Dependency Dispositions, 2003

In 1991, the Commission began collecting information on dependency cases that are processed by juvenile probation departments. These figures do not reflect the total number of dependency cases in the Commonwealth, nor do they represent the total number of dependency cases handled by juvenile probation departments. A dependency case is defined as a new referral that is processed by the juvenile probation department and that does not have accompanying delinquency allegations.

Only the counties that report dependency dispositions are shown in the tables in this section.
