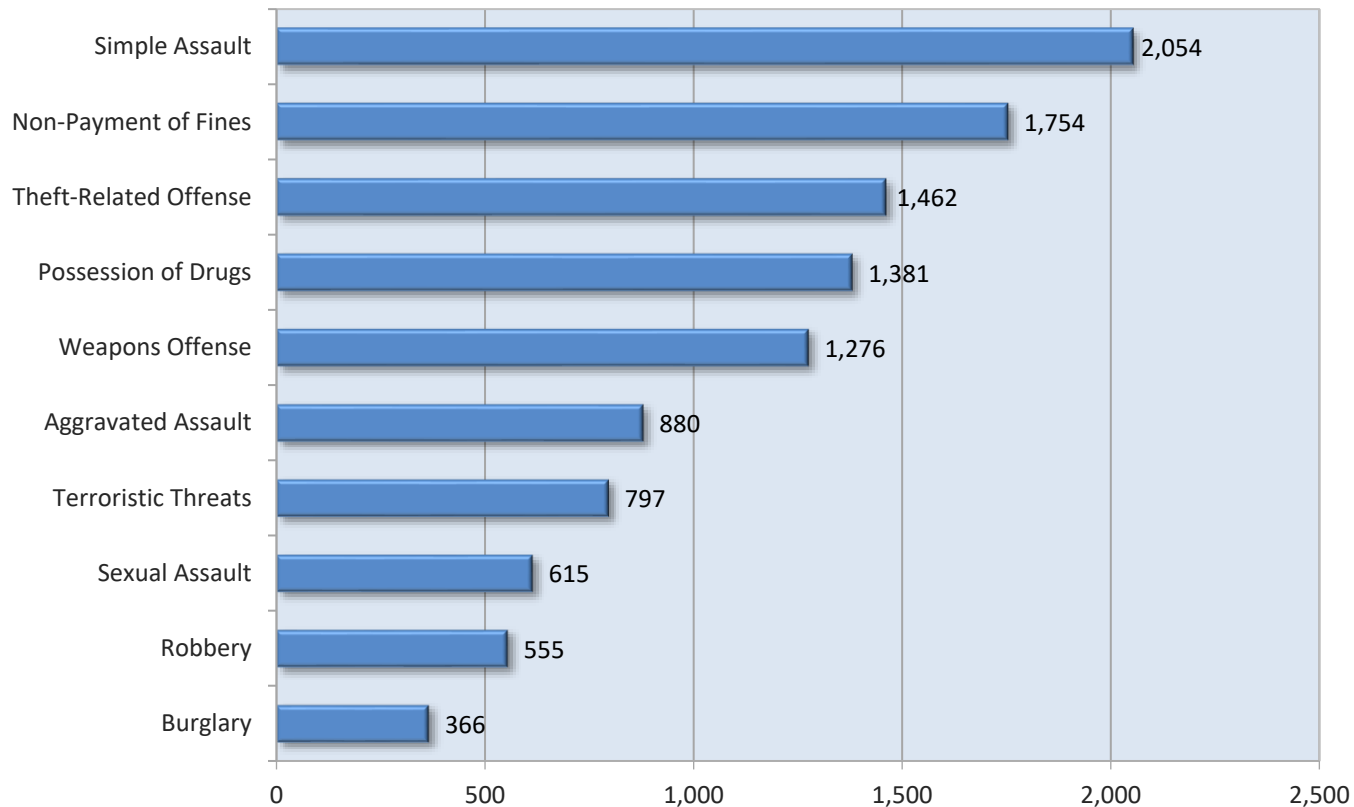

Delinquency Dispositions Most Frequent Alleged Offense Categories, 2022

The chart below shows the most frequent alleged offense categories for 2022. Only the most serious charge per disposition is depicted, with the chart showing the top ten offense categories. Simple Assault was the most frequent charge with 13.3%, followed by Non-Payment of Fines (11.4%), Theft-Related Offenses (9.5%), Possession of Drugs (9.0%), and Weapon Offenses (8.3%).

Note: Theft-Related Offenses include: theft, theft by unlawful taking, theft by deception, theft by extortion, theft by receiving stolen property, theft of services, and theft from a motor vehicle. Weapons Offenses include: firearm-related offenses, possession of an instrument of crime, and possession of weapon on school property.

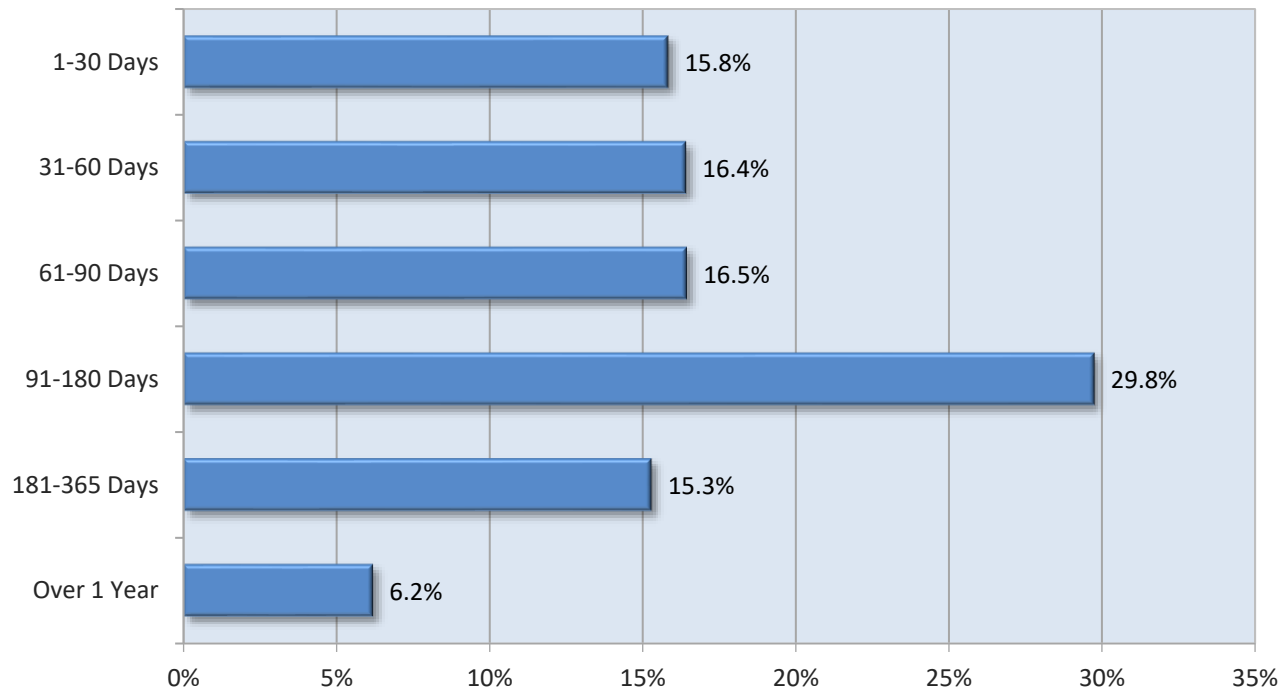

Delinquency Dispositions Most Frequent Alleged Offense Categories, 2022

Delinquency New Allegation Counts by Days Between Allegation and Disposition, 2022

In 2022, 32.2% of new allegation dispositions occurred within 60 days of the delinquency allegation. Approximately 16.5% of new allegation dispositions occurred between 61 days and 90 days after the delinquent allegation, while 29.8% occurred between 91 days and 180 days after the delinquent allegation. An additional 15.3% of new allegation dispositions occurred between 181 days and 365 days after the new allegation disposition. Approximately 6.2% of new allegation dispositions occurred a year or more after the allegation.

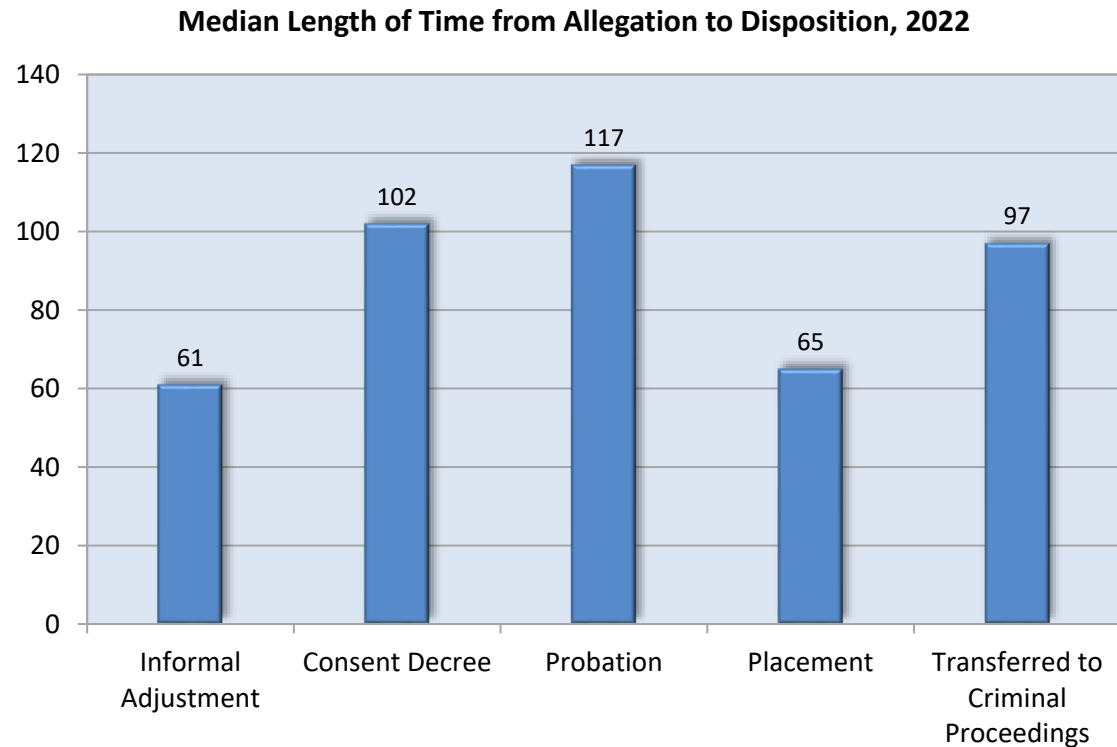

Delinquency New Allegation Counts by Days Between Allegation and Disposition, 2022

Note: The data do not include dispositions resulting from disposition review and placement review hearings.

Median Length of Time from Allegation to Disposition, 2022

In 2022, the median length of time from allegation to new allegation disposition was 61 days for informal adjustment dispositions and 102 days for consent decree dispositions. The median length of time to probation dispositions was 117 days, while the median length of time to placement dispositions was 65 days. Among transferred to criminal court proceedings dispositions, the median length of time from allegation to new allegation disposition was 97 days.

Note: The data do not include dispositions resulting from disposition review and placement review hearings.

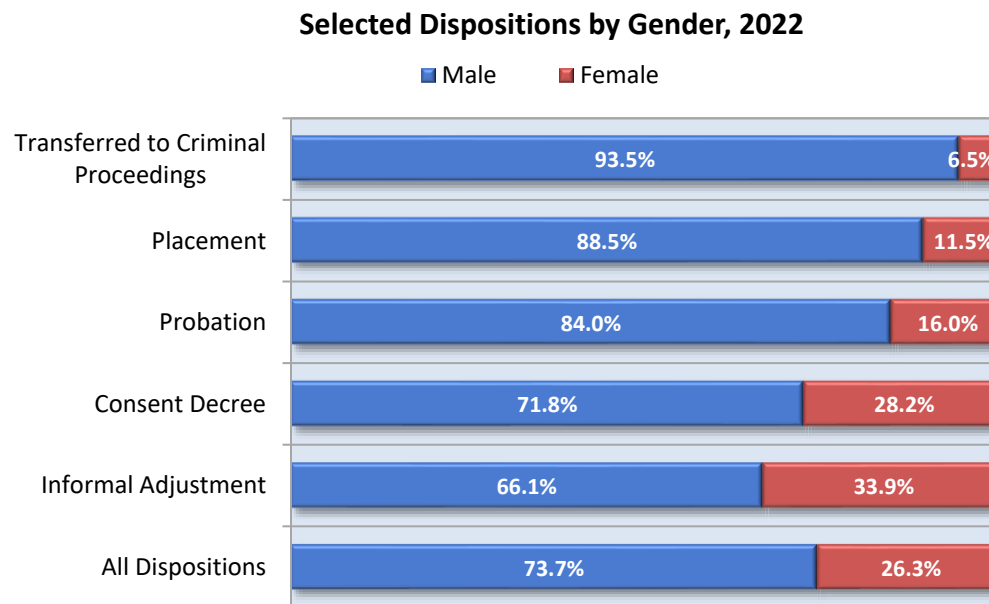

Section 2: Demographics

Selected Dispositions by Gender, 2022

Juvenile court dispositions in Pennsylvania continue to primarily involve males (73.7%). As reflected in the charts below, the proportion of males receiving delinquency dispositions related to new allegations increases as the disposition type becomes more restrictive. While females account for 33.9% of informal adjustment dispositions, they account for only 11.5% of placement dispositions and just 6.5% of Transferred to Criminal Proceedings dispositions.

Note: The data do not include dispositions resulting from disposition review and placement review hearings.

SELECTED DISPOSITIONS	TOTAL	MALE	FEMALE
Transferred to Criminal Proceedings	31	93.5%	6.5%
Placement	705	88.5%	11.5%
Probation	2,596	84.0%	16.0%
Consent Decree	3,488	71.8%	28.2%
Informal Adjustment	3,259	66.1%	33.9%
All Dispositions	15,418	73.7%	26.3%

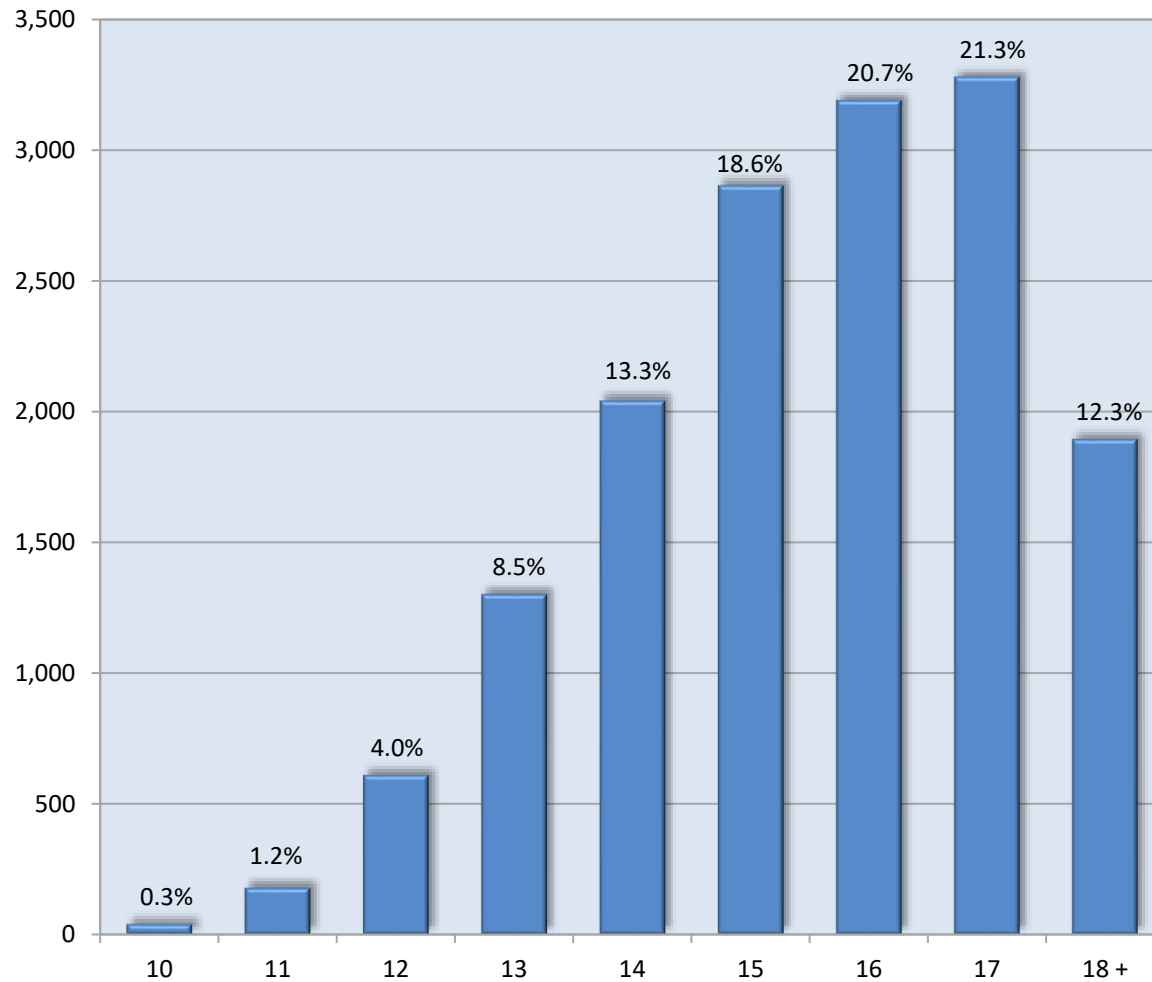

Delinquency Dispositions by Age at Disposition, 2022

Seventeen-year-olds accounted for 3,282 (21.3%) of all juvenile delinquency dispositions in 2022, representing the most dispositions for any age group. Juveniles aged 16 accounted for 3,192 (20.7%), while 15-year-olds accounted for 2,866 (18.6%) of the dispositions.

Note: The data do not include dispositions resulting from disposition review and placement review hearings.

Delinquency Dispositions by Age at Disposition, 2022

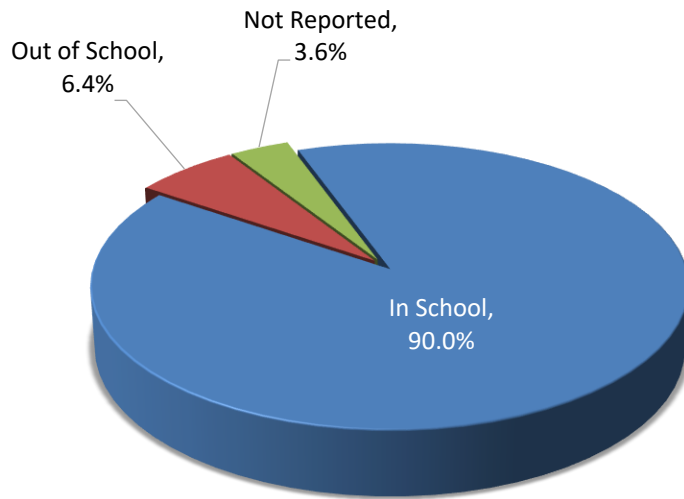

Delinquency Dispositions by Educational Status, 2022

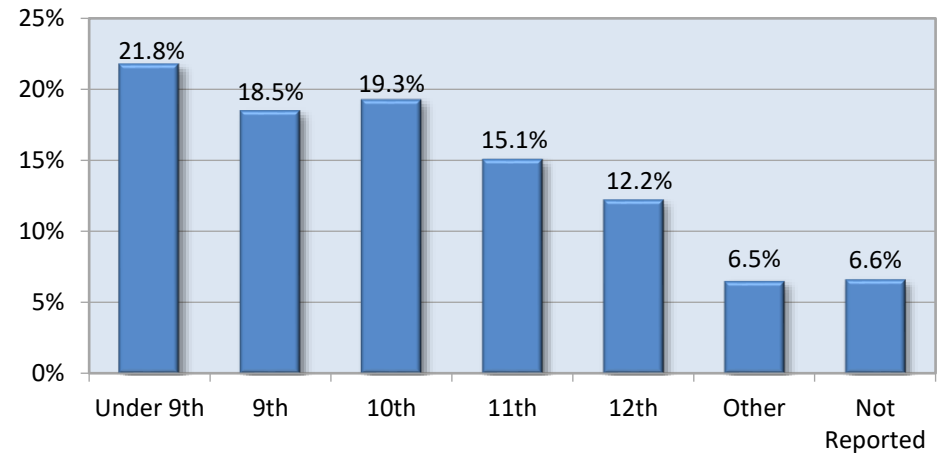

The vast majority (90.0%) of delinquency dispositions in 2022 reflected youth who were reported as In School at the time of disposition. Seventy-two percent of youth were reported as having completed grades 9, 10, 11, 12, or “Other.”

Note: The data do not include dispositions resulting from disposition review and placement review hearings.

Delinquency Dispositions by School Status, 2022

Delinquency Dispositions by Highest Grade Completed, 2022

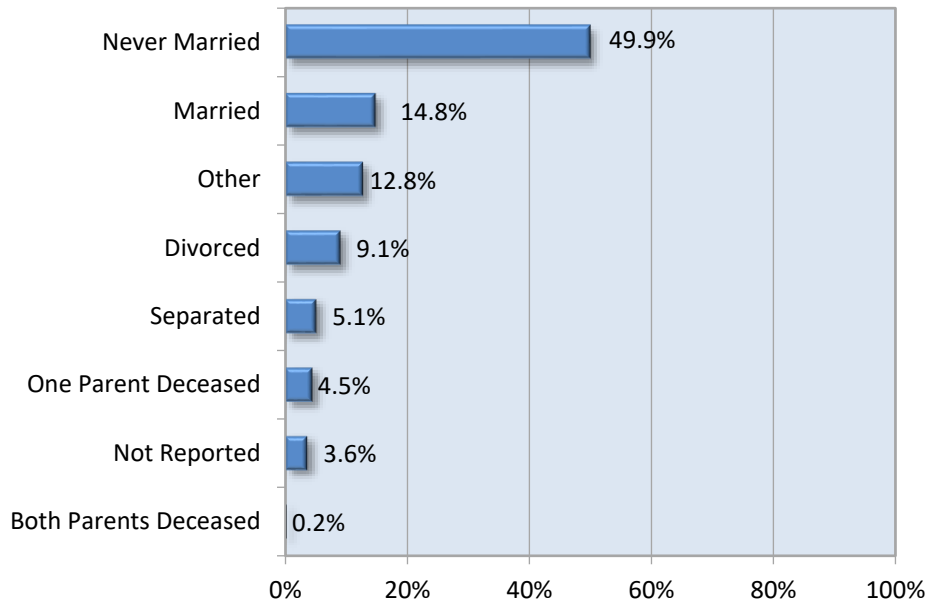

Delinquency Dispositions by Family Status, 2022

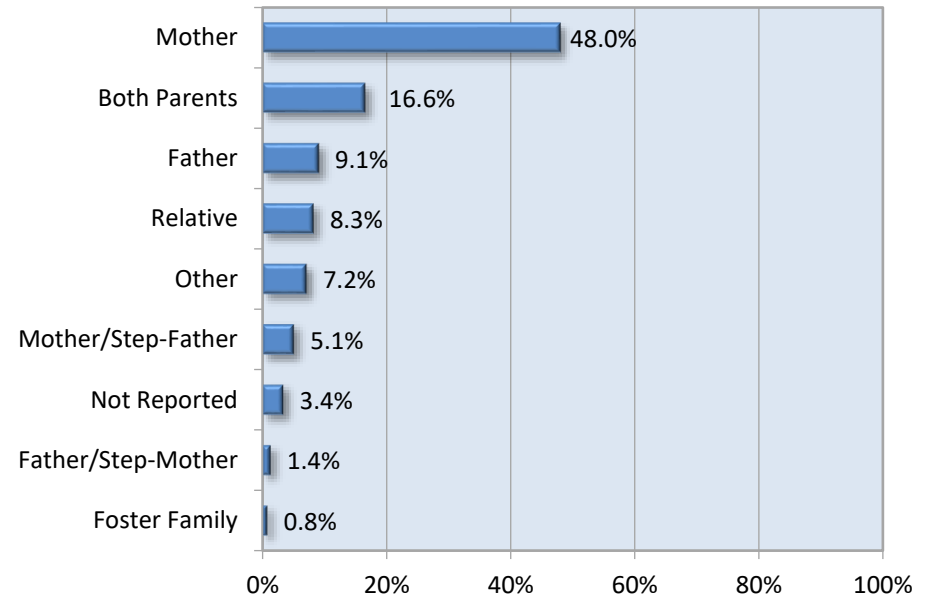

In juvenile delinquency dispositions, youth whose parents were reported as never married represented the largest group (49.9%). In only 14.8% of cases, the parents were reported as married at the time of disposition. The majority of youth (48.0%) resided only with their mother, while only 16.6% resided with both parents.

Note: The data do not include dispositions resulting from disposition review and placement review hearings.

Delinquency Dispositions by Family Status, 2022

Delinquency Dispositions by Living Arrangement of Youth, 2022

Section 3: Race and Ethnicity

On the following pages, data on race and ethnicity trends related to juvenile court dispositions are provided. A few points of clarification regarding the reading and interpretation of this data should be noted.

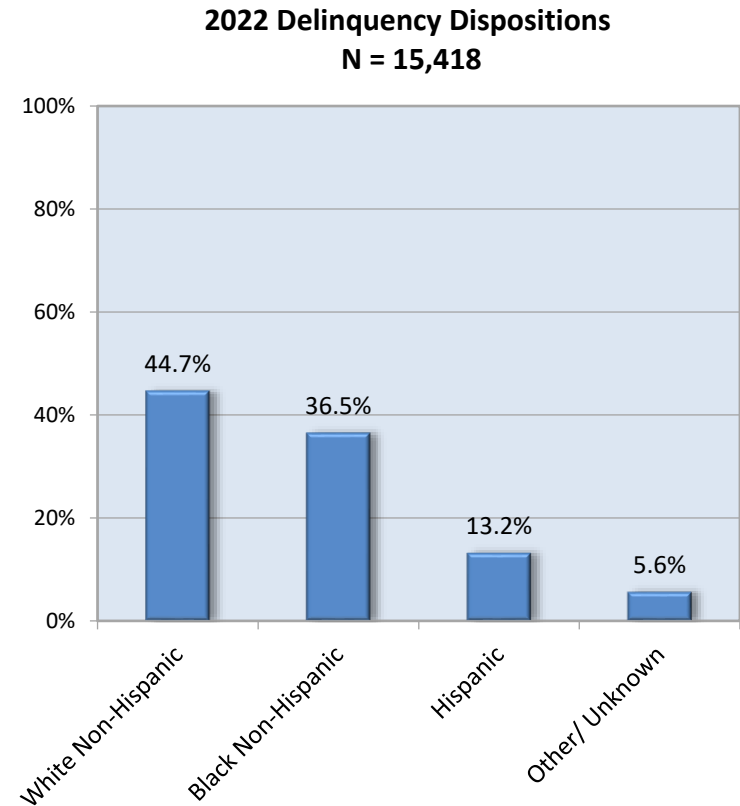

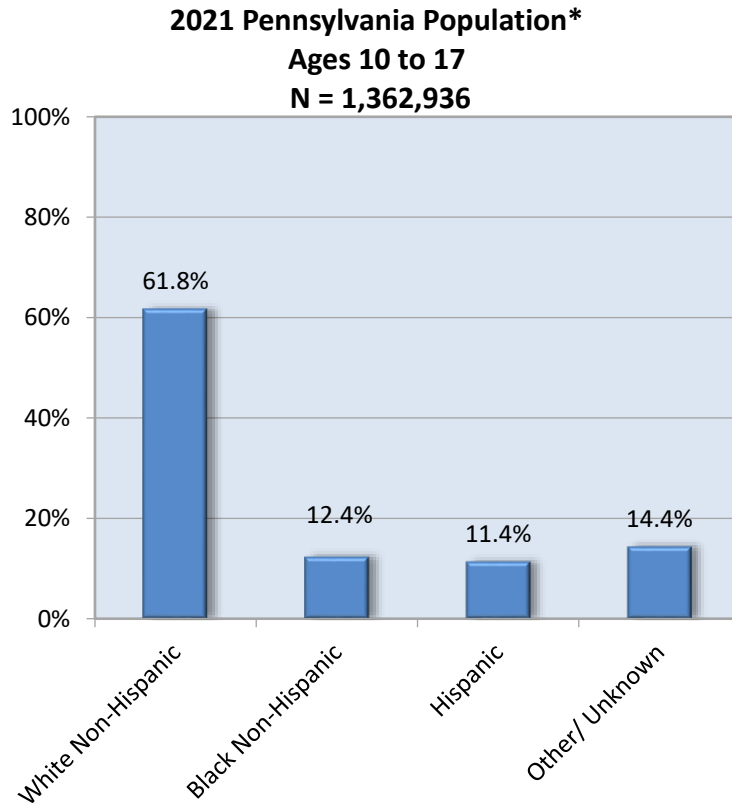

The Juvenile Court Judges' Commission's Center for Juvenile Justice Training and Research collects data on race and ethnicity from each of Pennsylvania's 67 counties. The collection of this data is done in concert with the protocols outlined in *Guidelines for Collecting & Recording the Race and Ethnicity of Juveniles in Conjunction with Juvenile Delinquency Disposition Reporting to the Juvenile Court Judges' Commission* (National Center for Juvenile Justice, 2006). As such, race and ethnicity are collected and recorded as two separate and distinct sets of data.

Trends related to both race and ethnicity are presented within the following charts, graphs, and tables. References to racial or ethnic groups are defined as follows:

<i>White Non-Hispanic</i>	reported as Non-Hispanic for ethnicity and White for race
<i>Black Non-Hispanic</i>	reported as Non-Hispanic for ethnicity and Black for race
<i>Hispanic</i>	reported as Hispanic for ethnicity regardless of reported race
<i>Other and Unknown</i>	reported as Non-Hispanic for ethnicity and one of the following races: Asian, Pacific Islander, Native Hawaiian, Native Alaskan, Native American, or Multi-Racial; or race and ethnicity was reported as unknown

Total Delinquency Dispositions by Race and Ethnicity, 2022

In 2022, White Non-Hispanic youth represented the largest race and ethnicity category for all delinquency dispositions. However, in comparison to the race and ethnicity distribution of all youth in Pennsylvania ages 10-17, the representation of Black Non-Hispanic youth is disproportionate: 12.4% of the total population versus 36.5% of all delinquency dispositions. When excluding Philadelphia County and Allegheny County, Black Non-Hispanic youth represent 7.2% of the youth population, but 27.5% of all delinquency dispositions. Please see Appendix 29 for the number of delinquency dispositions by race and ethnicity for each county.

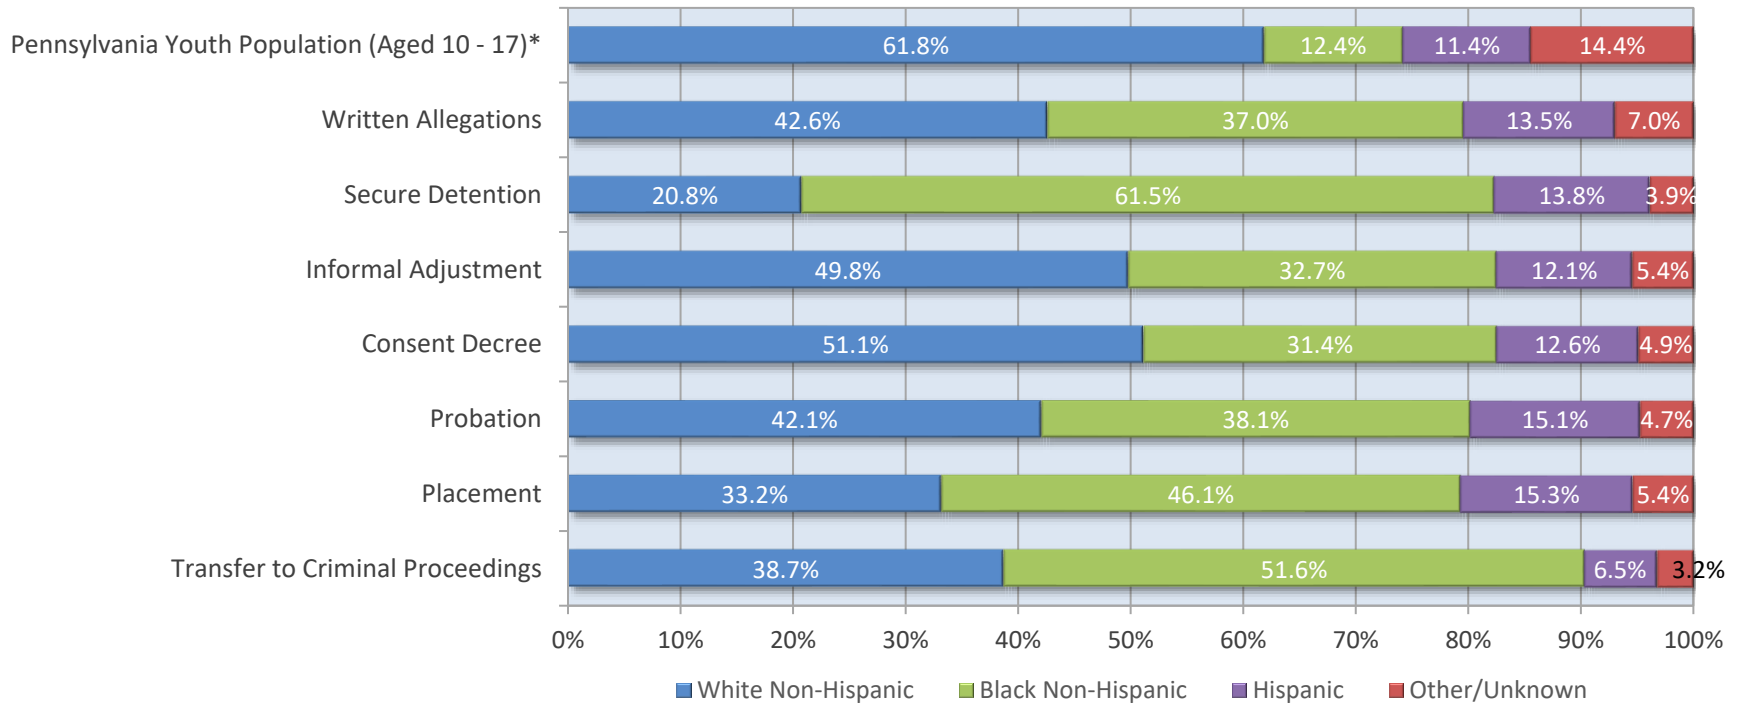

*United States Census Bureau data was used to calculate population statistics in this report. In previous years, these population figures were retrieved from the Centers for Disease Control. As such, the reader is cautioned when comparing population figures in this report to previous Pennsylvania Juvenile Court Annual Reports. At the time of publication of this report, the United States Census Bureau had not yet published 2022 population figures. Consequently, 2021 population figures were utilized, which can be retrieved here: <https://data.census.gov>.

Race and Ethnicity by Decision Point, 2022

The following chart shows the distribution of various juvenile justice system decision points by race and ethnicity. To better contextualize the representation of a specific race at a given decision point, the overall youth population (aged 10 – 17) of the state is used as a benchmark. For example, White Non-Hispanic youth account for 61.8% of the youth population, but only 42.6% of written allegations, 20.8% of secure detention admissions, and 33.2% of placement dispositions.

White Non-Hispanic youth represent a large portion of decision points diverting youth from formal court involvement. Conversely, Black Non-Hispanic youth and Hispanic youth represent a larger portion of the most severe decision points (e.g., transferred to criminal proceedings) and those decision points which include removal from the home (detention and placement).

Race and Ethnicity by Decision Point, 2022

*United States Census Bureau data was used to calculate population statistics in this report. In previous years, these population figures were retrieved from the Centers for Disease Control. As such, the reader is cautioned when comparing population figures in this report to previous Pennsylvania Juvenile Court Annual Reports. At the time of publication of this report, the United States Census Bureau had not yet published 2022 population figures. Consequently, 2021 population figures were utilized, which can be retrieved here: <https://data.census.gov>.

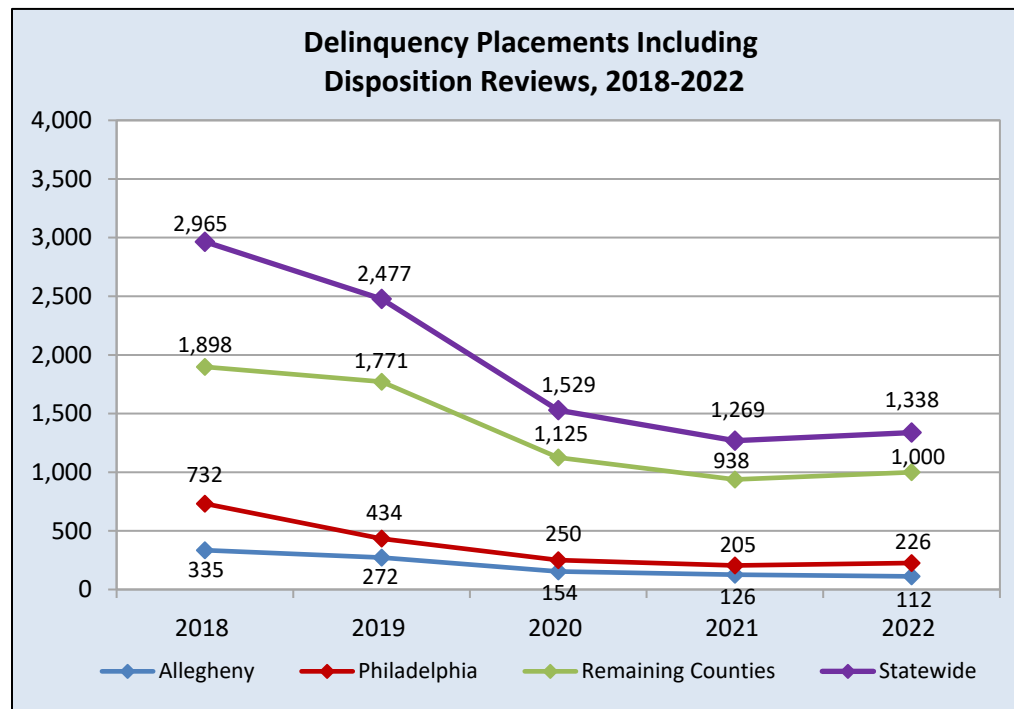

Section 4: Delinquency Placements

Delinquency Placements Including Disposition Reviews, 2018-2022

Between 2018 and 2022, delinquency placements declined 54.9% statewide. Philadelphia County's placement dispositions decreased 69.1% since 2018, Allegheny County's placement dispositions decreased 66.6%, and the Remaining Counties' placement dispositions decreased 47.3%.

Delinquency placements declined each year between 2018 and 2021 before increasing 5.4% between 2021 and 2022. Even with this slight increase, placement dispositions are still well-below pre-COVID levels. There were 1,627 fewer placement dispositions in 2022 compared to 2018.

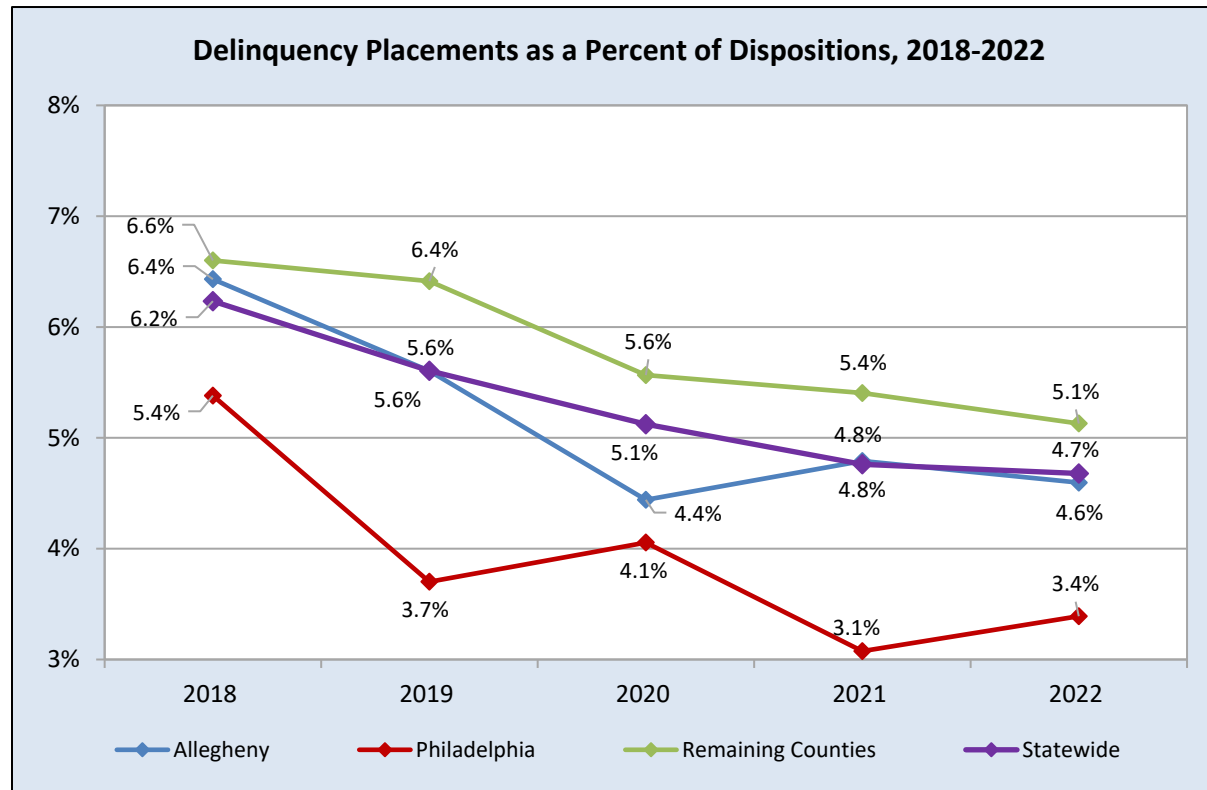

For more detailed analysis of the pandemic's effect on delinquency placement trends, see Chapter 4 – The Impact of COVID-19 on the Pennsylvania Juvenile Justice System.

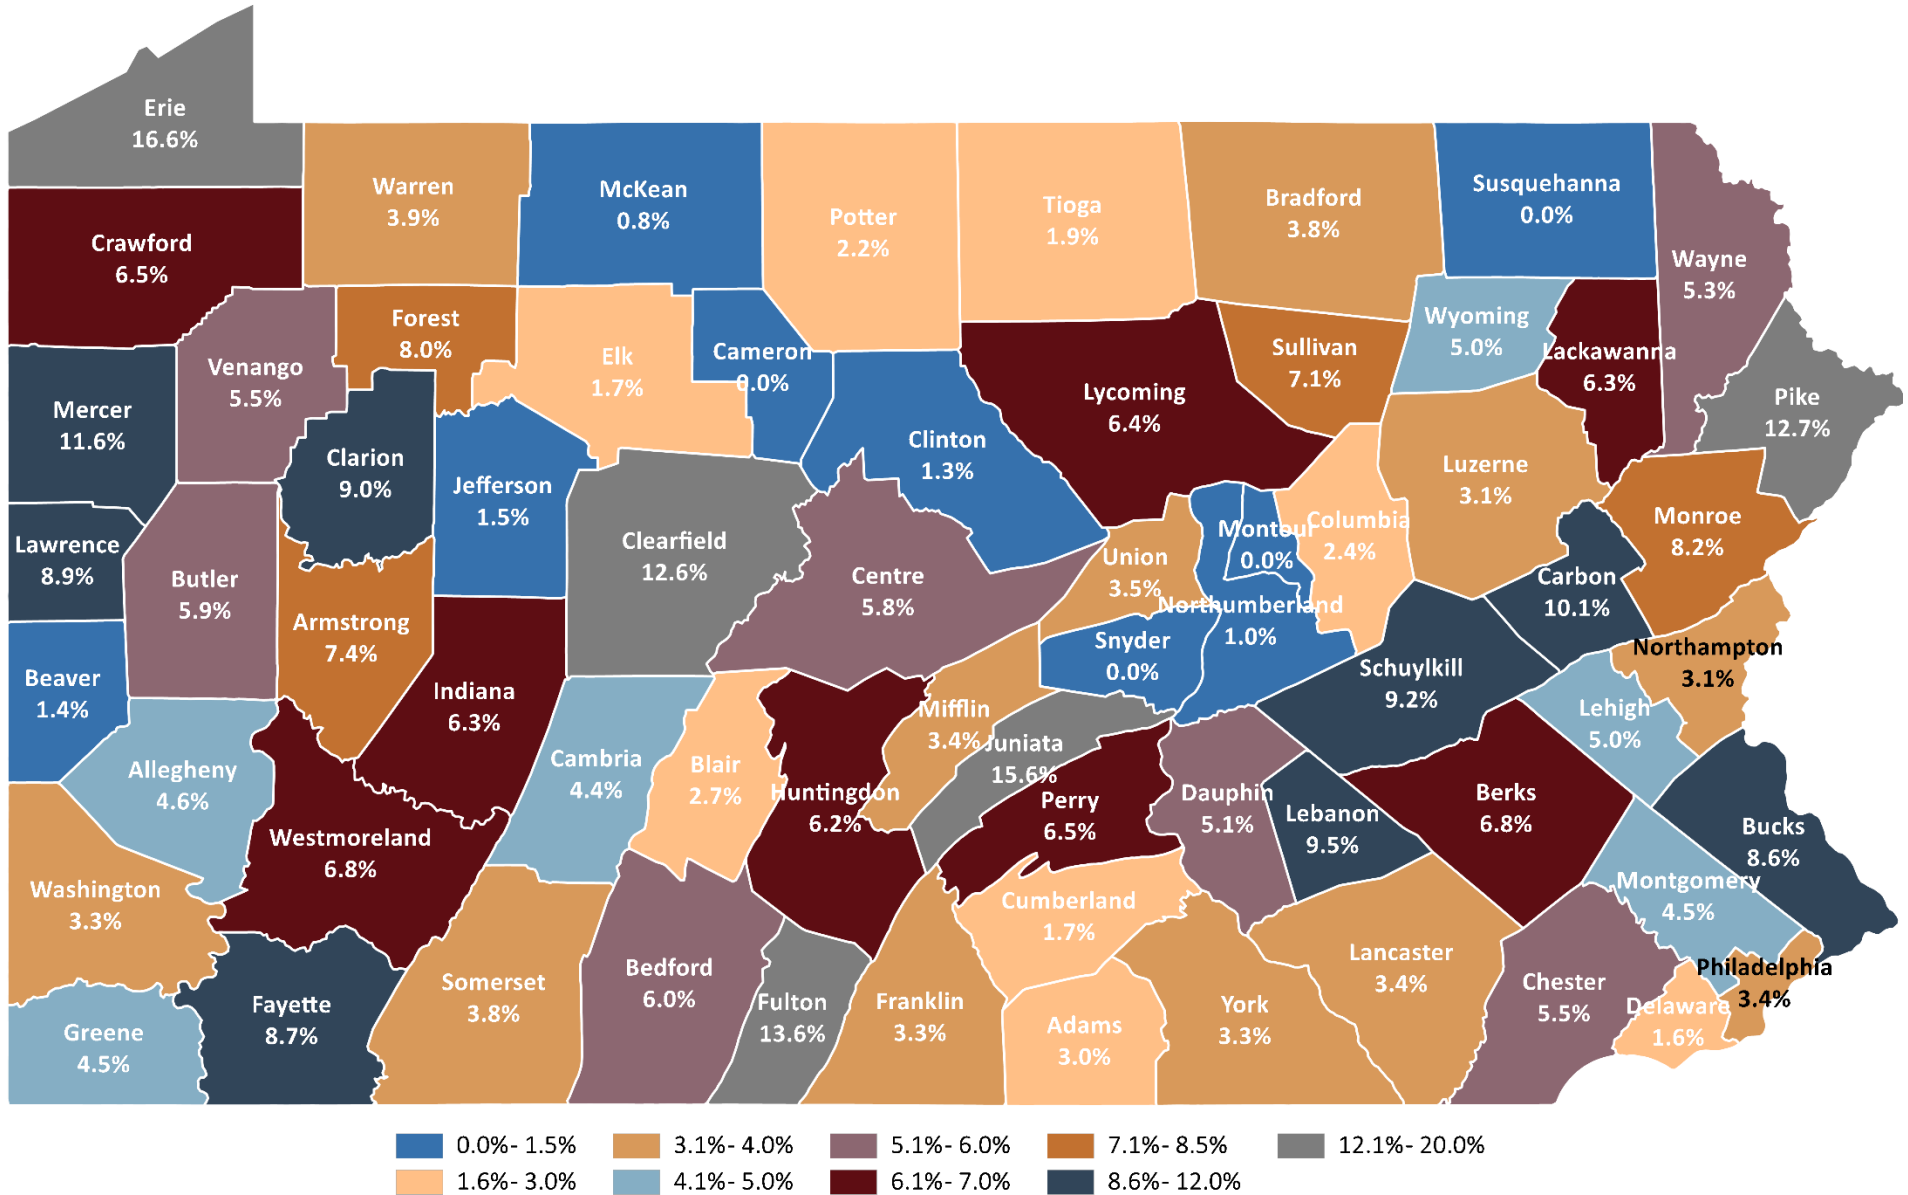

Delinquency Placements as a Percent of Dispositions, 2018-2022

Delinquency placements as a percentage of total dispositions, including disposition reviews, decreased slightly from 6.2% in 2018 to 4.7% in 2022. Delinquency placements as a percentage of dispositions decreased from 4.8% to 4.7% from 2021 to 2022.

Philadelphia County placements as a percentage of total dispositions decreased from 5.4% in 2018 to 3.4% in 2022, though it had increased from 3.1% in 2021 to 3.4% in 2022. Allegheny County placements as a percentage of total dispositions decreased from 6.4% in 2018 to 4.6% in 2022, and from 4.8% in 2021 to 4.6% in 2022. In all counties other than Allegheny and Philadelphia, the percentage decreased from 6.6% in 2018 to 5.1% in 2022 and decreased from 5.4% in 2021 to 5.1% in 2022.

2022 Delinquency Placements as a Percent of Dispositions Including Disposition Reviews

New Allegation Placements vs. Disposition Review Placements, 2022

The following chart depicts the percentage of placements that resulted from new allegations versus disposition review proceedings. A disposition review is a hearing conducted by the court regarding a previous disposition which did not result in out-of-home placement.

The percentage of placements resulting from both new allegations and disposition reviews is shown for each county by county class.

Almost half of delinquency placements statewide (47.3%) were ordered as a result of a disposition review. This figure, however, was notably influenced by Philadelphia, which accounted for 16.9% of all delinquency placements statewide, and where 42.0% of all delinquency placements were ordered as a result of a disposition review.

Across all other county class groups, the average distribution of delinquency placements was 51.6% from new allegations and 48.4% from disposition reviews. Class 2 (Allegheny County), Class 2A, Class 5, Class 6, Class 7, and Class 8 are the county class groups with a majority of delinquency placements originating from disposition reviews.

COUNTY	NEW ALLEGATION PLACEMENTS	DISPOSITION REVIEW PLACEMENTS	TOTAL PLACEMENTS

Total Delinquency Placements by Type, 2022 Including Disposition Reviews

Beginning in 2016, the collection of delinquency placement-related data was enhanced within the Pennsylvania Juvenile Case Management System (PaJCMS). All residential placement programs are now categorized by licensed service types, which are determined by 55 PA Code Chapter 3140. For the purposes of this report, there are three overarching service types: Community Based, Institutional, and “Other.”

Community Based Category:

- Community Residential Service/Group Home
- Foster Care
- Supervised Independent Living
- Transitional Living

Institutional Category:

- General Residential
- Secure Residential
- YDC Secure
- YDC/YFC Non-Secure

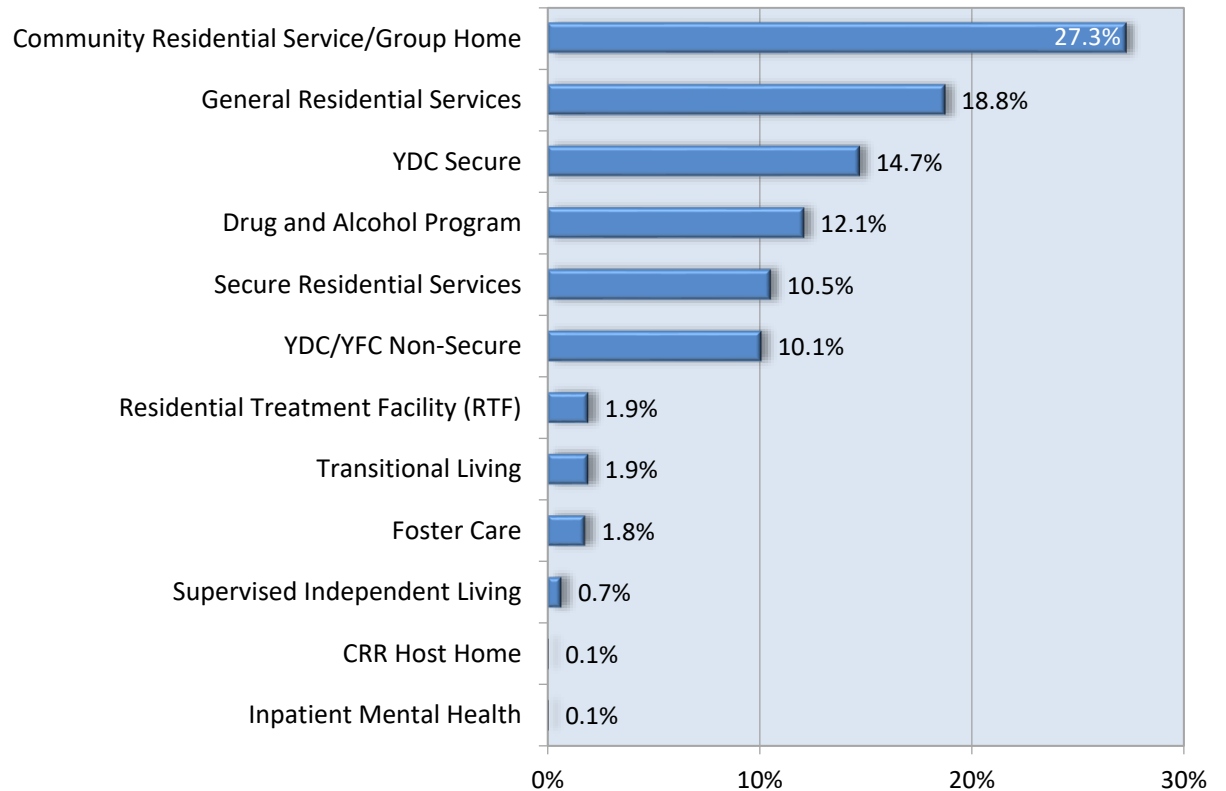

“Other” Category:

- CRR Host Home
- Drug and Alcohol Program
- Inpatient Mental Health
- Residential Treatment Facility (RTF)

Community Residential Service/Group Homes, General Residential Services, and YDC Secure were the most frequently used programs in 2022, comprising 60.8% of all delinquency placements.

Note: Due to changes in PaJCMS classification of placement service types in 2016, the reader is cautioned against comparing this data to previously published (2015 and earlier) delinquency placement data.

Delinquency Placements by Type, 2022

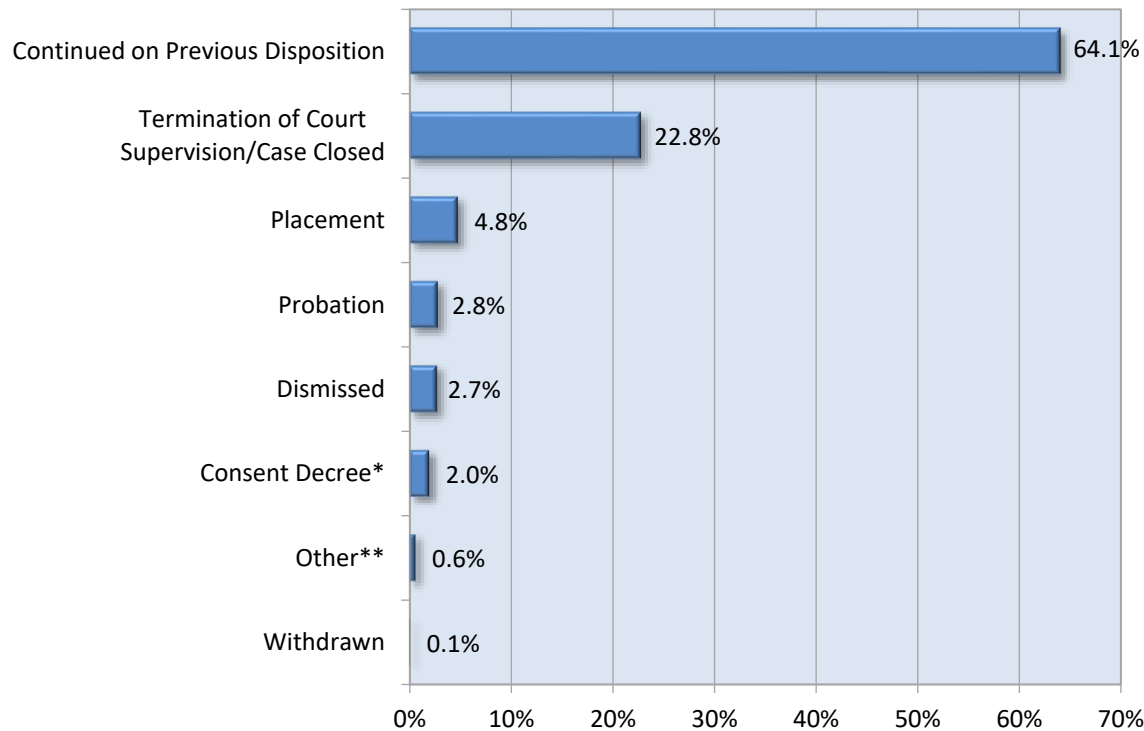

Section 5: Delinquency Disposition and Placement Reviews

Outcomes of Delinquency Disposition Reviews, 2022

A disposition review is a hearing conducted by the court regarding a previous disposition. Although almost half of delinquency placements resulted from disposition reviews (see page 46), less than 1 in 20 disposition review proceedings resulted in a delinquency placement. The vast majority of disposition reviews resulted in an order of Continued on Previous Disposition.

Outcomes of Delinquency Disposition Reviews as a % of Total, 2022

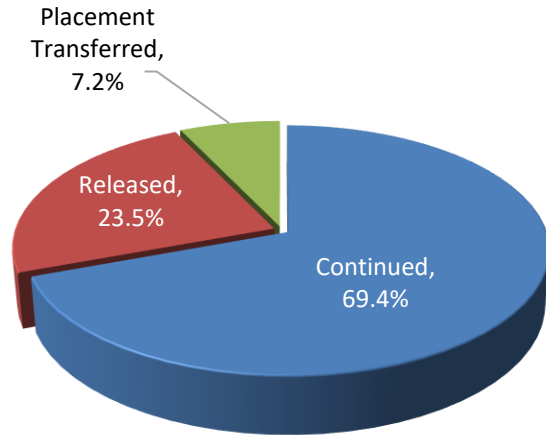

*The following county had a total of 191 cases where the delinquent disposition review was reported as deferred adjudication with no reported adjudication of delinquency at the time of disposition. These dispositions have been included in the disposition of Consent Decree. (Philadelphia-191).

**The "Other" category includes dispositions of Administrative Supervision Only/Collections, Restitution Only, Transfer to Another Juvenile Court, Fines/Costs Ordered by the Court, Accepted Courtesy Supervision, Community Service Only, and Referred to Another Agency/Individual.

Outcomes of Delinquency Placement Reviews, 2022

Outcomes of Delinquency Placement Reviews, 2022

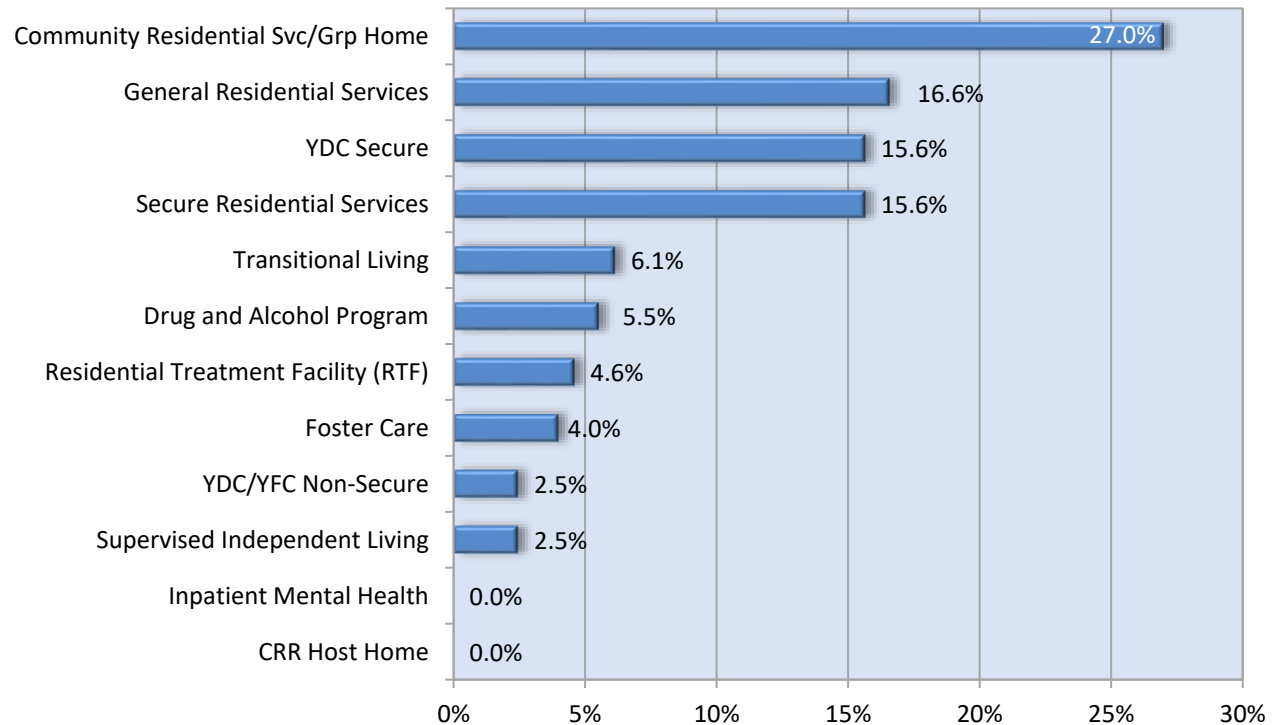

A placement review is a hearing conducted by the court regarding a previous disposition which resulted in out-of-home placement.

The majority of delinquency placement review proceedings resulted in an order of Continued in Previous Placement (69.4%). Released from Placement was the outcome in 23.5% of placement reviews and Transferred to Another Placement occurred in 7.2% of placement reviews.

In the small percentage of placement reviews in which a transfer to another placement was ordered, most transfers were to a Community Residential Service/Group Home.

Transferred Placements by Type, 2022

Section 6: Dependency Dispositions

Dependency Dispositions, 2022

Since 1991, the Juvenile Court Judges' Commission collects information on dependency cases processed by juvenile probation departments. These figures do not reflect the total number of dependency cases in the Commonwealth. For the purposes of the annual report, a dependency case is defined as a new referral processed by the juvenile probation department that does not have accompanying delinquency allegations.

Only the counties that report dependency dispositions are shown in the tables in this section.

COUNTY	TOTAL DISPOSITIONS	CONSENT DECREE	DISMISSED	INFORMAL ADJUSTMENT	OTHER	PLACEMENT	PROTECTIVE SUPERVISION	WARNED AND COUNSELED	WITHDRAWN

Note: Age calculated at date of disposition. The data do not include dispositions resulting from disposition review and placement review hearings.

Chapter 3 - Juvenile Justice Trends

Overview

As Pennsylvania systematically integrates data-driven policies and practices at every stage of the juvenile justice system, stakeholders continually track the performance and outcomes of such activities to ensure they are promoting positive outcomes for youth. These metrics provide a clear picture of the impact of various initiatives on key justice measures, such as the crime rate and recidivism.

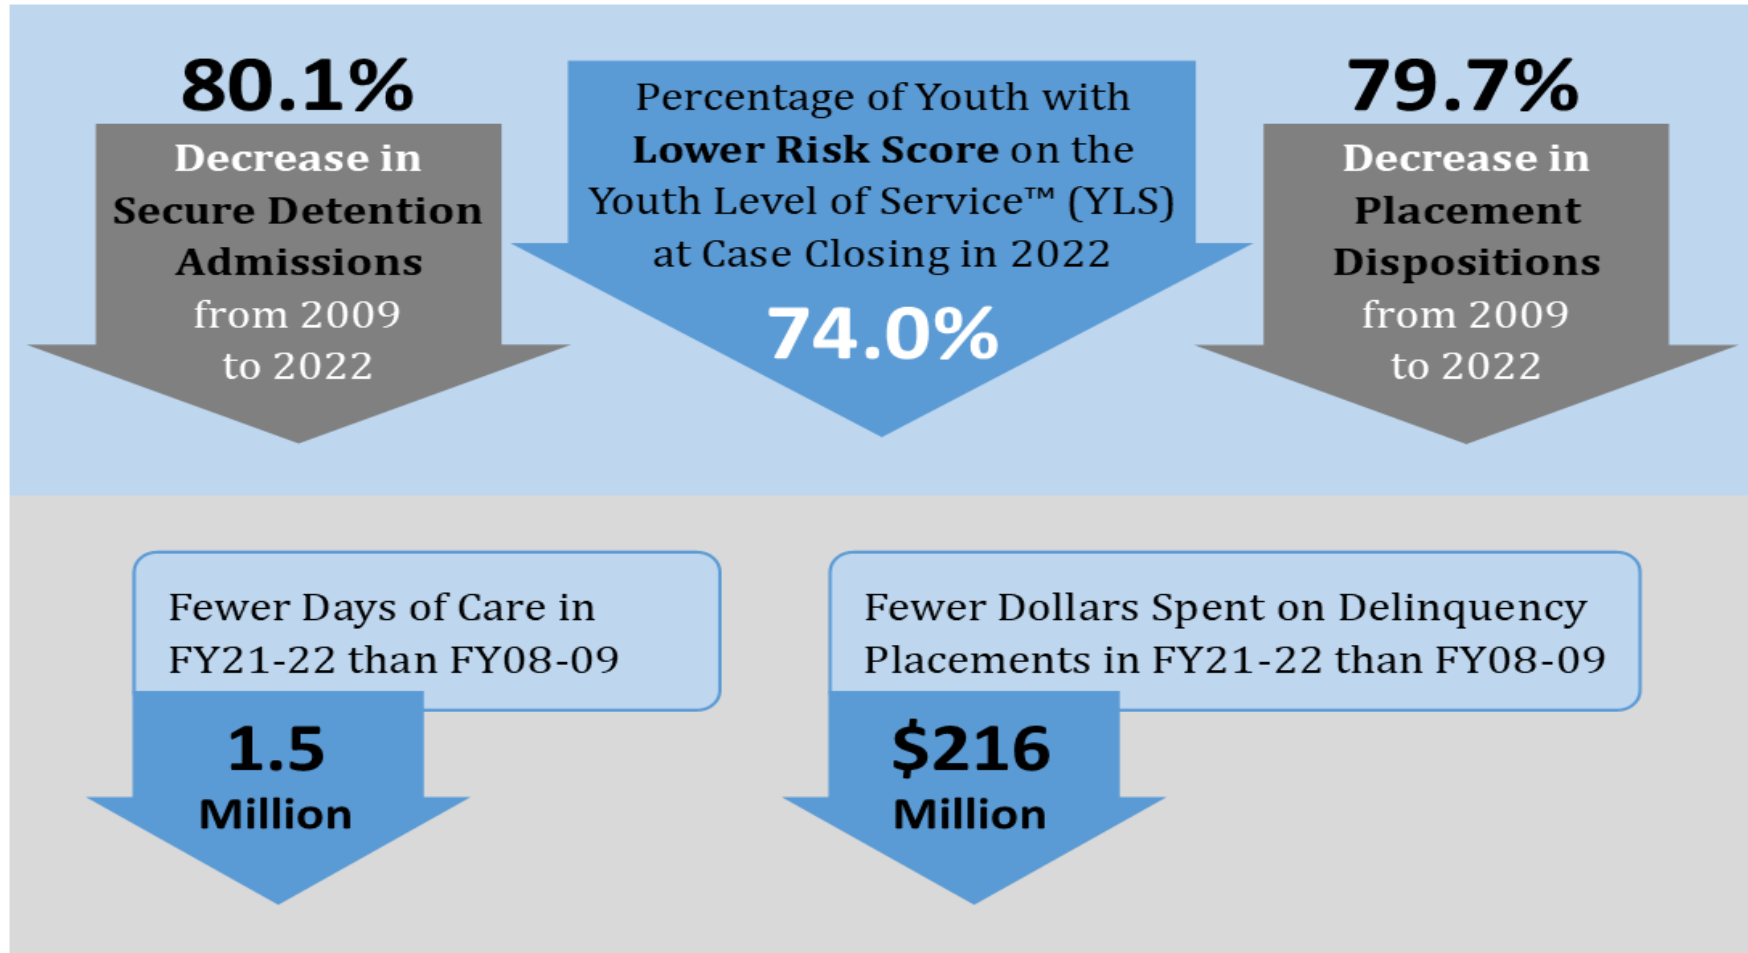

In this chapter, longitudinal data are presented to demonstrate long-term changes over time at several key decision points throughout the system, including arrest, written allegation, secure detention, disposition, and placement. While Chapters 1 and 2 of this report include five years of trend data, this chapter includes 14 years to allow for a more robust analysis of change over time.

This chapter also provides a summary of the impact of the juvenile justice system on Pennsylvania's youth, as measured by the change in the youths' risk level and score on the Youth Level of Service™ (YLS) from the initial assessment to the closing assessment, as well as recidivism. The figures in this chapter related to these two measures only provide a small snapshot of these important juvenile justice system outcomes. The reader is encouraged to visit the Juvenile Court Judges' Commission website to review the 2022 Outcome Measures Report and the various recidivism studies: [Outcome Measures Report](#) and [Recidivism Report](#).

In addition to drawing on data retrieved from the Pennsylvania Juvenile Case Management System (PaJCMS), this section also utilizes data collected by the Pennsylvania State Police Uniform Crime Reporting System (arrest figures); the United States Census Bureau (juvenile population figures); the Pennsylvania Department of Human Services' Office of Children, Youth, and Families (delinquency placement days of care and expenditures); and the Administrative Office of Pennsylvania Courts (recidivism rates). Given the variety of external sources utilized for the figures in this chapter, county-level statistics are not available in the Appendix.

Finally, the reader should be cautioned that, beginning in 2020, figures in this chapter were likely impacted by the COVID-19 pandemic. The pandemic's effect on the juvenile justice system is examined further in Chapter 4 – The Impact of COVID-19 on the Pennsylvania Juvenile Justice System.

Key Juvenile Justice Trends

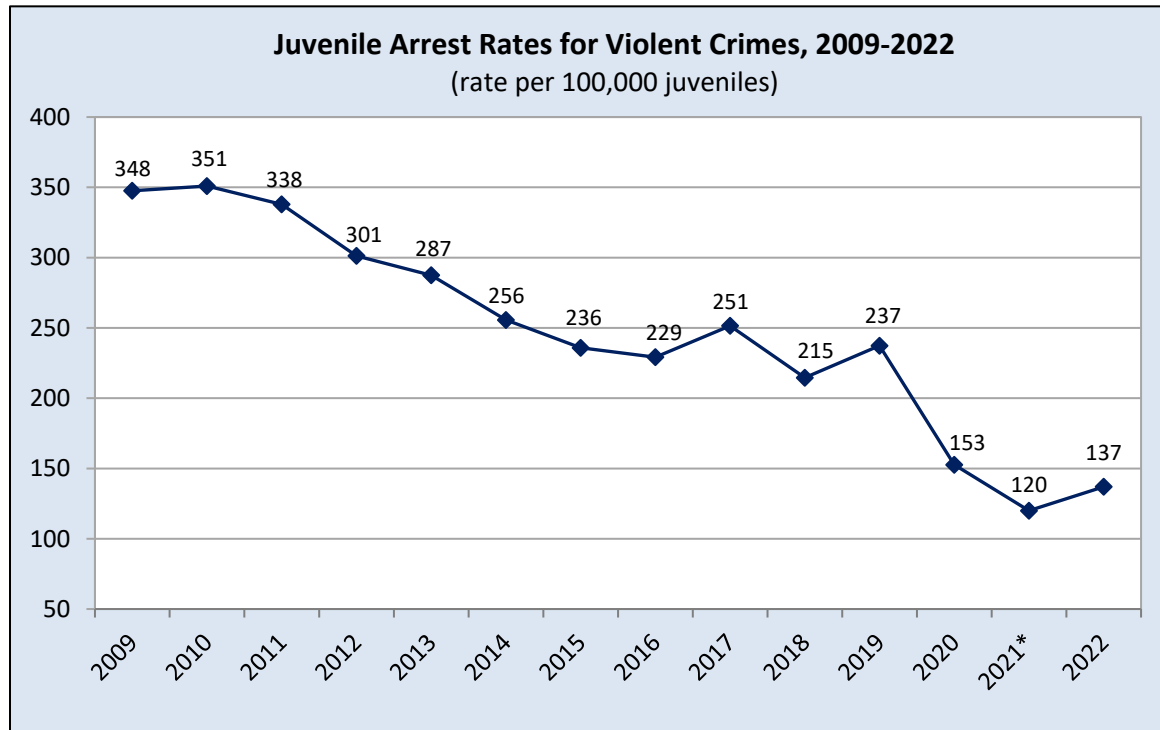

Section 1: Arrest Rates for Violent Crimes

1. The arrest data in this section was retrieved from the Pennsylvania State Police's Uniform Crime Reporting System (UCR). These figures are available online at <https://www.ucr.pa.gov/PAUCRSPUBLIC>.
2. The juvenile population information used to calculate the arrest rate was retrieved from the United States Census Bureau. At the time of publication of the 2022 Pennsylvania Juvenile Court Annual Report, the 2022 population figures had not yet been published. Consequently, 2021 population figures have been utilized, which can be retrieved here: <https://data.census.gov>. In previous years, these population figures were retrieved from The Centers for Disease Control. As such, the reader is cautioned when comparing population figures in this report to previous Pennsylvania Juvenile Court Annual Reports.
3. The unit of count for this section of the report is based on an arrest. Any one youth may be involved in a number of arrests within a calendar year. An arrest does not automatically result in a written allegation to the juvenile justice system. In addition, a youth may be referred to the juvenile justice system without being arrested. Finally, a youth may be arrested on more than one occasion and receive only one written allegation to the juvenile justice system. Therefore, the reader is cautioned NOT to attempt to interpret arrests as the number of youth who are referred to the juvenile justice system or the number of offenses.
4. Arrests in this section occurred between January 1, 2009, and December 31, 2022.
5. Only the most serious offense is captured in the arrest data.
6. Data for this report were compiled from the Pennsylvania State Police's Uniform Crime Reporting System and the United States Census Bureau on May 9, 2023. Any changes to those systems after this date will not be included in these statistics. The numbers published in this report, therefore, may not reflect current numbers within the respective systems.
7. For the purposes of this report, violent crime includes the offenses of murder, rape, robbery, and aggravated assault.
8. The violent crime arrest rate per 100,000 youth is calculated by dividing the total number of arrests for violent crimes by the total number of juveniles aged 10–17 in the state, then multiplying the resulting figure by 100,000.

Juvenile Arrest Rates for Violent Crimes, 2009-2022

Between 2009 and 2021, the juvenile arrest rate for violent crime decreased 60.6%, from 348 arrests per 100,000 juveniles in 2009 to 137 arrests per 100,000 juveniles in 2022. The violent crime arrest rate per 100,000 juveniles increased 14.2% from 2021 to 2022.

Source: Juvenile Court Judges' Commission from the Pennsylvania State Police Uniform Crime Reports and the United States Census Bureau.

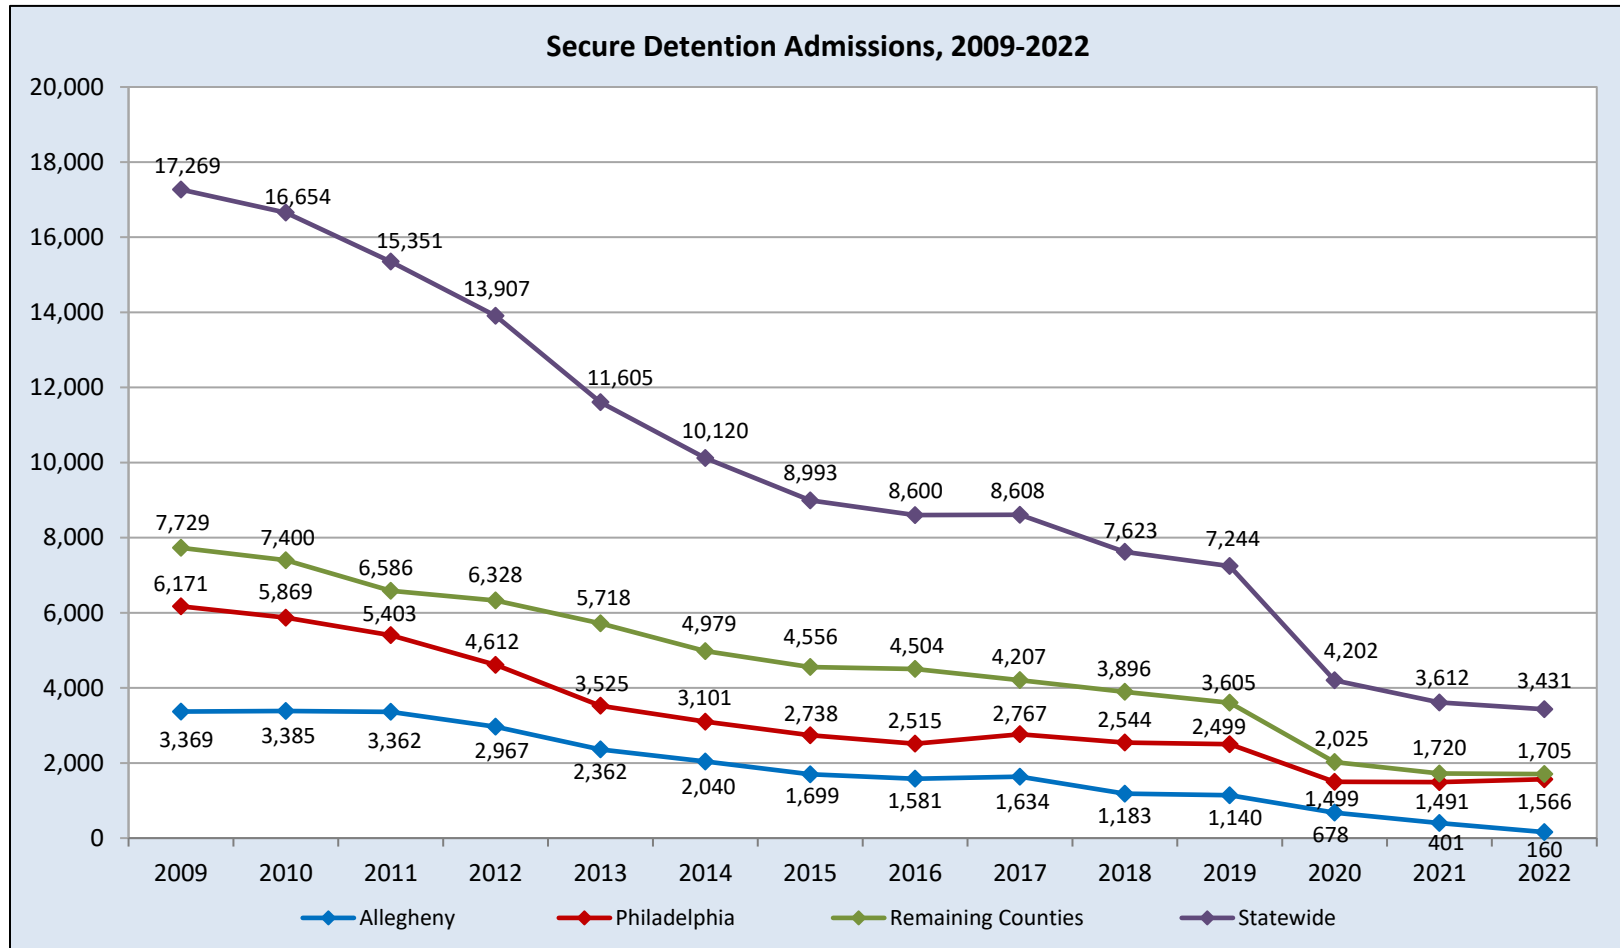

*The 2021 arrest rate for violent crime has been updated to reflect modifications made to the Pennsylvania State Police UCR numbers.

Section 2: Secure Detention

1. Beginning in 2019, the detention data contained in this report was extracted from PaJCMS. Prior to 2019, this data was extracted from the secure detention database at the Juvenile Court Judges' Commission's Center for Juvenile Justice Training and Research, which was populated with data reported directly from juvenile detention centers each month.
2. When interpreting the data contained in these tables, the reader should note the following:
 - The unit of count is the admission of a juvenile to a secure detention center.
 - A juvenile who is admitted to a secure detention center and subsequently transferred to another secure detention center without release is counted as two admissions.
3. Secure detention admissions in this section occurred between January 1, 2009, and December 31, 2022.
4. Please review page 19 of this report for additional notes on the secure detention data.

Secure Detention Admissions, 2009–2022

As noted earlier in this report, secure detention admissions have declined 55.0% statewide since 2018. Since 2009, however, secure detention admissions declined 80.1%. There were 13,838 fewer secure detention admissions in 2022 compared to 2009. Allegheny County detention admissions decreased by 95.3% from 2009 to 2022, and Philadelphia County admissions decreased 74.6% during the same time period. Overall statewide admissions, excluding Allegheny and Philadelphia, decreased by 77.9% from 2009 to 2022.

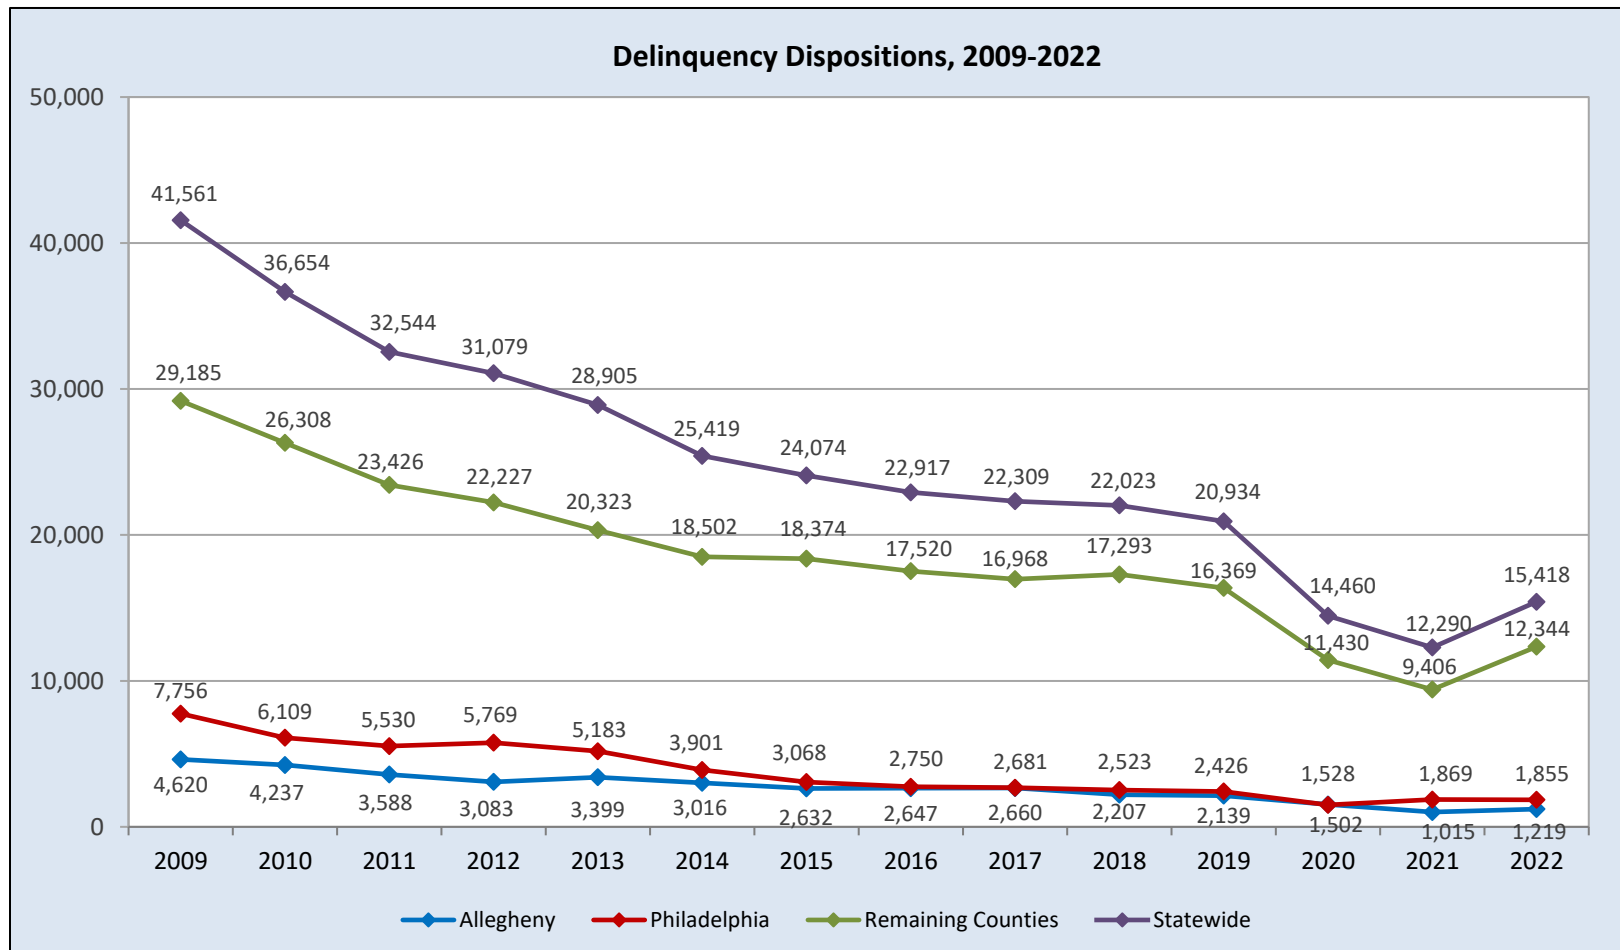

Source: Juvenile Court Judges' Commission.

Section 3: Delinquency Dispositions

1. The unit of count for this section of the report is the disposition. A disposition is defined as an allegation of delinquency disposed of by the juvenile probation department and/or the court. Any one youth may be involved in a number of dispositions within a calendar year containing multiple allegations. In addition, a youth may be referred on more than one occasion and receive only one disposition. Therefore, the reader is cautioned NOT to attempt to interpret dispositions as the number of youth who are processed by the court or the number of offenses.
2. Dispositions in this section occurred between January 1, 2009, and December 31, 2022.
3. United States Census Bureau data was used to calculate population statistics in this report. In previous years, these population figures were retrieved from The Centers for Disease Control. As such, the reader is cautioned when comparing population figures in this report to previous Pennsylvania Juvenile Court Annual Reports. At the time of publication of this report, the United State Census Bureau had not yet published 2022 population figures. Consequently, 2021 population figures were utilized, which can be retrieved here: <https://data.census.gov>.
4. Please review page 25 of this report for additional notes on the delinquency disposition data.

Delinquency Dispositions, 2009-2022

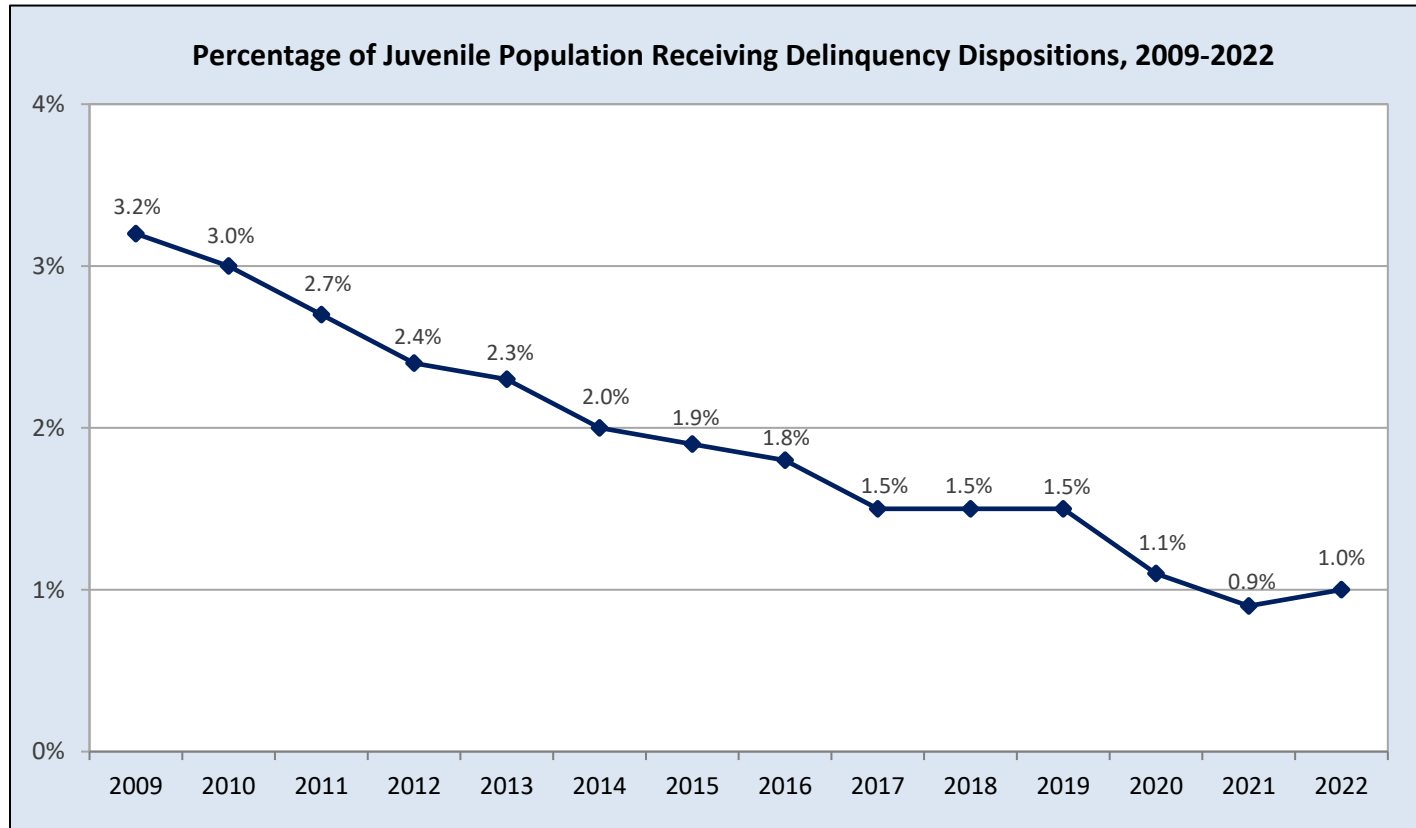

As reported in Chapter 2 of this report, delinquency dispositions decreased 30.0% statewide between 2018 and 2022. Since 2009, however, statewide delinquency dispositions decreased 62.9%. In Allegheny County, delinquency dispositions decreased 73.6% in this time period, and in Philadelphia County, delinquency dispositions decreased 76.1%. In the remaining counties, delinquency dispositions decreased 57.7% in this period. Statewide, there were 26,143 fewer dispositions in 2022 compared to 2009.

Source: Juvenile Court Judges' Commission.

Percentage of Juvenile Population Receiving Delinquency Dispositions, 2009-2022

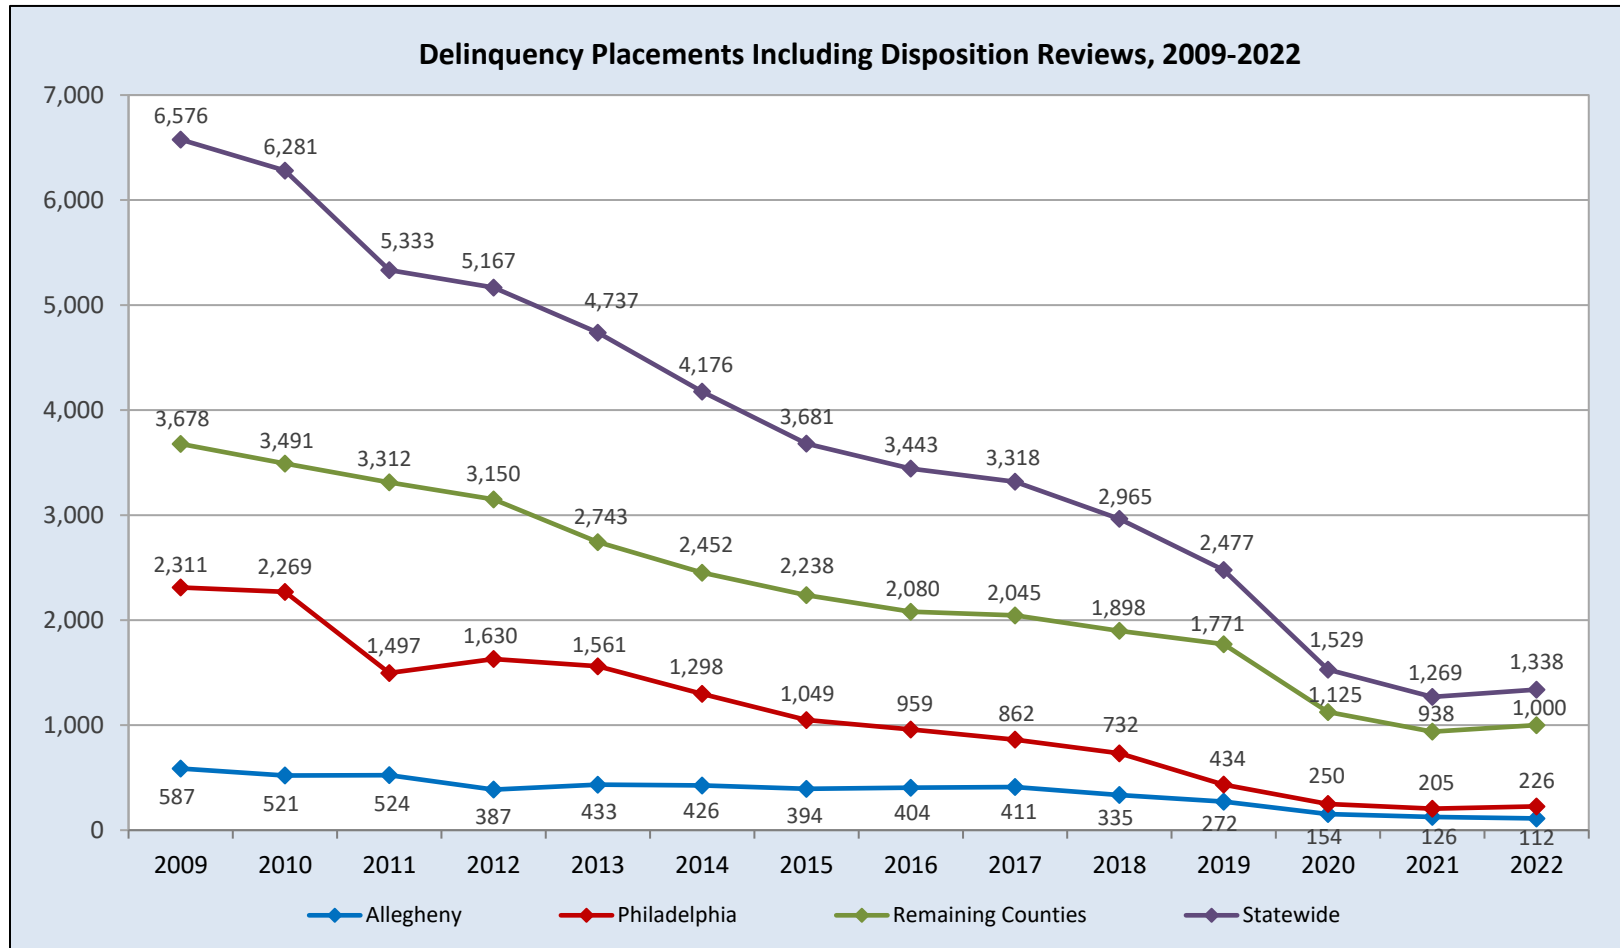

It is also important to determine the reduction of dispositions when controlling for changes in the youth population. This determination is accomplished by calculating the percentage of the juvenile population who received a delinquency disposition. In Chapter 2 of this report, it was noted that between 2018 and 2022, the rate of juvenile delinquency dispositions as a percent of the Pennsylvania juvenile population declined by 33.3%, from 1.5% to 1.0%. Between 2009 and 2022, the Pennsylvania delinquency disposition rate per juvenile population declined by 68.8%, from 3.2% to 1.0%.

Source: Juvenile Court Judges' Commission and the United States Census Bureau.

Delinquency Placements, 2009-2022

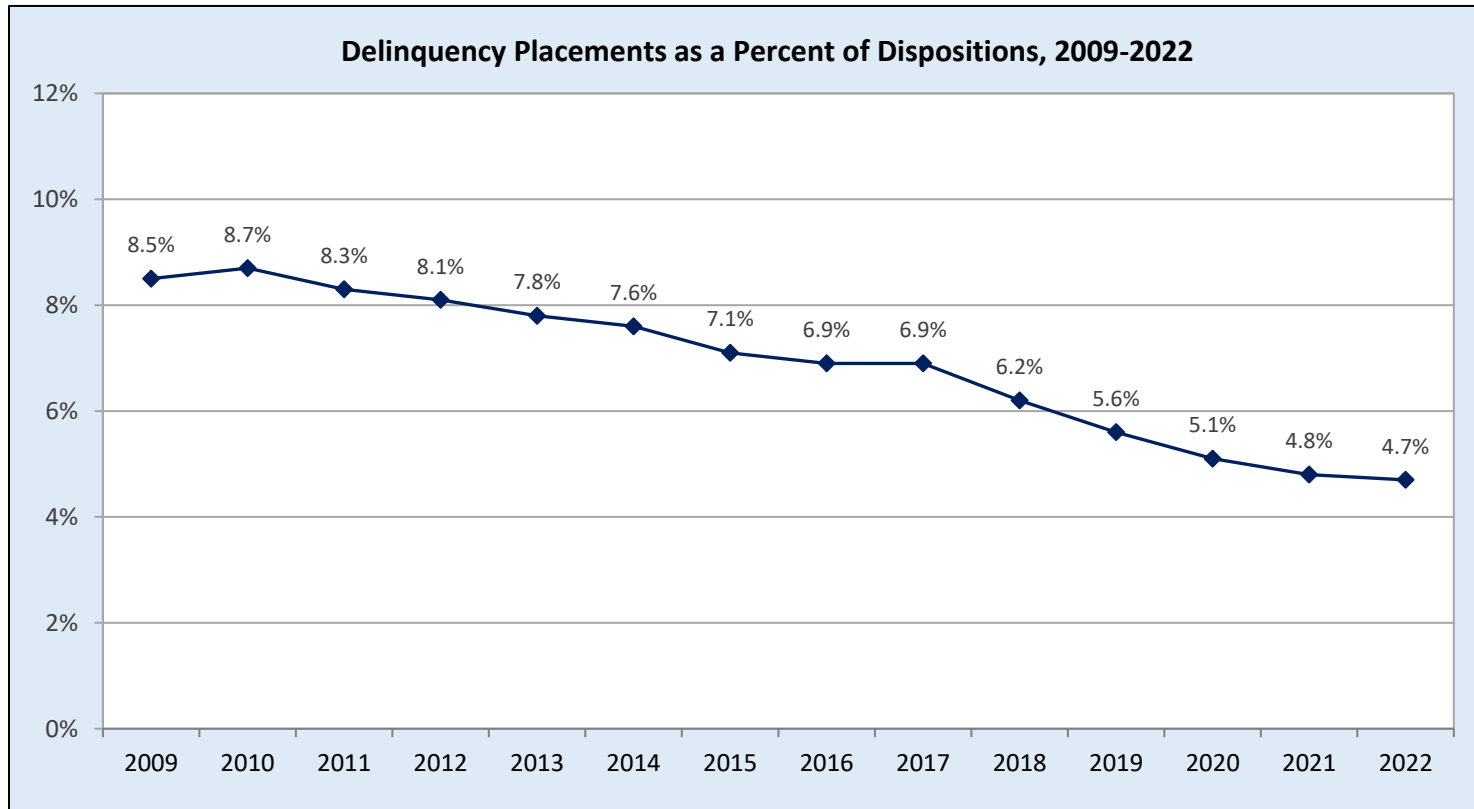

Delinquency placements are one of the most severe and costly dispositions that a youth can receive from the juvenile justice system and are typically reserved for the most serious types of offenses. As reported in Chapter 2 of this report, juvenile delinquency placements decreased 54.9% between 2018 and 2022. Between 2009 and 2022, however, delinquency placements decreased 79.7%. Statewide, there were 5,238 fewer delinquency placements in 2022 compared to 2009.

Source: Juvenile Court Judges' Commission.

Delinquency Placements as a Percent of Dispositions, 2009-2022

It is important to determine the reduction of placement dispositions when controlling for changes in the total number of overall dispositions. This determination is accomplished by calculating the percentage of total dispositions that resulted in a placement disposition. As previously shown in this report, between 2018 and 2022, delinquency placements as a percentage of total dispositions decreased 24.2%. From 2009-2022, however, juvenile delinquency placements as a percent of dispositions decreased 44.7%, from 8.5% of all dispositions in 2009 to 4.7% of all dispositions in 2022.

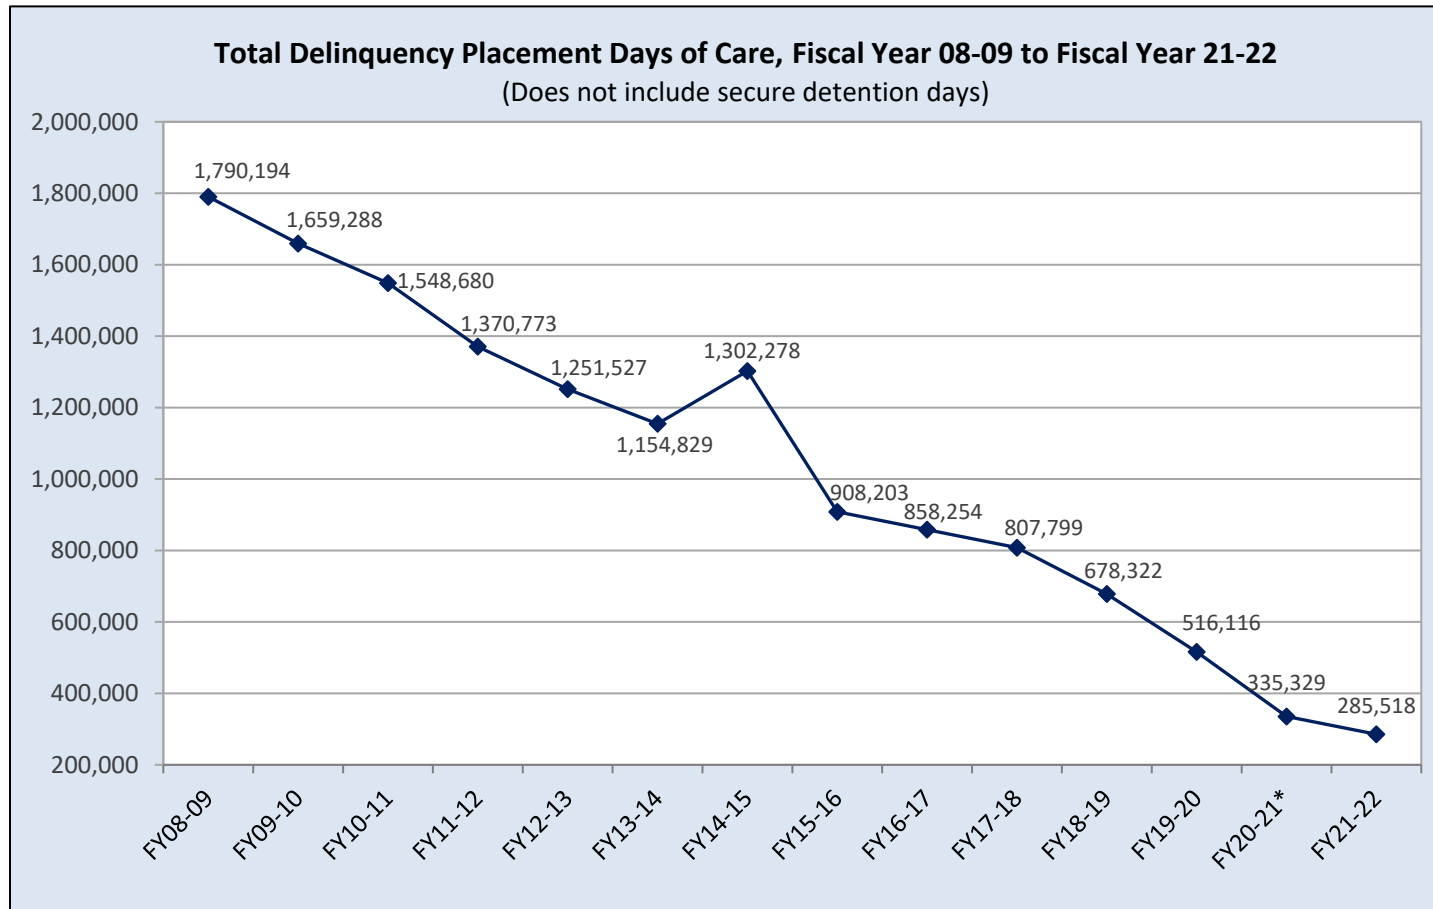

Source: Juvenile Court Judges' Commission.

Section 4: Delinquency Placement Days of Care and Delinquency Expenditures

1. The information for this section was provided to the Juvenile Court Judges' Commission by the Department of Human Services' Office of Children, Youth, and Families (OCYF). This information is compiled during the annual Needs-Based Plan and Budget process.
2. For the purposes of this report, days of care are defined as the total number of days that youth spent outside their home while in residential placement.
3. Detention days of care and expenditures are excluded from these figures.
4. Please note that data are presented in fiscal year, not calendar year.
5. The data contained in this section are from FY08-09 through FY21-22.

Total Delinquency Placement Days of Care, Fiscal Year 08-09 to Fiscal Year 21-22

As noted in Section 3 of this Chapter, delinquency placement dispositions were down 79.7% since 2009. Days of care were also down significantly. Between FY08-09 and FY21-22, placement days of care decreased 84.1%. There were 1,504,676 fewer days of care in FY21-22 than FY08-09.

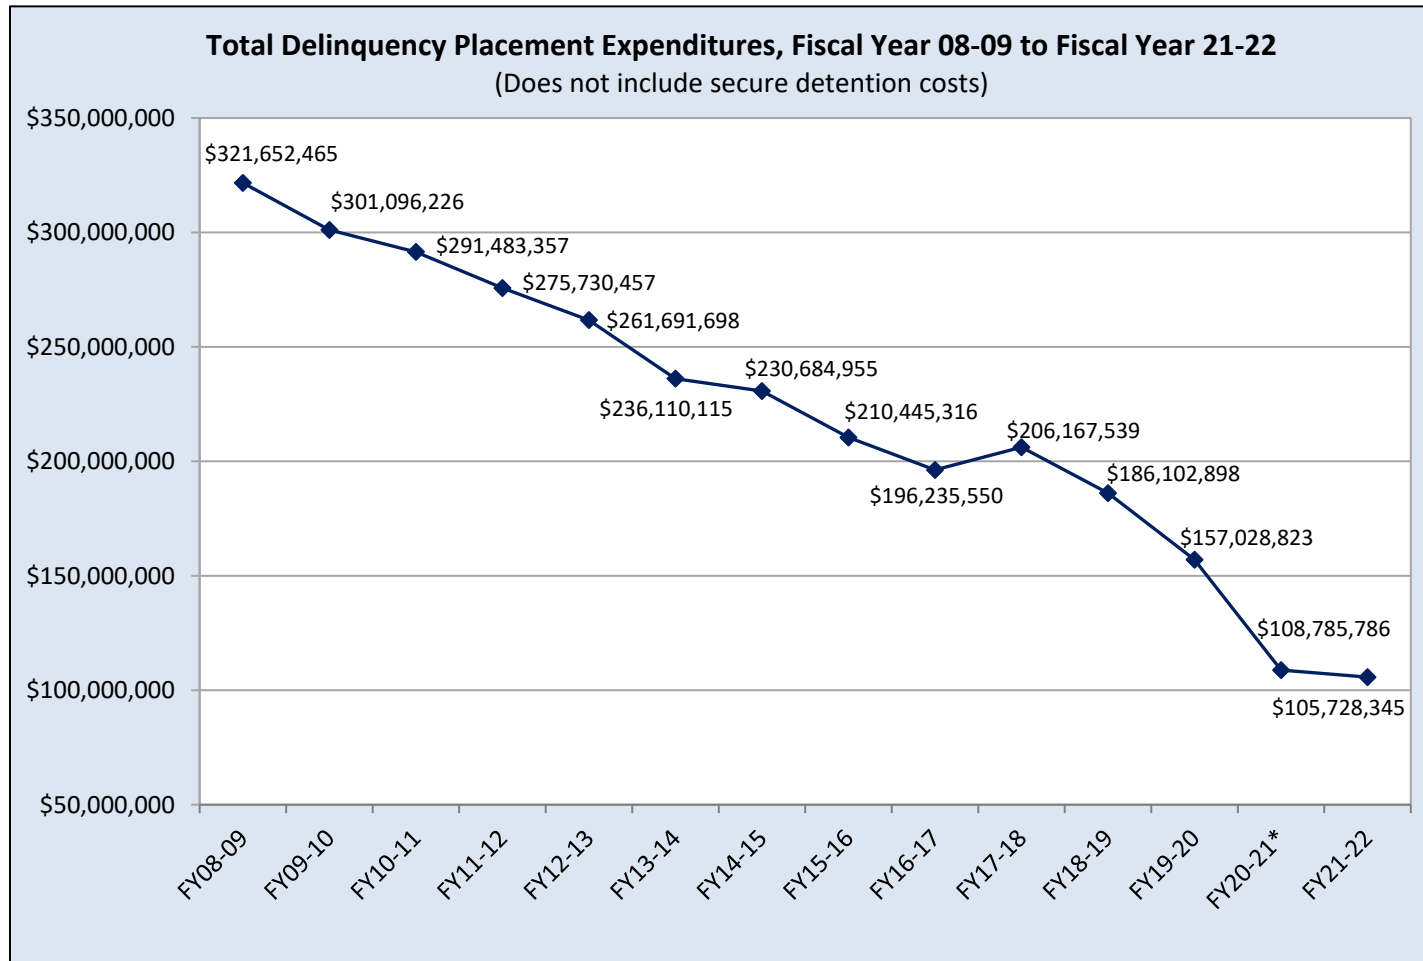

Source: Juvenile Court Judges' Commission from the Department of Human Services' Office of Children, Youth, and Families.

*Total delinquency placement days of care for 2021 has been updated to reflect modifications made to the Department of Human Services' Office of Children, Youth, and Families' figures.

Total Delinquency Placement Expenditures, Fiscal Year 08-09 to Fiscal Year 21-22

With such large decreases in both the total number of placement dispositions and the total days of care since 2009, Pennsylvania has also spent significantly less on delinquency placement expenditures (excluding secure detention expenditures). Specifically, juvenile delinquency placement expenditures declined by 67.1% from FY08-09 through FY21-22. In FY21-22, \$215,924,120 less was spent on delinquency placements compared to FY08-09.

Source: Juvenile Court Judges' Commission from the Department of Human Services' Office of Children, Youth, and Families.

*Total delinquency placement days of care for 2021 has been updated to reflect modifications made to the Department of Human Services' Office of Children, Youth, and Families' figures.

Section 5: Juvenile Justice System Outcomes: Risk Reduction and Recidivism

Risk Reduction

As noted in Chapter 1, the use of the Youth Level of Service™ (YLS) is the cornerstone of Pennsylvania’s Juvenile Justice System Enhancement Strategy (JJSES). The YLS is an actuarial risk assessment tool used for juvenile offenders. In addition to being administered at the time they enter the juvenile justice system, best practice also dictates that juveniles be re-assessed at regular intervals while under juvenile court supervision and again at the time of case closure. Changes in scores between the juvenile’s initial YLS assessment and the juvenile’s case closing YLS assessment serve as one indicator of the impact of a juvenile’s involvement in the juvenile justice system. Therefore, decreases in risk scores indicate a positive outcome for the juvenile.

1. The unit of count for this analysis is a juvenile with a case closed from a Pennsylvania juvenile probation department who had outcome measures completed.
2. Only juveniles with both an initial YLS assessment and a case closing YLS assessment captured in the PaJCMS were included in these figures.
3. The figures in this chapter are for youth closed between January 1, 2022, and December 31, 2022.
4. For more information on this risk reduction measure, please see the 2022 Outcome Measures Report: [Outcome Measures Report](#).

Recidivism

Recidivism is another measure utilized by stakeholders to determine the impact of a juvenile's involvement in the juvenile justice system. One of the main tenets of the Balanced and Restorative Justice (BARJ) mission of the Pennsylvania juvenile justice system is that youth should leave the system with the tools to become law-abiding citizens. Determining the youth's return to criminal behavior (recidivism) is one way to calculate the degree to which this BARJ goal is met.

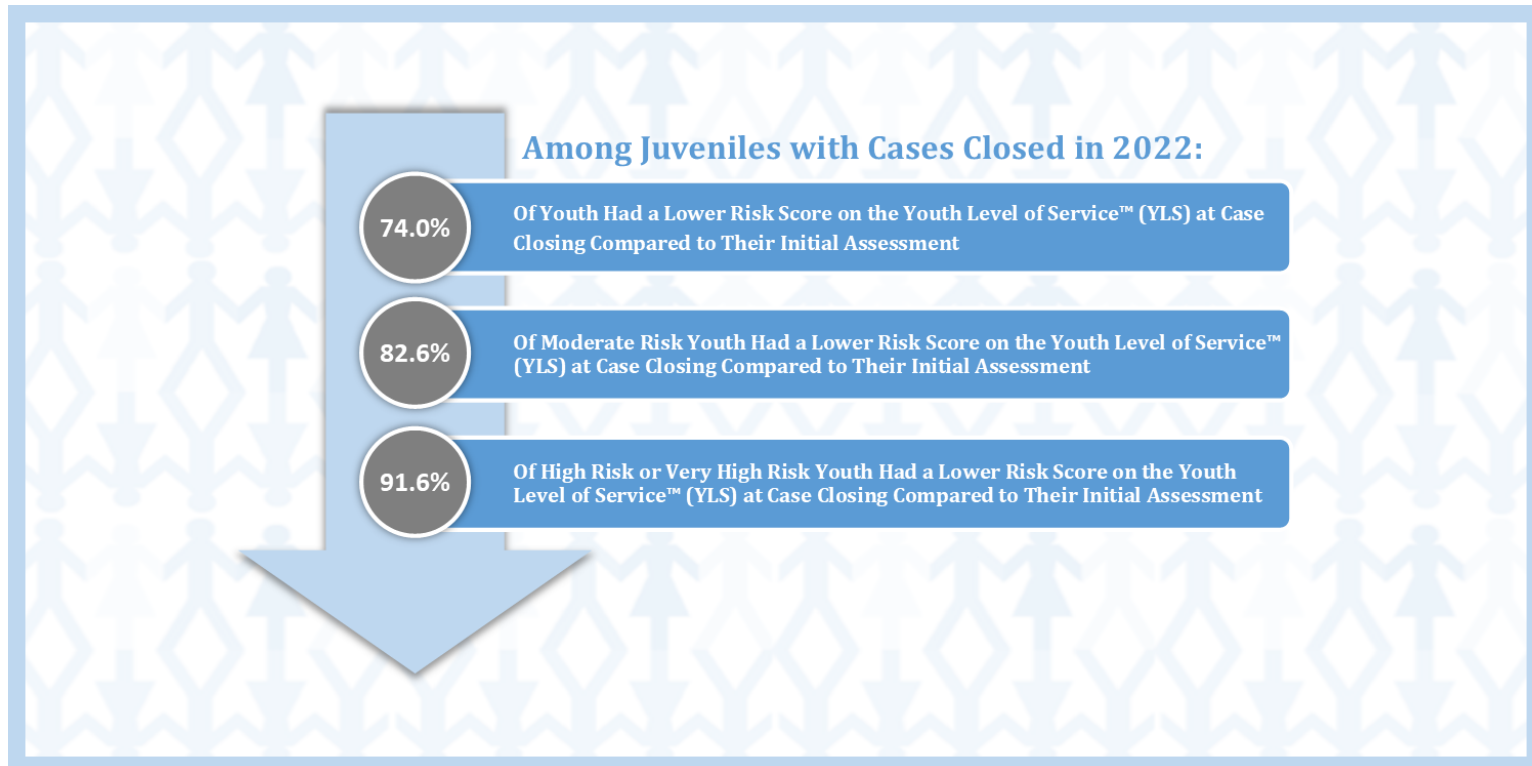

Since the beginning of the implementation of the JJSES, the Juvenile Court Judges' Commission has tracked the recidivism rates of all youth with cases closed from the juvenile justice system. These analyses serve two purposes. First, since the core premise of the JJSES is that recidivism rates can be reduced through the implementation of evidence-based practices, these analyses establish an ongoing, consistent recidivism benchmark. Second, these analyses allow stakeholders to examine differences between recidivists and non-recidivists in terms of demographics, risk level, disposition history, and other key variables to identify factors most closely associated with recidivism in the Pennsylvania juvenile justice system.

A benchmark recidivism rate pre-JJSES implementation was established using years 2007 through 2010. Since then, the recidivism rates of youth closed for services from years 2011 through 2019 have been analyzed.

1. The unit of count for this analysis is a juvenile who was closed from a Pennsylvania juvenile probation department who had been under some form of juvenile justice supervision. Any one youth may have a number of arrests, written allegations, and dispositions at the time of their case closing.
2. Recidivism rates in this section were based on youth who were closed from juvenile probation departments between January 1, 2007, and December 31, 2019.
3. For the purposes of this report, recidivism is defined as: a subsequent delinquency adjudication in juvenile court or conviction in criminal court for either a misdemeanor or felony offense within two years of case closure.
4. Subsequent adjudication of delinquency information was retrieved from the PaJCMS. Subsequent conviction information was provided by the Administrative Office of Pennsylvania Courts.
5. The recidivism rate is calculated by dividing the total number of youth with a subsequent delinquency adjudication in juvenile court or conviction in criminal court for either a misdemeanor or felony offense within two years of case closure by the total number of juveniles closed.
6. For more information on recidivism in Pennsylvania, please review the Recidivism Reports on the Juvenile Court Judges' Commission website: [Recidivism Report](#).

Risk Reduction as Measured by the Change in Youth Level of Service™ Score

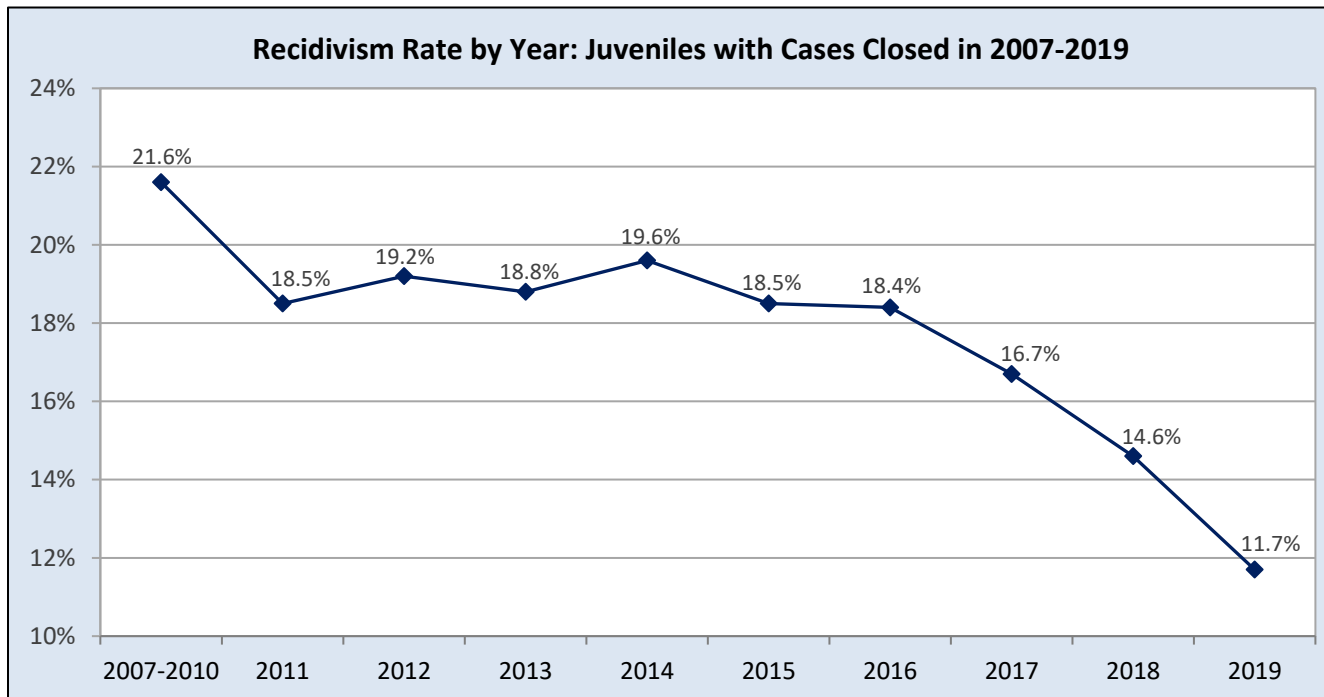

In 2022, among all youth closed from juvenile probation departments who had both an initial YLS score and a case closing YLS score, 74.0% had a lower risk to re-offend score at case closing compared to their initial assessment. Among just those youth identified as moderate risk to re-offend on their initial assessment, 82.6% had a lower risk to re-offend score at case closing. Finally, among just those youth identified as high/very high risk to re-offend on their initial assessment, 91.6% had a lower risk to re-offend score at case closing.

Source: Juvenile Court Judges' Commission.

Recidivism Rate by Year: Juveniles with Cases Closed in 2007-2019

In the benchmark years of 2007-2010, the statewide recidivism rate was 21.6%. This figure dropped to 18.5% in 2011 and remained relatively consistent through 2016. Starting with juveniles whose cases were closed in 2017, the recidivism rate began to decrease. The 2019 recidivism rate is the lowest since the Juvenile Court Judges' Commission began tracking recidivism and continues the trend of post-JJSES rates being below the pre-JJSES rate.

Source: Juvenile Court Judges' Commission and the Administrative Office of Pennsylvania Courts.

Chapter 4 - The Impact of COVID-19 on Pennsylvania’s Juvenile Justice System

Overview

The 2020 and 2021 Annual Reports each dedicated a chapter to comprehensively exploring the COVID-19 pandemic’s impact on written allegations, case processing, and placements. The current Annual Report’s chapter explores whether these trends continued into 2022.

This chapter analyzes topics that also appear in the main report but in monthly intervals, highlighting the pandemic’s impact at a more granular level, as well as case hearing information, which is not reviewed in other chapters. Analyzing data on a month-by-month basis provides a more nuanced analysis of exactly when the pandemic had the largest effect on juvenile justice trends and how long those patterns lasted*. This chapter also summarizes patterns observed during the “pandemic months” and compares them to the same time period in 2019-2022. “Pandemic months” include April through December**.

These analyses focus on state-level rather than county-level trends to describe how the pandemic has impacted Pennsylvania’s juvenile justice system as a whole. As a result, certain trends or explanations of trends presented here may not apply to a specific county. Appendices 37 through 41 present county-specific data, and county juvenile probation departments are encouraged to compare their numbers to this chapter’s findings.

This chapter is organized into three sections: (1) Written Allegations, (2) Court Hearings and Case Processing, and (3) Out-of-Home Placements.

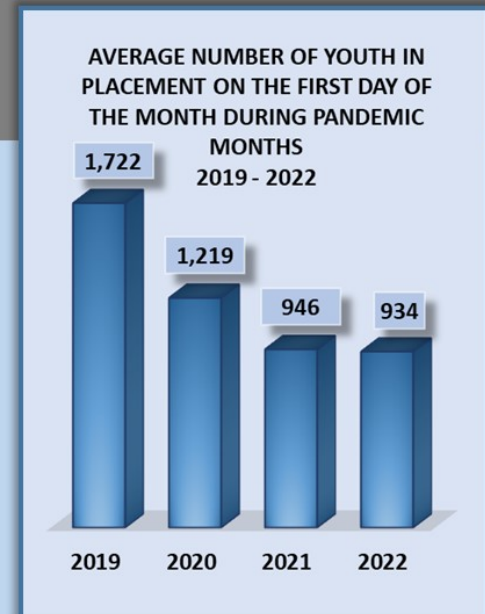

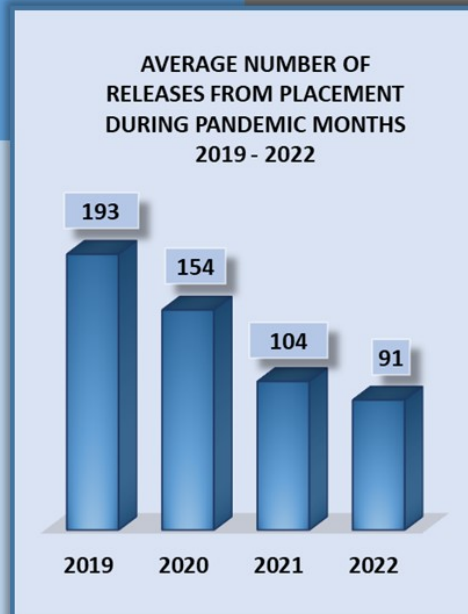

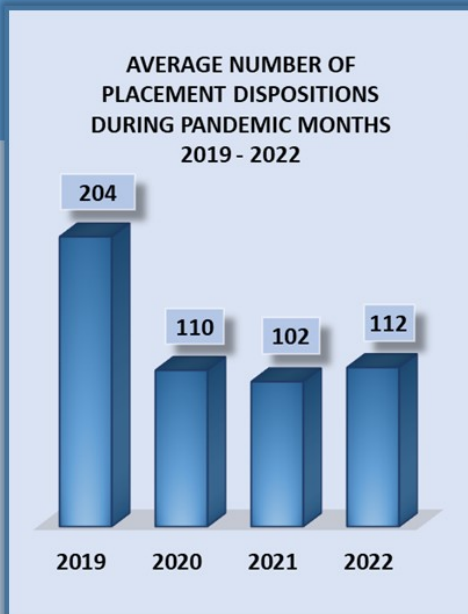

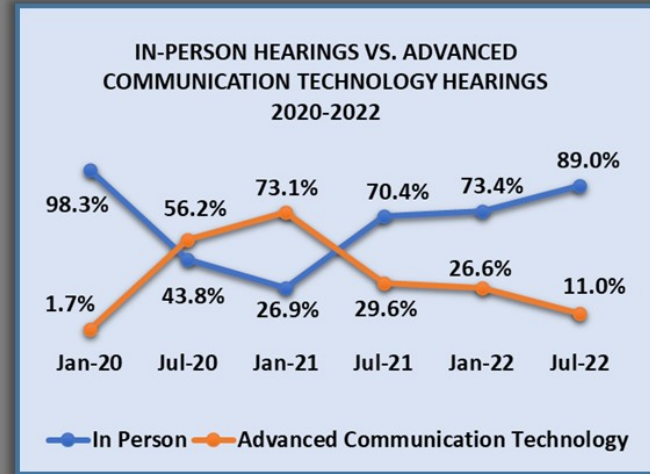

*Some charts group data into two-month periods due to the large number of months being tracked.

**Although the pandemic began in mid-March, the definition of “pandemic months” excludes March because at least two of those weeks occurred prior to juvenile court business practices being affected by COVID-19.

Impact of COVID-19 Statistical Highlights

2019 vs. 2022 Pandemic Months

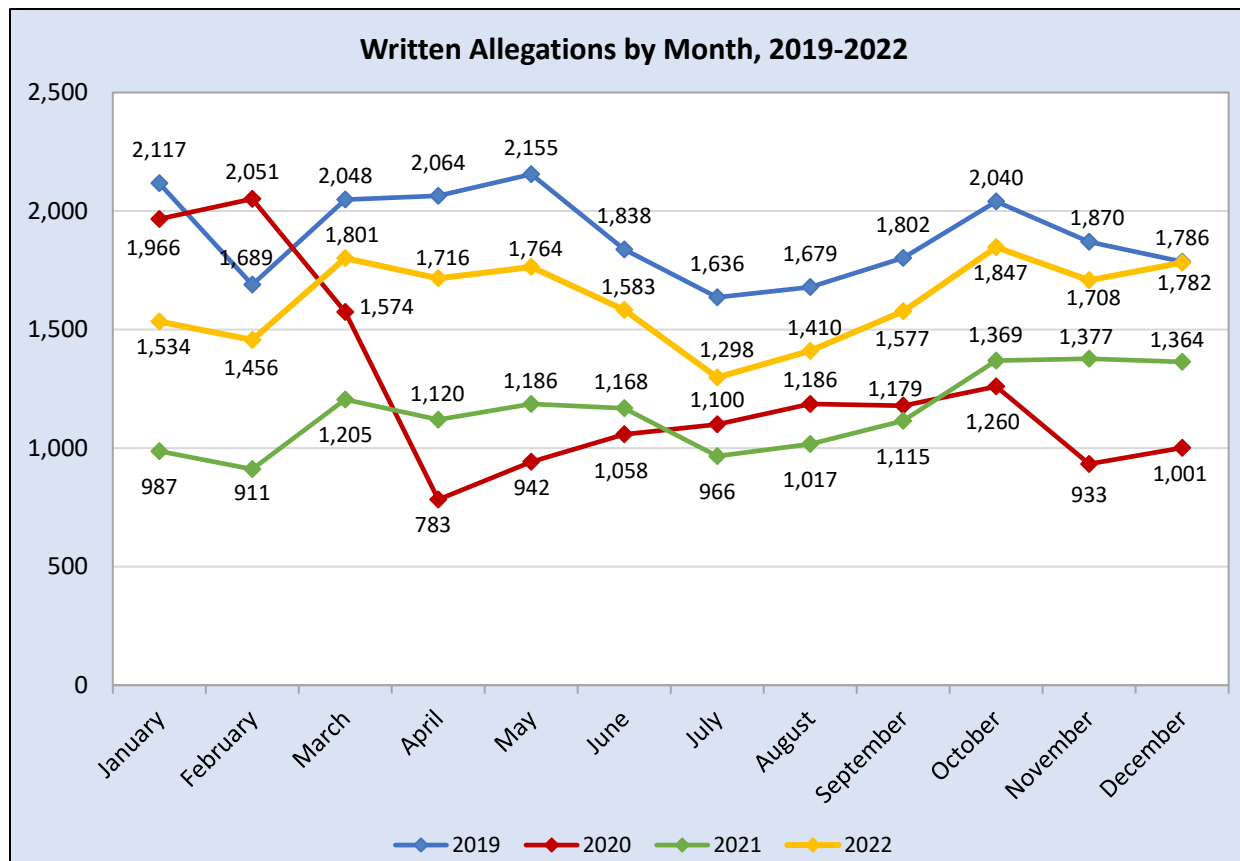

- ▼ 13.0% - Fewer Written Allegations in 2022
- ▼ 45.7% - Fewer Hearings Held in 2022
- ▼ 44.9% - Fewer Placement Dispositions Per Month
- ▼ 52.9% - Fewer Releases from Placement in 2022
- ▼ 45.8% - Fewer Youth, on Average, in Placement on the First Day of Each Month

Section 1: Written Allegations

Written Allegations by Month, 2019-2022

During the pandemic months (April through December), written allegations declined 44.0% between 2019 and 2020, increased 13.1% between 2020 and 2021, and increased 37.5% between 2021 and 2022. Even with the overall increases in 2021 and 2022, the 2021 pandemic months had 36.7% fewer and the 2022 pandemic months had 13.0% fewer written allegations compared to the 2019 pandemic months. Finally, even though the 2021 and 2022 figures are below 2019 figures, the monthly trends of increases and decreases in 2021 and 2022 written allegations were very similar to monthly patterns in 2019.

2022 Percent Change Among the Top Ten Offenses with the Largest Decreases in Written Allegations Between 2019 and 2020 Pandemic Months

As reported in the 2020 Annual Report, the five offenses with the largest declines in written allegations between 2019 and 2020 were: (1) Aggravated Assault Against a Teacher (87.6%), (2) Disorderly Conduct (74.5%), (3) Terroristic Threats (70.6%), (4) Retail Theft (64.1%), and (5) Institutional Vandalism (60.0%).

Between 2020 and 2021, however, the number of written allegations for each of those offenses rose, with the exception of Retail Theft. Between 2021 and 2022, the number of written allegations for each of those offenses continued to increase, including Retail Theft. Disorderly Conduct (131.5%), Retail Theft (119.8%), and Aggravated Assault Against a Teacher (118.1%), experienced the largest increase in written allegations between 2021 and 2022.

Even still, the total number of written allegations in 2022 for each of the offenses listed below was below the number of written allegations for that offense in 2019, with the exception of Disorderly Conduct, Simple Assault, and Weapon Offenses.

2022 PERCENT CHANGE AMONG THE TOP TEN OFFENSES WITH THE LARGEST DECREASES IN WRITTEN ALLEGATIONS BETWEEN 2019 AND 2020 PANDEMIC MONTHS							
OFFENSE	2019 ALLEGATIONS	2020 ALLEGATIONS	2021 ALLEGATIONS	2022 ALLEGATIONS	2019-2020 PERCENTAGE CHANGE	2020-2021 PERCENTAGE CHANGE	2021-2022 PERCENTAGE CHANGE
Aggravated Assault Against a Teacher	193	24	72	157	-87.6%	200.0%	118.1%
Disorderly Conduct	341	87	181	419	-74.5%	108.0%	131.5%
Terroristic Threats	783	230	454	684	-70.6%	97.4%	50.7%
Retail Theft	284	102	86	189	-64.1%	-15.7%	119.8%
Institutional Vandalism	135	54	112	133	-60.0%	107.4%	18.8%
Simple Assault	1,744	740	1,355	1,917	-57.6%	83.1%	41.5%
Aggravated Assault	916	415	617	728	-54.7%	48.7%	18.0%
Harassment/Stalking	156	80	107	122	-48.7%	33.8%	14.0%
Possession of Drugs	1,486	827	874	1,226	-44.3%	5.7%	40.3%
Weapon Offenses	717	401	718	1,050	-44.1%	79.1%	46.2%

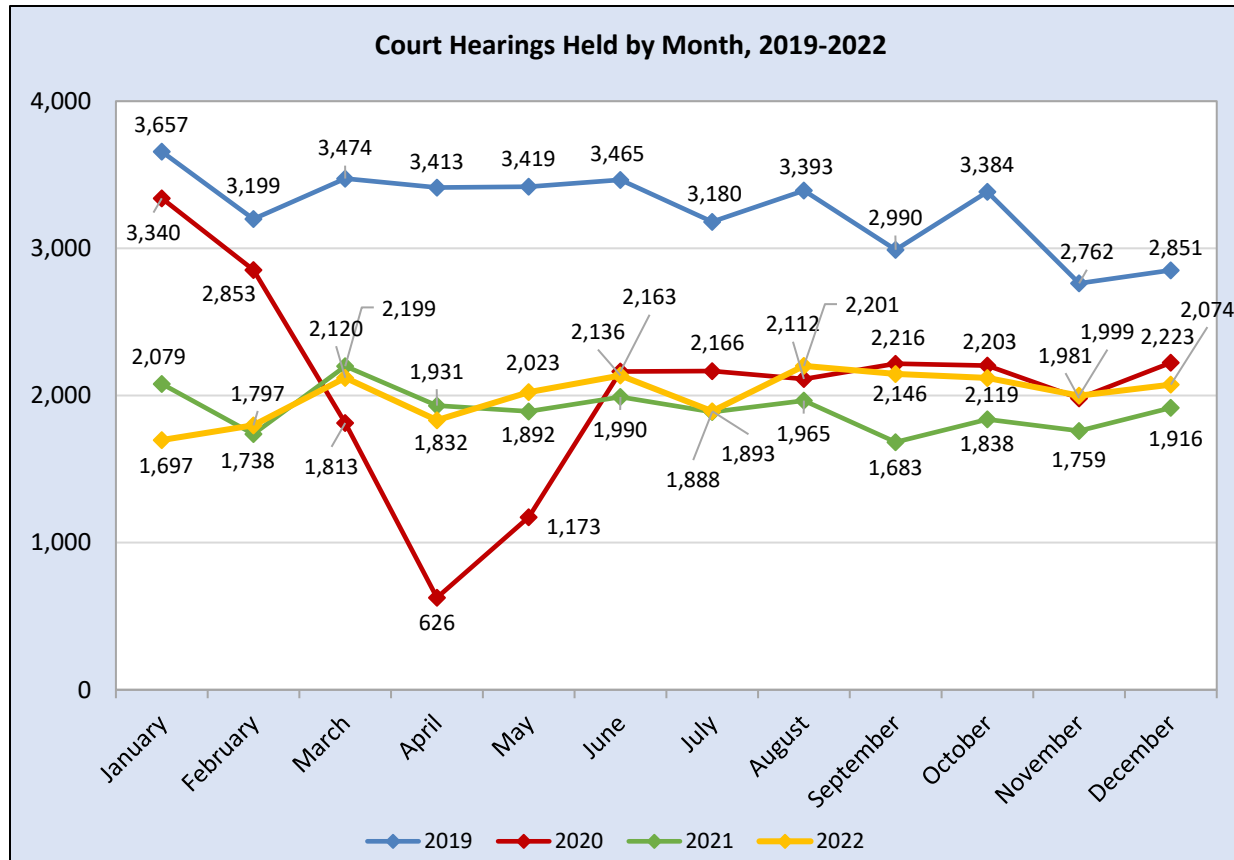

Note: This analysis is restricted to offenses that had at least 100 written allegations in 2019.

Section 2: Court Hearings and Case Processing

Court Hearings Held by Month, 2019-2022

As noted in the 2020 Annual Report, the number of court hearings held by juvenile courts, including disposition and placement reviews, significantly decreased beginning in April 2020. Hearings then increased substantially between April 2020 and June 2020. From June 2020 until December 2020, the number of court hearings held remained consistent. Even still, the number of hearings held in the second part of 2020 were well below the number of hearings held in the same time period in 2019. In 2021, the total number of hearings held throughout the year continued to reflect the total number of hearings held in the second half of 2020. This trend then continued into 2022.

Additionally, similar to 2020 and 2021, the total number of hearings held throughout 2022 was also well below 2019 total numbers, in both pandemic months and non-pandemic months. During the pandemic months, 36.2% fewer hearings were held in 2022 compared to the same time period in 2019. During the non-pandemic months, 45.7% fewer hearings were held in 2022 compared to 2019.

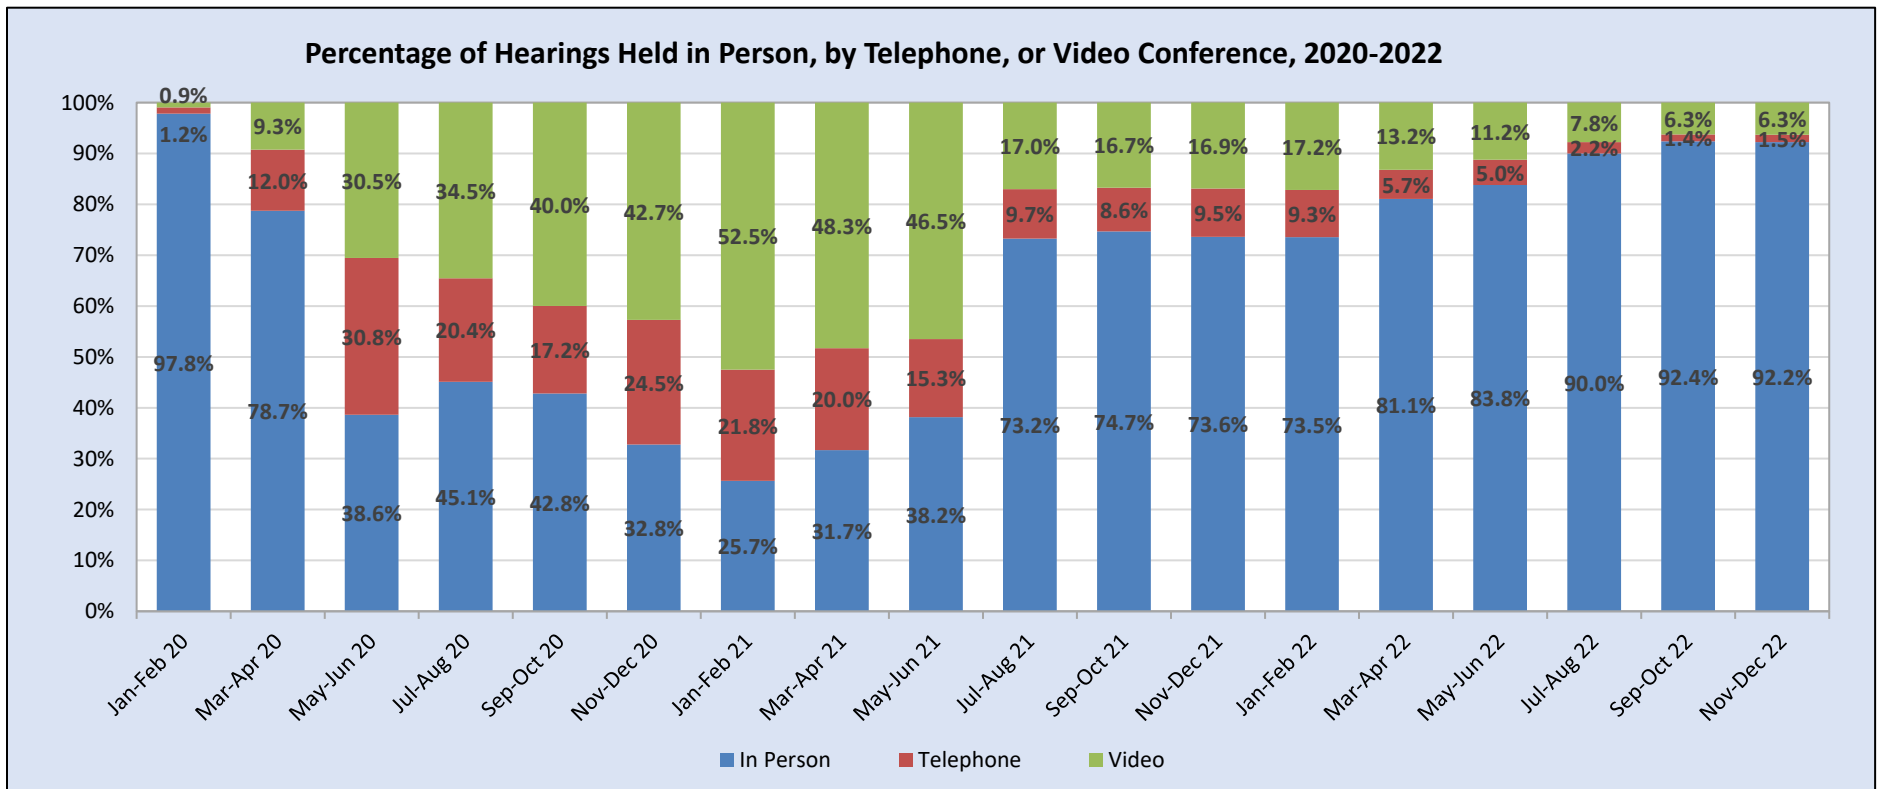

Note: This analysis does not include decisions that courts made by way of signed court orders.

Percentage of Hearings Held in Person, by Telephone, or Video Conference by Month, 2020-2022

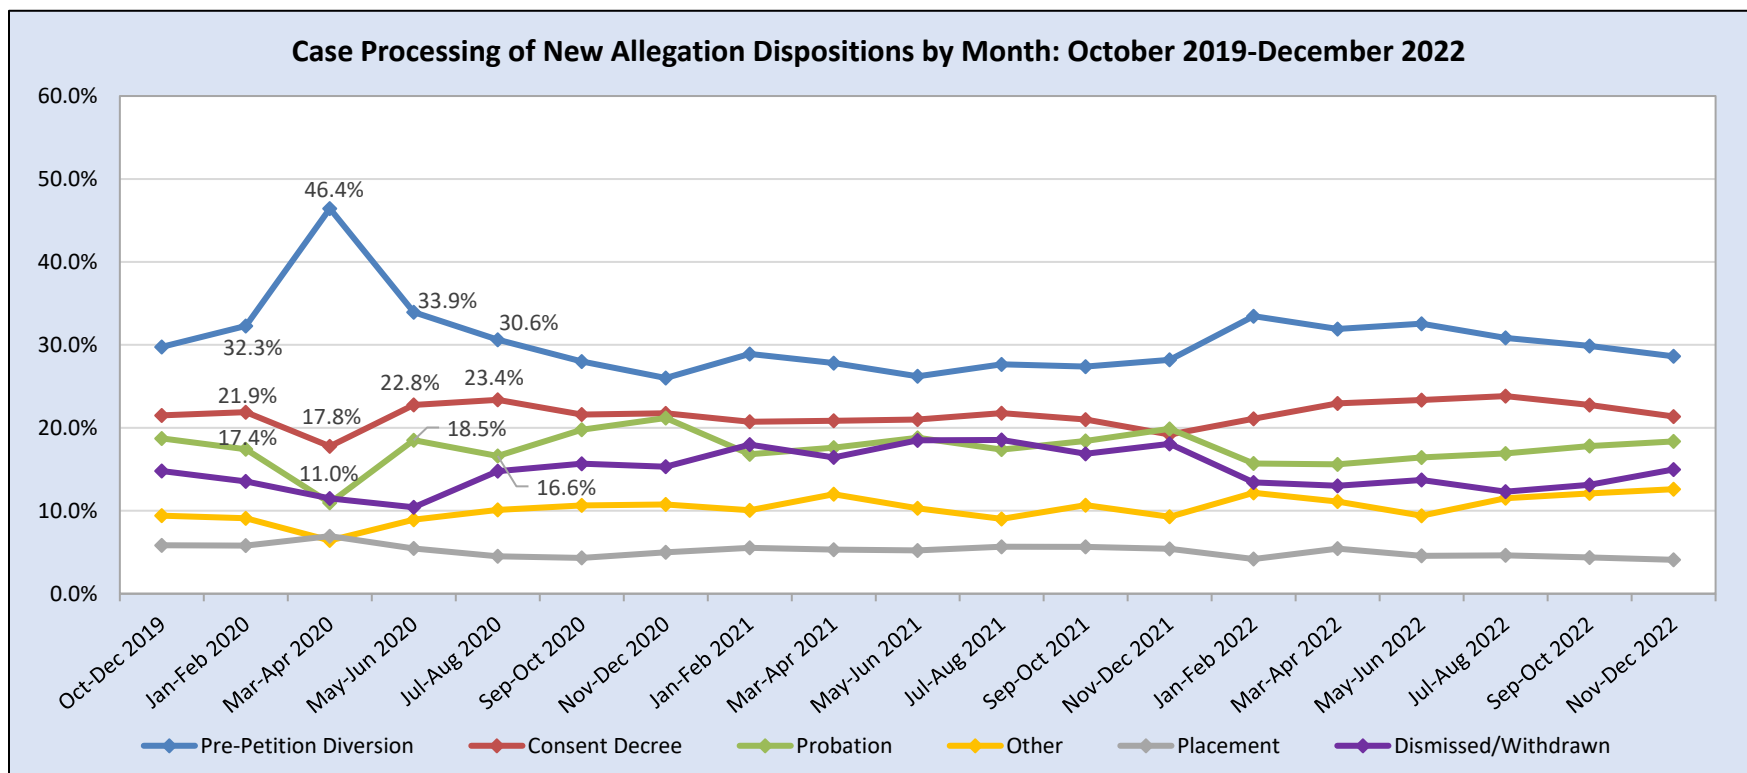

Interestingly, not only did the frequency of hearings change after the onset of the pandemic, how they were held did as well. In the first three months of 2020, virtually all juvenile court hearings were held in person. In April 2020, however, the percentage of hearings held in person decreased substantially, with just one in three hearings occurring in this format. Between April 2020 and June 2021, less than half of all hearings were held in person.

A large shift away from remote technology occurred in the summer of 2021. Thus, the percentage of in-person hearings held increased significantly from just 43.0% in June 2021 to 70.4% of all hearings in July 2021. From August 2021 through February 2022, approximately three out of four hearings were held in person. The percentage of in-person hearings increased to approximately nine out of every 10 hearings during the latter half of 2022.

Case Processing of New Allegation Dispositions by Month, October 2019-December 2022

The chart below displays the outcomes of new allegation dispositions. The data indicates the pandemic had only a short-term impact on how juvenile courts processed new delinquency allegations. Between March and April 2020, the percentage of new allegation dispositions processed through Pre-Petition Diversion increased from 35.0% to 57.9%, before declining to 37.1% in May 2020 and 30.8% in June 2020. From that point forward, the percentage of new allegation dispositions that were processed through Pre-Petition Diversion remained relatively unchanged. Paralleling this finding, the percentage of dispositions resulting in Consent Decrees decreased from 22.6% in March to 13.0% in April before increasing to 21.5% in May. Likewise, the percentage of dispositions resulting in Probation also declined from 15.8% in March to 6.2% in April before increasing to 16.7% in May. From that point forward, the pattern of new allegation dispositions resulting in Consent Decrees and Probation remained relatively unchanged through the remainder of 2020 and through 2021 and 2022.

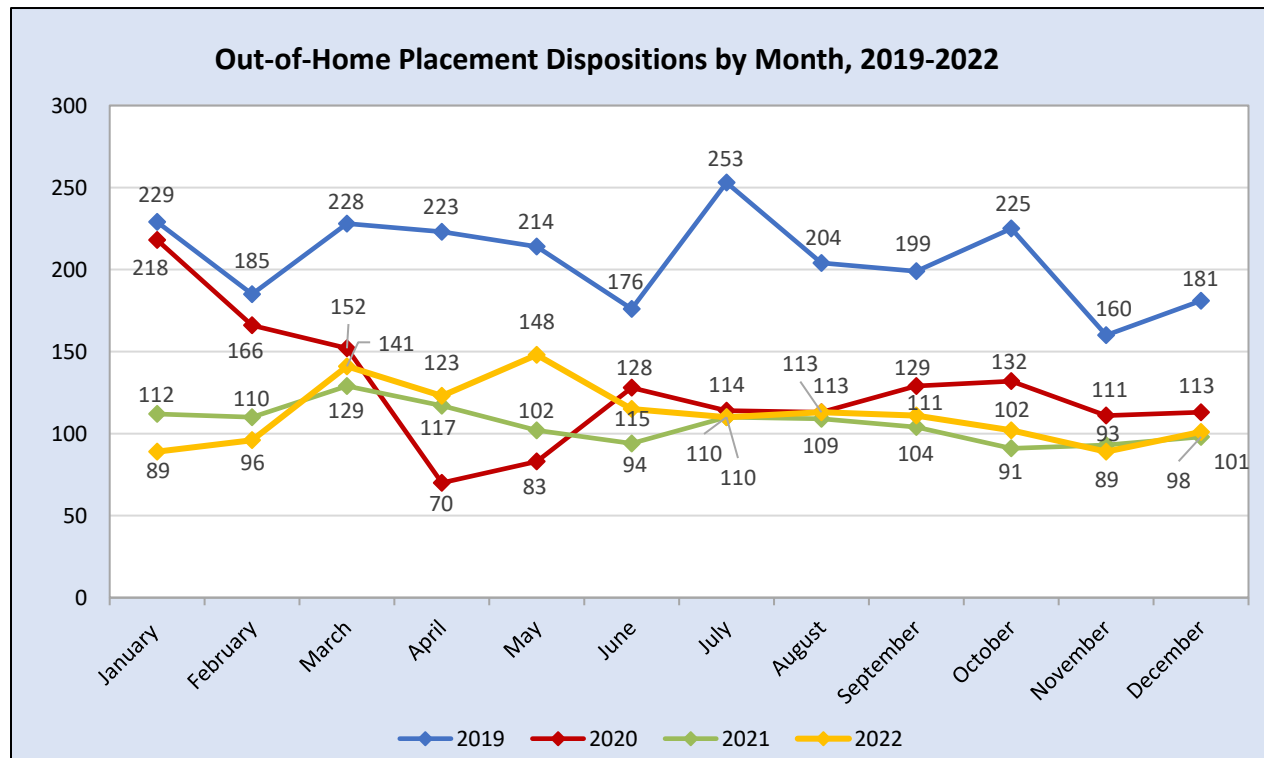

Note: "Other" Dispositions include Transfer to Another Juvenile Court, Accepted Courtesy Supervision, Continuance of Previous Disposition, Fines/Costs Ordered by the Court, Transfer to Criminal Proceedings, and Other dispositions.

Section 3: Out-of-Home Placements

Out-of-Home Placement Dispositions by Month, 2019-2022

The pre-pandemic months of January, February, and March 2020 had an average of 179 placement dispositions per month. Between March 2020 and April 2020, however, placement dispositions decreased 53.9%, after which dispositions sharply increased in May and June. Beginning in July, placement dispositions remained relatively consistent throughout the remainder of the year. Even still, the total number of placement dispositions in 2020 was well below 2019 figures, and during the pandemic months specifically, there were 45.9% fewer placement dispositions in 2020 compared to the same time period in 2019.

Overall, total placement dispositions in the pandemic months of 2020, 2021, and 2022 were lower than the pandemic months of 2019 (45.9%, 50.0%, and 44.9% respectively).

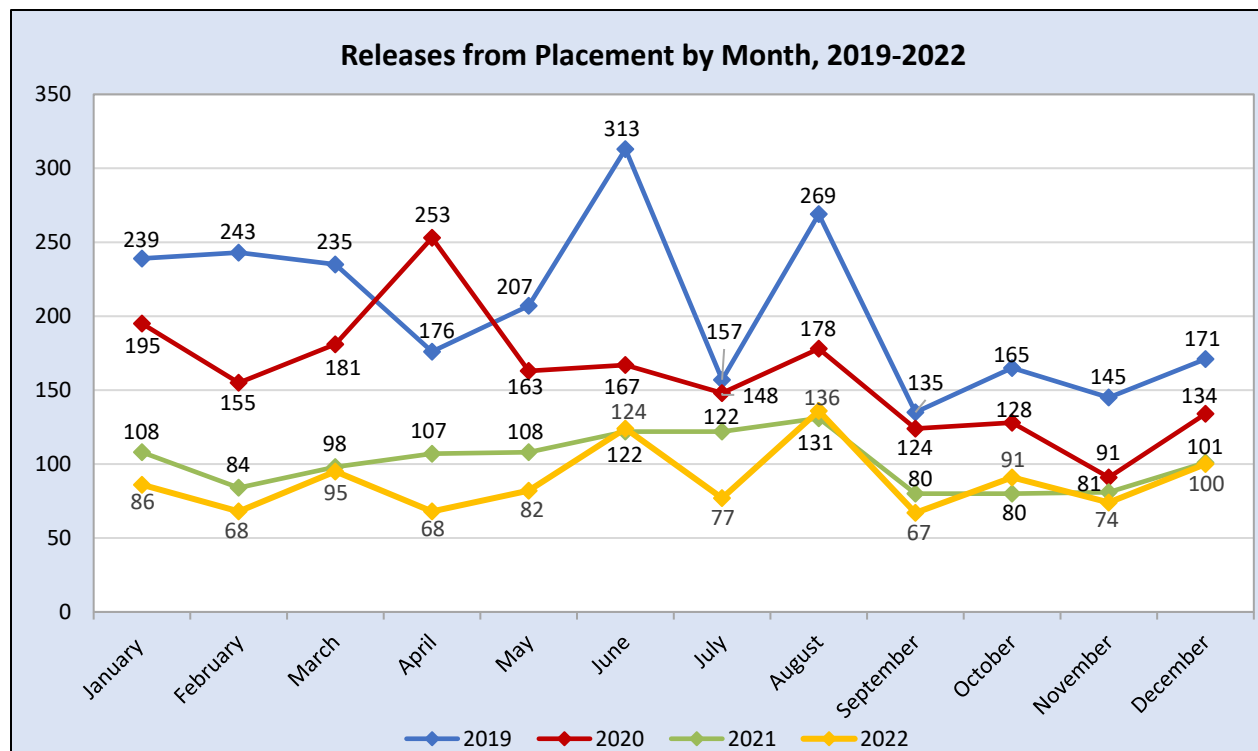

Note: Data on detention, shelter, and diagnostic services are not included in any of the graphs in Section 3: Out-of-Home Placements.

Releases from Placement by Month, 2019-2022

The pandemic also continued to impact the total number of youth released from placement, with 2022 seeing even fewer total releases than 2020 or 2021. As noted previously, placement dispositions decreased substantially since the onset of the pandemic. With fewer youth going into placement, it is logical that fewer youth are ultimately released.

In 2019, approximately 205 youth were released from placement each month, on average compared to 2020, 2021, and 2022 (160 youth, 102 youth and 89 youth, respectively). During the pandemic months only, there were, on average, 193 releases per month in 2019, 154 in 2020, 104 in 2021, and 91 in 2022.

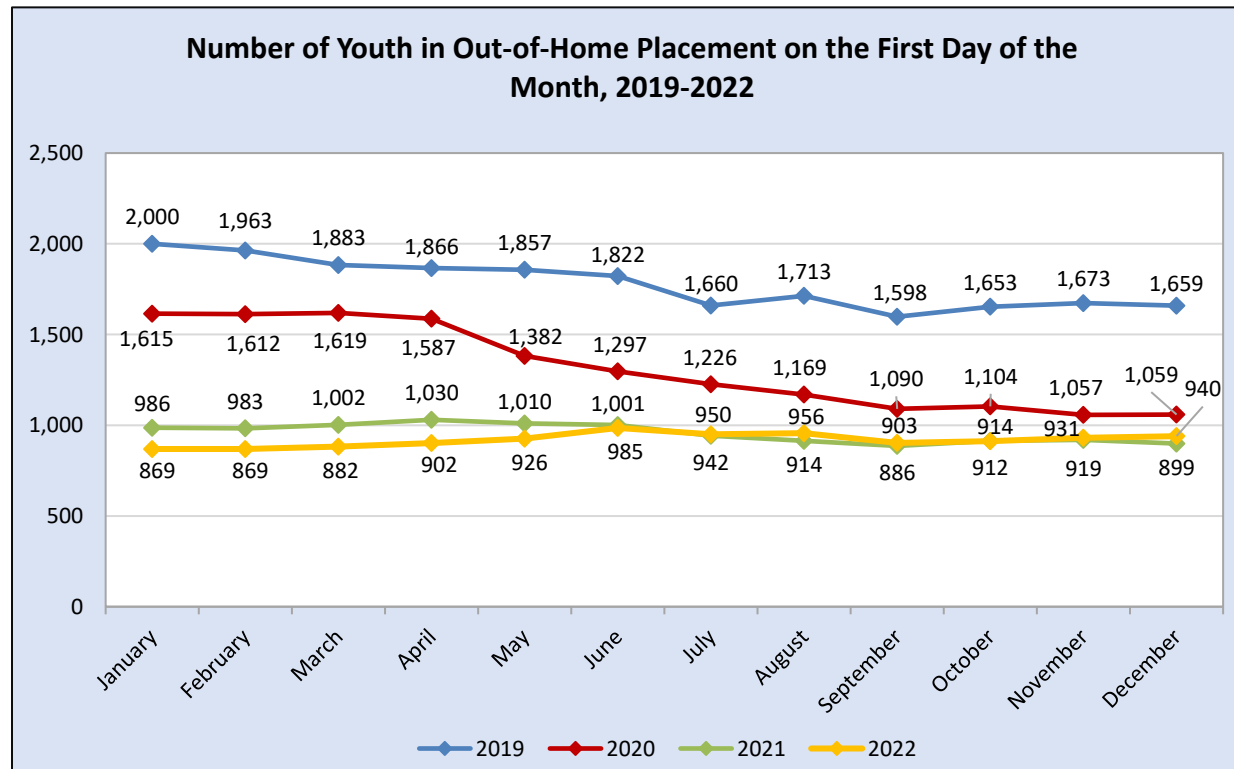

Overall, the 2020 pandemic months had 20.3% fewer releases from placement than the pandemic months of 2019, 46.4% fewer releases in the pandemic months of 2021 compared to the pandemic months of 2019, and 52.9% fewer releases in the pandemic months of 2022 compared to the pandemic months of 2019. Between 2020 and 2021, there were 32.8% fewer releases from placement in the pandemic months. Between 2021 and 2022, there were 12.1% fewer releases from placement in the pandemic months.

Number of Youth in Out-of-Home Placement on the First Day of the Month, 2019-2022

At the beginning of the pandemic (January through March 2020), approximately 1,600 youth were in out-of-home placement on the first day of each month. Starting in April 2020, however, the number of youth in out-of-home placement began to decrease. By December 2020, the number of youth in placement on the first day of the month decreased 34.4% (1,615 to 1,059). In 2021, the number of youth in placement on the first day of the month continued to drop and to remain well below both 2019 and 2020 figures for the same time period. This trend continued during the first half of 2022, with the number of youth in placement on the first day of the month being slightly lower than in 2021. Between July 2022 and December 2022, the number of youth in placement on the first day of the month exceeded the 2021 count, except for October 2022. There were, on average, only 957 youth in residential placement on the first day of each month in 2021 and 919 in 2022. During the pandemic months only, there were only 934 youth, on average, in residential placement on the first day of each month, compared to 946 youth in 2021, 1,219 in 2020, and 1,722 in 2019.

The number of youth in residential placement on any given day is a reflection of: (1) the number of youth ordered to placement (placement dispositions) and (2) the number of youth released from placement (release from placement dispositions). Trends in both of these variables impact how many youth are in placement at any given time. As previously noted in this section, the total number of placement dispositions and, to a lesser degree, the total number of releases from placement have been down since the onset of the pandemic. Ultimately, the trends with placement dispositions, not the trends with releases from placement, have driven the decline in the number of youth in placement at the beginning of each month.

Summary of Findings Related to COVID-19 Impact

Between 2019 and 2020, there were notable impacts on written allegations, court hearings and case processing, as well as out-of-home placements due to the COVID-19 pandemic. There were fewer written allegations to the juvenile justice system, and certain offenses decreased at a higher rate than others. In addition, the total number of court hearings held decreased, though the more notable impact of the pandemic was how these hearings were conducted. The system shifted from nearly all hearings being held in person to the majority occurring using advanced communication technology (phone and video). Finally, there were fewer placement dispositions, which ultimately resulted in fewer youth in placement.

In 2022, many, though not all, of these trends continued. First, while the number of written allegations to the system increased, the totals remained below 2019 figures. Second, the total number of court hearings held remained consistent, but the percentage conducted in person increased sharply, almost reaching pre-pandemic rates. Finally, the utilization of residential placement as a disposition continued to decline.

The Juvenile Court Judges' Commission will continue to monitor and track the impact the pandemic has had on the state's juvenile justice system.

Note: United States Census Bureau data was used to calculate population figures in this report. In previous years, these population figures were retrieved from The Centers for Disease Control. As such, the reader is cautioned when comparing population figures in this report to previous Pennsylvania Juvenile Court Annual Reports. At the time of publication of this report, the United States Census Bureau had not yet published 2022 population figures. Consequently, 2021 population figures were utilized, which can be retrieved here: <https://data.census.gov>.

Delinquency Allegations, 2018-2022

The information in this section includes those cases referred to juvenile probation with alleged delinquent offenses. Dispositions involving children alleged to be dependent are not included.

*United States Census Bureau data was used to calculate population figures in this report. In previous years, these population figures were retrieved from The Centers for Disease Control. As such, the reader is cautioned when comparing population figures in this report to previous Pennsylvania Juvenile Court Annual Reports. At the time of publication of this report, the United States Census Bureau had not yet published 2022 population figures. Consequently, 2021 population figures were utilized, which can be retrieved here: <https://data.census.gov>.

*Includes 119 secure detention admissions to the Out-of-State Detention Centers by the following counties: Allegheny (18); Beaver (12); Butler (5); Cambria (1); Delaware (1); Fayette (13); Greene (4); Indiana (2); Lycoming (6); Mercer (1); Washington (53); Westmoreland (2); and Wyoming (1).

Secure Detention Admissions by Section Code 206 and County Class, 2022

The following charts display the utilization of selected codes as a percentage of total secure detention admissions.

Code 206 The child presents extraordinary circumstances requiring secure detention to prevent him/her from absconding. (Such circumstances may include, but are not limited to: the child’s age, character, mental condition, ties to the community, the nature of the child’s family relationships, drug or alcohol addiction and substance abuse.)

Note: Counties that did not use Section Codes 206, 701, or did not have Unknown/Other codes are not included. Please refer to Appendix 13 for total county detention admissions.

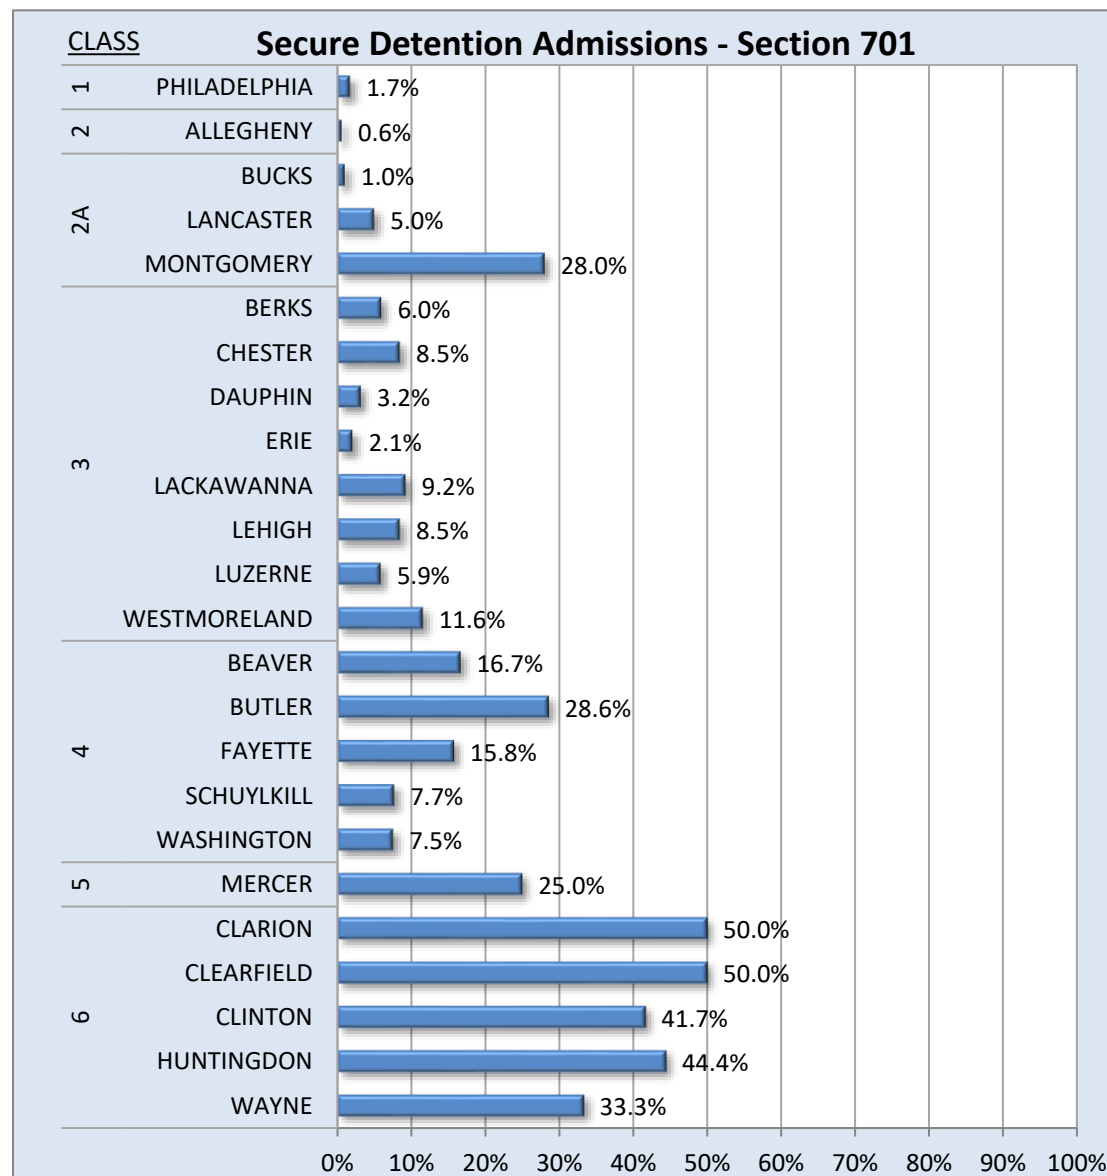

Note: Counties that did not use Section Codes 206, 701, or did not have Unknown/Other codes are not included.

Secure Detention Admissions by Section Code 701 and County Class, 2022

The following charts display the utilization of selected codes as a percentage of total secure detention admissions.

Code 701 Circumstances under which secure detention may be authorized on the basis of extraordinary and exceptional circumstances.

Note: Counties that did not use Section Codes 206, 701, or did not have Unknown/Other codes are not included. Please refer to Appendix 13 for total county detention admissions.

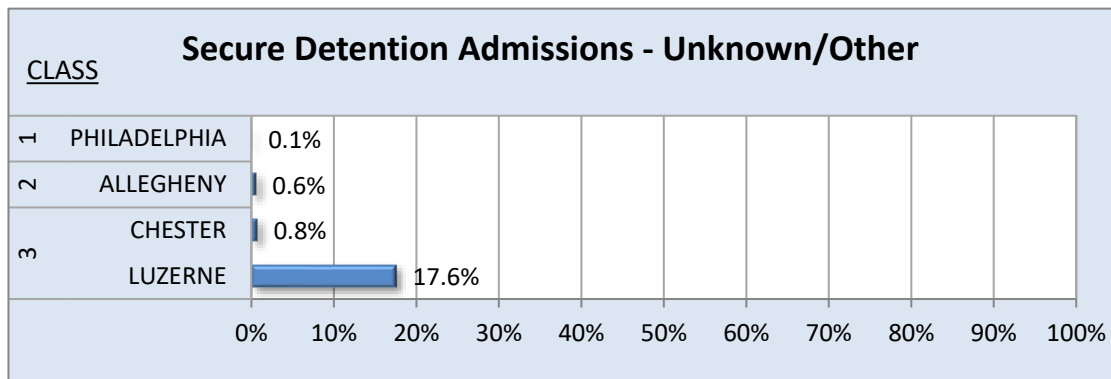

Secure Detention Admissions by Unknown/Other Code and County Class, 2022

The following charts display the utilization of selected codes as a percentage of total secure detention admissions.

Unknown/Other The Unknown/Other category, as shown in this report, indicates that in the majority of cases the admission occurred via a signed court order during a hearing.

Note: Counties that did not use Section Codes 206, 701, or did not have Unknown/Other codes are not included. Please refer to Appendix 13 for total county detention admissions.

Delinquency Dispositions, 2018-2022

The information in this section includes those cases referred to juvenile probation with alleged delinquent offenses. Disposition reviews and Placement reviews, and dispositions involving children alleged to be dependent are not included.

Note: Out-of-Home Placements do not include detention and shelter stays and diagnostic placements.

Glossary

Advanced Communication Technology: Any communication equipment that is used as a link between parties in physically separate locations and includes, but is not limited to, systems providing for two-way simultaneous audio-visual communication, closed circuit television, telephone and facsimile equipment, and electronic mail.

Delinquency Allegation: The document completed by a law enforcement officer or other person that is necessary to allege a juvenile has committed an act of delinquency. It is synonymous with a “court referral,” though written allegation is the preferred language.

Dependency Allegation: The document alleging that a child is without proper parental care or control, subsistence, education as required by law, or other care or control necessary for his/her physical, mental, or emotional health.

Detention: A secure holding facility utilized to detain a juvenile temporarily. The term detention when used in this report does not include shelter care.

Disposition: The action/decision implemented, or treatment plan decided upon by a juvenile court in response to a delinquency allegation. This is similar to the sentence imposed in criminal court.

Disposition Review Hearing: Hearing that must occur every 6 months for juveniles under court supervision for the purpose of ensuring that the juvenile is receiving necessary treatment and services and that the terms and conditions of the disposition are being met. In this report, disposition review hearings involving out-of-home placement are referred to as placement review hearings (see definition below).

Juvenile: A person who has attained ten years of age and is not yet twenty-one years of age who is alleged to have, upon or after the juvenile’s tenth birthday, committed a delinquent act before reaching eighteen years of age or who is alleged to have violated the terms of juvenile probation prior to termination of juvenile court supervision.

Out-of-Home Placement (or Placement): An out-of-home program utilized as a juvenile court disposition. Included in this definition are placements into group homes, general residential programs, secure residential care, foster care, drug and alcohol programs, residential treatment facilities (RTF), Youth Development Centers (YDC), and Youth Forestry Camps (YFC).

Placement Review Hearing: Hearing that must occur every 6 months for juveniles residing in out-of-home placement for the purpose of ensuring that the juvenile is receiving necessary treatment and services and that the terms and conditions of the placement disposition are being met.
