Foreword

The Juvenile Court Judges' Commission (JCJC) is pleased to present the fifth edition of its Juvenile Court Annual Report. Prior to the publication of the 2017 report, Pennsylvania juvenile court statistics were presented in a yearly series entitled Pennsylvania Juvenile Court Dispositions. The series, which ran from 1972 to 2016, focused primarily on juvenile court dispositions.

Beginning in 2017, the annual report has been enhanced to include additional juvenile court statistics to better measure and quantify work across the state by juvenile justice professionals. Specifically, information related to delinquency allegations received by each juvenile probation department is included. Key indicators including the volume of allegations received, allegation sources, and the most serious alleged offense by youth are presented. This information is critical to understanding who is entering Pennsylvania's juvenile court system. It is anticipated this report will continue to evolve over time and will eventually include additional measures of juvenile justice workflow in Pennsylvania. Juvenile delinquency dispositions continue to be summarized in this report, as in the past.

Beginning in 2019, the detention data within this report was extracted directly from the Pennsylvania Juvenile Case Management System (PaJCMS). Prior to 2019, this data was received from juvenile detention centers and included a significant number of unreported detention codes. By using data taken directly from PaJCMS, the number of unreported detention section codes decreased from 16.0% in 2018 to 0.2% in 2021, providing a more accurate reflection of secure detention utilization.

The format and presentation of the data in this report are intended to help summarize various juvenile court trends within the Commonwealth. In addition to the graphs and charts, narrative is included to help readers more quickly recognize various statewide trends, as well as highlight information not reflected in the visual displays. The data within this year's report are generally organized in a manner that reflect the chronological processing of juvenile court delinquency cases, from allegation through disposition. Some of the data are organized and presented in graphs by county class to help readers make comparisons across counties of similar size and demographic composition. Raw data for each of Pennsylvania's 67 counties are available within the appendices.

This year, a new chapter dedicated entirely to longitudinal juvenile justice trends and youth outcomes has been added to the report. As Pennsylvania systematically integrates data-driven policies and practices at every stage of the juvenile justice system, the key metrics reported here help to demonstrate the impact of such initiatives over time at key decision points. The data utilized in this new chapter come from a variety of sources, including the Pennsylvania State Police, the Department of Human Services, and the Administrative Office of Pennsylvania Courts.

The Annual Report generally describes trends and patterns, without seeking to interpret them—though there are some exceptions made in this year's report given the ongoing effects of COVID-19 on the juvenile court system. The goal of Chapter 4 in this year's report is to further analyze and explain how the pandemic affected the juvenile justice system. Therefore, hypotheses for the observed trends are discussed when they seem reasonable based on the data and other evidence or knowledge about how the juvenile justice system functions.

The JCJC would like to extend its deepest appreciation to the juvenile courts and juvenile probation departments across the Commonwealth. Without their support, this report would not be possible. It is with great pleasure that we dedicate this report to the judges, probation officers, victim advocates, district attorneys, defenders, service providers, and other professionals who work on a daily basis in the Pennsylvania juvenile court system.

Respectfully submitted,

Richard D. Steele
Executive Director

Honorable Kim Berkeley Clark
Chair

Chapter 1 - Incoming Cases

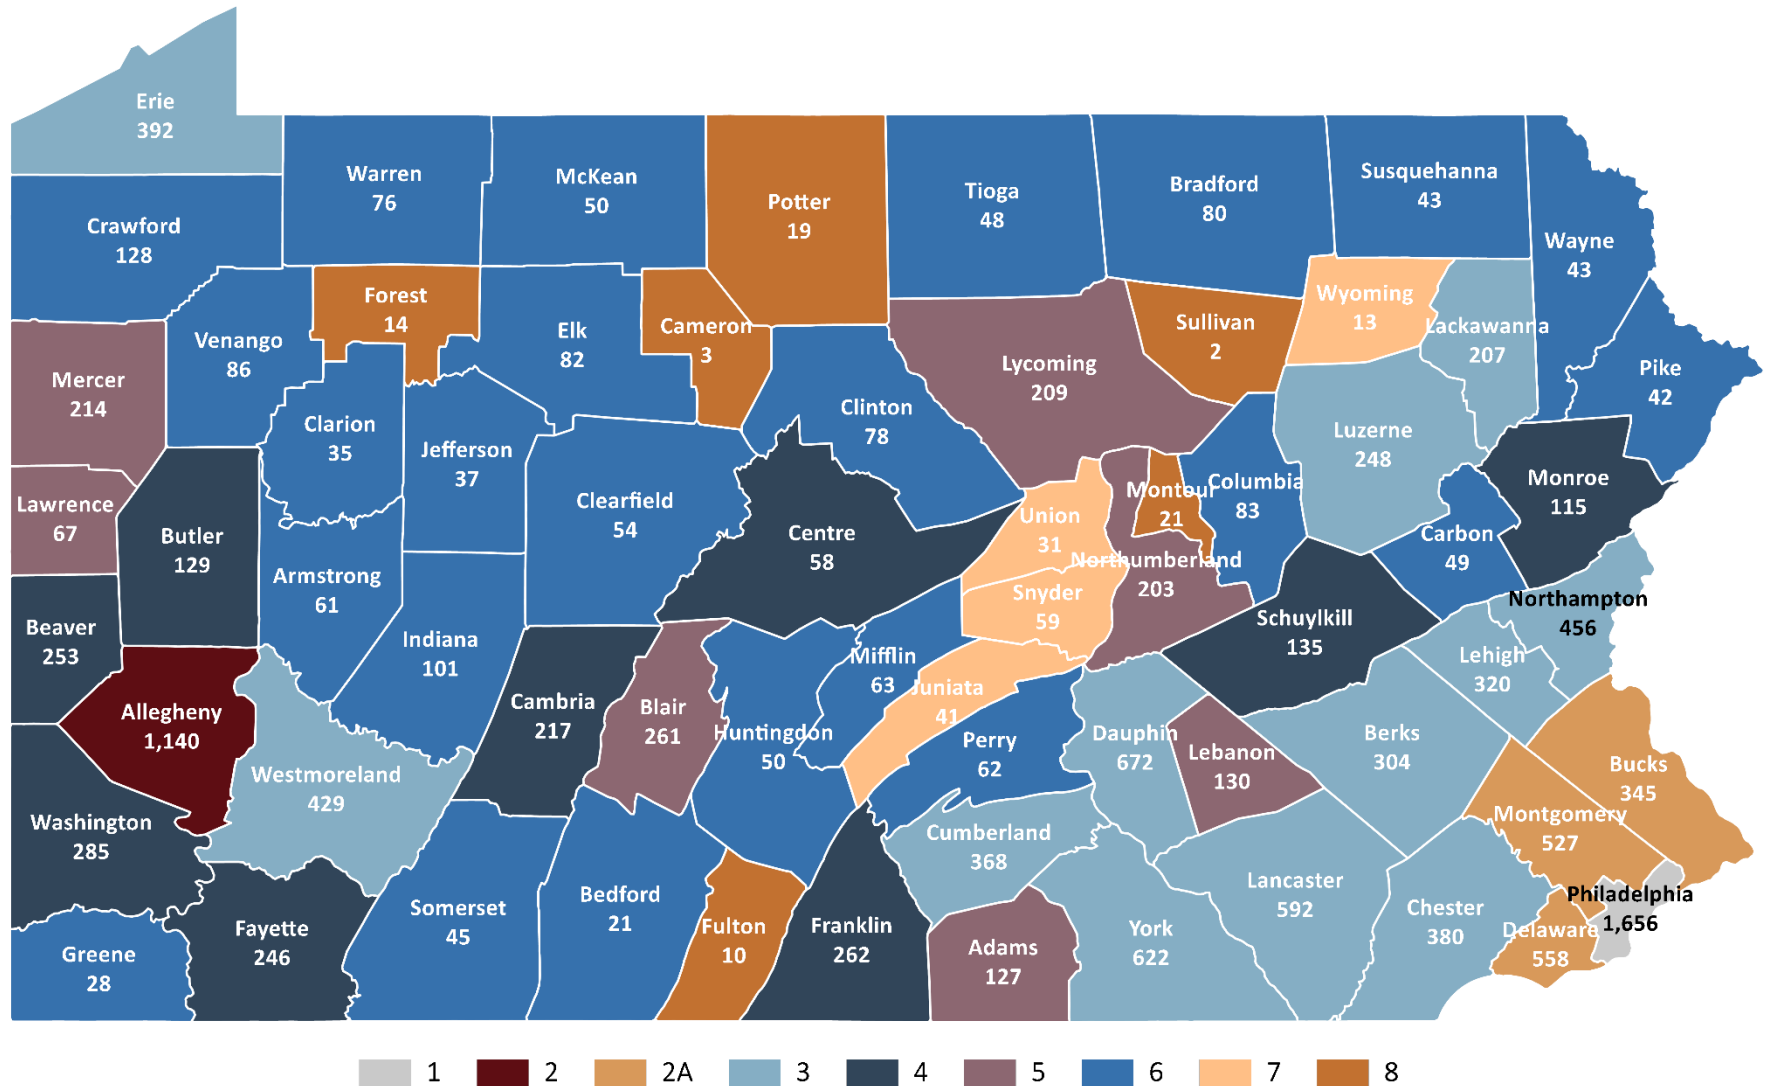

Section 1: Delinquency Allegations

1. The unit of count for this section is a written allegation. A written allegation is the document submitted by a law enforcement officer or other person to allege a juvenile has committed an act of delinquency. Multiple allegations may result in a single disposition. Allegations are synonymous with the term 'case' in the Pennsylvania Juvenile Case Management System (PaJCMS).
2. Written allegations in this section were filed with a juvenile probation department between January 1, 2021, and December 31, 2021.
3. In Pennsylvania, juvenile court jurisdiction extends over individuals who have been alleged to have committed a delinquent act, as defined by 42 Pa. C. S. § 6301 et seq., on or after their tenth birthday and prior to reaching eighteen years of age. Juvenile court supervision can extend until the individual is twenty-one years of age if the individual is currently under supervision. Age, for purposes of this section, was calculated from the juvenile's date of birth to the date of the offense in the written allegation.
4. Data for this report were compiled from PaJCMS on March 3, 2022. Any delinquency allegations received by a juvenile probation department in 2021, and entered into PaJCMS after this date, will not be included in these statistics. The numbers published in this report, therefore, may not reflect current numbers within the system.
5. Finally, the reader should be cautioned that, beginning in 2020, figures were likely impacted by the COVID-19 pandemic. The pandemic's effect on the juvenile justice system is examined further in Chapter 4 – The Impact of COVID-19 on the Pennsylvania Juvenile Justice System.

2021 Delinquency Allegations

2021 Delinquency Allegations by County Class

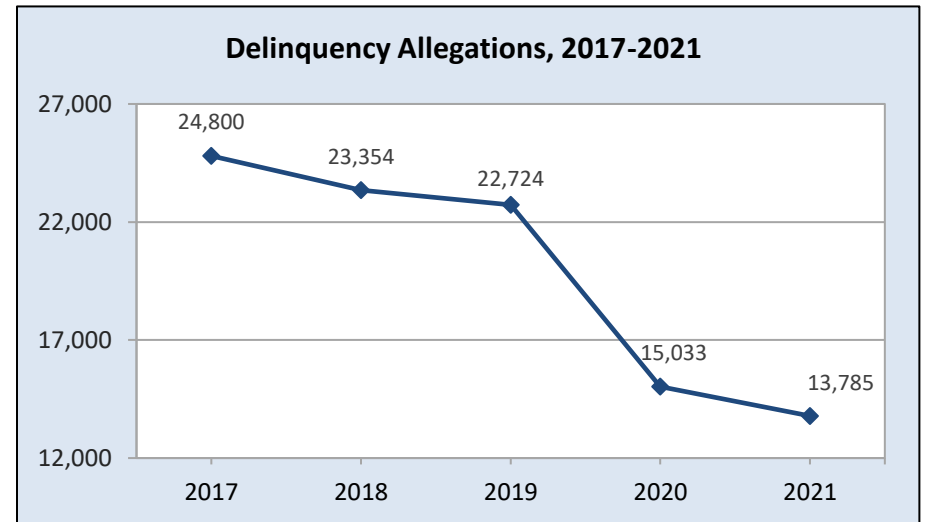

Note: 2021 County Class reflects the county status during year 2021. County Class data retrieved from County Commissioners Association of Pennsylvania at <https://www.pacounties.org/who-we-are/pennsylvania-county-by-class>.

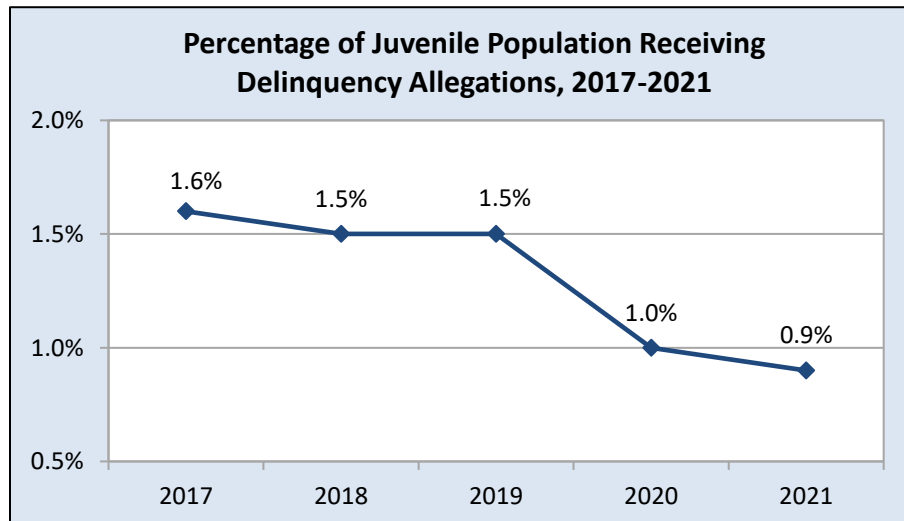

Delinquency Allegations, 2017-2021

There were 13,785 delinquency-related allegations in Pennsylvania during 2021. This represents an 8.3% decrease from 2020 to 2021, and a 44.4% decrease from 2017 to 2021. The major decline in allegations over the last two years is almost surely the result of the COVID-19 pandemic. The pandemic's effect on allegation patterns is examined further in Chapter 4 - The Impact of COVID-19 on the Pennsylvania Juvenile Justice System.

Over one-third (34.0%) of the total allegations received in 2021 occurred in five jurisdictions (see map on page 3). These jurisdictions include: Allegheny, Dauphin, Lancaster, Philadelphia, and York.

Percentage of Juvenile Population Receiving Delinquency Allegations, 2017-2021

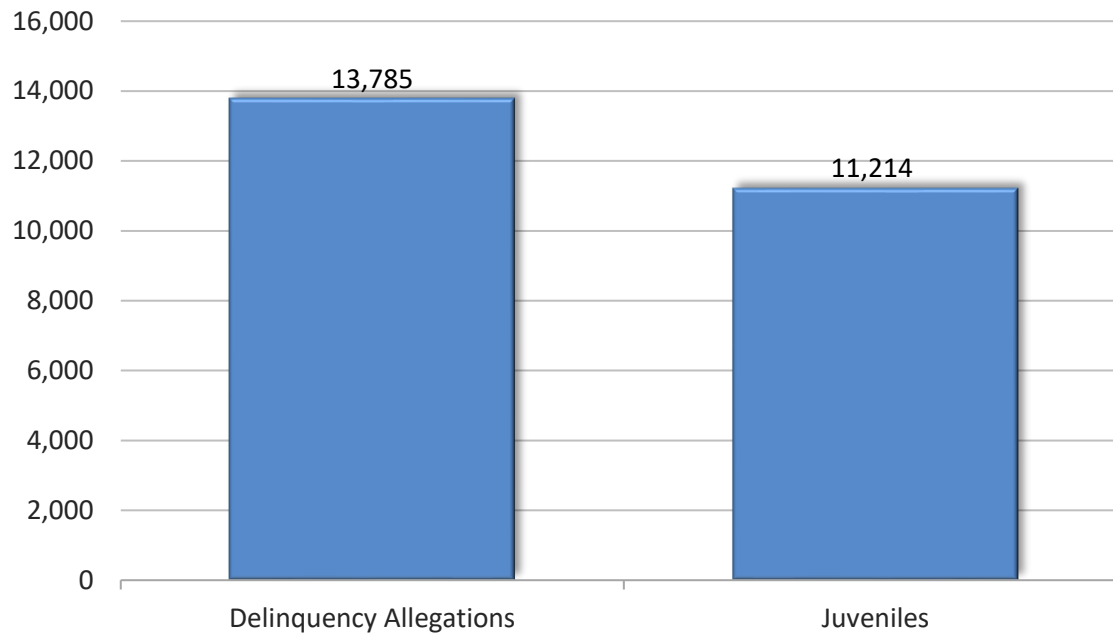

Between 2017 and 2021, the rate of juvenile delinquency allegations as a percent of the Pennsylvania juvenile population aged 10-17 declined by 43.8%, from 1.6% to 0.9%. Please refer to Appendix 3 for juvenile population figures.

Delinquency Allegations and Juvenile Totals, 2021

There were 11,214 juveniles accounting for 13,785 delinquency allegations in Pennsylvania in 2021. This equates to an average of 1.23 delinquency allegations per juvenile. The range among counties of delinquency allegations to alleged delinquent juveniles in 2021 was 1.0 to 1.61 (see Appendix 3).

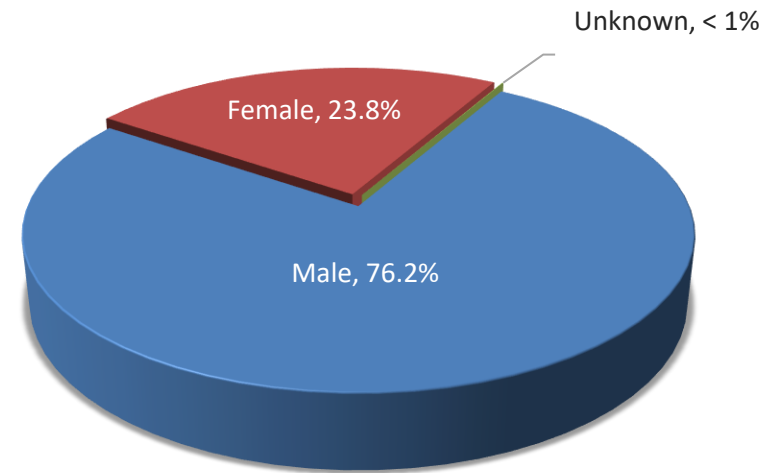

Delinquency Allegations and Juvenile Totals, 2021

Delinquency Allegations by Gender, 2021

Juvenile delinquency allegations in Pennsylvania primarily involve males. In 2021, approximately three in four (76.2%) delinquency allegations submitted to juvenile probation departments involved males, while approximately one in four (23.8%) involved females.

Delinquency Allegations by Gender, 2021

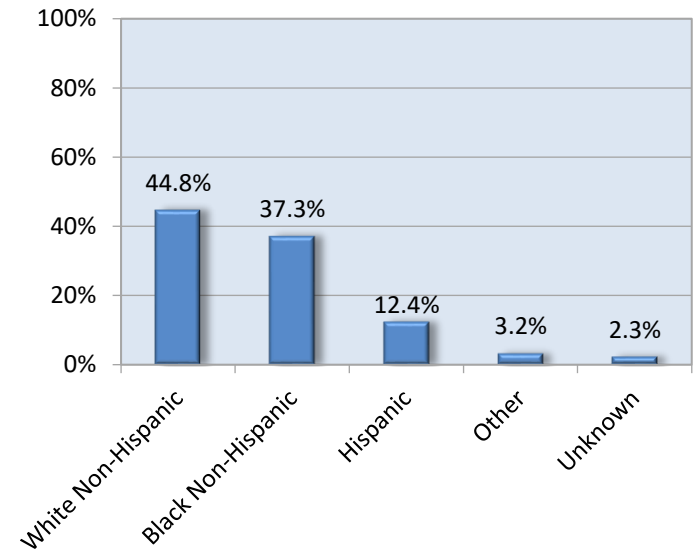

Delinquency Allegations by Race and Ethnicity, 2021

In 2021, White Non-Hispanic youth represented the largest racial/ethnic category for all delinquency allegations.

However, in comparison to the racial/ethnic distribution of all youth in Pennsylvania aged 10-17, the representation of Black Non-Hispanic youth is disproportionate: 14.4% of the total population versus 37.3% of all delinquency allegations*.

When excluding Philadelphia County and Allegheny County, Black Non-Hispanic youth represent 8.7% of the youth population, but 28.3% of all delinquency allegations. See Appendix 4 for the number of delinquency allegations by race and ethnicity for each county.

Delinquency Allegations by Race and Ethnicity, 2021

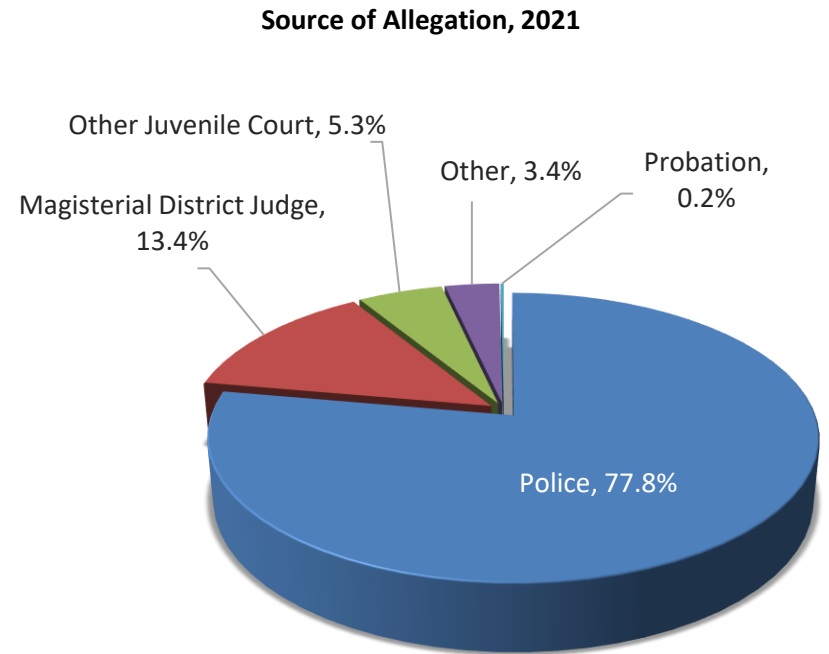

*2020 Juvenile Population Ages 10 to 17 can be found on page 32.

Source of Allegation, 2021

Police and Magisterial District Judges were the primary sources of delinquency allegations in 2021 – 77.8% and 13.4%, respectively.

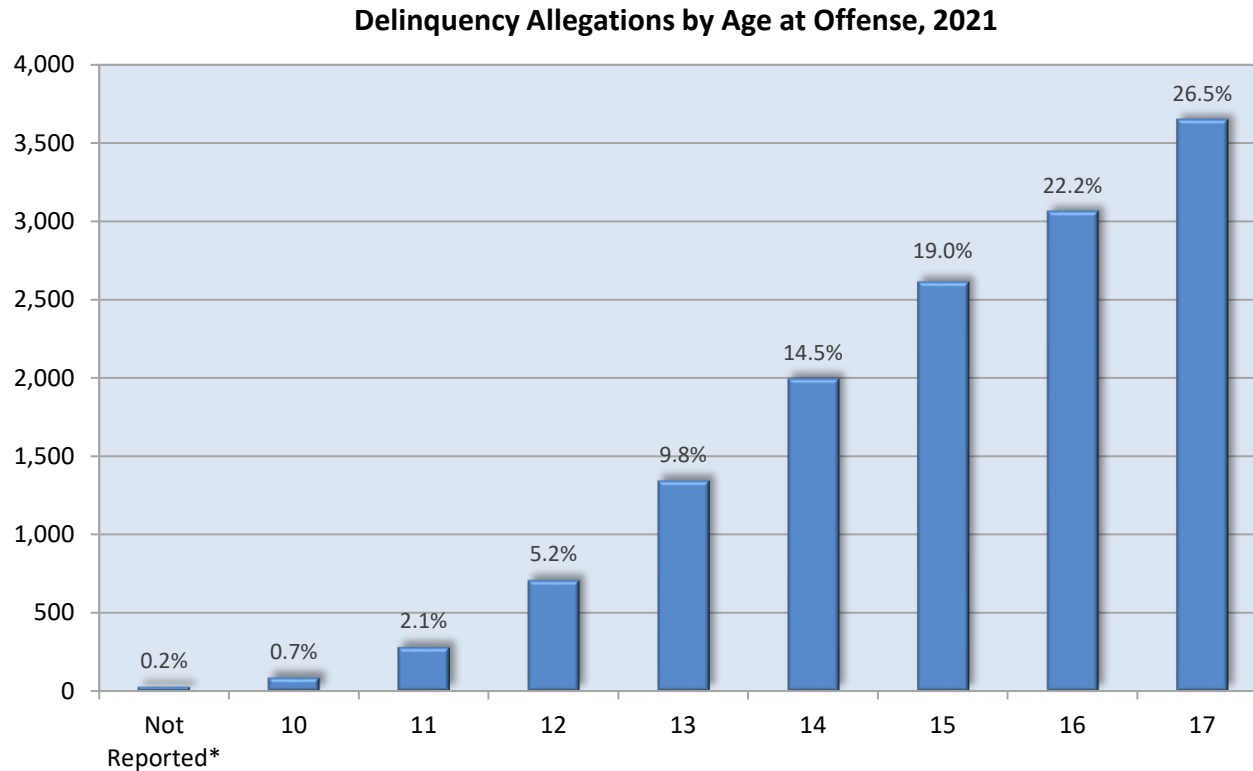

Source of Allegation	Count	Percent
Police	10,721	77.8%
Magisterial District Judge	1,850	13.4%
Other Juvenile Court	726	5.3%
Other	463	3.4%
Probation	25	0.2%
Total	13,785	100.0%

Note: The category "Other" includes delinquency allegations received from schools, social agencies, relatives, and cases transferred from criminal court.

Delinquency Allegations by Age at Offense, 2021

Seventeen-year-olds accounted for 26.5% of all juvenile delinquency allegations in 2021, representing the most allegations for any age group. Juveniles aged sixteen accounted for 22.2% of all juvenile delinquency allegations, while fifteen-year-olds accounted for 19.0% of all juvenile delinquency allegations.

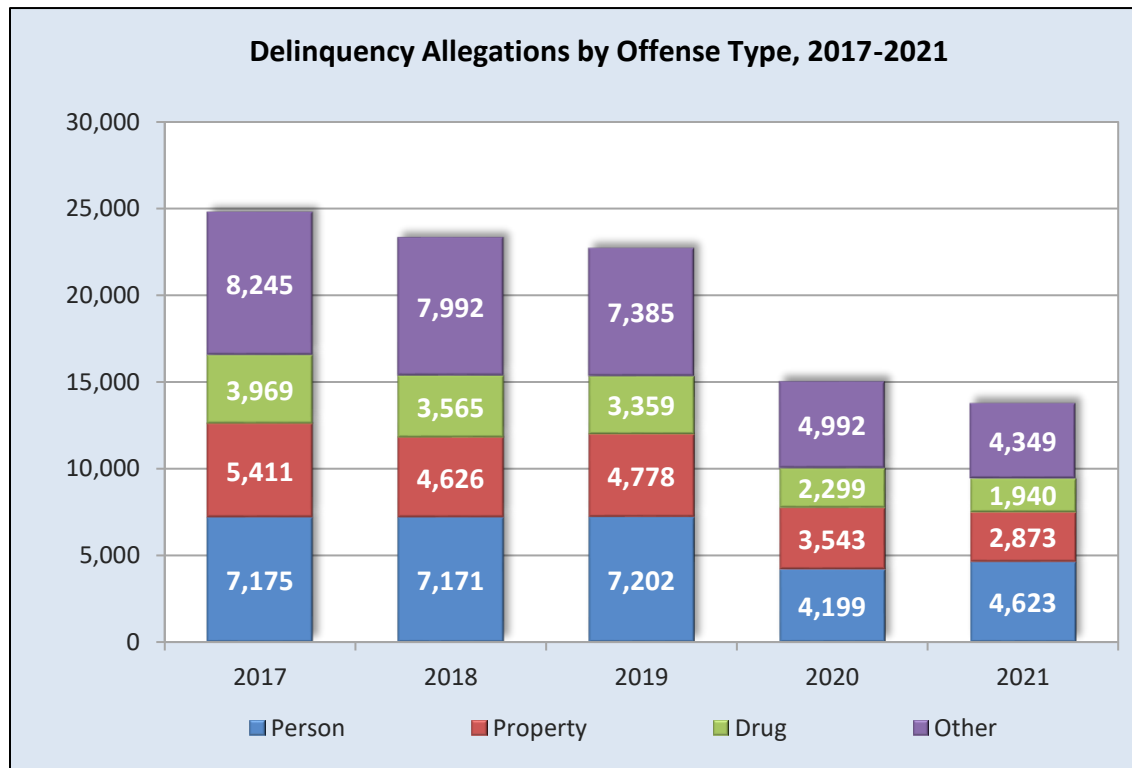

*Includes inter-state transfers and MDJ referrals for non-payment of fines where the age at time of offense is not reported.

Note: Age is calculated at the time of the alleged delinquent offense.

Delinquency Allegations by Offense Type, 2017-2021

The following information was compiled based on the most serious alleged offense for each juvenile delinquency allegation received in Pennsylvania between 2017 and 2021. That is, only one offense per delinquency allegation is counted in the figures below. These alleged offenses are broken into four offense categories: Person, Property, Drug, and “Other.”

Parallel to the large decline in allegations from 2019 to 2020, there were also large decreases in the number of offenses per category. However, from 2020 to 2021, the percentage decreases in the number of offenses per category were more in line with pre-pandemic percentage decreases. Between 2020 and 2021, the number of allegations received for Property offenses decreased at the highest rate (18.9%), followed by Drug (15.6%), and “Other” (12.9%). Person offenses had an increase of 10.1% from 2020 to 2021.

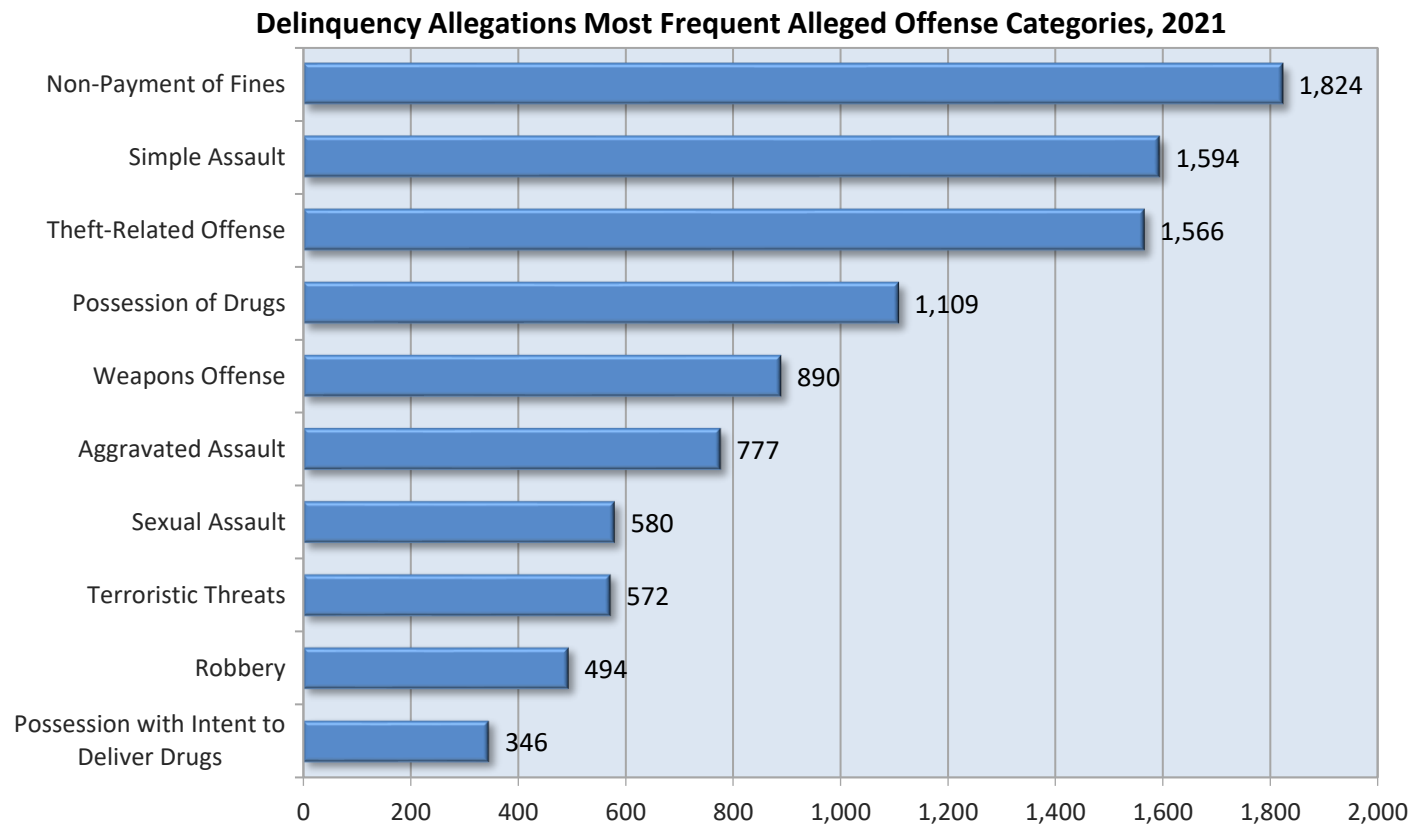

Note: The “Other” offenses category includes but is not limited to: Public Order offenses such as Disorderly Conduct or Weapon on School Property; Firearms Offenses; and Certifications from the minor judiciary that a juvenile failed to comply with a lawful sentence imposed for a summary offense.

Delinquency Allegations Most Frequent Alleged Offense Categories, 2021

The following information was compiled based on the most serious alleged offense for each juvenile delinquency allegation received in Pennsylvania in 2021. That is, only one offense per delinquency allegation is counted in the figures below.

Non-payment of fines, simple assault, theft-related offenses, and possession of drugs were the most frequently occurring alleged offenses.

Note: Theft-related offenses include: theft, theft by unlawful taking, theft by deception, theft by extortion, theft by receiving stolen property, theft of services, and theft from a motor vehicle. Weapons offenses include: Firearm-related offenses, possession of an instrument of crime, and possession of weapon on school property.

Section 2: Secure Detention

In accordance with the Juvenile Court Judges' Commission's Standards Governing Secure Detention, all counties report their secure detention admissions to the Commission. Beginning in 2019, the detention data was extracted from the Pennsylvania Juvenile Case Management System (PaJCMS). Prior to 2019, this data was extracted from the secure detention database at the Juvenile Court Judges' Commission's Center for Juvenile Justice Training and Research, which was populated with data reported directly from juvenile detention centers each month. With this change, there has been a large decrease in the number of Unknown/Other secure detention section codes, as noted on page 16.

When interpreting the data contained in these tables, the reader should note the following:

- 1) The unit of count is the admission of a juvenile to a secure detention center.
- 2) A juvenile who is admitted to a secure detention center and subsequently transferred to another secure detention center without release is counted as two admissions.

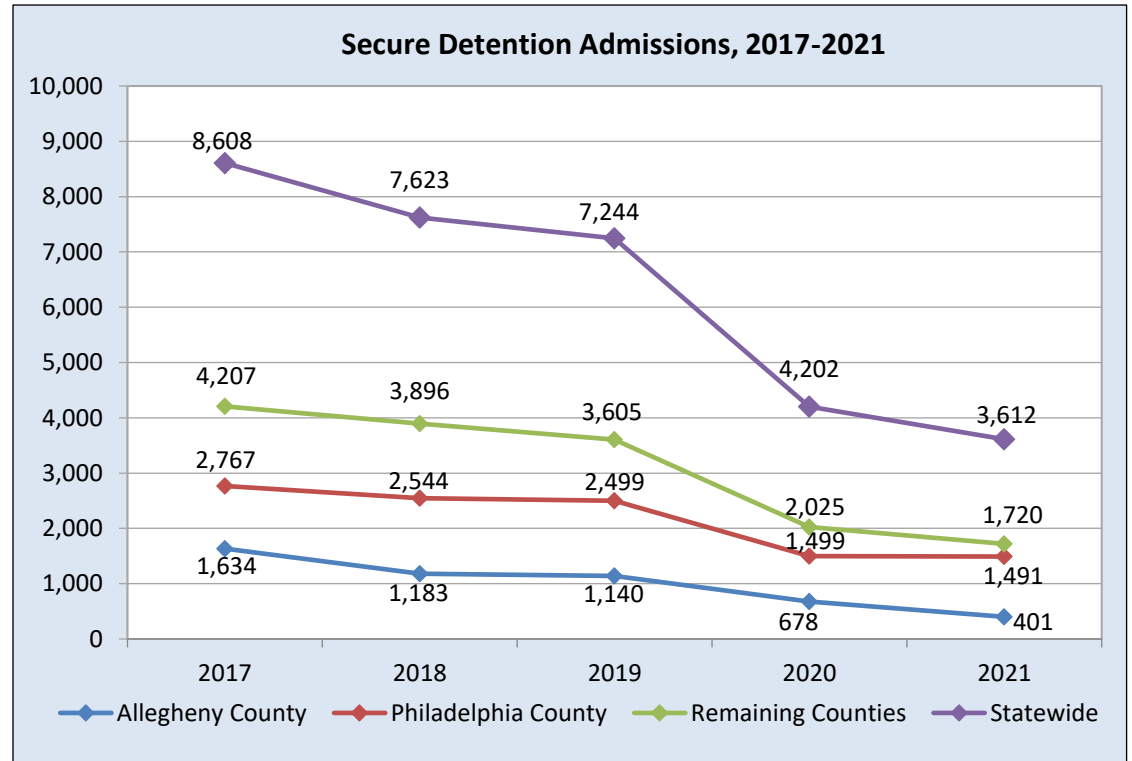

Codes Related to JCJC Standards Governing the Use of Secure Detention Under the Juvenile Act

Each month, all juvenile detention centers report a Statement of Facts and Reasons that must accompany every probation-authorized admission to secure detention. Below are the Section Codes related to this process.

- 100 Codes* Circumstances under which secure detention may be authorized on the basis of an alleged offense or on the basis of an alleged offense and the child's current status with the court or prior record.
- 200 Codes* Circumstances under which secure detention may be authorized on the basis of a child's status as an absconder or fugitive; on the basis of a child's record of failing to appear at previous juvenile proceedings; or because of extraordinary circumstances which require secure detention to prevent a child from absconding.
- 300 Codes* Circumstances under which secure detention may be authorized on the written request of the child or child's attorney.
- 400 Codes* Circumstances under which secure detention may be ordered pending disposition, subsequent to a finding that a child committed a delinquent act or is a delinquent child.
- 500 Codes* Circumstances under which secure detention may be ordered following disposition pending transfer to placement.
- 600 Codes* Circumstances under which secure detention may be authorized on the basis of the child's status, pending or subsequent to a disposition review proceeding.
- Code 701* Circumstances under which secure detention may be authorized on the basis of extraordinary and exceptional circumstances.

Secure Detention Admissions, 2017-2021

Detention admissions have declined statewide since 2017, with a 58.0% overall decrease and a 14.0% decrease from 2020 to 2021. Allegheny County detention admissions decreased by 40.9% from 2020 to 2021, and Philadelphia County admissions decreased by 0.5% during the same time period. Overall statewide admissions, excluding Allegheny and Philadelphia, decreased by 15.1% from 2020 to 2021. Philadelphia County and Allegheny County account for 41.3% and 11.1%, respectively, of all secure detention admissions.

PERCENTAGE CHANGE OF DETENTION ADMISSIONS				
	2017-2018	2018-2019	2019-2020	2020-2021
STATEWIDE	-11.4%	-5.0%	-42.0%	-14.0%
ALLEGHENY COUNTY	-27.6%	-3.6%	-40.5%	-40.9%
PHILADELPHIA COUNTY	-8.1%	-1.8%	-40.0%	-0.5%
REMAINING COUNTIES	-7.4%	-7.5%	-43.8%	-15.1%

Length of Stay in Secure Detention, 2021

In 2021, the statewide median length of stay in secure detention was 14.0 days, with no change from 2020. The table below shows the median length of stay by county, from greatest to least number of days. Multiple counties with identical length of stay are listed alphabetically. This data, sorted by greatest to least number of admissions, can be found in Appendix 8.

*TOTAL	3,545	14.0

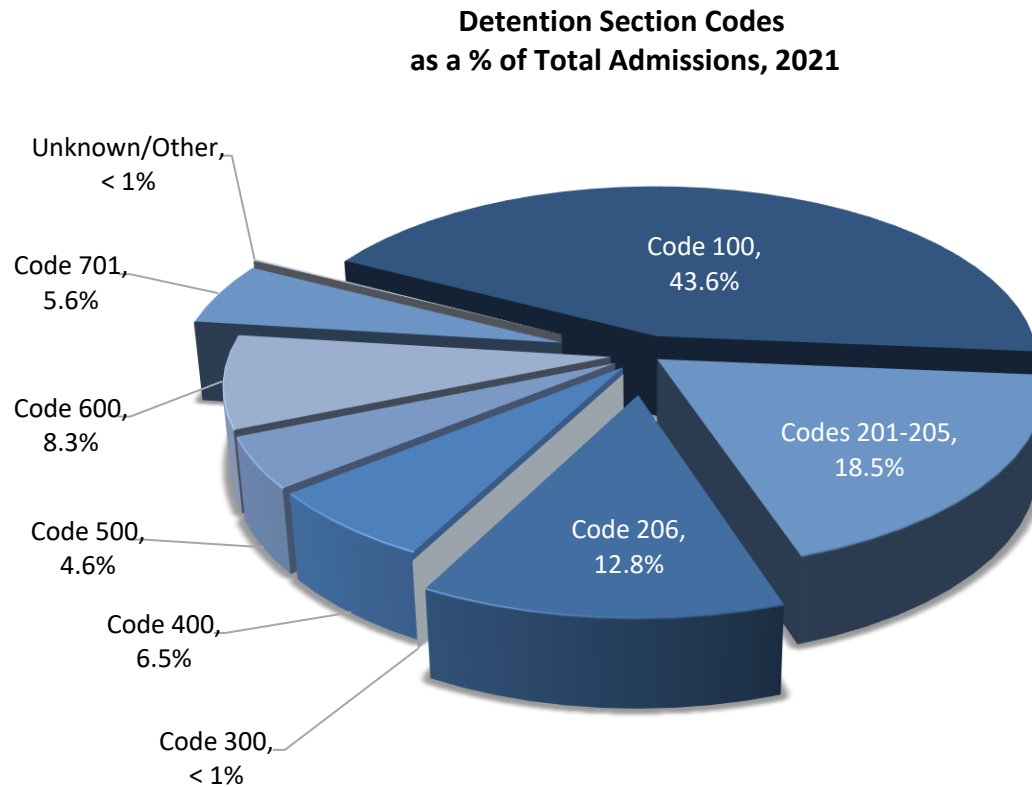

*Includes 110 secure detention admissions to the Jefferson Detention Center in Ohio by the following counties: Armstrong (1); Beaver (11); Butler (1); Crawford (1); Dauphin (1); Fayette (3); Greene (1); Lawrence (1); Lycoming (6); Somerset (1); Washington (82); and Westmoreland (1).

Note: This table only includes those admissions for which a date of release was reported.

Secure Detention Admissions by Standard Section Codes, 2021

In 2021, the majority of secure detention admissions were authorized under the 100 and 200 Codes – 43.6% and 31.3%, respectively. This trend has remained constant since 2017.

Special attention is given to the utilization of Codes 206, 701, and Unknown/Other. In instances where secure detention is authorized under Codes 206 or 701, the juvenile probation officer is required to provide a detailed written explanation of the reasons that necessitate secure detention. These codes were intended to be utilized in limited circumstances where the other codes are not applicable.

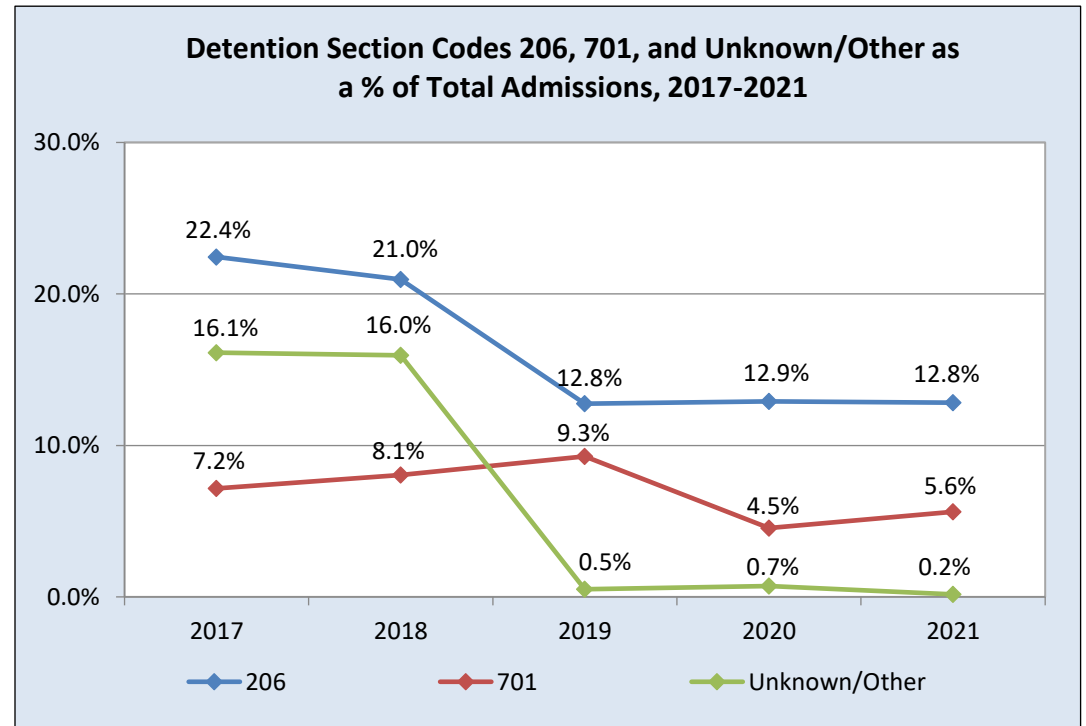

Secure Detention Admissions by Standard Section Codes, 2017-2021

The utilization of Codes 206, 701, and admissions with an Unknown/Other Code accounted for 18.6% of all secure detention admissions in 2021. The utilization of Code 206 decreased from 12.9% in 2020 to 12.8% in 2021, as did the Unknown/Other Codes* from 0.7% to 0.2% for that same time period. The use of Code 701 increased from 4.5% in 2020 to 5.6% in 2021.

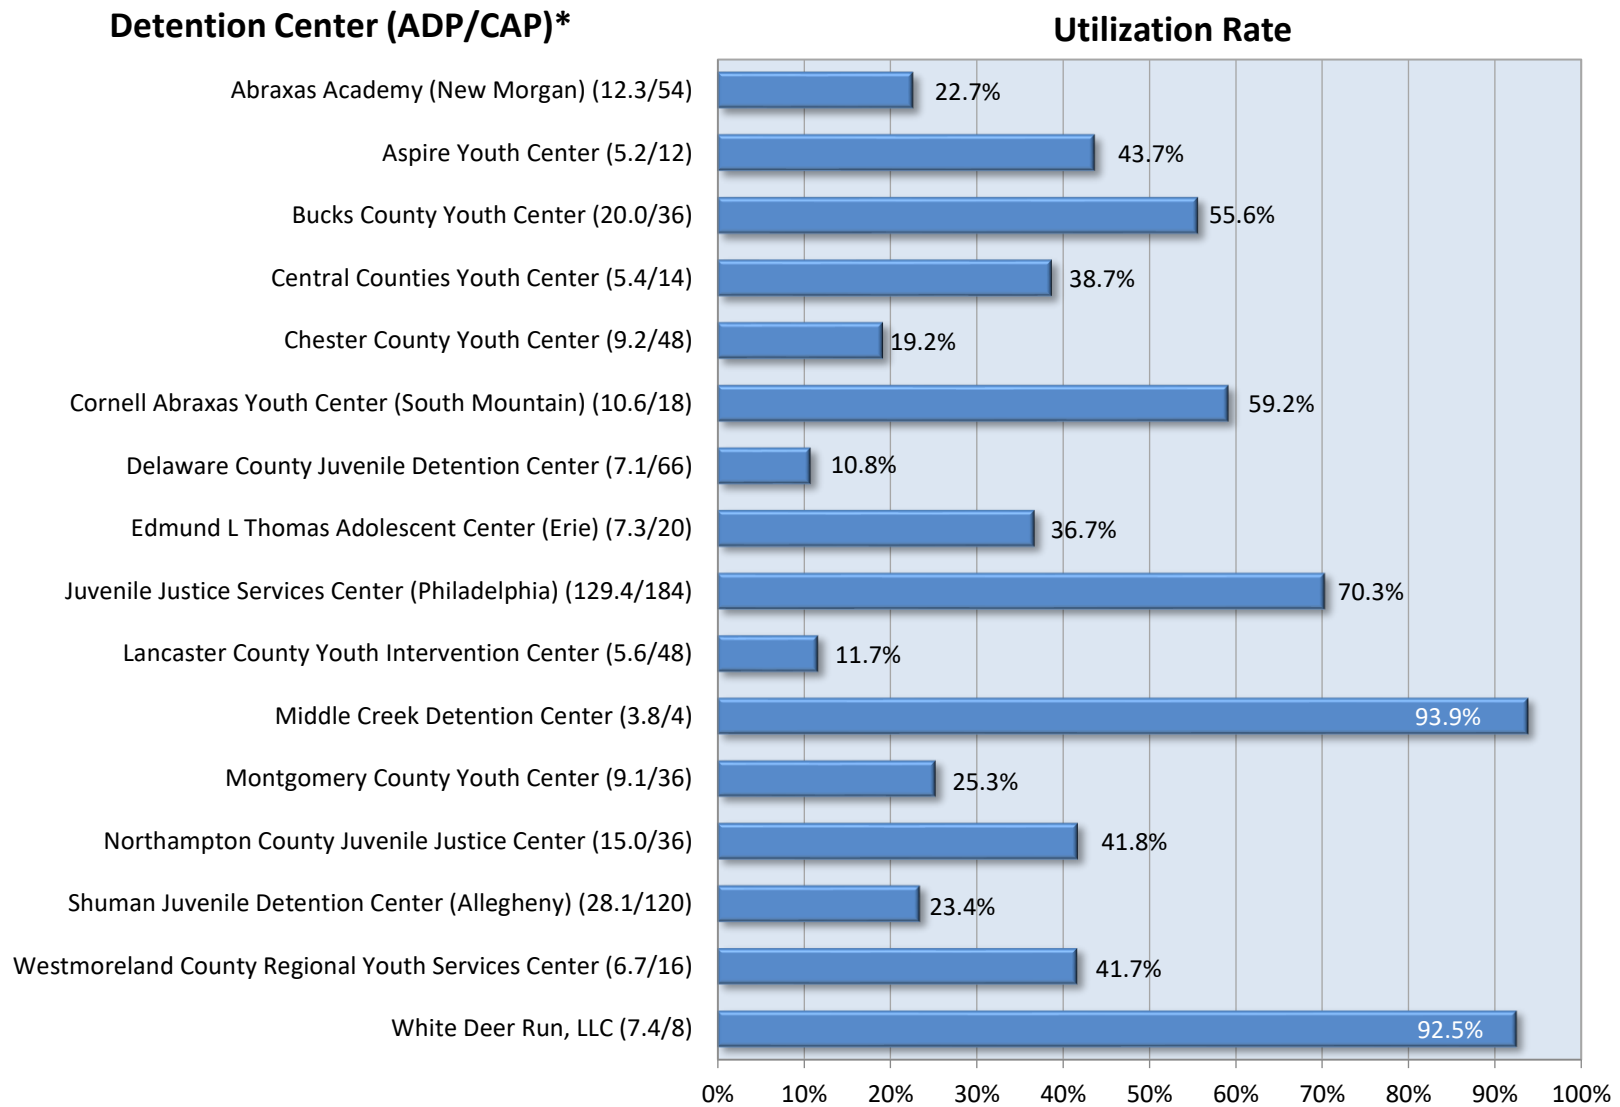

Code 206 - The child presents extraordinary circumstances requiring secure detention to prevent him/her from absconding. (Such circumstances may include, but are not limited to: the child's age, character, mental condition, ties to the community, the nature of the child's family relationships, drug or alcohol addiction, and substance abuse.)

Code 701 - Circumstances under which secure detention may be authorized on the basis of extraordinary and exceptional circumstances.

**Unknown/Other - As reported in the secure detention introduction, the 2021 secure detention admission data was extracted from PaJCMS. This data was validated for accuracy, which resulted in the Unknown/Other code decrease. For the majority of 2021 cases, the county reported the detention admissions were handled via a court order during a hearing, and no secure detention code was appropriate under these circumstances.*

Utilization Rates for Pennsylvania Juvenile Detention Centers, 2021

*A center's utilization rate is equal to its average daily population (ADP) divided by the licensed bed capacity (CAP). Average daily population (ADP) is calculated by the sum of all utilized bed days divided by the number of days in the reporting period. The rates on the bar chart are the actual calculated rates and may not match a rate calculated by the displayed ADP due to rounding of the ADP number. The licensed bed capacity may be different from the staffed bed capacity.

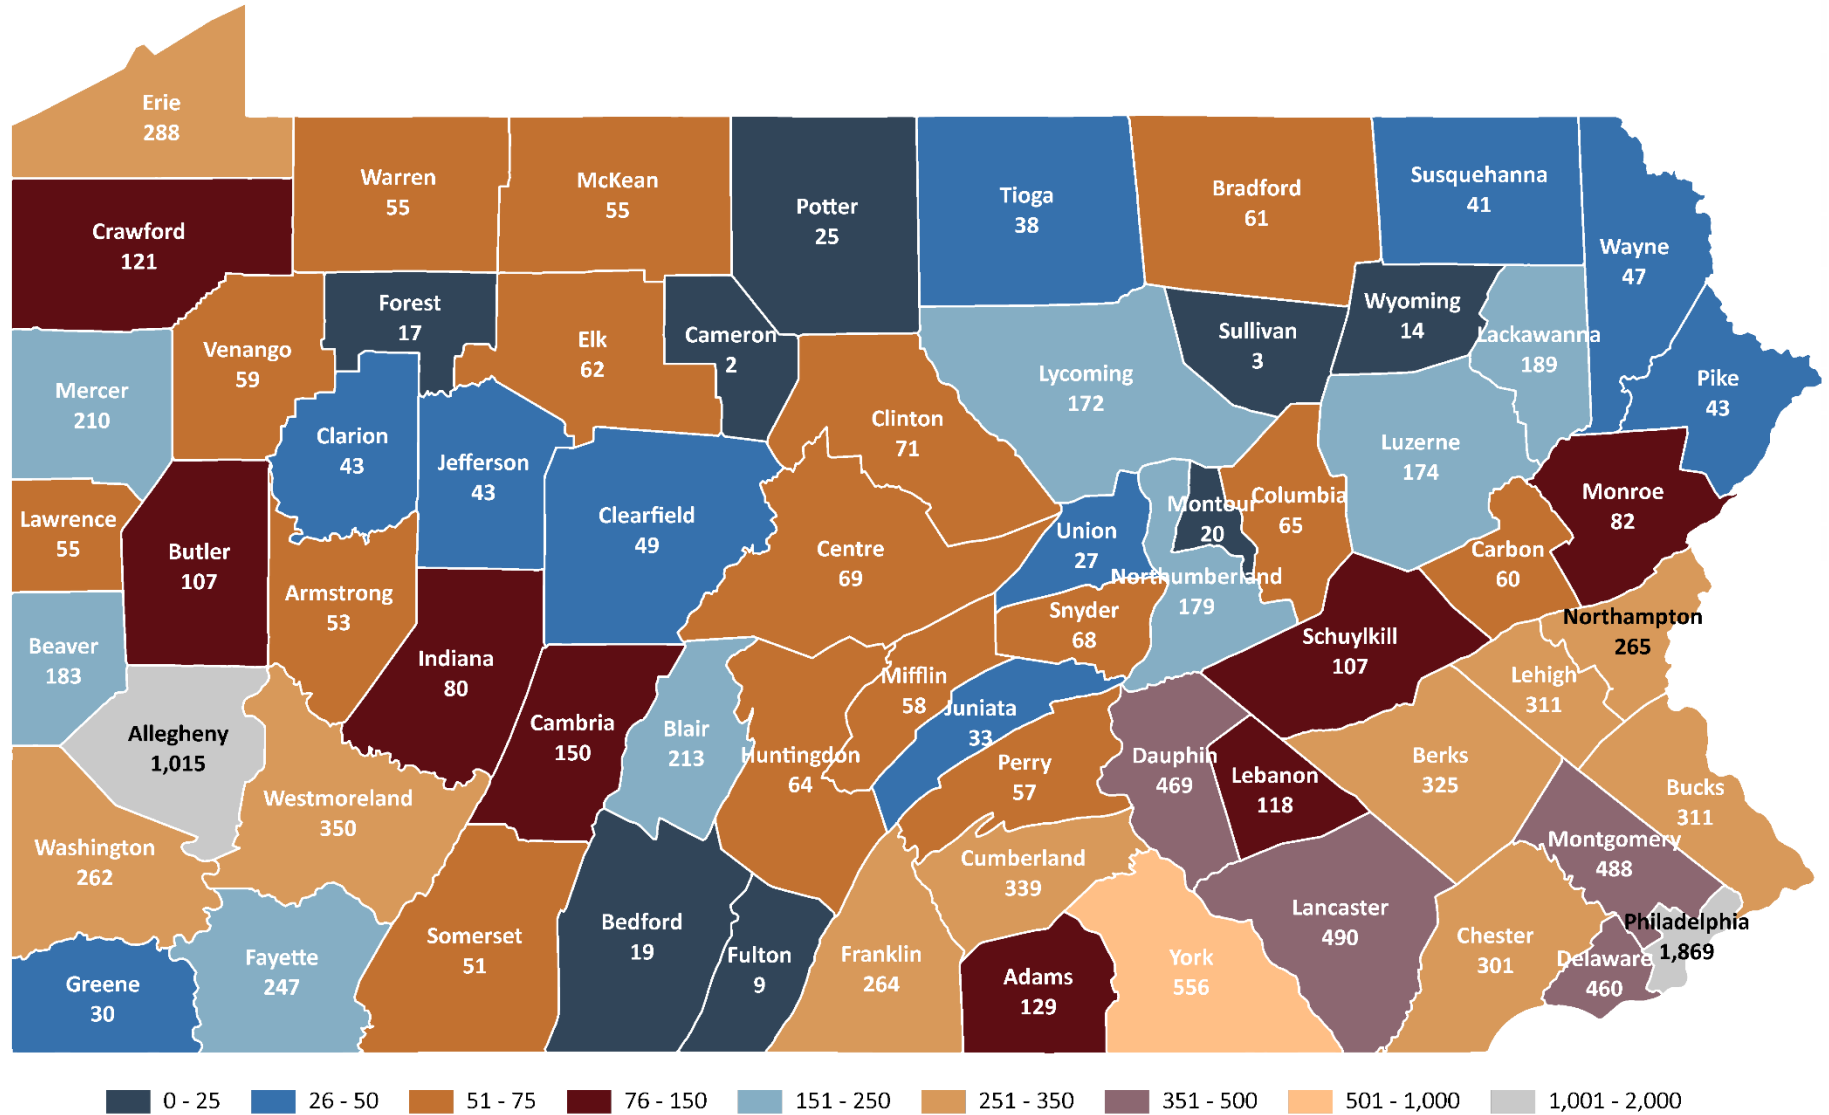

Note: Middle Creek Detention Center opened in August 2021, and White Deer Run opened in October 2021. Delaware County Juvenile Detention Center closed in March 2021, and Shuman Juvenile Detention Center closed in September 2021.

Chapter 2 - Juvenile Court Processing

Section 1: Delinquency Dispositions

1. The unit of count for this section of the report is the disposition. A disposition is defined as an allegation of delinquency disposed of by the juvenile probation department and/or the court. Any one youth may be involved in a number of dispositions within a calendar year containing multiple allegations. In addition, a youth may be referred on more than one occasion and receive only one disposition. Therefore, the reader is cautioned NOT to attempt to interpret dispositions as the number of youth who are processed by the court or the number of offenses. Dispositions in this section occurred between January 1, 2021 and December 31, 2021.
2. In Pennsylvania, juvenile court jurisdiction extends over individuals who have been alleged to have committed a delinquent act, as defined by 42 Pa. C. S. § 6301 et seq., on or after their tenth birthday and prior to reaching eighteen years of age. Juvenile court supervision can extend until the individual is twenty-one years of age if the individual is currently under supervision. Age, for purposes of this section, was calculated from the juvenile's date of birth to the date of the offense in the written allegation.
3. Only the most serious delinquency offense is captured in the delinquency disposition data.
4. Data for this report were compiled from the Pennsylvania Juvenile Case Management System (PaJCMS) on March 3, 2022. Any delinquency dispositions received by a juvenile probation department in 2021, and entered into PaJCMS after this date, will not be included in these statistics. The numbers published in this report, therefore, may not reflect current numbers within the system.
5. Dispositions of pending, deferred, and termination of court supervision/case closed, not court ordered, are not included in these statistics.
6. The unit of disposition count was modified in the 2017 report to more accurately reflect the outcomes of delinquency allegations. If two allegations were disposed of on the same date, and resulted in the same disposition, these were counted as one disposition. If two allegations were disposed of on the same date, but had two different dispositions, these were counted as two dispositions. The reader is cautioned NOT to compare this year's disposition figures to reports prior to 2017. All trend data were updated within this report using the updated disposition count logic.
7. Finally, the reader should be cautioned that, beginning in 2020, figures were likely impacted by the COVID-19 pandemic. The pandemic's effect on the juvenile justice system is examined further in Chapter 4 – The Impact of COVID-19 on the Pennsylvania Juvenile Justice System.

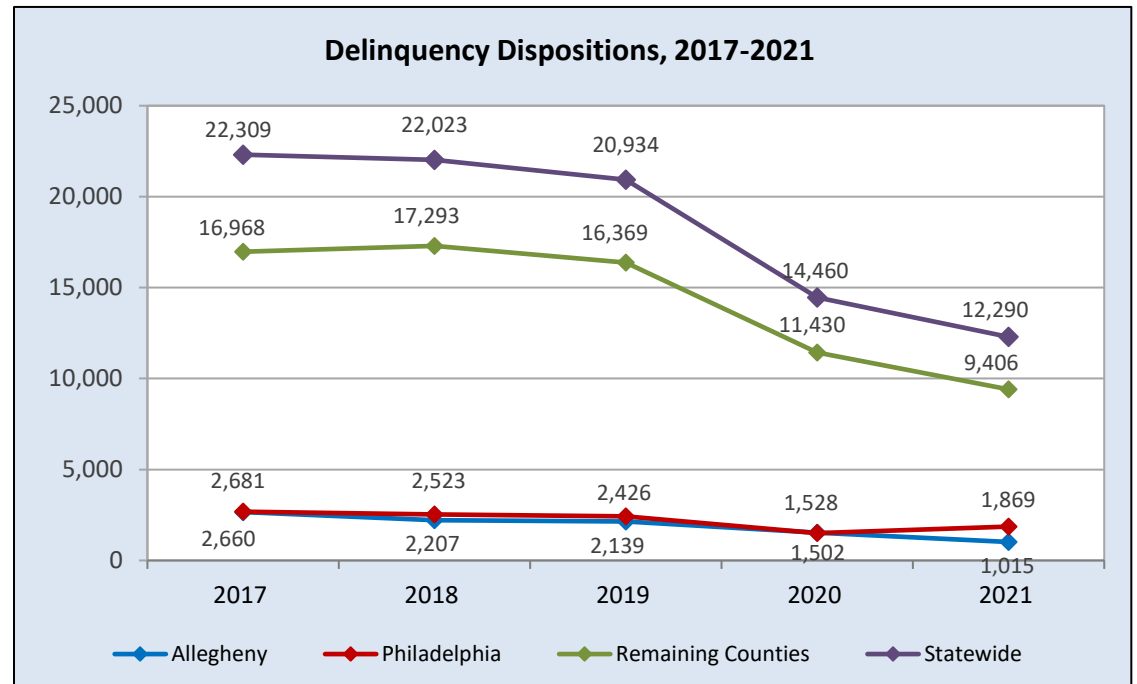

2021 Delinquency Dispositions

Delinquency Dispositions, 2017-2021

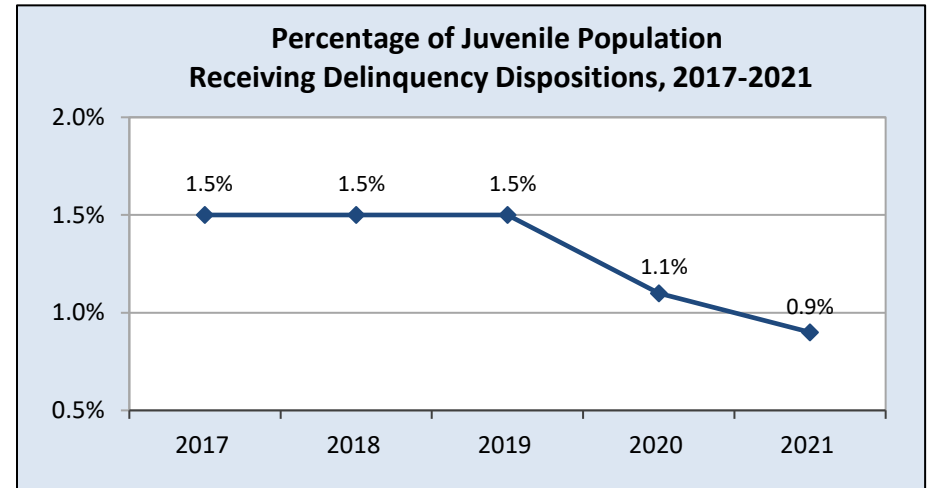

There were 12,290 delinquency dispositions in Pennsylvania during 2021. This represents a 15.0% decrease from 2020 and a 44.9% decrease since 2017. Allegheny County reported a decrease of 33.6% from 2020 to 2021, and Philadelphia County reported a 24.4% increase for this time period. The remaining counties reported a 17.7% decrease. Chapter 4 – The Impact of COVID-19 on the Pennsylvania Juvenile Justice System delves further into these patterns by examining monthly trends in court hearings and dispositions in 2021.

Note: Dispositions resulting from disposition reviews, placement reviews, and dependency referrals are not included.

Percentage of Juvenile Population Receiving Delinquency Dispositions, 2017-2021

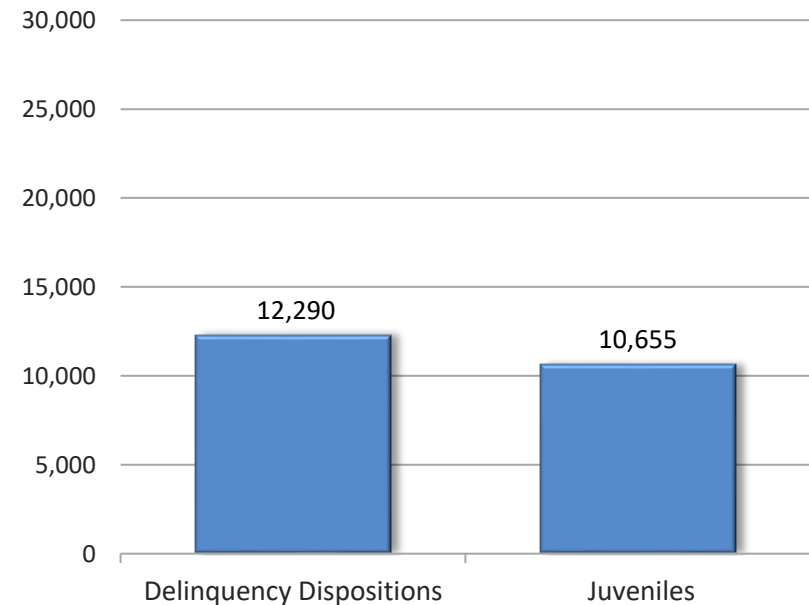

Between 2017 and 2021, the rate of juvenile delinquency dispositions as a percent of the Pennsylvania juvenile population declined by 40.0%, from 1.5% to 0.9%. Please refer to Appendix 14 for juvenile population figures.

Delinquency Dispositions and Juvenile Totals, 2021

There were 10,655 juveniles accounting for 12,290 delinquency dispositions in Pennsylvania in 2021. This equates to an average of 1.15 delinquency dispositions per alleged delinquent juvenile. The range of delinquency dispositions to alleged delinquent juveniles in 2021 was 1.0 to 1.32 (see Appendix 14).

Delinquency Dispositions and Juvenile Totals, 2021

Frequencies of Statewide Delinquency Dispositions, 2021

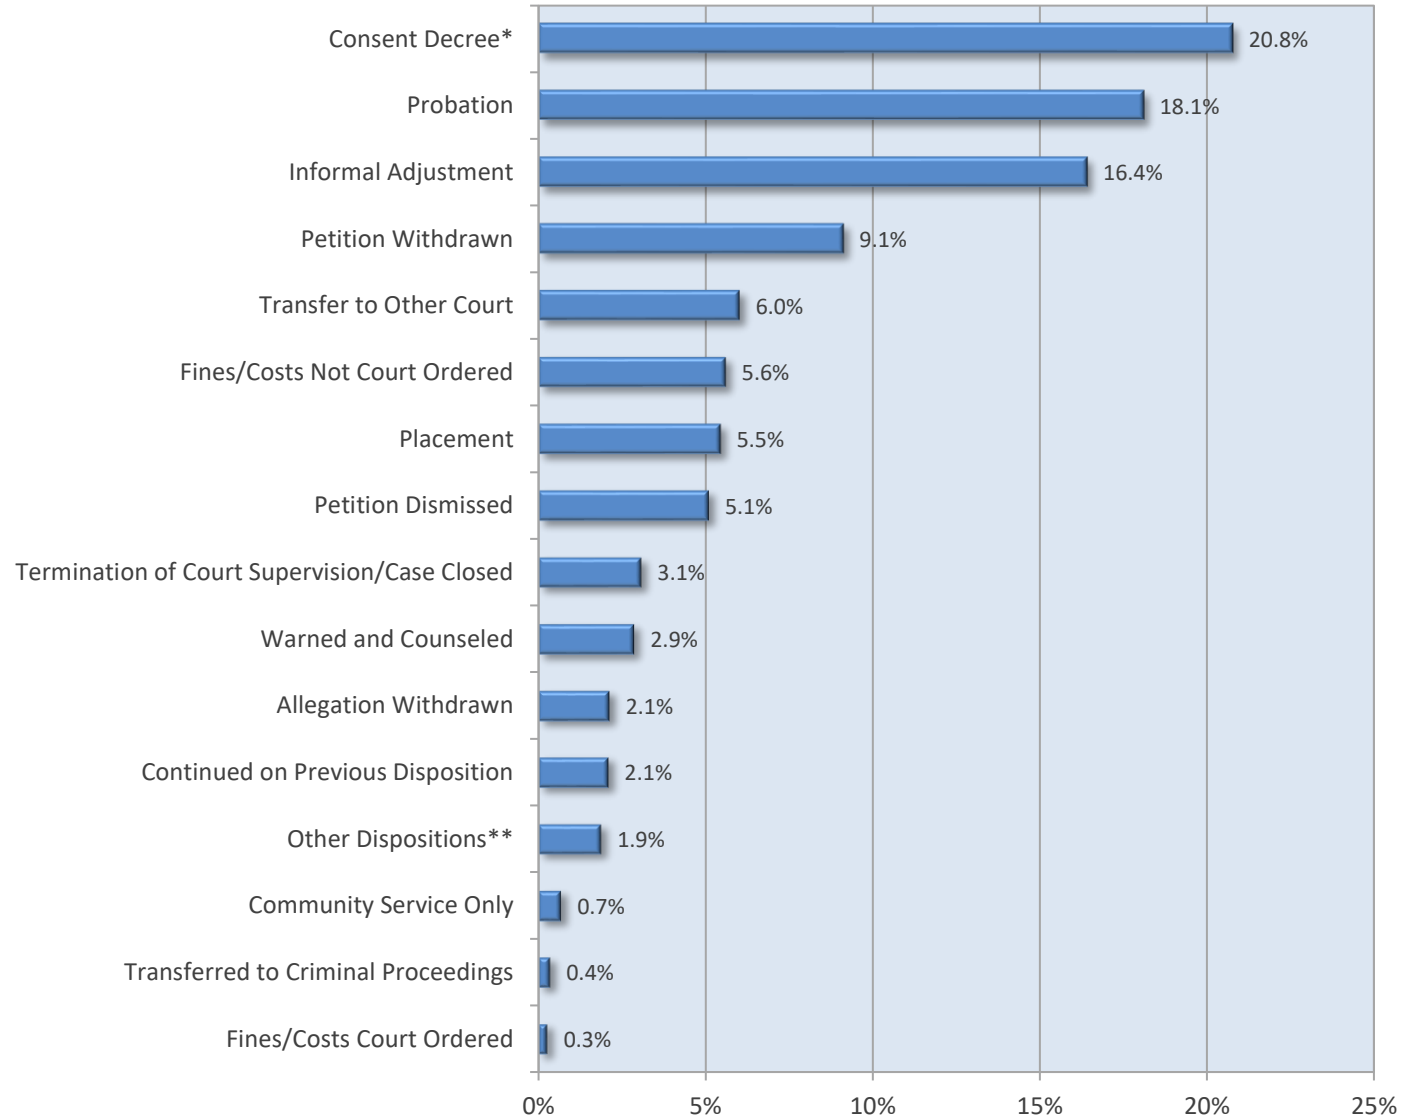

Dispositions of Consent Decree, Probation, and Informal Adjustment continued to represent over half (55.3%) of all dispositions.

*The following counties had a total of 451 cases where the disposition was reported as deferred adjudication with no reported adjudication of delinquency at the time of disposition. These dispositions have been included in the disposition of Consent Decree. (Adams-1, Bucks-17, Centre-1, Chester-11, Clarion-1, Clinton-1, Crawford-2, Delaware-3, Forest-4, Franklin-31, Fulton-2, Luzerne-10, Lycoming-6, Mercer-5, Montgomery-25, Montour-2, Philadelphia-320, Union-1, Washington-1, Wayne-5, and York-2).

**The "Other Dispositions" category includes dispositions of Accepted Courtesy Supervision, Referred to Other Agency/Individual, and Restitution Only.

Note: Does not include disposition reviews and placement reviews.

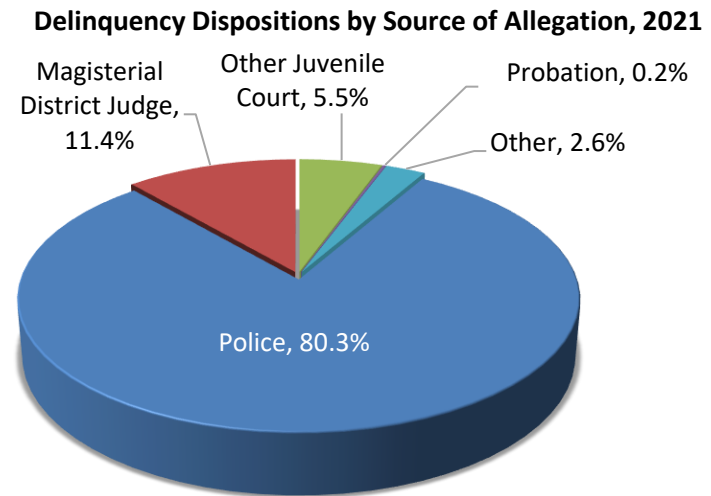

Frequencies of Statewide Delinquency Dispositions, 2021

Delinquency Dispositions by Source of Allegation, 2021

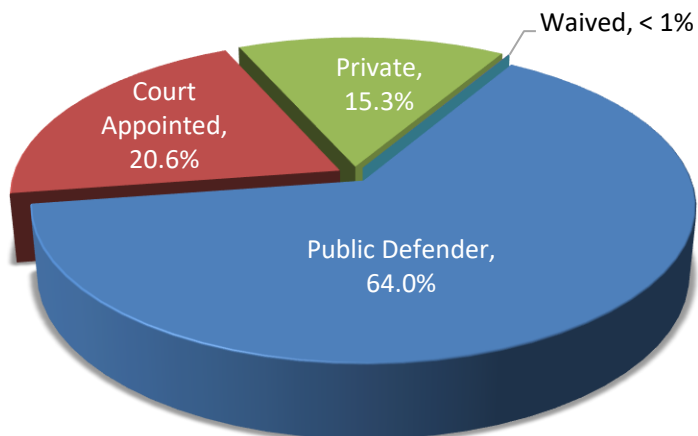

Police and Magisterial District Judges continued to be the primary allegation sources of delinquency dispositions – 80.3% and 11.4%, respectively.

Note: The category of "Other" includes delinquency allegations received from schools, social agencies, relatives, and cases transferred from criminal court.

Attorney Representation in Formal Delinquency Proceedings, 2021

Attorney Representation in Formal Delinquency Proceedings, 2021

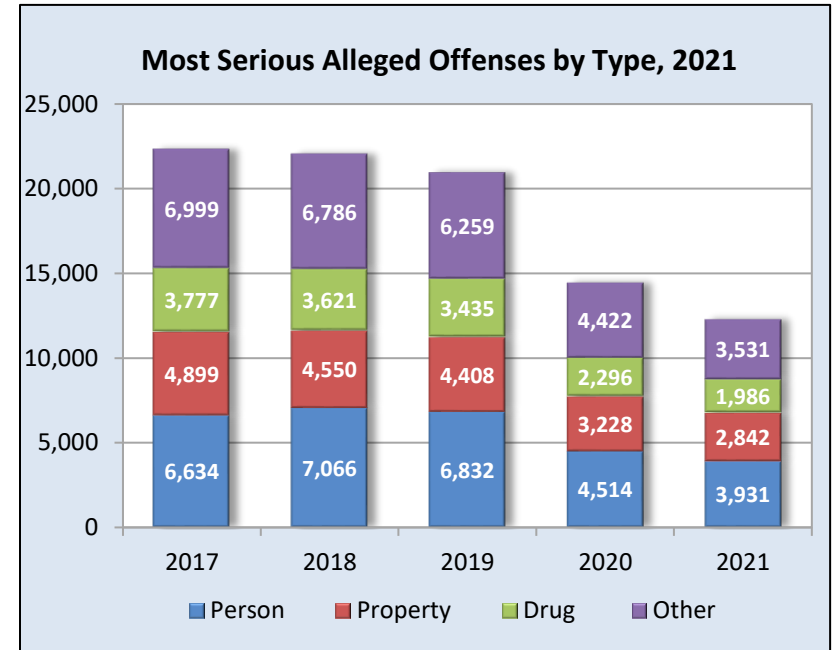

Legal representation provided by Public Defenders continued to be the most common form of representation in delinquency proceedings (64.0% in 2021). Legal representation was provided by Court Appointed or Private Counsel in 35.9% of delinquency proceedings. (*An entry of "Court Appointed" includes cases where counsel other than the public defender was appointed by the court.*) Delinquency proceedings were conducted without defense counsel (waived) in less than 1% of all delinquency proceedings.

Most Serious Alleged Offenses by Type, 2021

The following information was compiled based on the most serious alleged offense for each juvenile delinquency disposition in Pennsylvania between 2017 and 2021. Only one offense per delinquency disposition is counted in the figures. As mentioned previously, the total number of dispositions decreased by 44.9% from 2017 to 2021, and by 15.0% from 2020 to 2021. The number of alleged offenses within the “Other” offense category has shown the largest decrease (20.1%) from 2020 to 2021, followed by Drug offenses (13.5%), Person offenses (12.9%), and Property offenses (12.0%).

Since 2017, “Other” offenses have shown the sharpest decline (49.5%). Drug and Property offenses have also declined considerably, 47.4% and 42.0%, respectively. Person offenses decreased 40.7% over this five-year time period.

Note: The “Other” offenses category includes but is not limited to: Public Order offenses such as Disorderly Conduct or Weapon on School Property; Firearms Offenses; and Certifications from the minor judiciary that a juvenile failed to comply with a lawful sentence imposed for a summary offense.

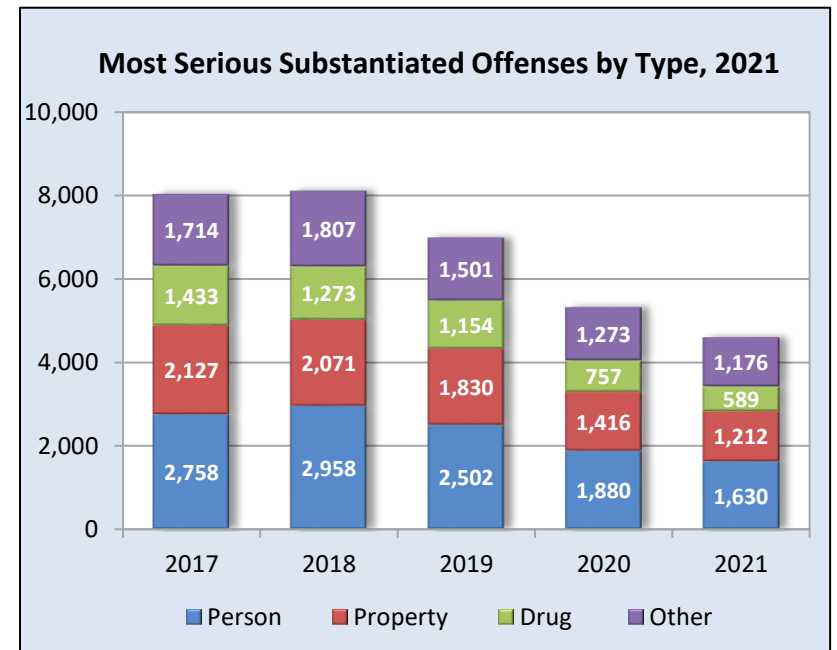

Most Serious Substantiated Offenses by Type, 2021*

Consistent with the decrease in total numbers of dispositions, the number of substantiated offenses also declined in this time period. From 2020 to 2021, the largest decrease occurred in the Drug offense category (22.2%), followed by Property offenses (14.4%), Person offenses (13.3%), and “Other” offenses (7.6%).

The total number of substantiated offenses in 2021 remains well below 2017 levels. Similarly, each category of substantiated offenses (Person, Property, Drug, and “Other”) remained below their respective 2017 levels.

*A substantiated offense is any petitioned offense the court finds the juvenile committed.

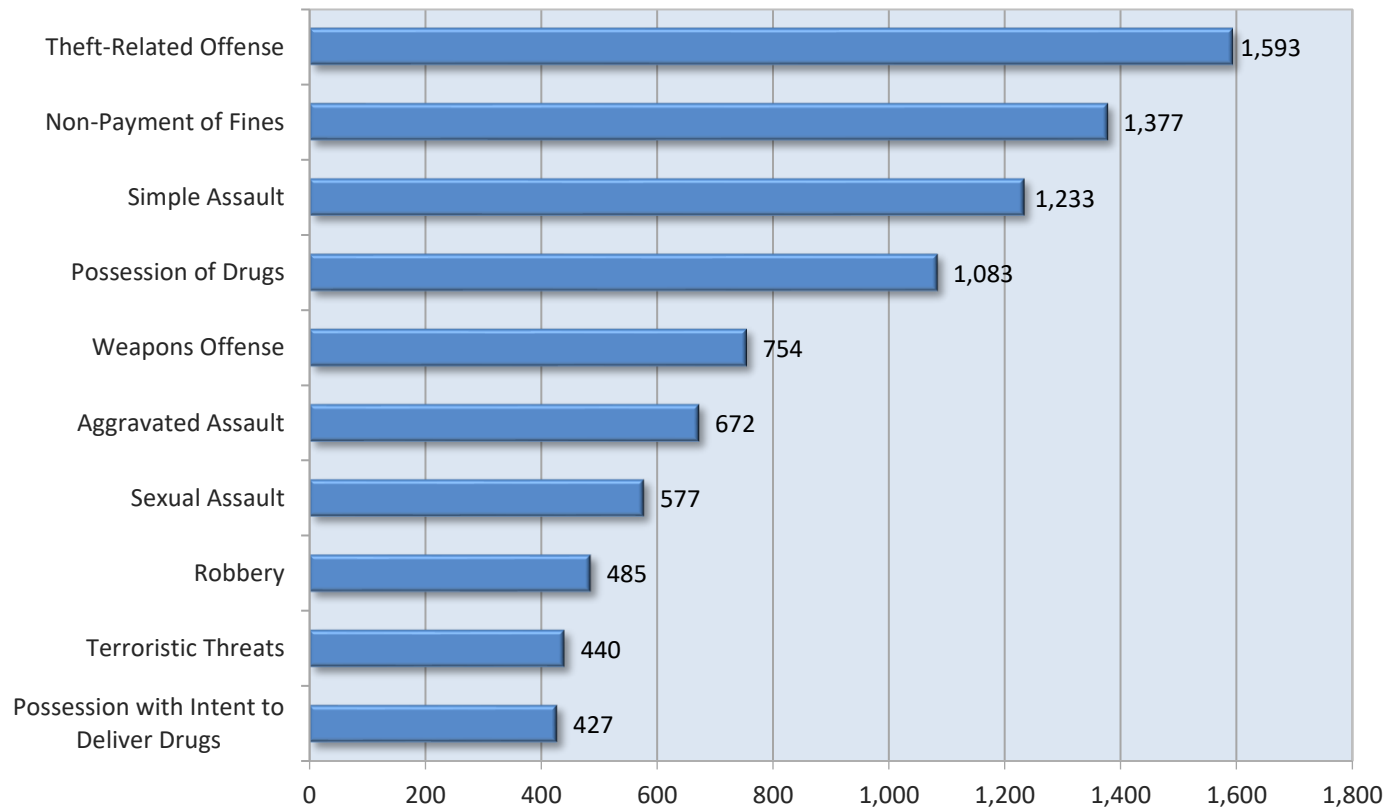

Delinquency Dispositions Most Frequent Alleged Offense Categories, 2021

The chart below shows the most frequent alleged offense categories for 2021. Only the most serious charge per disposition is depicted, with the chart showing the top ten offense categories. A theft-related offense was the most frequent charge with 13.0%, followed by non-payment of fines (11.2%), simple assault (10.0%), possession of drugs (8.8%), and weapons offense (6.1%).

Note: Theft-related offenses include: theft, theft by unlawful taking, theft by deception, theft by extortion, theft by receiving stolen property, theft of services, and theft from a motor vehicle. Weapons offenses include: Firearm-related offenses, possession of an instrument of crime, and possession of weapon on school property.

Delinquency Dispositions Most Frequent Alleged Offense Categories, 2021

Section 2: Demographics

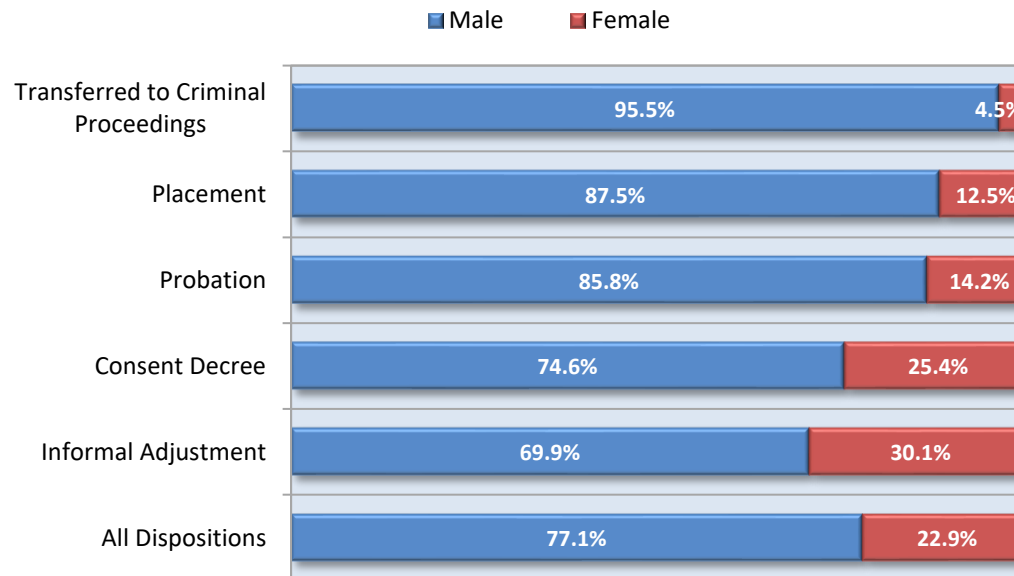

Selected Dispositions by Gender, 2021

Juvenile court dispositions in Pennsylvania continue to primarily involve males. As reflected in the charts below, the proportion of males receiving delinquency dispositions related to new allegations increases as the disposition type becomes more restrictive.

Note: The data do not include dispositions resulting from disposition review and placement review hearings.

SELECTED DISPOSITIONS	TOTAL	MALE	FEMALE
Transferred to Criminal Proceedings	44	95.5%	4.5%
Placement	670	87.5%	12.5%
Probation	2,226	85.8%	14.2%
Consent Decree	2,553	74.6%	25.4%
Informal Adjustment	2,018	69.9%	30.1%
All Dispositions	12,290	77.1%	22.9%

Selected Dispositions by Gender, 2021

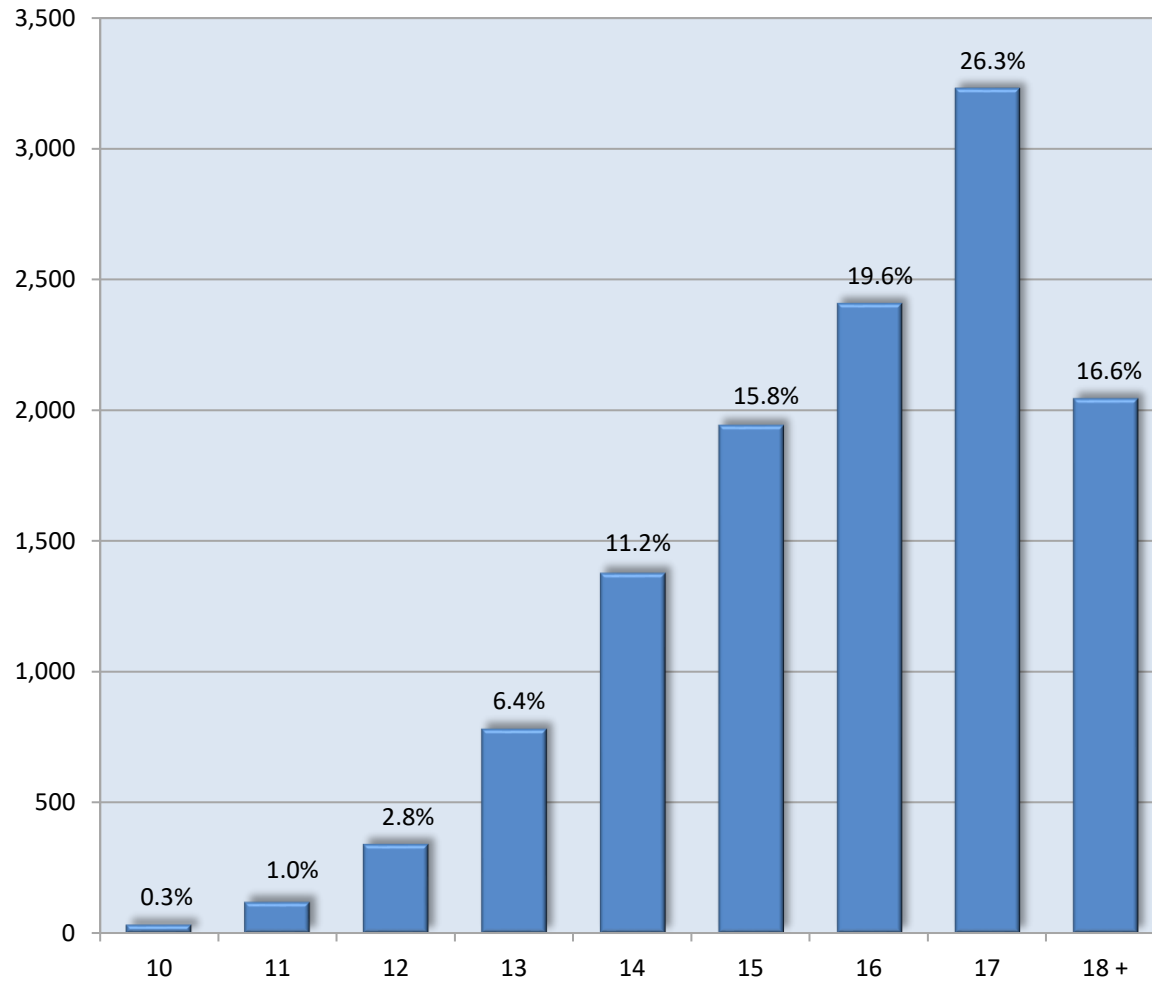

Delinquency Dispositions by Age at Disposition, 2021

Seventeen-year-olds accounted for 3,231 (26.3%) of all juvenile delinquency dispositions in 2021, representing the most dispositions for any age group. Juveniles aged 16 accounted for 2,410 (19.6%), while 18-year-olds accounted for 2,046 (16.6%) of the dispositions.

Note: The data do not include dispositions resulting from disposition review and placement review hearings.

Delinquency Dispositions by Age at Disposition, 2021

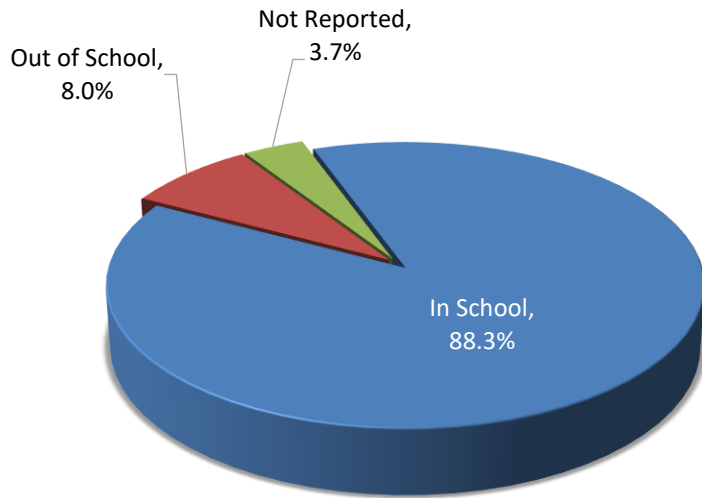

Delinquency Dispositions by Educational Status, 2021

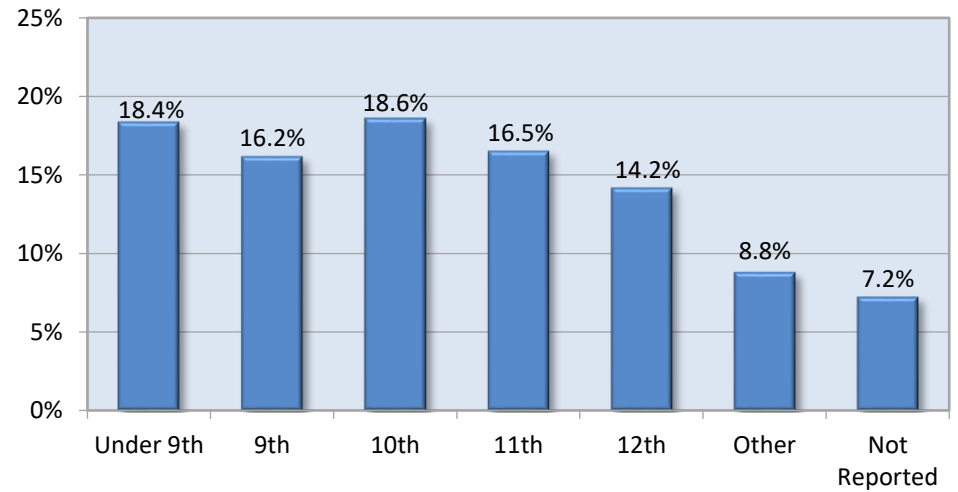

The vast majority (88.3%) of delinquency dispositions in 2021 reflected youth who were reported as In School at the time of disposition. Seventy-four percent of youth were reported as having completed grades 9, 10, 11, 12, or “Other.”

Note: The data do not include dispositions resulting from disposition review and placement review hearings.

Delinquency Dispositions by School Status, 2021

Delinquency Dispositions by Highest Grade Completed, 2021

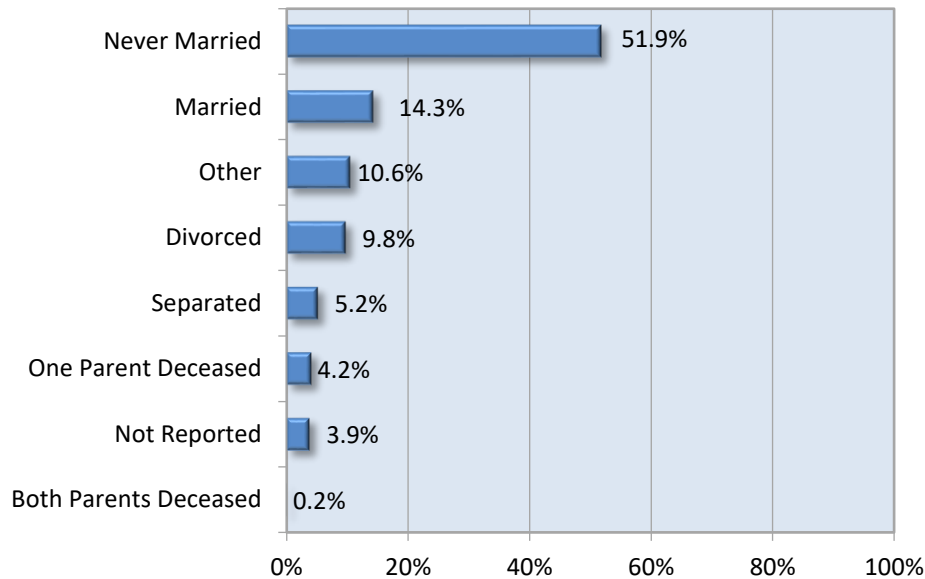

Delinquency Dispositions by Family Status, 2021

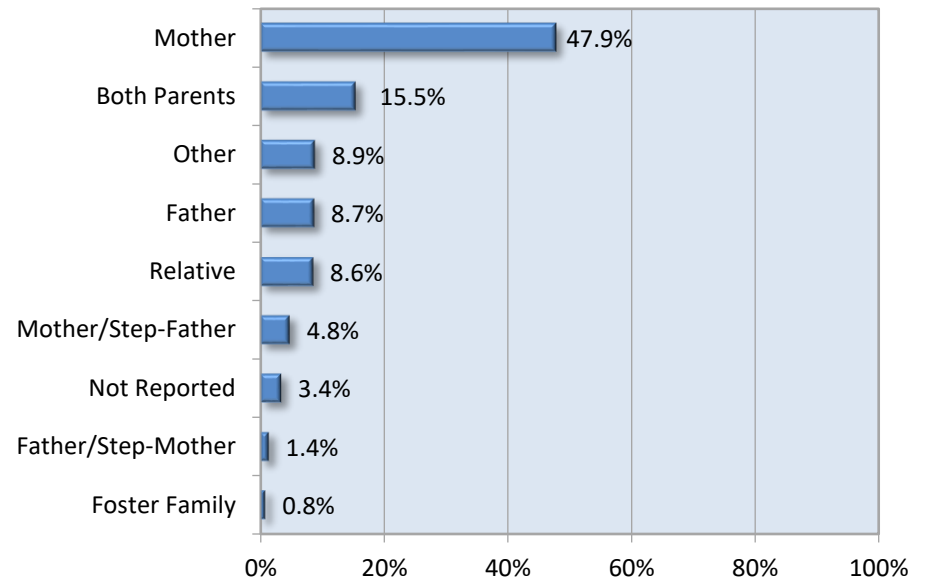

In juvenile delinquency dispositions, youth whose parents were reported as never married represented the largest group – greater than 50%. In only 14.3% of cases, the parents were reported as married at the time of disposition. The majority of youth (47.9%) resided only with their mother, while only 15.5% of juveniles resided with both parents.

Note: The data do not include dispositions resulting from disposition review and placement review hearings.

Delinquency Dispositions by Family Status, 2021

Delinquency Dispositions by Living Arrangement of Youth, 2021

Section 3: Race and Ethnicity

On the following pages, data on race and ethnicity trends related to juvenile court dispositions are provided. A few points of clarification regarding the reading and interpretation of this data should be noted.

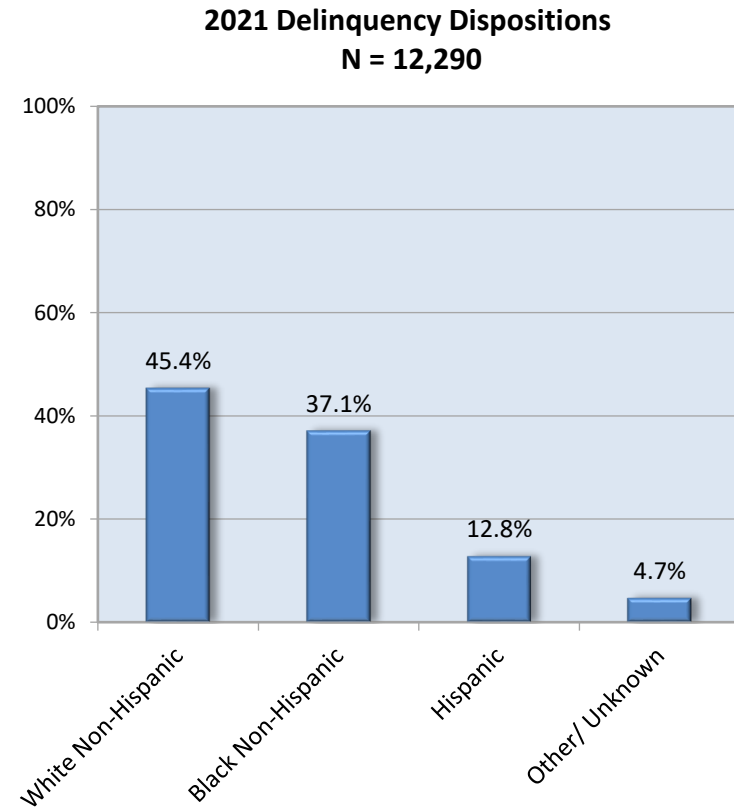

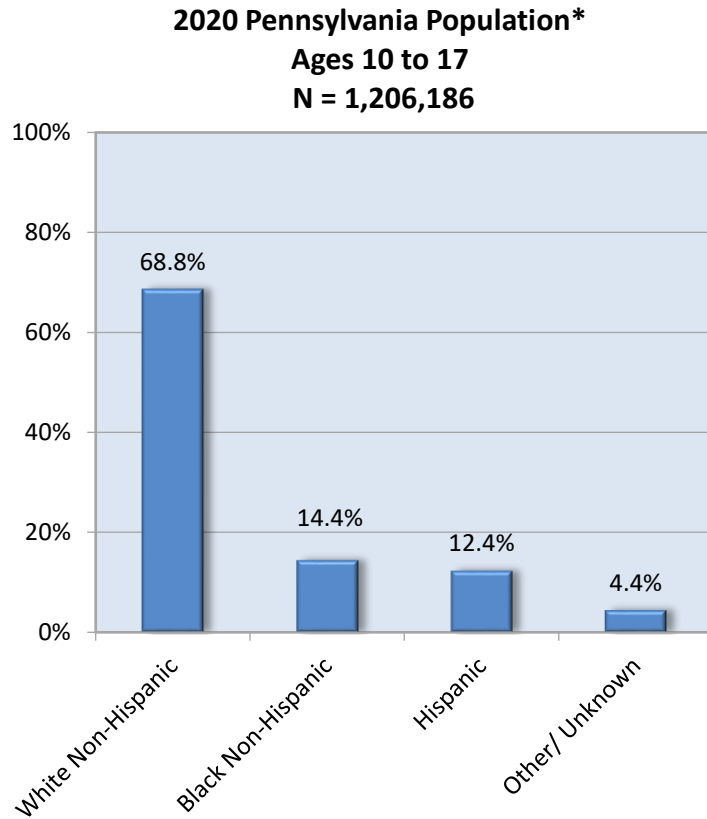

The Juvenile Court Judges' Commission's Center for Juvenile Justice Training and Research collects data on race and ethnicity from each of Pennsylvania's 67 counties. The collection of this data is done in concert with the protocols outlined in *Guidelines for Collecting & Recording the Race and Ethnicity of Juveniles in Conjunction with Juvenile Delinquency Disposition Reporting to the Juvenile Court Judges' Commission* (National Center for Juvenile Justice, 2006). As such, race and ethnicity are collected and recorded as two separate and distinct sets of data.

Trends related to both race and ethnicity are presented within the following charts, graphs, and tables. References to racial or ethnic groups are defined as follows:

<i>White Non-Hispanic</i>	reported as Non-Hispanic for ethnicity and White for race
<i>Black Non-Hispanic</i>	reported as Non-Hispanic for ethnicity and Black for race
<i>Hispanic</i>	reported as Hispanic for ethnicity regardless of reported race
<i>Other and Unknown</i>	reported as Non-Hispanic for ethnicity and one of the following races: Asian, Pacific Islander, Native Hawaiian, Native Alaskan, Native American, or Multi-Racial; or race and ethnicity was reported as unknown

Total Delinquency Dispositions by Race and Ethnicity, 2021

In 2021, White Non-Hispanic youth represented the largest racial/ethnic category for all delinquency dispositions. However, in comparison to the racial/ethnic distribution of all youth in Pennsylvania ages 10-17, the representation of Black Non-Hispanic youth is disproportionate: 14.4% of the total population versus 37.1% of all delinquency dispositions. When excluding Philadelphia County and Allegheny County, Black Non-Hispanic youth represent 8.7% of the youth population, but 26.2% of all delinquency dispositions. Please see Appendix 25 for the number of delinquency dispositions by race and ethnicity for each county.

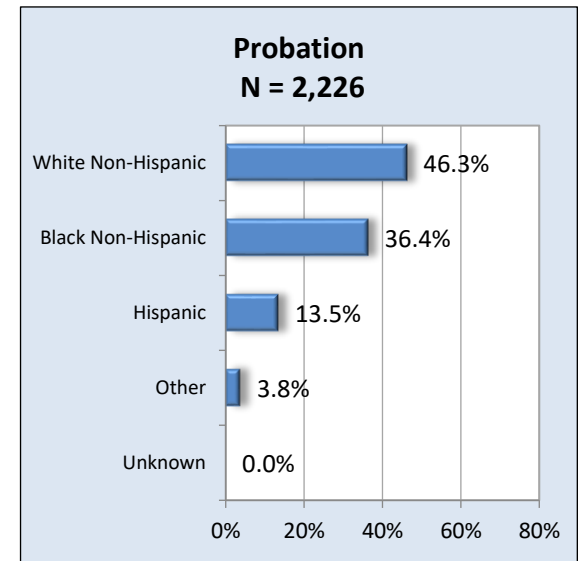

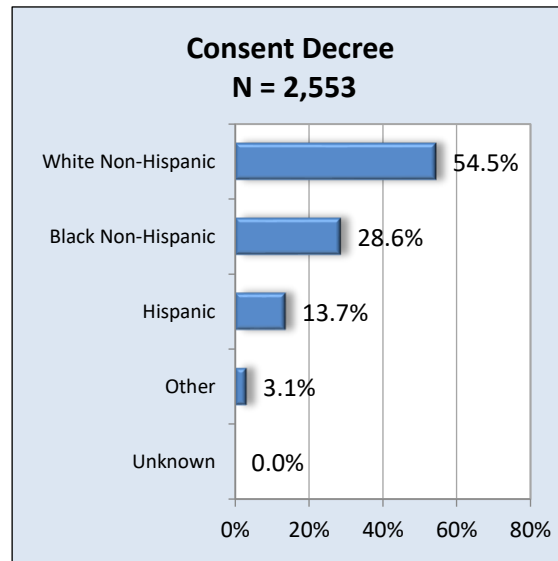

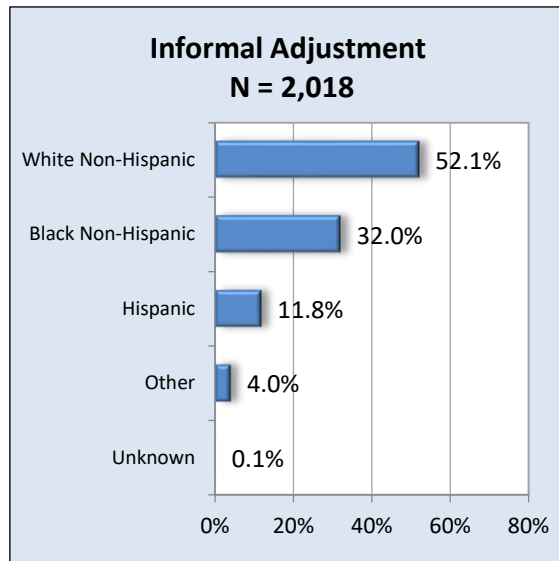

*At the time of publication of the Pennsylvania 2021 Juvenile Court Annual Report, the 2021 Population Estimates had not yet been published. We have included the 2020 Population Estimates in the chart above. 2020 Population Estimates retrieved from The Centers for Disease Control available online at: <http://wonder.cdc.gov/bridged-race-population.html>.

Selected Delinquency Dispositions by Race and Ethnicity, 2021

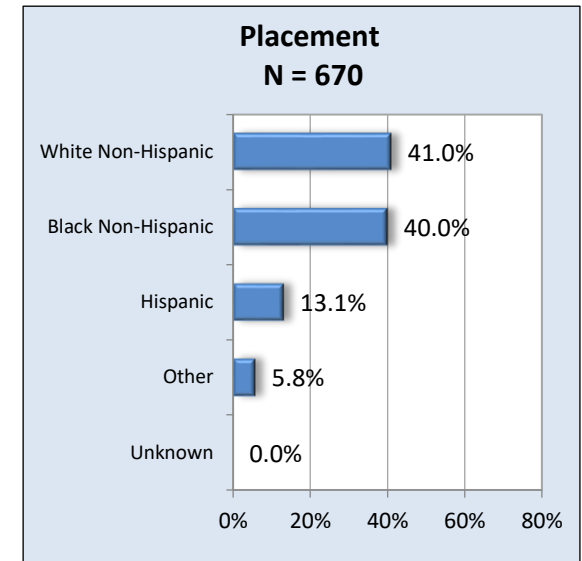

The following charts show the distribution of various dispositions by race and ethnicity.

For delinquency dispositions that did not result in an out-of-home placement (Informal Adjustment, Consent Decree, and Probation), Black Non-Hispanic youth comprised a smaller proportion of cases, while White Non-Hispanic youth comprised a larger proportion of cases than what is reflected in all delinquency dispositions.

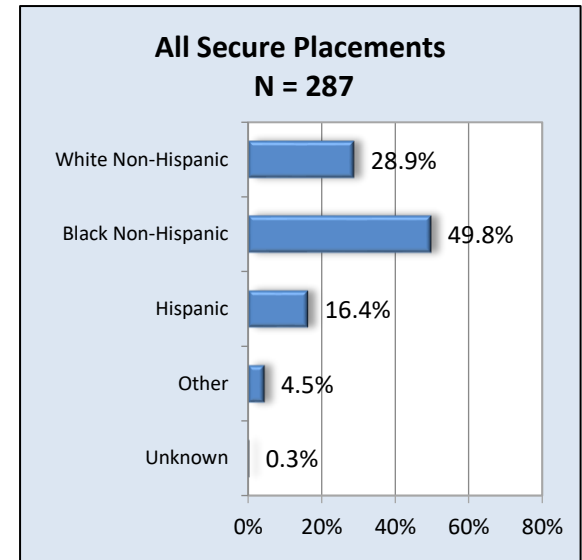

Selected Delinquency Dispositions by Race and Ethnicity, 2021 (continued)

For dispositions that resulted in an out-of-home placement (not including disposition reviews and placement reviews), the proportion of both Hispanic (13.1%) and Black Non-Hispanic (40.0%) youth exceeded their representation in the total number of delinquency dispositions (12.8% and 37.1%, respectively).

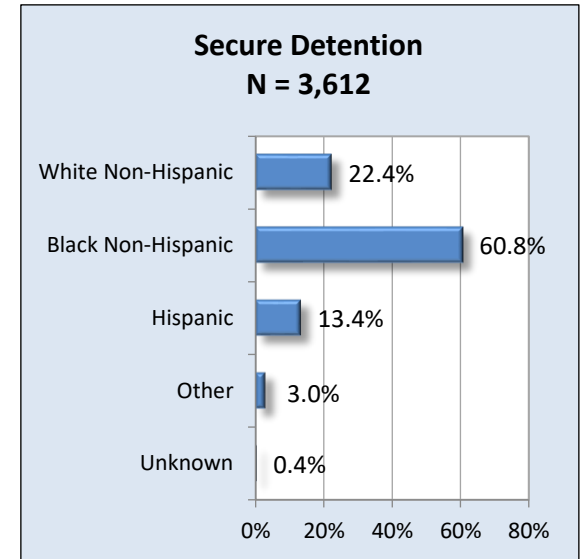

Additionally, the representation of Black Non-Hispanic youth (49.8%) within secure placement settings was disproportionate to the percentage of Black Non-Hispanic youth in all placement dispositions (40.0%).

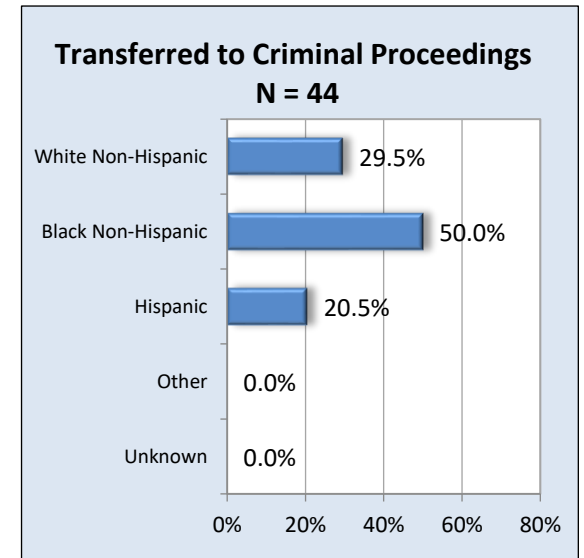

Secure Detention by Race and Ethnicity, 2021

Black Non-Hispanic youth comprised 60.8% of all secure detention admissions in 2021. When excluding Philadelphia and Allegheny Counties, Hispanic youth and Black Non-Hispanic youth represent approximately 15.8% and 39.2%, respectively, of all secure detention admissions. In Philadelphia County, 80.3% of secure detention admissions involved Black Non-Hispanic youth. In Allegheny County, 80.5% of secure detention admissions involved Black Non-Hispanic youth. See Appendix 26 for the number of secure detention admissions by race and ethnicity for each county.

Transferred to Criminal Proceedings by Race and Ethnicity, 2021

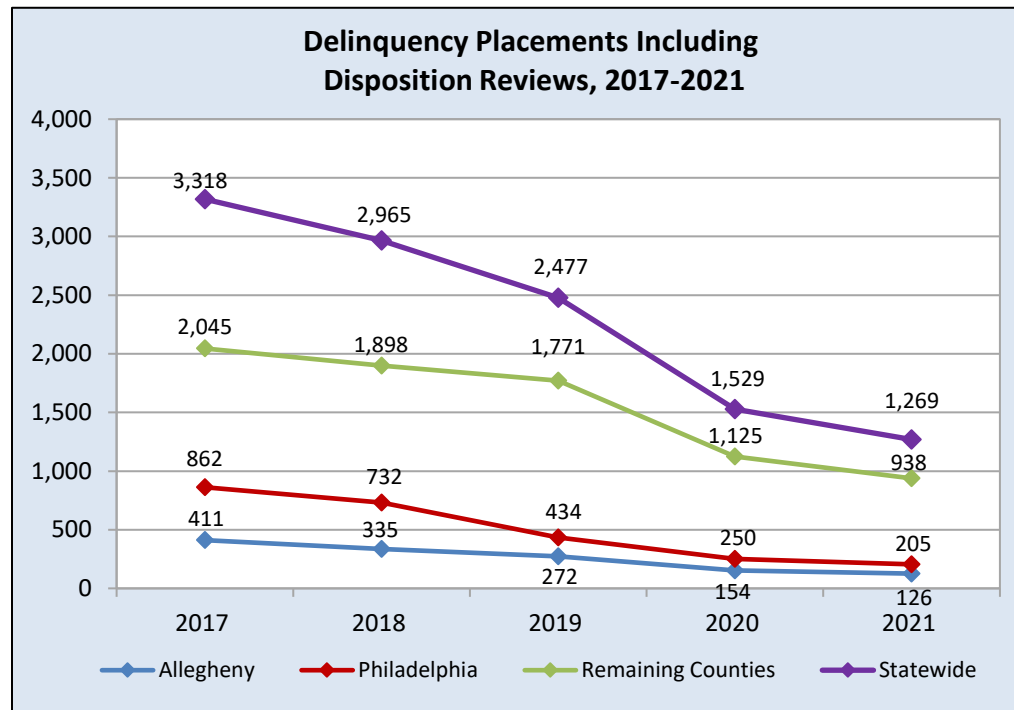

White Non-Hispanic youth comprised a smaller proportion of cases transferred to criminal proceedings (29.5%) compared to the (45.4%) represented in all delinquency dispositions statewide. Black Non-Hispanic youth comprised a greater proportion of cases transferred to criminal proceedings (50.0%) than what is reflected in all delinquency dispositions (37.1%). The number of cases transferred to criminal proceedings increased by 76.0% between 2020 and 2021.

Section 4: Delinquency Placements

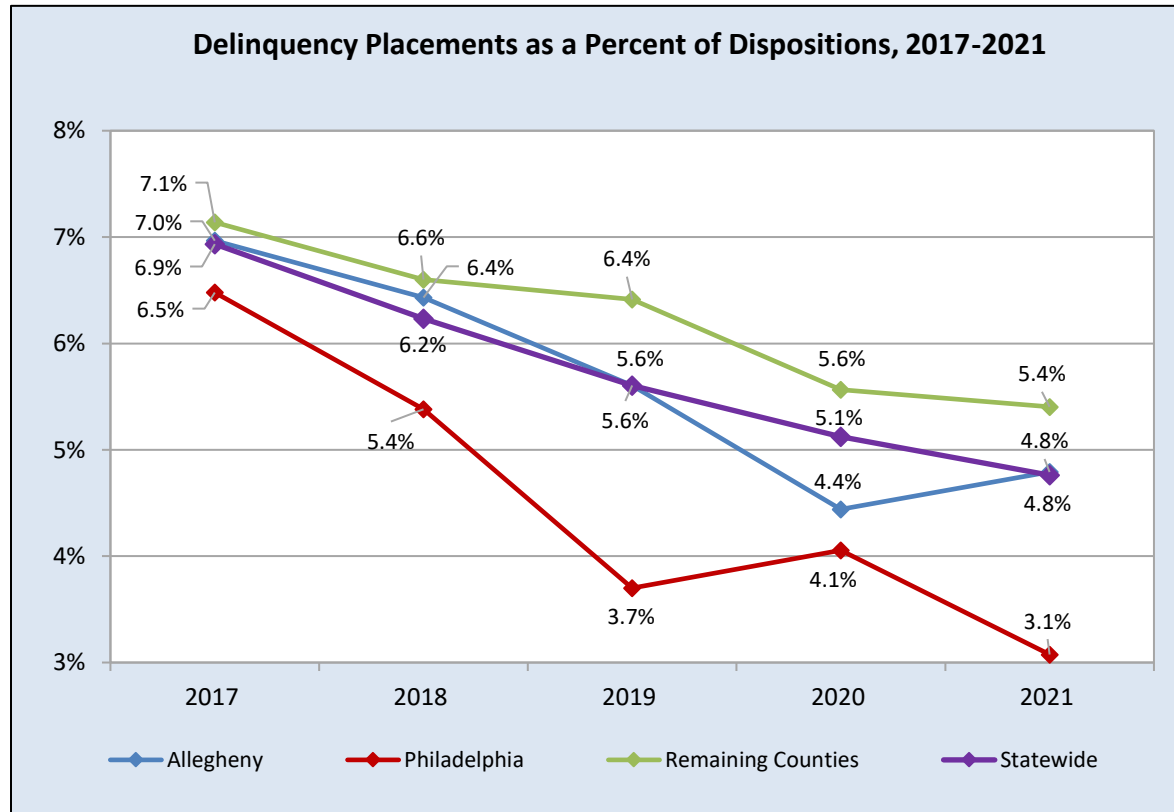

Delinquency Placements Including Disposition Reviews, 2017-2021

Delinquency placements have declined each year between 2017 and 2021, with an overall decrease of 61.8% statewide during that time period. Between 2020 and 2021, there was a 17.0% decrease in placements. This decrease was a bit larger for Allegheny and Philadelphia Counties (18.2% and 18.0%, respectively) than for the remaining counties (16.6%). For more detailed analysis of the pandemic's effect on delinquency placement trends, see Chapter 4 - The Impact of COVID-19 on the Pennsylvania Juvenile Justice System.

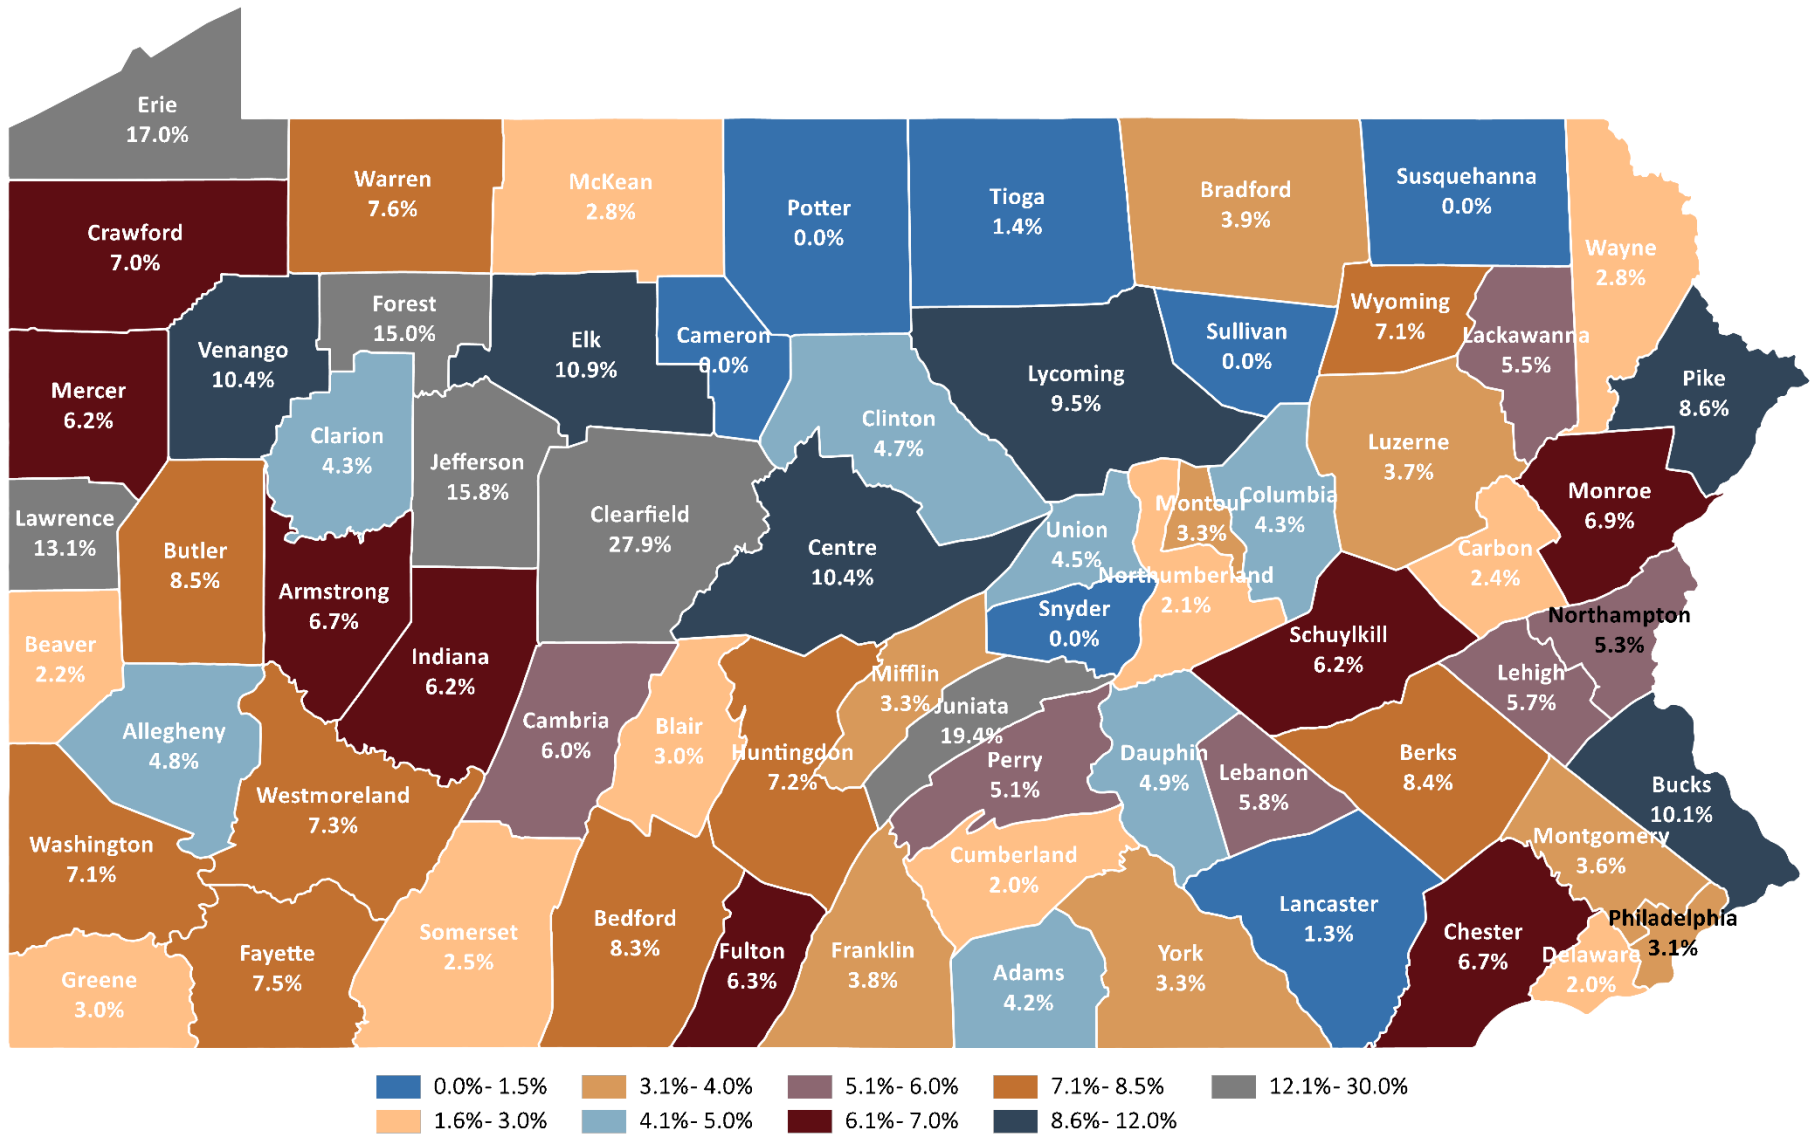

Delinquency Placements as a Percent of Dispositions, 2017-2021

Delinquency placements as a percentage of total dispositions, including disposition reviews, decreased from 5.1% to 4.8% from 2020 to 2021. Philadelphia County placements as a percentage of total dispositions decreased from 4.1% in 2020 to 3.1% in 2021. Allegheny County placements as a percentage of total dispositions decreased from 4.4% in 2020 to 4.8% in 2021. In all counties other than Allegheny and Philadelphia, the percentage decreased from 5.6% in 2020 to 5.4% in 2021.

2021 Delinquency Placements as a Percent of Dispositions Including Disposition Reviews

New Allegation Placements vs. Disposition Review Placements, 2021

The following chart depicts the relative percentage of placements that resulted from new allegations versus disposition review proceedings. A disposition review is a hearing conducted by the court regarding a previous disposition which did not result in out-of-home placement.

The percentage of placements resulting from both new allegations and disposition reviews is shown for each county by county class.

Almost half of delinquency placements statewide (47.2%) were ordered as a result of a disposition review. This figure, however, was notably influenced by Philadelphia, which accounted for 16.2% of all delinquency placements statewide, and where 48.3% of all delinquency placements were ordered as a result of a disposition review.

Across all other county class groups, the average distribution of delinquency placements was 53.0% from new allegations and 47.0% from disposition reviews. Allegheny, Class 2A, Class 5, and Class 8 are the county class groups with a majority of delinquency placements originating from disposition reviews.

COUNTY	NEW ALLEGATION PLACEMENTS	DISPOSITION REVIEW PLACEMENTS	TOTAL PLACEMENTS

Total Delinquency Placements by Type, 2021 Including Disposition Reviews

Beginning in 2016, the collection of delinquency placement-related data was enhanced within the Pennsylvania Juvenile Case Management System (PaJCMS). All residential placement programs are now categorized by licensed service types, which are determined by 55 PA Code Chapter 3140. For the purposes of this report, there are three overarching service types: Community Based, Institutional, and “Other.”

Community Based Category:

- Community Residential Service/Group Home
- Foster Care
- Supervised Independent Living
- Transitional Living

Institutional Category:

- General Residential
- Secure Residential
- YDC Secure
- YDC/YFC Non-Secure

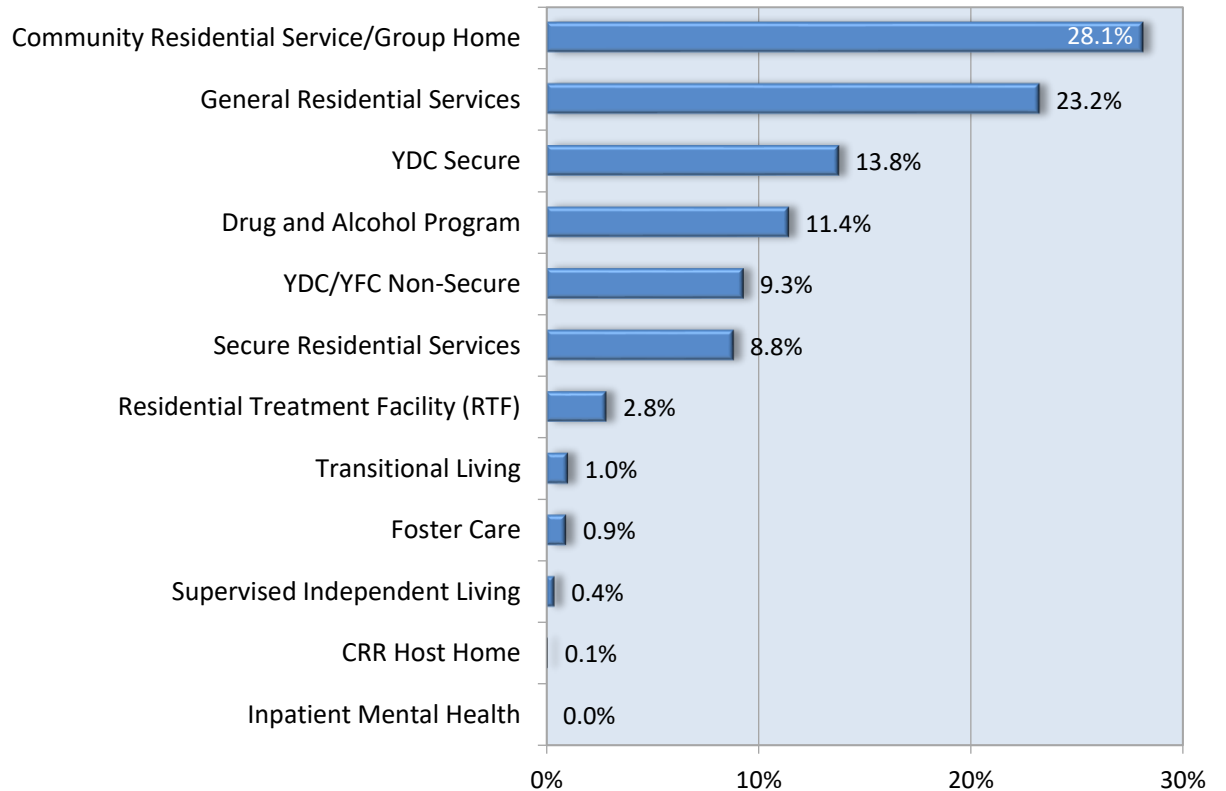

“Other” Category:

- CRR Host Home
- Drug and Alcohol Program
- Inpatient Mental Health
- Residential Treatment Facility (RTF)

Community Residential Service/Group Homes, General Residential Services, and YDC Secure were the most frequently used programs in 2021, comprising 65.1% of all delinquency placements.

Note: Due to changes in PaJCMS classification of placement service types in 2016, the reader is cautioned against comparing this data to previously published (2015 and earlier) delinquency placement data.

Delinquency Placements by Type, 2021

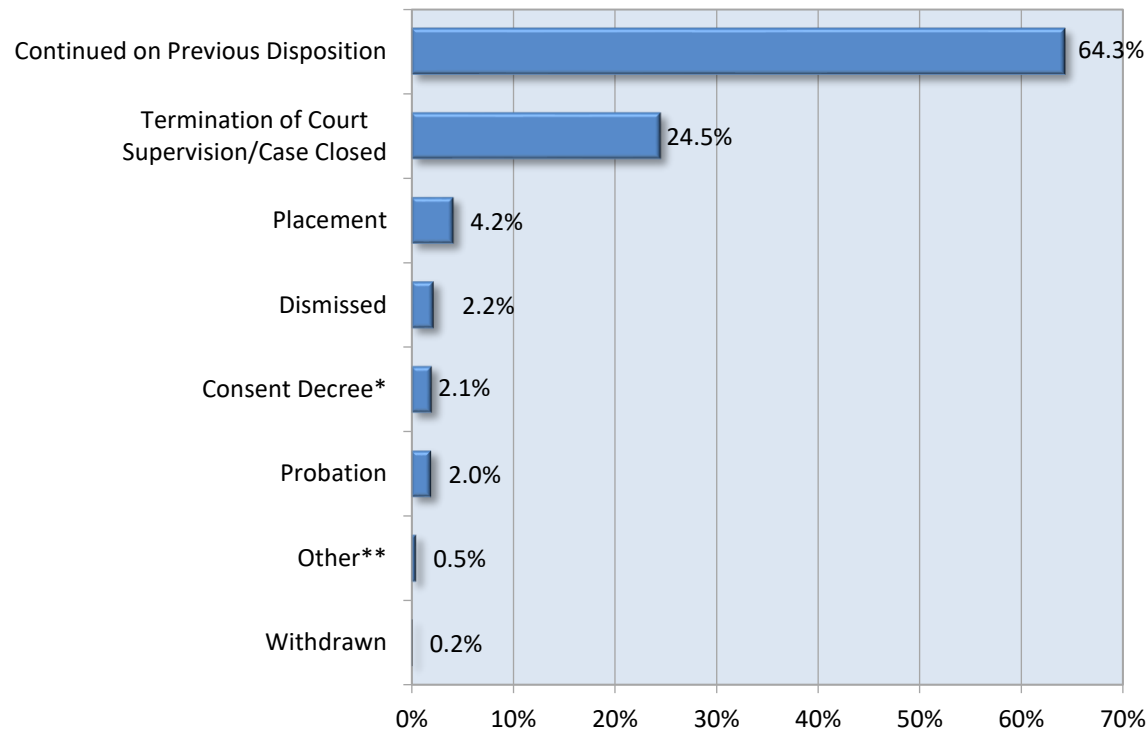

Section 5: Delinquency Disposition and Placement Reviews

Outcomes of Delinquency Disposition Reviews, 2021

A disposition review is a hearing conducted by the court regarding a previous disposition. Although almost half of delinquency placements resulted from disposition reviews (see page 39), less than 1 in 10 disposition review proceedings resulted in a delinquency placement. The vast majority of disposition reviews resulted in an order of Continued on Previous Disposition.

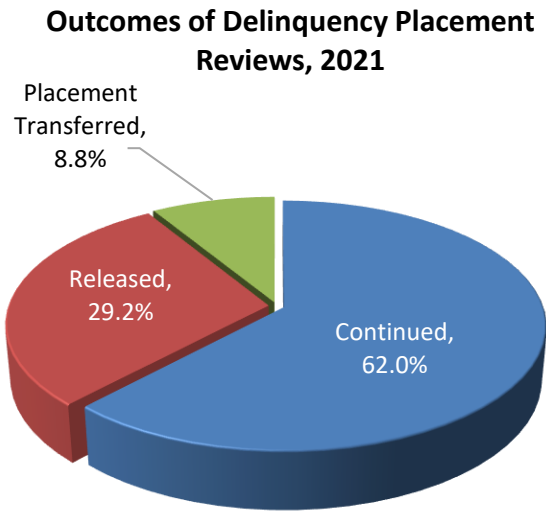

Outcomes of Delinquency Disposition Reviews as a % of Total, 2021

*The following counties had a total of 245 cases where the disposition was reported as deferred adjudication with no reported adjudication of delinquency at the time of disposition. These dispositions have been included in the disposition of Consent Decree. (Chester-1, Franklin-1, Luzerne-5, Philadelphia-237, and York-1).

**The "Other" category includes dispositions of Administrative Supervision Only/Collections, Transfer to Other Juvenile Court, Restitution Only, Fines/Costs Ordered by the Court, and Community Service Only.

Outcomes of Delinquency Placement Reviews, 2021

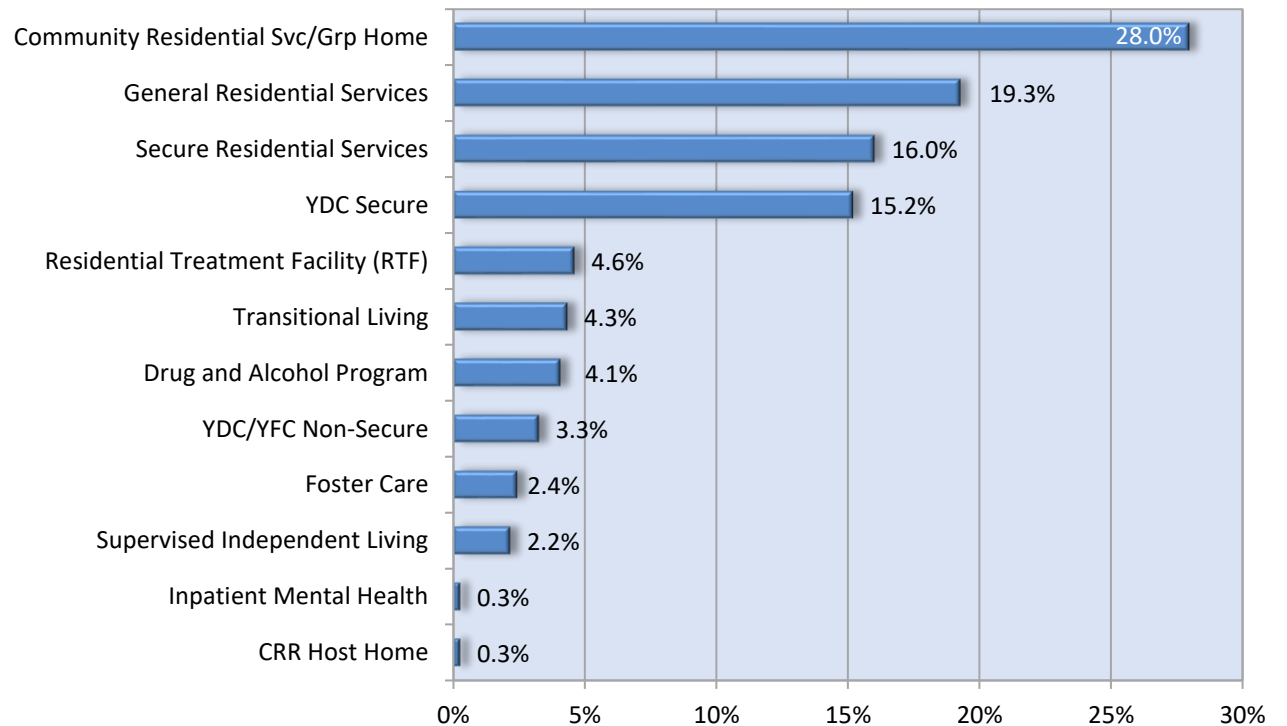

A placement review is a hearing conducted by the court regarding a previous disposition which resulted in out-of-home placement.

The majority of delinquency placement review proceedings resulted in an order of Continued in Previous Placement (62.0%). Released from Placement was the outcome in 29.2% of placement reviews and Transferred to Another Placement occurred in 8.8% of placement reviews.

In the small percentage of placement reviews in which a transfer to another placement was ordered, most transfers were to a Community Residential Service/Group Home.

Transferred Placements by Type, 2021

Section 6: Dependency Dispositions

Dependency Dispositions, 2021

Since 1991, the Juvenile Court Judges' Commission collects information on dependency cases processed by juvenile probation departments. These figures do not reflect the total number of dependency cases in the Commonwealth. For the purposes of the annual report, a dependency case is defined as a new referral that is processed by the juvenile probation department that does not have accompanying delinquency allegations.

Only the counties that report dependency dispositions are shown in the tables in this section.

COUNTY	TOTAL DISPOSITIONS	CONSENT DECREE	DISMISSED	INFORMAL ADJUSTMENT	OTHER	PLACEMENT	PROTECTIVE SUPERVISION	WARNED AND COUNSELED	WITHDRAWN
BEAVER	52	0	1	0	7	18	4	8	14

Note: Age calculated at date of disposition. The data do not include dispositions resulting from disposition review and placement review hearings.

Chapter 3 - Juvenile Justice Trends

Overview

As Pennsylvania systematically integrates data-driven policies and practices at every stage of the juvenile justice system, stakeholders continually track the performance and outcomes of such activities to ensure they are promoting positive outcomes for youth. These metrics provide a clear picture of the impact of various initiatives on key justice measures, such as the crime rate and recidivism.

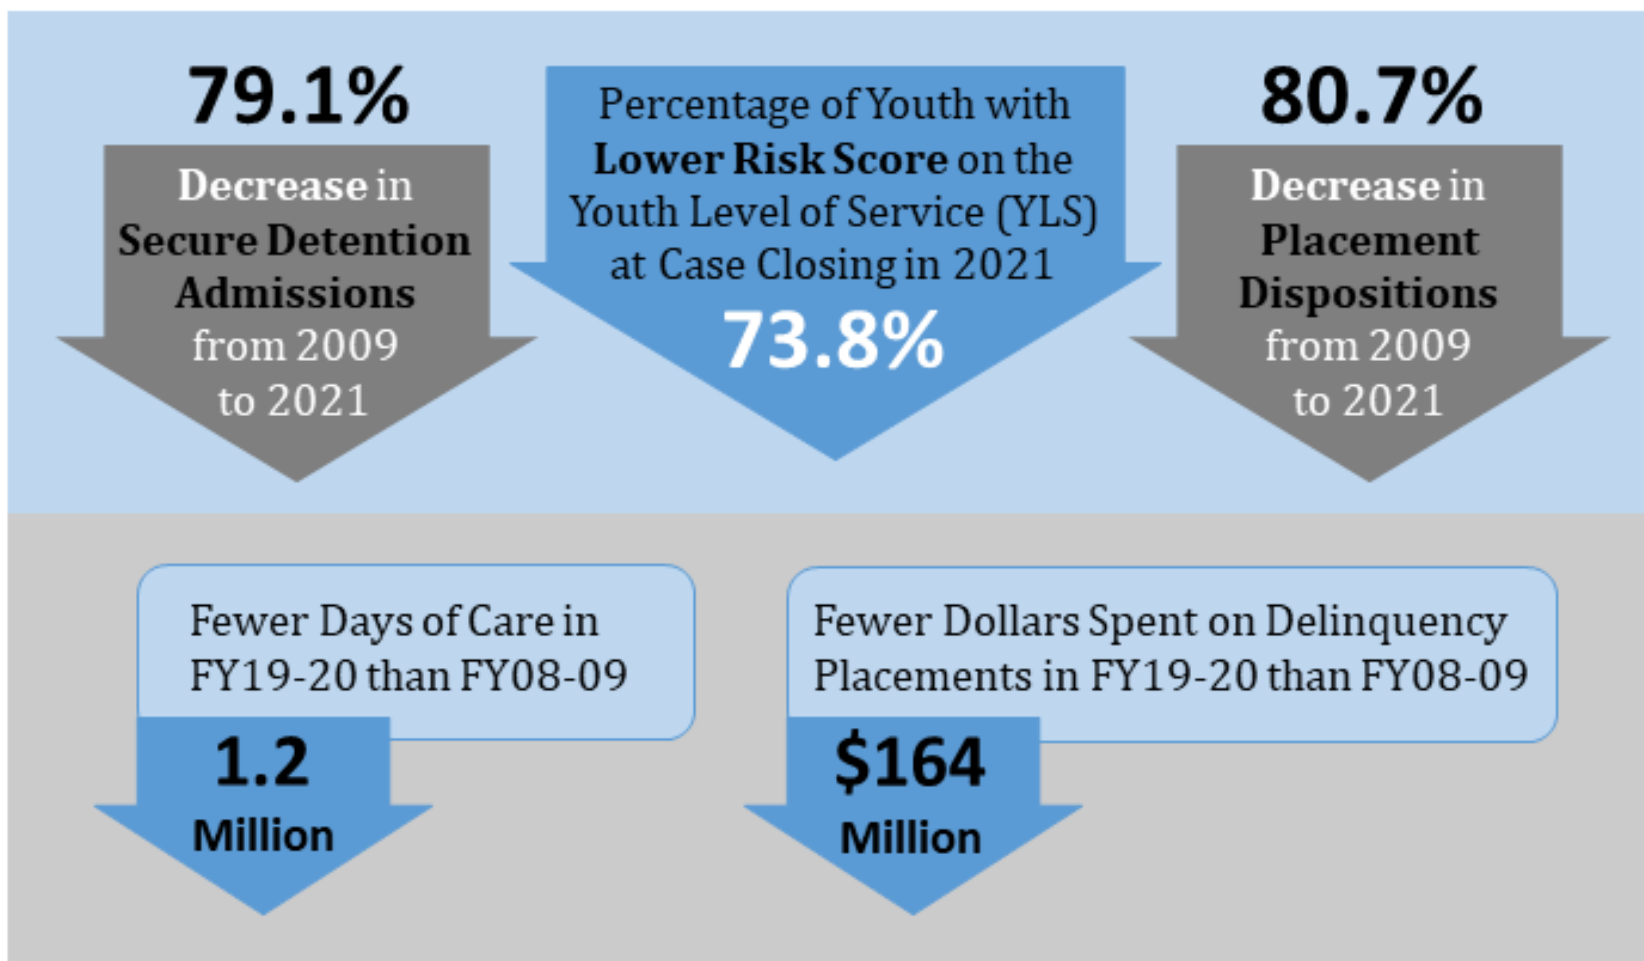

In this chapter, longitudinal data are presented to demonstrate long-term changes over time at several key decision points throughout the system, including arrest, written allegation, secure detention, disposition, and placement. While Chapters 1 and 2 of this report include five years of trend data, this chapter includes thirteen years to allow for a more robust analysis of change over time.

This chapter also provides a summary of the impact of the juvenile justice system on Pennsylvania's youth, as measured by the change in the youths' risk score on the Youth Level of Service (YLS) from case opening to case closing, as well as recidivism. The figures in this chapter related to these two measures only provide a small snapshot of these important juvenile justice system outcomes. The reader is encouraged to visit the Juvenile Court Judges' Commission website to review the 2021 Outcome Measures Report and the various recidivism studies: <https://www.jcjc.pa.gov/Research-Statistics/Documents/2021%20Statewide%20Outcome%20Measures%20Report.pdf> and <https://www.jcjc.pa.gov/Research-Statistics/Pages/Recidivism.aspx>.

In addition to drawing on data retrieved from the Pennsylvania Juvenile Case Management System (PaJCMS), this section also utilizes data collected by the Pennsylvania State Police Uniform Crime Reporting System (arrest figures); the Centers for Disease Control (juvenile population figures); the Department of Human Services' Office of Children, Youth, and Families (delinquency placement days of care and expenditures); and the Administrative Office of Pennsylvania Courts (recidivism rates). Given the variety of external sources utilized for the figures in this chapter, county-level statistics are not available in the Appendix.

Finally, the reader should be cautioned that, beginning in 2020, figures in this chapter were likely impacted by the COVID-19 pandemic. The pandemic's effect on the juvenile justice system is examined further in Chapter 4 – The Impact of COVID-19 on the Pennsylvania Juvenile Justice System.

Key Juvenile Justice Trends

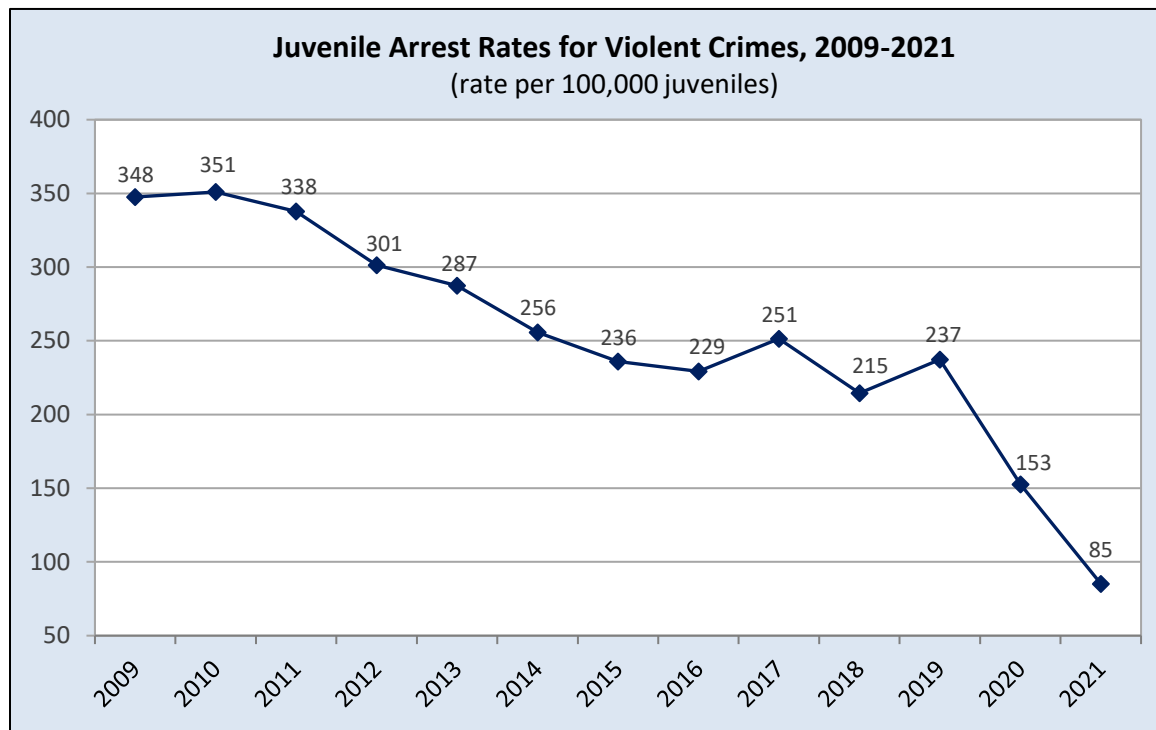

Section 1: Arrest Rates for Violent Crimes

1. The arrest data in this section was retrieved from the Pennsylvania State Police's Uniform Crime Reporting System. These figures are available online at <https://www.ucr.pa.gov/PAUCRSPUBLIC>.
2. The juvenile population information used to calculate the arrest rate was retrieved from the Centers for Disease Control. At the time of publication of the Pennsylvania 2021 Juvenile Court Annual Report, the 2021 Population Estimates had not yet been published. We have included the 2020 Population Estimates in this chapter. The 2020 Population Estimates retrieved from The Centers for Disease Control are available online at <https://wonder.cdc.gov/bridged-race-population.html>.
3. The unit of count for this section of the report is based on an arrest. Any one youth may be involved in a number of arrests within a calendar year. An arrest does not automatically result in a written allegation to the juvenile justice system. In addition, a youth may be referred to the juvenile justice system without being arrested. Finally, a youth may be arrested on more than one occasion and receive only one written allegation to the juvenile justice system. Therefore, the reader is cautioned NOT to attempt to interpret arrests as the number of youth who are referred to the juvenile justice system or the number of offenses.
4. Arrests in this section occurred between January 1, 2009, and December 31, 2021.
5. Only the most serious offense is captured in the arrest data.
6. Data for this report were compiled from the Pennsylvania State Police's Uniform Crime Reporting System and the Centers for Disease Control on May 12, 2022. Any changes to those systems after this date will not be included in these statistics. The numbers published in this report, therefore, may not reflect current numbers within the respective systems.
7. For the purposes of this report, violent crime includes the offenses of murder, rape, robbery, and aggravated assault.
8. The violent crime arrest rate per 100,000 youth is calculated by dividing the total number of arrests for violent crimes by the total number of juveniles aged 10–17 in the state, then multiplying the resulting figure by 100,000.

Juvenile Arrest Rates for Violent Crimes, 2009-2021

Between 2009 and 2021, the juvenile arrest rate for violent crime decreased 75.6%, from 348 arrests per 100,000 juveniles in 2009 to 85 arrests per 100,000 juveniles in 2021.

Source: Juvenile Court Judges' Commission from the Pennsylvania State Police Uniform Crime Reports and the Centers for Disease Control.

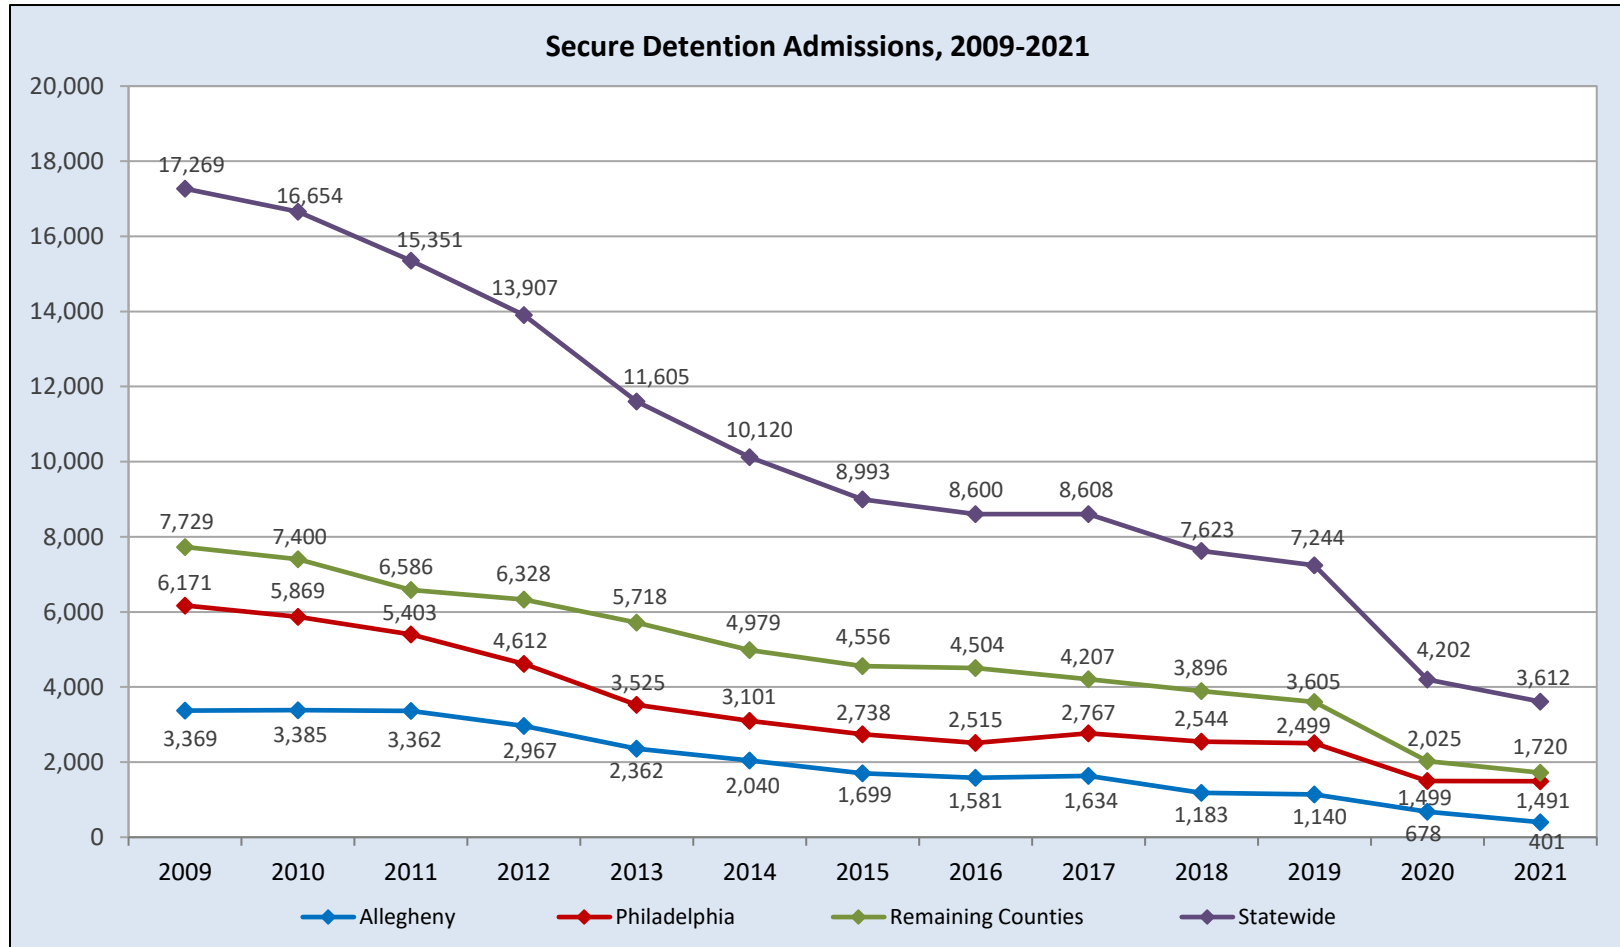

Section 2: Secure Detention

1. Beginning in 2019, the detention data contained in this report was extracted from PaJCMS. Prior to 2019, this data was extracted from the secure detention database at the Juvenile Court Judges' Commission's Center for Juvenile Justice Training and Research, which was populated with data reported directly from juvenile detention centers each month.
2. When interpreting the data contained in these tables, the reader should note the following:
 - The unit of count is the admission of a juvenile to a secure detention center.
 - A juvenile who is admitted to a secure detention center and subsequently transferred to another secure detention center without release is counted as two admissions.
3. Secure detention admissions in this section occurred between January 1, 2009, and December 31, 2021.
4. Please review page 12 of this report for additional notes on the secure detention data.

Secure Detention Admissions, 2009–2021

As noted earlier in this report, secure detention admissions have declined 58.0% statewide since 2017. Since 2009, however, secure detention admissions declined 79.1%. There were 13,657 fewer secure detention admissions in 2021 compared to 2009.

Allegheny County detention admissions decreased by 88.1% from 2009 to 2021, and Philadelphia County admissions decreased 75.8% during the same time period. Overall statewide admissions, excluding Allegheny and Philadelphia, decreased by 77.7% from 2009 to 2021.

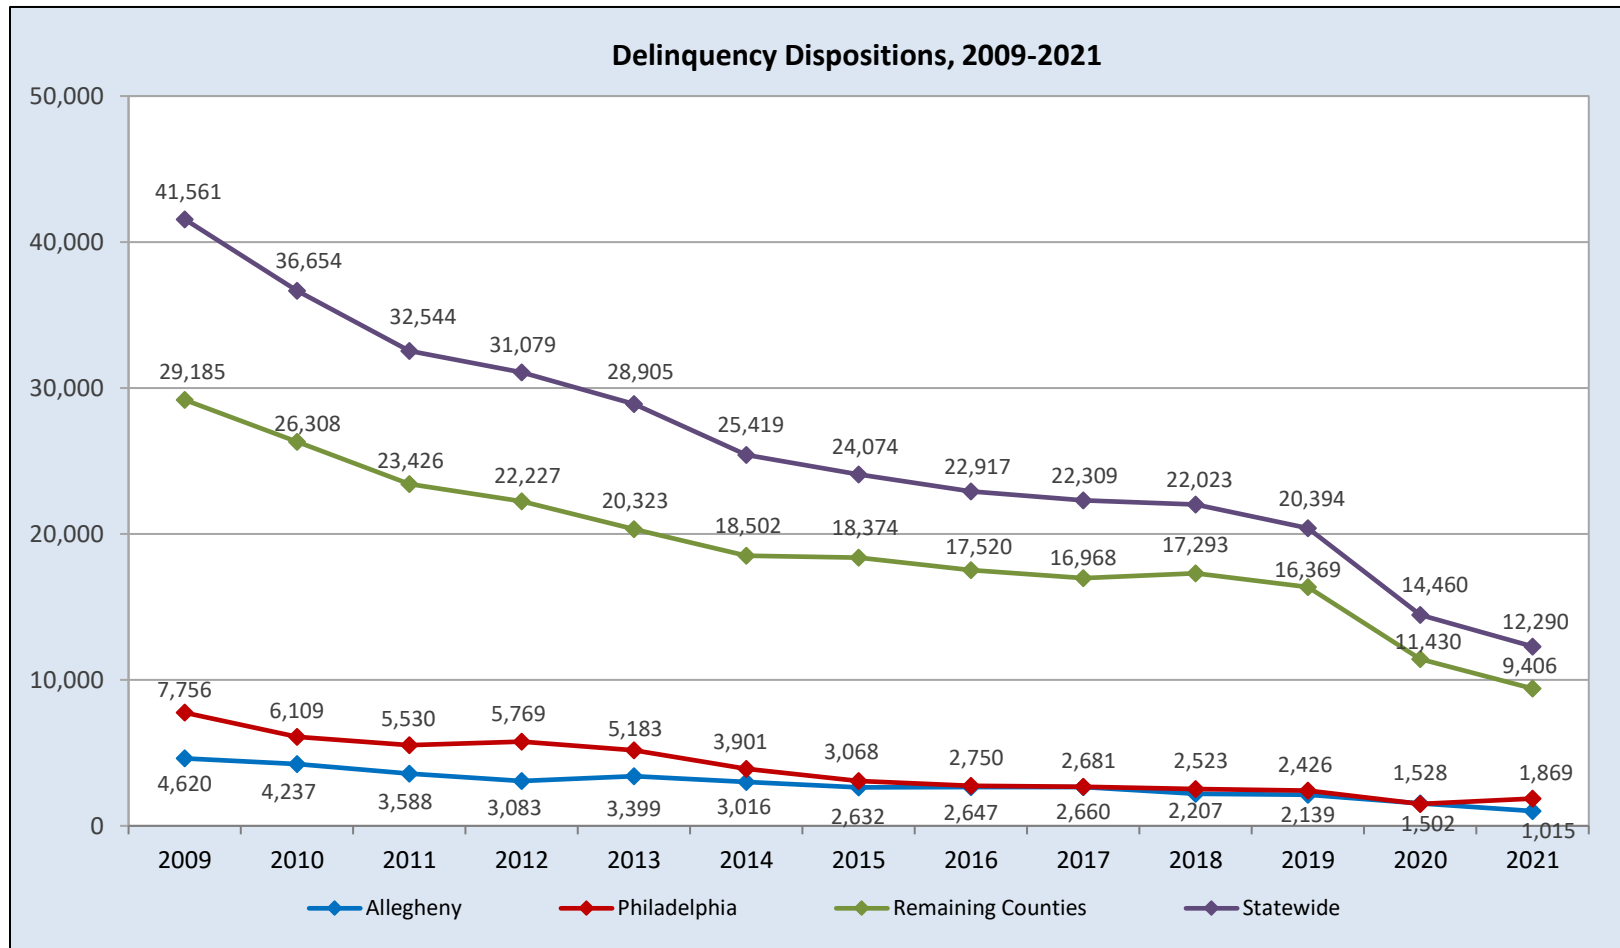

Source: Juvenile Court Judges' Commission.

Section 3: Delinquency Dispositions

1. The unit of count for this section of the report is the disposition. A disposition is defined as an allegation of delinquency disposed of by the juvenile probation department and/or the court. Any one youth may be involved in a number of dispositions within a calendar year containing multiple allegations. In addition, a youth may be referred on more than one occasion and receive only one disposition. Therefore, the reader is cautioned NOT to attempt to interpret dispositions as the number of youth who are processed by the court or the number of offenses.
2. Dispositions in this section occurred between January 1, 2009, and December 31, 2021.
3. The juvenile population information used to calculate the percentage of juvenile population receiving delinquency dispositions was retrieved from the Centers for Disease Control. At the time of publication of the Pennsylvania 2021 Juvenile Court Annual Report, the 2021 Population Estimates had not yet been published. We have included the 2020 Population Estimates in this chapter. The 2020 Population Estimates retrieved from The Centers for Disease Control are available online at: <https://wonder.cdc.gov/bridged-race-population.html>.
4. Please review page 18 of this report for additional notes on the delinquency disposition data.

Delinquency Dispositions, 2009-2021

As reported in Chapter 2 of this report, delinquency dispositions decreased 44.9% statewide between 2017 and 2021. Since 2009, however, statewide delinquency dispositions decreased 70.4%. In Allegheny County, delinquency dispositions decreased 78.0% in this time period, and in Philadelphia County, delinquency dispositions decreased 75.9%. In the remaining counties, delinquency dispositions decreased 67.8% in this period. Statewide, there were 29,271 fewer dispositions in 2021 compared to 2009.

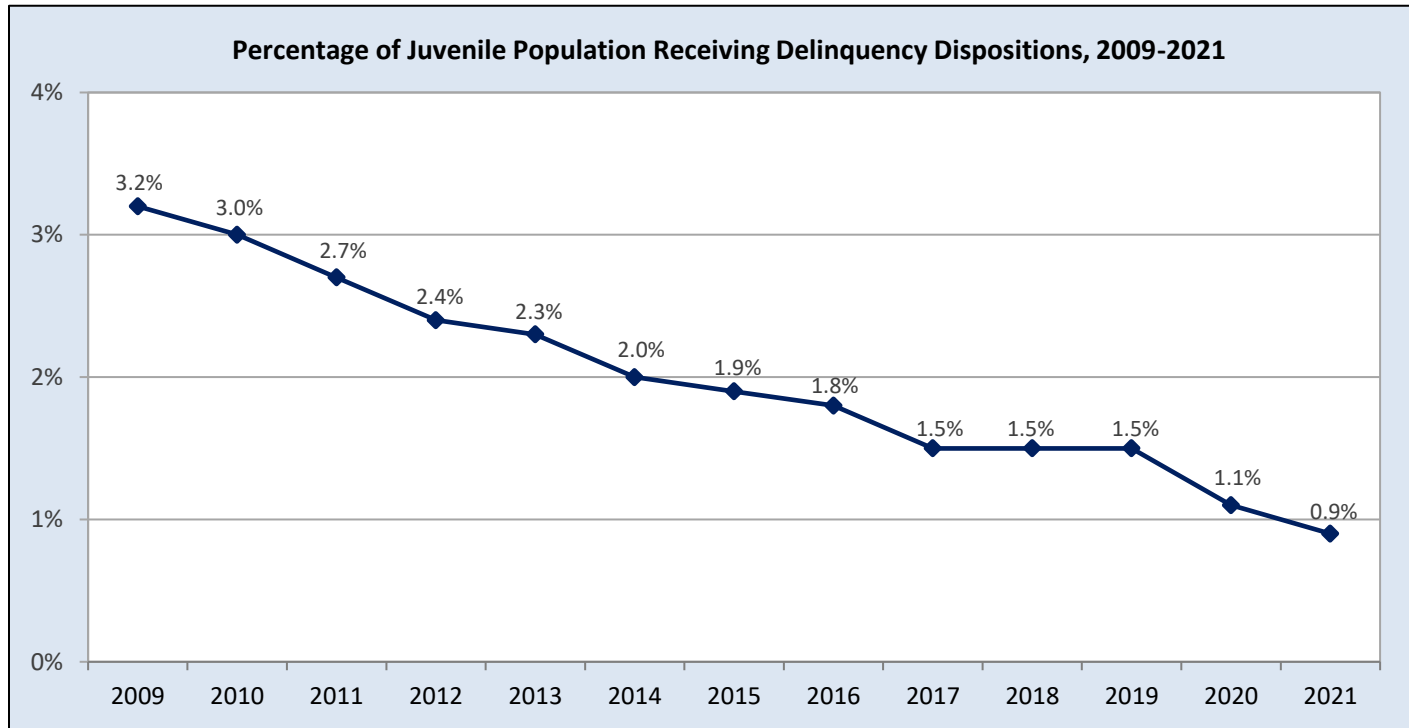

Source: Juvenile Court Judges' Commission.

Percentage of Juvenile Population Receiving Delinquency Dispositions, 2009-2021

It is also important to determine the reduction of dispositions when controlling for changes in the youth population. This determination is accomplished by calculating the percentage of the juvenile population that received a delinquency disposition.

In Chapter 2 of this report, it was noted that between 2017 and 2021, the rate of juvenile delinquency dispositions as a percent of the Pennsylvania juvenile population declined by 40.0%, from 1.5% to 0.9%. Between 2009 and 2021, the Pennsylvania delinquency disposition rate per juvenile population declined by 71.9%, from 3.2% to 0.9%.

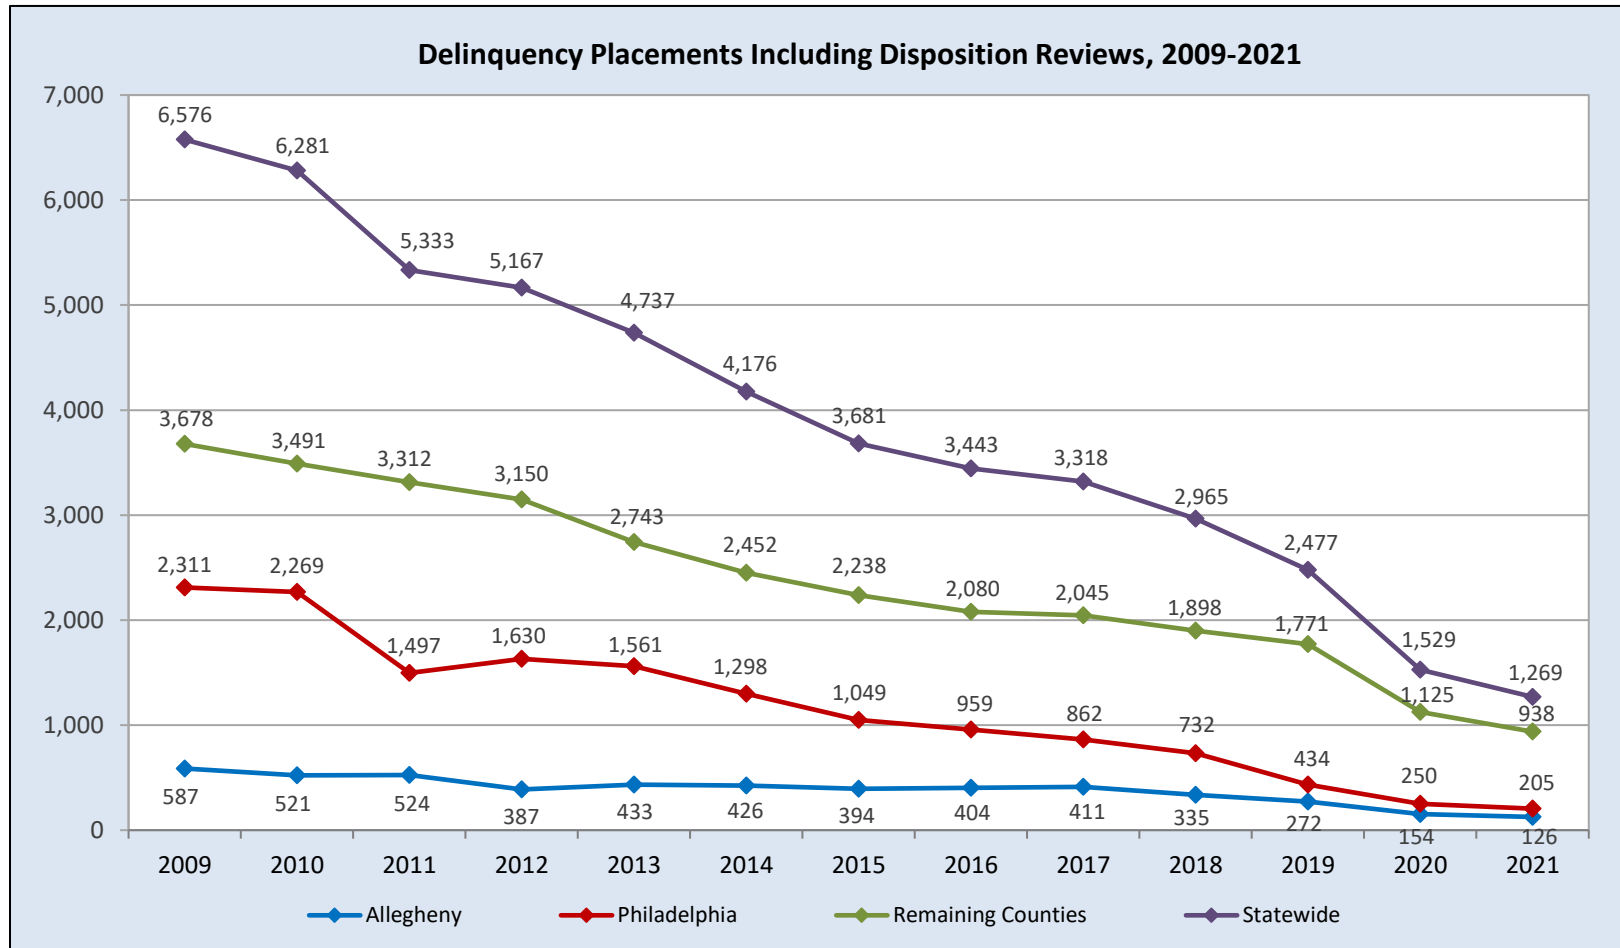

Source: Juvenile Court Judges' Commission and the Centers for Disease Control.

Delinquency Placements, 2009-2021

Delinquency placements are one of the most severe and costly dispositions that a youth can receive from the juvenile justice system and are typically reserved for the most serious types of offenses.

As reported in Chapter 2 of this report, juvenile delinquency placements decreased 61.8% between 2017 and 2021. Between 2009 and 2021, however, delinquency placements decreased 80.7%.

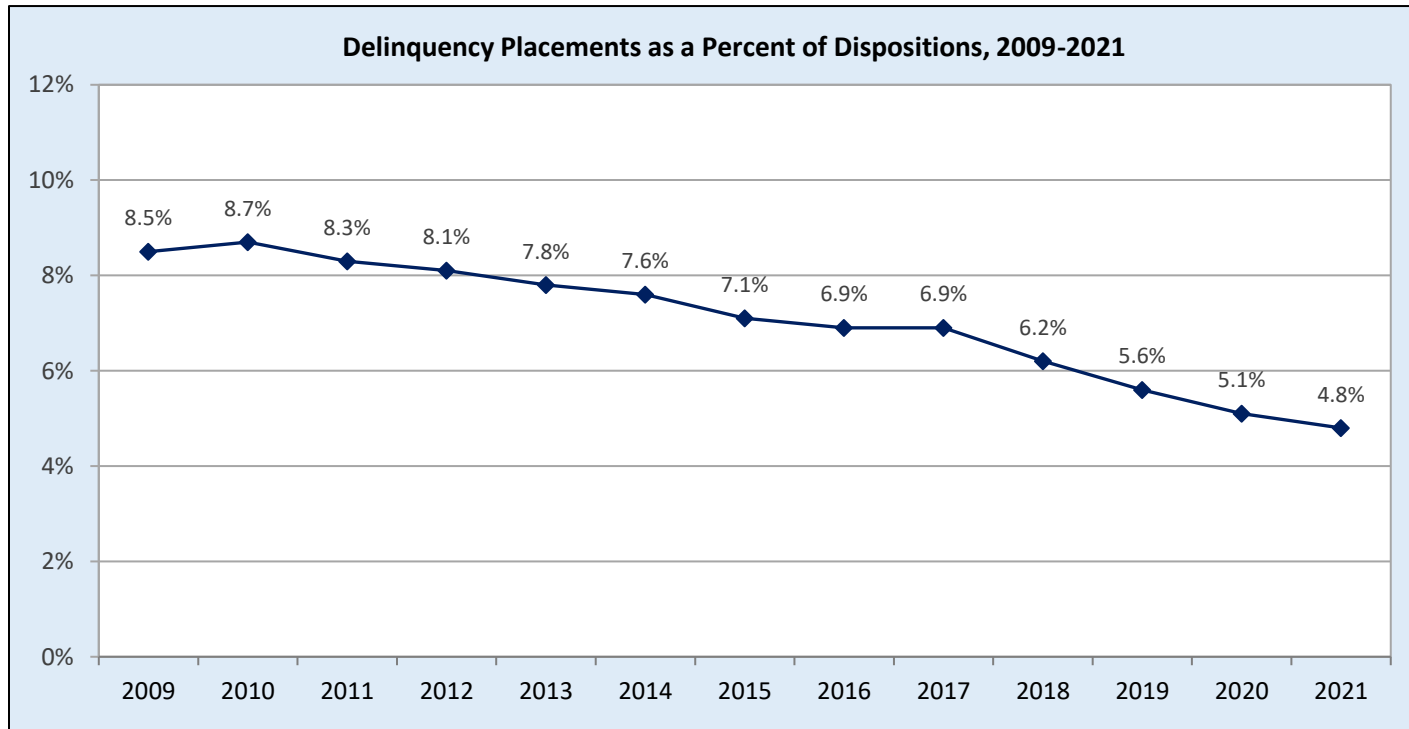

Source: Juvenile Court Judges' Commission.

Delinquency Placements as a Percent of Dispositions, 2009-2021

It is also important to determine the reduction of placement dispositions when controlling for changes in the total number of overall dispositions. This determination is accomplished by calculating the percentage of total dispositions that resulted in a placement disposition.

As previously shown in this report, between 2017 and 2021, delinquency placements as a percentage of total dispositions decreased 30.4%.

From 2009-2021, however, juvenile delinquency placements as a percent of dispositions decreased 43.5%, from 8.5% of all dispositions in 2009 to 4.8% of all dispositions in 2021.

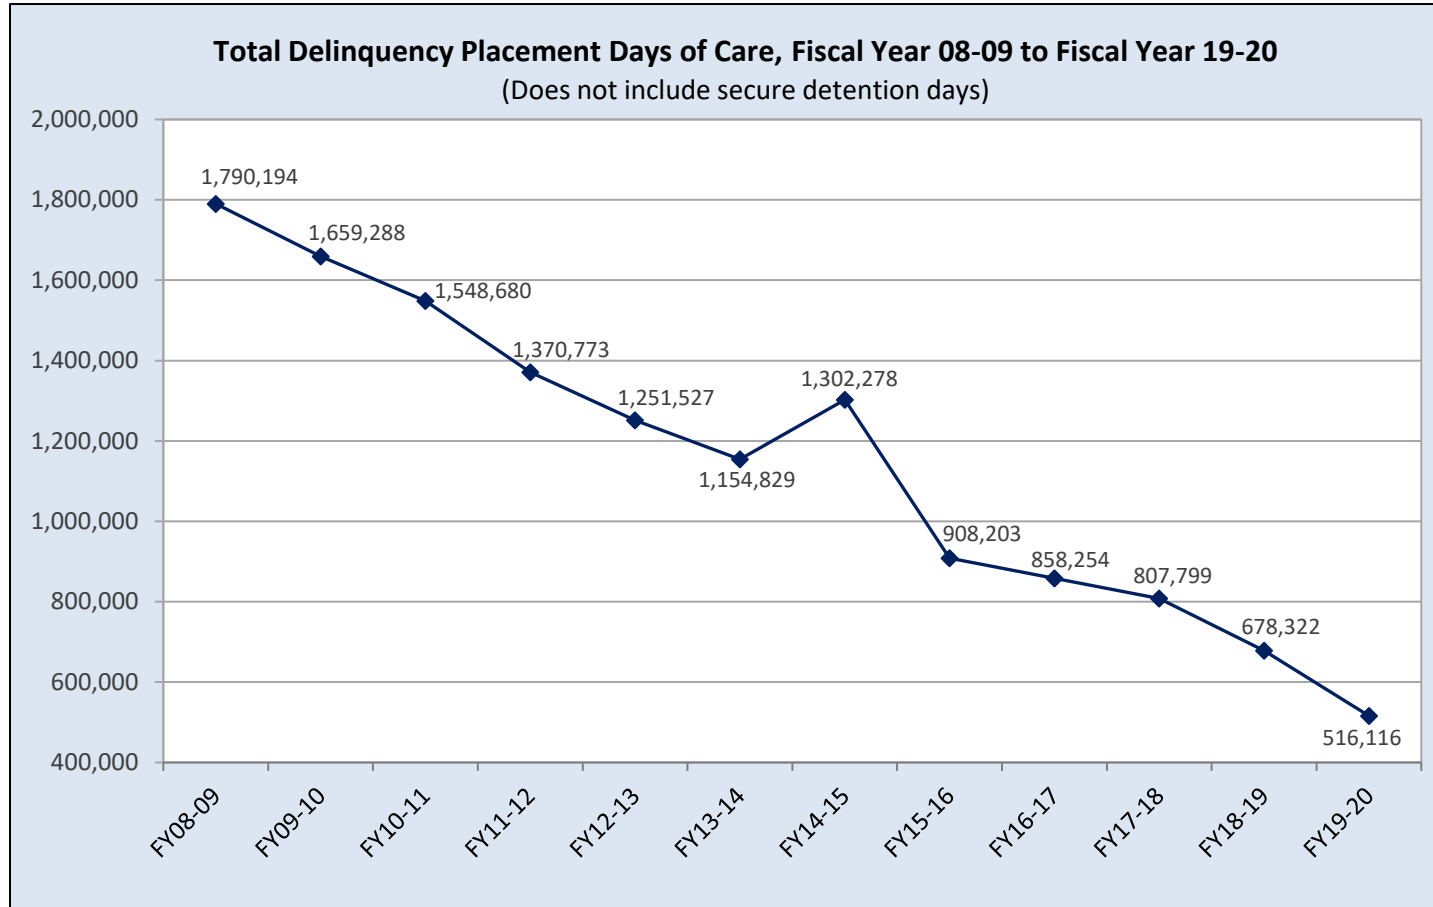

Source: Juvenile Court Judges' Commission.

Section 4: Delinquency Placement Days of Care and Delinquency Expenditures

1. The information for this section was provided to the Juvenile Court Judges' Commission by the Department of Human Services' Office of Children, Youth, and Families. This information is compiled during the annual Needs-Based Plan and Budget process.
2. For the purposes of this report, days of care are defined as the total number of days that youth spent outside their home while in residential placement.
3. Detention days of care and expenditures are excluded from these figures.
4. Please note that data are presented in fiscal year, not calendar year.
5. The data contained in this section are from FY08-09 through FY19-20.

Total Delinquency Placement Days of Care, Fiscal Year 08-09 to Fiscal Year 19-20

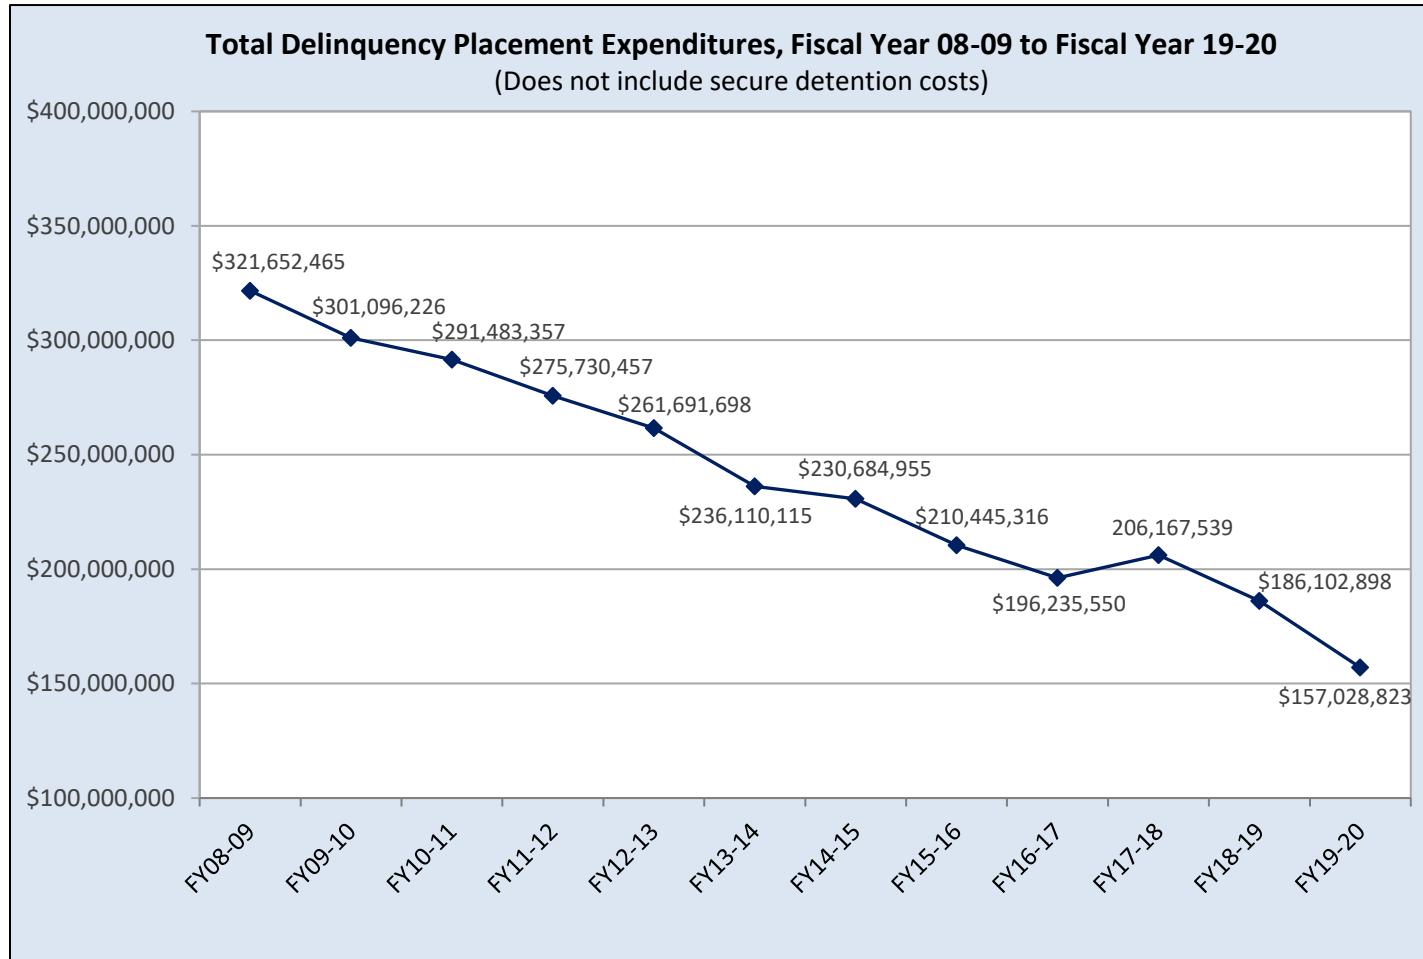

As noted in Section 3 of this Chapter, delinquency placement dispositions were down 80.7% since 2009. Days of care were also down significantly. Between FY08-09 and FY19-20, placement days of care decreased 71.2%. There were 1,274,078 fewer days of care in FY19-20 than FY08-09.

Source: Juvenile Court Judges' Commission from the Department of Human Services' Office of Children, Youth, and Families.

Total Delinquency Placement Expenditures, Fiscal Year 08-09 to Fiscal Year 19-20

With such large decreases in both the total number of placement dispositions and the total days of care since 2009, Pennsylvania has also spent significantly less on delinquency placement expenditures (excluding secure detention expenditures). Specifically, juvenile delinquency placement expenditures declined by 51.2% from FY08-09 through FY19-20. In FY19-20, \$164,623,642 less was spent on delinquency placements compared to FY08-09.

Source: Juvenile Court Judges' Commission from the Department of Human Services' Office of Children, Youth, and Families.

Section 5: Juvenile Justice System Outcomes: Risk Reduction and Recidivism

Risk Reduction

The use of the Youth Level of Service (YLS) is the cornerstone of Pennsylvania's Juvenile Justice System Enhancement Strategy (JJSES). The YLS is an actuarial risk assessment tool used for juvenile offenders. The tool contains 42 static and dynamic risk factors, divided into eight domains, that have been identified in research literature as most predictive of youthful re-offending. Generally, juveniles are assessed at the time they enter the juvenile justice system. Upon completion of the YLS assessment, juveniles are assigned a numeric score and risk level (i.e., low, moderate, high, or very high) and their top criminogenic needs (those factors recognized as driving their delinquent behavior) are identified. These results assist juvenile probation officers in targeting a juvenile's specific needs through treatment, interventions, and services.

Best practice also dictates that juveniles be re-assessed at regular intervals while under juvenile court supervision and again at the time of case closure. Changes in scores between the juvenile's initial YLS assessment and the juvenile's case closing YLS assessment serve as one indicator of the impact of a juvenile's involvement in the juvenile justice system. Therefore, decreases in risk scores indicate a positive outcome for the juvenile.

1. The unit of count for this analysis is a juvenile with a case closed from a Pennsylvania juvenile probation department who had outcome measures completed.
2. Only juveniles with both an initial YLS assessment and a case closing YLS assessment captured in the PaJCMS were included in these figures.
3. The figures in this chapter are for youth closed between January 1, 2021, and December 31, 2021.
4. For more information on this risk reduction measure, please see the 2021 Outcome Measures Report: <https://www.jcjc.pa.gov/Research-Statistics/Documents/2021%20Statewide%20Outcome%20Measures%20Report.pdf>.

Recidivism

Recidivism is another measure utilized by stakeholders to determine the impact of a juvenile's involvement in the juvenile justice system. One of the main tenets of the Balanced and Restorative Justice (BARJ) mission of the Pennsylvania juvenile justice system is that youth should leave the system with the tools to become law-abiding citizens. Determining the youth's return to criminal behavior (recidivism) is one way to calculate the degree to which this BARJ goal is met.

Since the beginning of the implementation of the JJSES, the Juvenile Court Judges' Commission has tracked the recidivism rates of all youth with cases closed from the juvenile justice system. These analyses serve two purposes. First, since the core premise of the JJSES is that recidivism rates can be reduced through the implementation of evidence-based practices, these analyses establish an ongoing, consistent recidivism benchmark. Second, these analyses allow stakeholders to examine differences between recidivists and non-recidivists in terms of demographics, risk level, disposition history, and other key variables to identify factors most closely associated with recidivism in the Pennsylvania juvenile justice system.

A benchmark recidivism rate pre-JJSES implementation was established using years 2007 through 2010. Since then, the recidivism rates of youth closed for services from years 2011 through 2018 have been analyzed.

1. The unit of count for this analysis is a juvenile with a case closed from a Pennsylvania juvenile probation department who had been under some form of juvenile justice supervision. Any one youth may have a number of arrests, written allegations, and dispositions at the time of their case closing.
2. Recidivism rates in this section were based on youth who were closed from juvenile probation departments between January 1, 2007 and December 31, 2018.
3. For the purposes of this report, recidivism is defined as: a subsequent delinquency adjudication in juvenile court or conviction in criminal court for either a misdemeanor or felony offense within two years of case closure.
4. Subsequent adjudication of delinquency information was retrieved from the PaJCMS. Subsequent conviction information was provided by the Administrative Office of Pennsylvania Courts.
5. The recidivism rate is calculated by dividing the total number of youth with a subsequent delinquency adjudication in juvenile court or conviction in criminal court for either a misdemeanor or felony offense within two years of case closure by the total number of juveniles closed.
6. For more information on recidivism in Pennsylvania, please review the Recidivism Reports on the Juvenile Court Judges' Commission website: <https://www.jcjc.pa.gov/Research-Statistics/Pages/Recidivism.aspx>.

Risk Reduction as Measured by the Change in Youth Level of Service Score

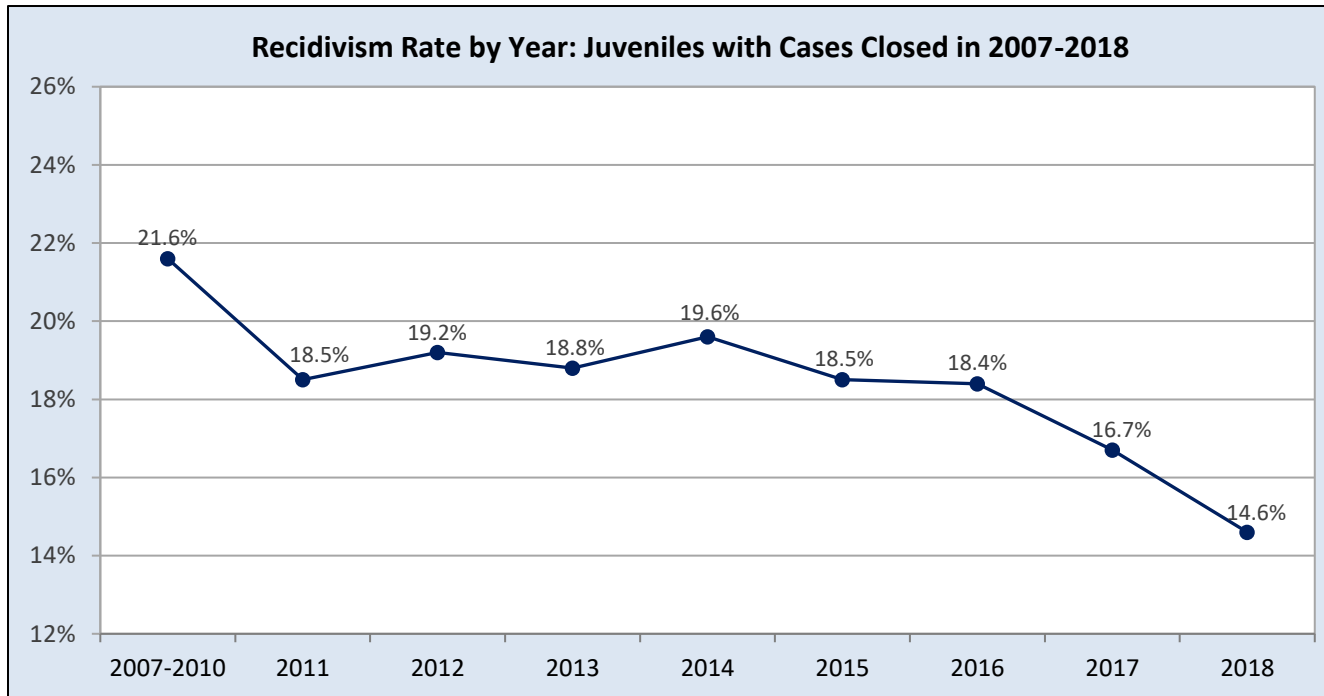

In 2021, among all youth closed from juvenile probation departments who had both an initial YLS score and a case closing YLS score, 73.8% had a lower risk to re-offend score at case closing compared to their initial assessment. Among just those youth identified as moderate risk to re-offend on their initial assessment, 83.4% had a lower risk to re-offend score at case closing. Finally, among just those youth identified as high/very high risk to re-offend on their initial assessment, 91.0% had a lower risk to re-offend score at case closing.

Source: Juvenile Court Judges' Commission.

Recidivism Rate by Year: Juveniles with Cases Closed in 2007-2018

In the benchmark years of 2007-2010, the statewide recidivism rate was 21.6%. This figure dropped to 18.5% in 2011 and remained relatively consistent through 2016. For juveniles whose cases were closed in 2017 and 2018, the recidivism rate was 16.7% and 14.6%, respectively. The 2017 and 2018 recidivism rates are the lowest since the Juvenile Court Judges' Commission began tracking recidivism and continue the trend of post-JJSES rates being below the pre-JJSES rate.

Chapter 4 - The Impact of COVID-19 on Pennsylvania's Juvenile Justice System

Overview

Earlier chapters of this report document how 2021 trends of allegations, dispositions, and the use of residential placement diverged from previous years in ways that are very likely attributable to the COVID-19 pandemic. Similarly, in the 2020 Annual Report, a chapter was dedicated to comprehensively exploring the impact of the pandemic on cases month by month in 2020 compared to similar time periods in 2019. In the current chapter, the focus will be to determine if the trends identified in 2020 continued into 2021.

This chapter analyzes select data reflecting written allegations, case processing, and placements that appear in the main report but at month-by-month intervals with the goal of highlighting the pandemic's impact at a more granular level. This chapter also analyzes case hearing information, which is not reviewed in other chapters of this report, but still offers valuable information regarding how the juvenile justice system has been impacted by the pandemic. Analyzing data on a month-by-month basis provides for a more nuanced analysis of exactly when the pandemic had the largest effect on allegations and dispositions and how long those patterns lasted. This chapter also summarizes patterns observed during the "pandemic months" and compares them to the same period in 2019 and 2020. ***"Pandemic months" include April through December¹.***

These analyses focus on state-level rather than county-level trends to describe how the pandemic has impacted Pennsylvania's juvenile justice system as a whole. As a result, certain trends or explanations of trends presented here may not apply to a specific county. Appendices 33 through 37 present county-specific data, and county juvenile probation departments are encouraged to compare their numbers to this chapter's findings.

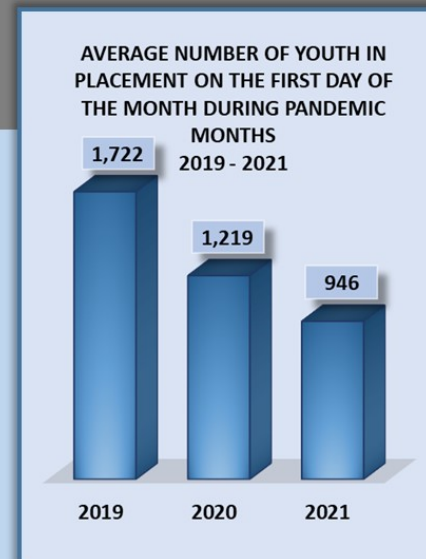

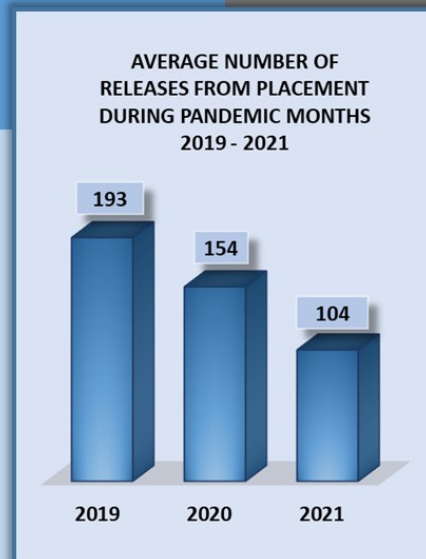

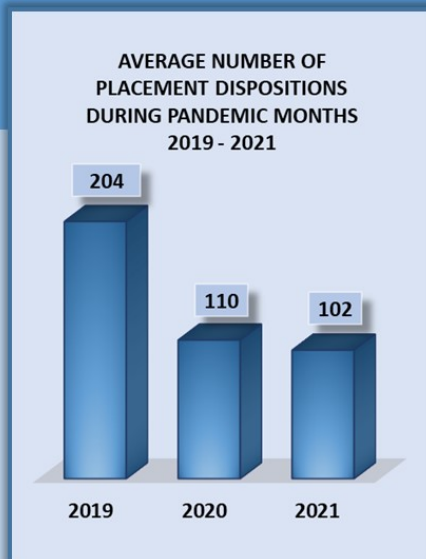

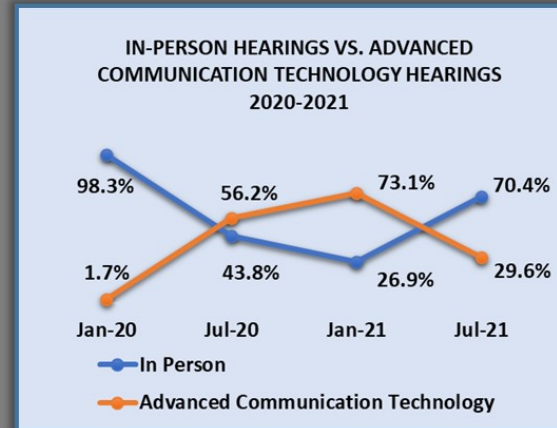

This chapter is organized into three sections: (1) Written Allegations, (2) Court Hearings and Case Processing, and (3) Out-of-Home Placements.

¹Although the pandemic began in mid-March, it was decided that March should not be included in the definition of "pandemic months" because at least two of those weeks occurred prior to juvenile court business practices being affected by COVID-19.

Impact of COVID-19 Statistical Highlights

2019 vs. 2021 Pandemic Months

- ▼ 36.7% - Fewer Written Allegations in 2021
- ▼ 41.6% - Fewer Hearings Held in 2021
- ▼ 50.0% - Fewer Placement Dispositions Per Month
- ▼ 46.4% - Fewer Releases from Placement in 2021
- ▼ 45.1% - Fewer Youth, on Average, in Placement on the First Day of Each Month

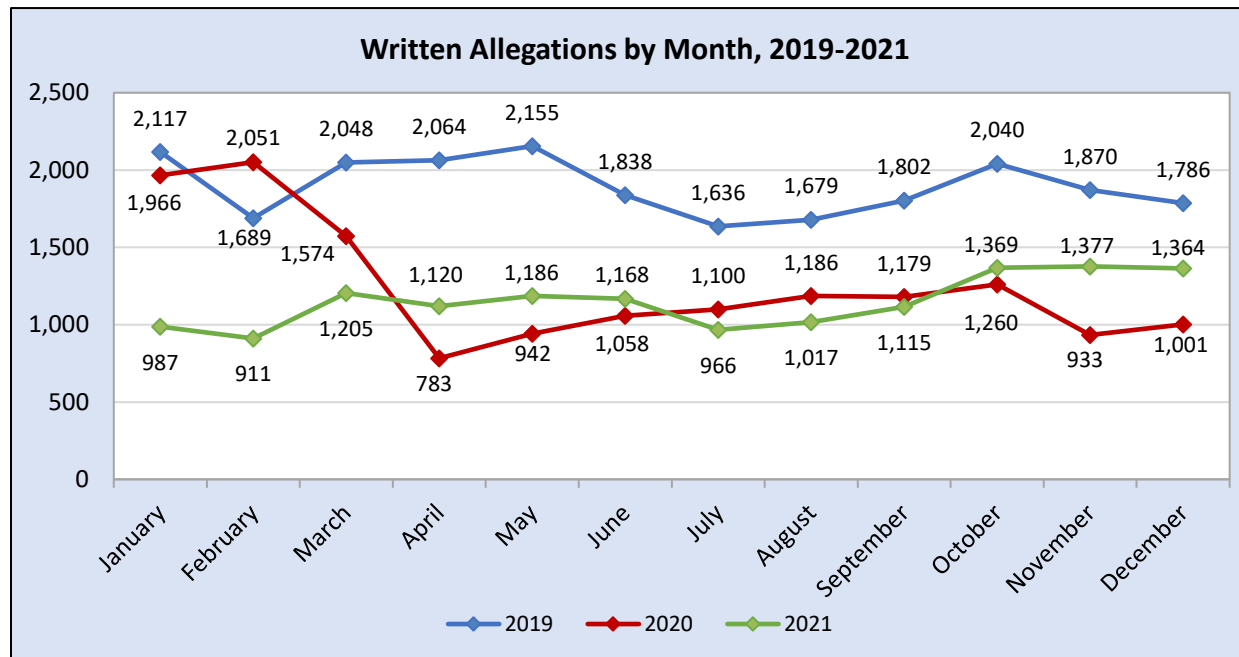

Section 1: Written Allegations

Written Allegations by Month, 2019-2021

As noted in the 2020 Annual Report, a large drop (50.3%) in written allegations was observed between March 2020 and April 2020, after which allegations gradually increased through October, before declining again in November and December. In total, during the pandemic months (April through December), written allegations declined 44.0% between 2019 and 2020.

There were notable patterns in 2021 written allegations as well. First, the total number of written allegations during the pandemic months was higher than the total number of 2020 written allegations during the pandemic months. Second, even with this overall increase, however, 2021 written allegations continued to remain well below 2019 figures. In fact, there were 36.7% fewer written allegations in the 2021 pandemic months compared to the 2019 pandemic months. Finally, even though the 2021 figures were well below 2019 figures, the monthly trends of increases and decreases in 2021 written allegations were very similar to monthly patterns in 2019.

2021 Percent Change among the Top Ten Offenses with the Largest Decreases in Written Allegations between 2019 and 2020 Pandemic Months

As reported in the 2020 Annual Report, the five offenses with the largest declines in written allegations between 2019 and 2020 were: (1) Aggravated Assault Against a Teacher (87.6%), (2) Disorderly Conduct (74.5%), (3) Terroristic Threats (70.6%), (4) Retail Theft (64.1%), and (5) Institutional Vandalism (60.0%).

Between 2020 and 2021, however, the number of written allegations for each of those offenses rose, with the exception of Retail Theft, which declined an additional 15.7%. Aggravated Assault Against a Teacher (200.0%), Disorderly Conduct (108.0%), and Institutional Vandalism (107.4%) experienced the largest increase in written allegations.

Even still, the total number of written allegations in 2021 for each of the offenses listed below was well below the number of written allegations for that offense in 2019, with the exception of Weapons Offenses. The number of written allegations for Weapons Offenses in 2021 was virtually the same as 2019 (718 vs. 717, respectively).

2021 PERCENT CHANGE AMONG THE TOP TEN OFFENSES WITH THE LARGEST DECREASES IN WRITTEN ALLEGATIONS BETWEEN 2019 AND 2020 PANDEMIC MONTHS					
OFFENSE	2019 ALLEGATIONS	2020 ALLEGATIONS	2021 ALLEGATIONS	2019-2020 PERCENTAGE CHANGE	2020-2021 PERCENTAGE CHANGE
Aggravated Assault Against a Teacher	193	24	72	-87.6%	200.0%
Disorderly Conduct	341	87	181	-74.5%	108.0%
Terroristic Threats	783	230	454	-70.6%	97.4%
Retail Theft	284	102	86	-64.1%	-15.7%
Institutional Vandalism	135	54	112	-60.0%	107.4%
Simple Assault	1,744	740	1,355	-57.6%	83.1%
Aggravated Assault	916	415	617	-54.7%	48.7%
Harassment/Stalking	156	80	107	-48.7%	33.8%
Possession of Drugs	1,486	827	874	-44.3%	5.7%
Weapons Offense	717	401	718	-44.1%	79.1%

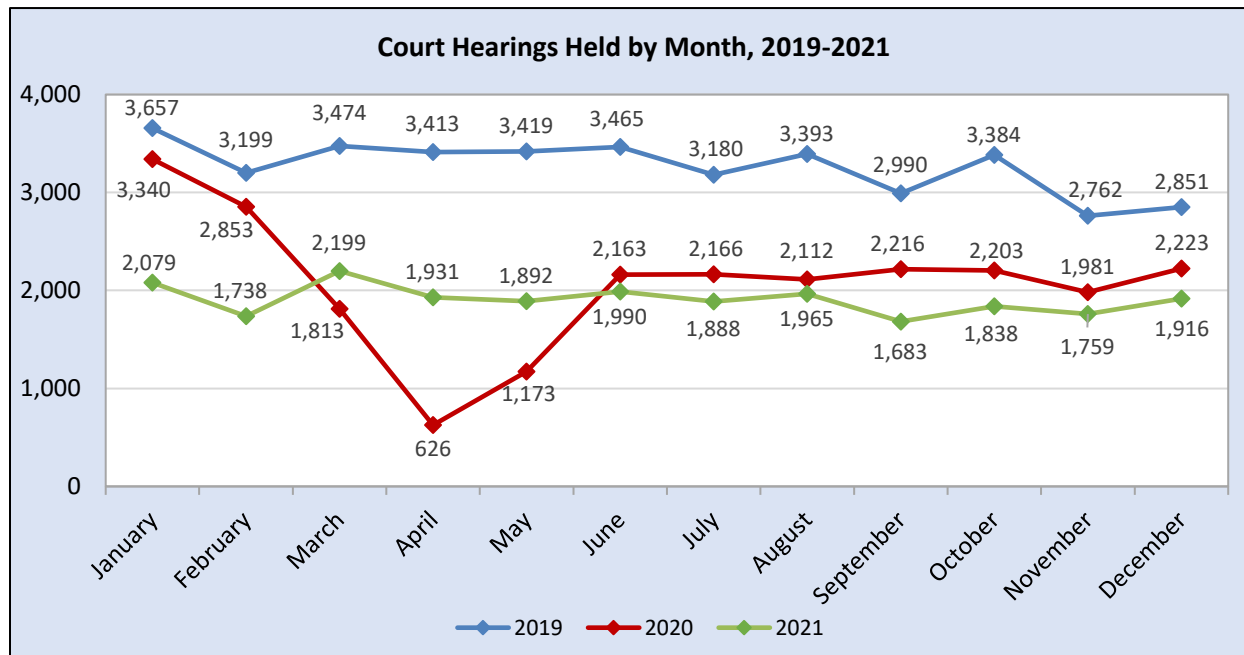

Note: This analysis is restricted to offenses that had at least 100 written allegations in 2019.

Section 2: Court Hearings and Case Processing

Court Hearings Held by Month, 2019-2021

As noted in the 2020 Annual Report, there was a significant decrease in the number of court hearings held by juvenile courts, including disposition and placement reviews, beginning in April 2020. Hearings then increased substantially between April 2020 and June 2020. From June 2020 until December 2020, the number of court hearings held remained consistent. Even still, the number of hearings held in the second part of 2020 were well below the number of hearings held in the same time period in 2019.

In 2021, the total number of hearings held throughout the year continued to reflect the total number of hearings held in the second half of 2020. Additionally, similar to 2020, the total number of hearings held throughout 2021 was also well below 2019 total numbers, in both pandemic months and non-pandemic months. During the pandemic months, there were 41.6% fewer hearings held in 2021 compared to the same period in 2019. During the non-pandemic months, there were 41.8% fewer hearings held in 2021 compared to 2019.

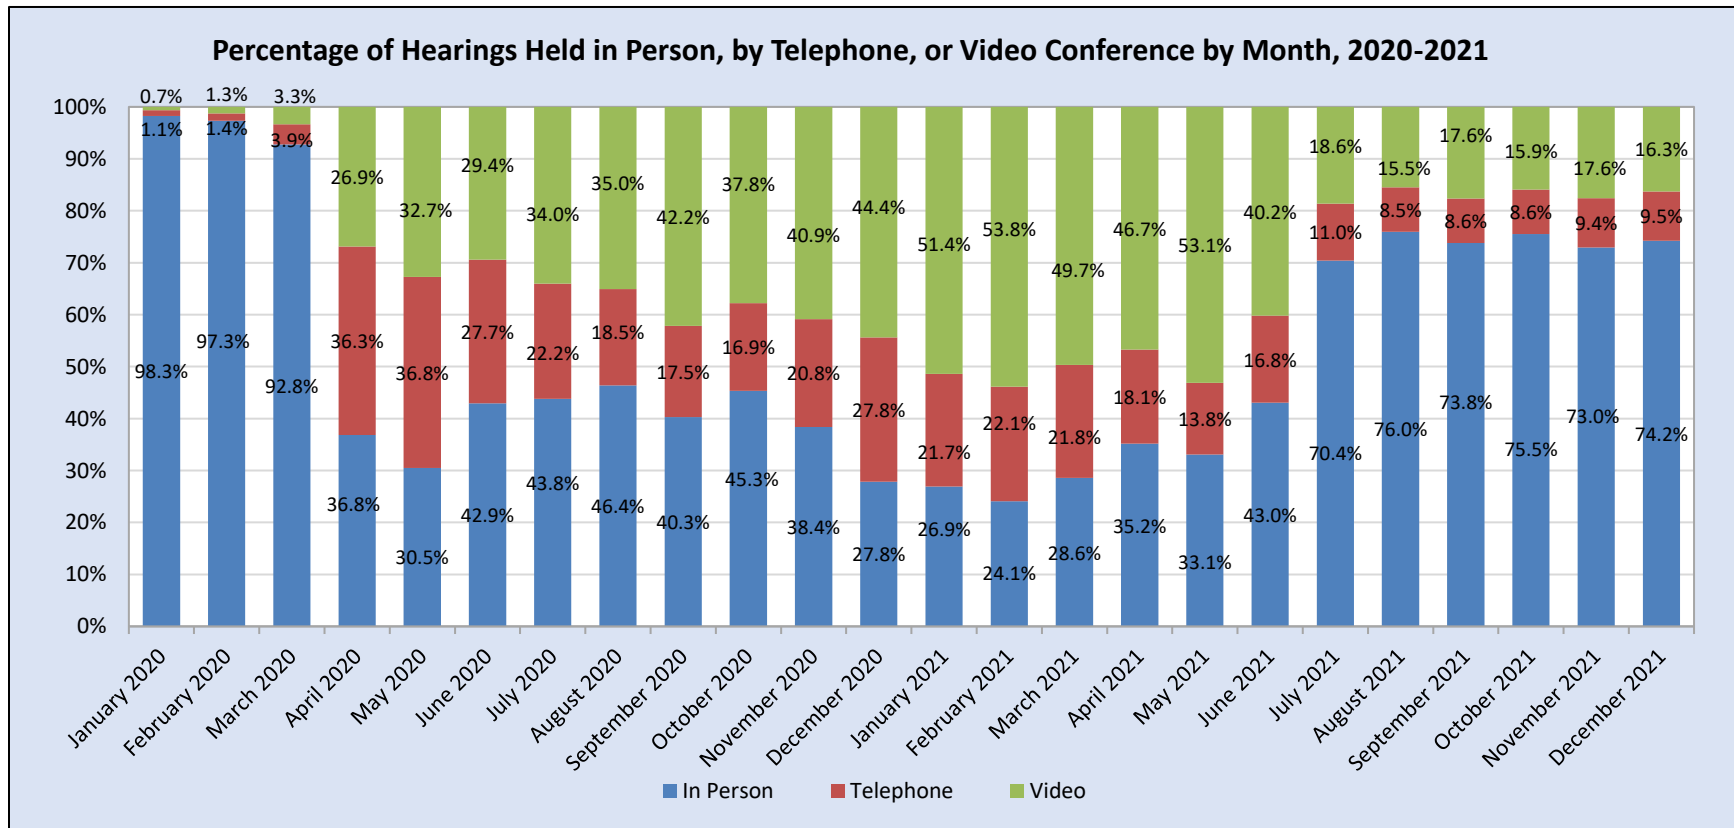

Note: This analysis does not include decisions that courts made by way of signed court orders.

Percentage of Hearings Held in Person, by Telephone, or Video Conference by Month, 2020-2021

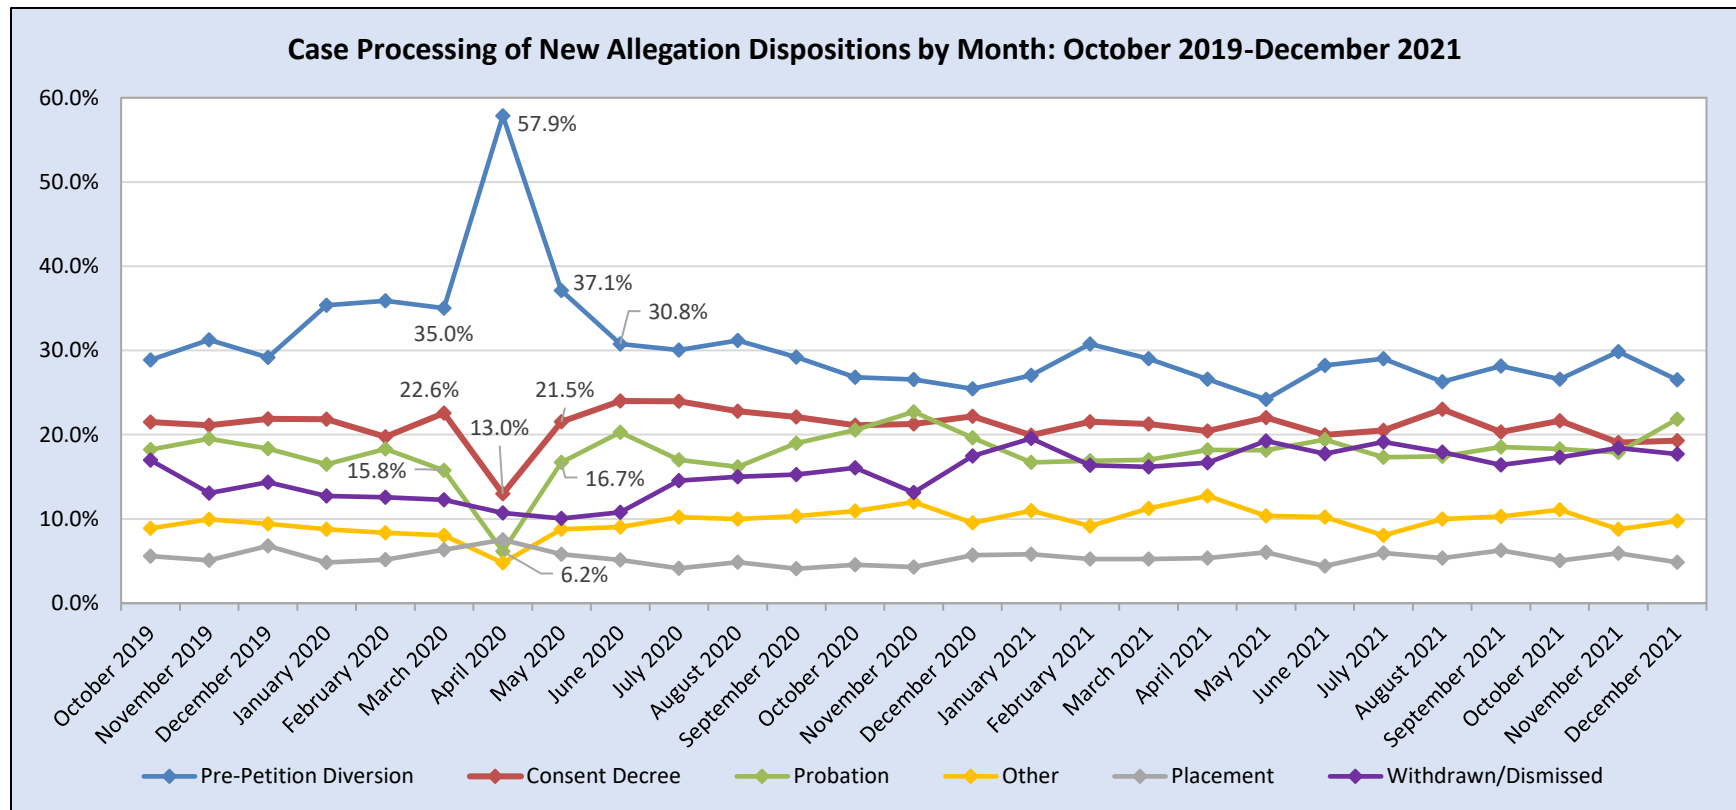

Interestingly, not only did the frequency of hearings change after the onset of the pandemic, the means by which they were held did as well. In the first three months of 2020, virtually all juvenile court hearings were held in person. In April 2020, however, the percentage of hearings held in person decreased substantially, with just one in three hearings occurring in this format. Between April 2020 and June 2021, less than half of all hearings were held in person. Conversely, for each of these months, courts utilized advanced communication technology (telephone or video) in at least 53.6% of hearings.

A large shift away from remote technology occurred in the summer of 2021, however. The percentage of in-person hearings held increased significantly in July 2021 to 70.4% of all hearings, up from just 43.0% in June 2021. From August 2021 through December 2021, approximately three out of four hearings were held in person.

Case Processing of New Allegation Dispositions by Month, October 2019-December 2021

In the chart below, the outcomes of new allegation dispositions are displayed. The data indicates the pandemic had only a short-term impact on how juvenile courts processed new delinquency allegations. Between March and April 2020, the percentage of new allegation dispositions processed through Pre-Petition Diversion increased from 35.0% to 57.9%, before declining to 37.1% in May 2020 and 30.8% in June 2020. From that point forward, the percentage of new allegation dispositions that were processed through Pre-Petition Diversion remained relatively unchanged. Paralleling this finding, the percentage of dispositions resulting in Consent Decrees decreased from 22.6% in March to 13.0% in April before increasing to 21.5% in May. Likewise, the percentage of dispositions resulting in Probation also declined from 15.8% in March to 6.2% in April before increasing to 16.7% in May. From that point forward, the pattern of new allegation dispositions resulting in Consent Decrees and Probation remained relatively unchanged through the remainder of 2020 and through 2021.

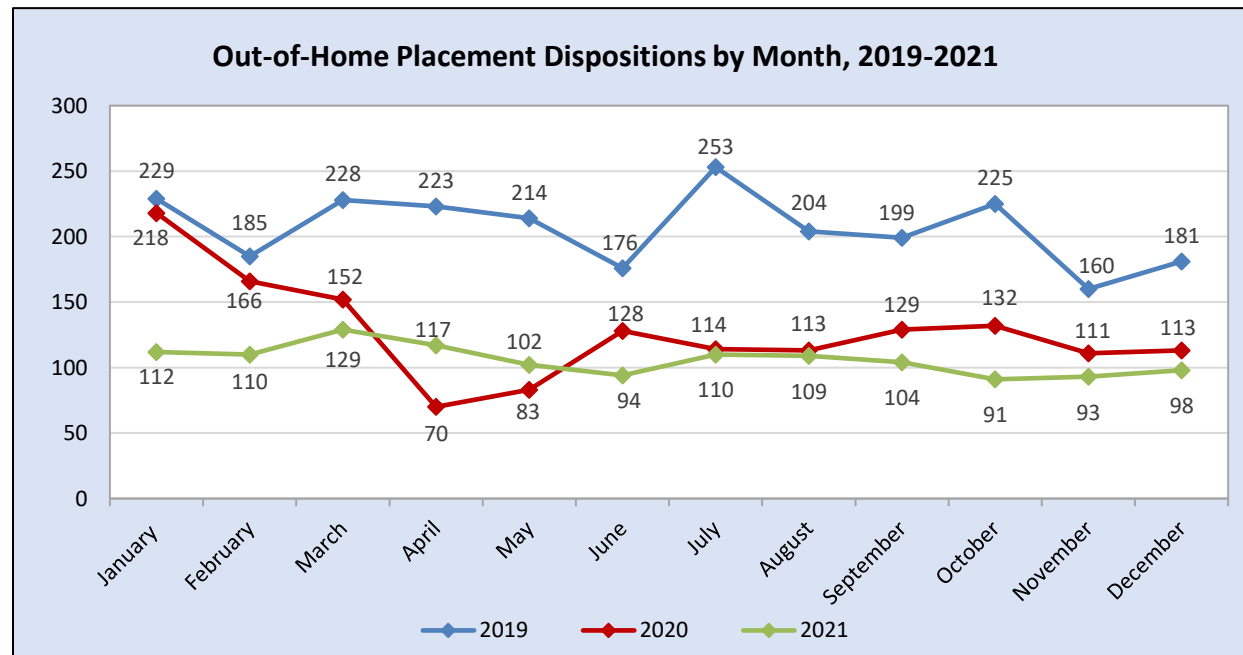

Note: "Other" dispositions include transfer to another juvenile court, accepted courtesy supervision, continuance of previous disposition, fines/costs ordered by the court, transfer to criminal proceedings, and other dispositions.

Section 3: Out-of-Home Placements

Out-of-Home Placement Dispositions by Month, 2019-2021

During the pre-pandemic months of January, February, and March 2020, there were, on average, 179 placement dispositions per month. Between March 2020 and April 2020, however, there was a large drop (53.9%) in placement dispositions, after which such dispositions sharply increased in May and June. Beginning in July, placement dispositions remained relatively consistent throughout the remainder of the year. Even still, the total number of placement dispositions in 2020 was well below 2019 figures, and during the pandemic months specifically, there were 45.9% fewer placement dispositions in 2020 compared to the same time period in 2019.

The pandemic continued to have an impact on the use of out-of-home placement into 2021. There were, on average, only 102 placement dispositions per pandemic month, which is well below the averages for the same time period in 2019 (204) and 2020 (110). Overall, total placement dispositions in the pandemic months of 2021 were lower than the pandemic months of 2019 and 2020 (50.0% and 7.6% respectively).

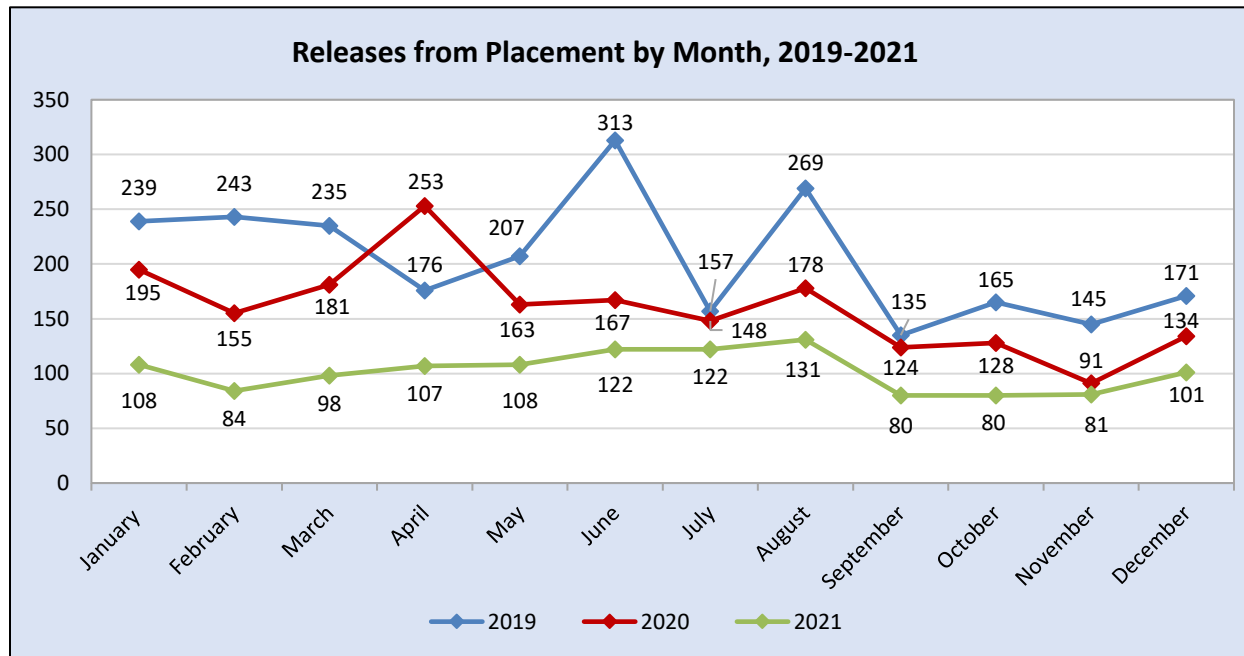

Note: Data on detention, shelter, and diagnostic services are not included in any of the graphs in Section 3: Out-of-Home Placements.

Releases from Placement by Month, 2019-2021

The pandemic also continued to have an impact on the total number of youth released from placement, with even fewer youth released in 2021 than were released in 2020. As noted previously, placement dispositions have decreased substantially since the onset of the pandemic. With fewer youth going into placement, it is logical that fewer youth are ultimately released.

In 2019, approximately 205 youth were released from placement each month, on average. In 2020, approximately 160 youth per month, on average, were released. In 2021, however, only 102 youth per month, on average, were released. During the pandemic months only, there were, on average, 193 releases per month in 2019, 154 releases per month in 2020, and 104 releases per month in 2021.

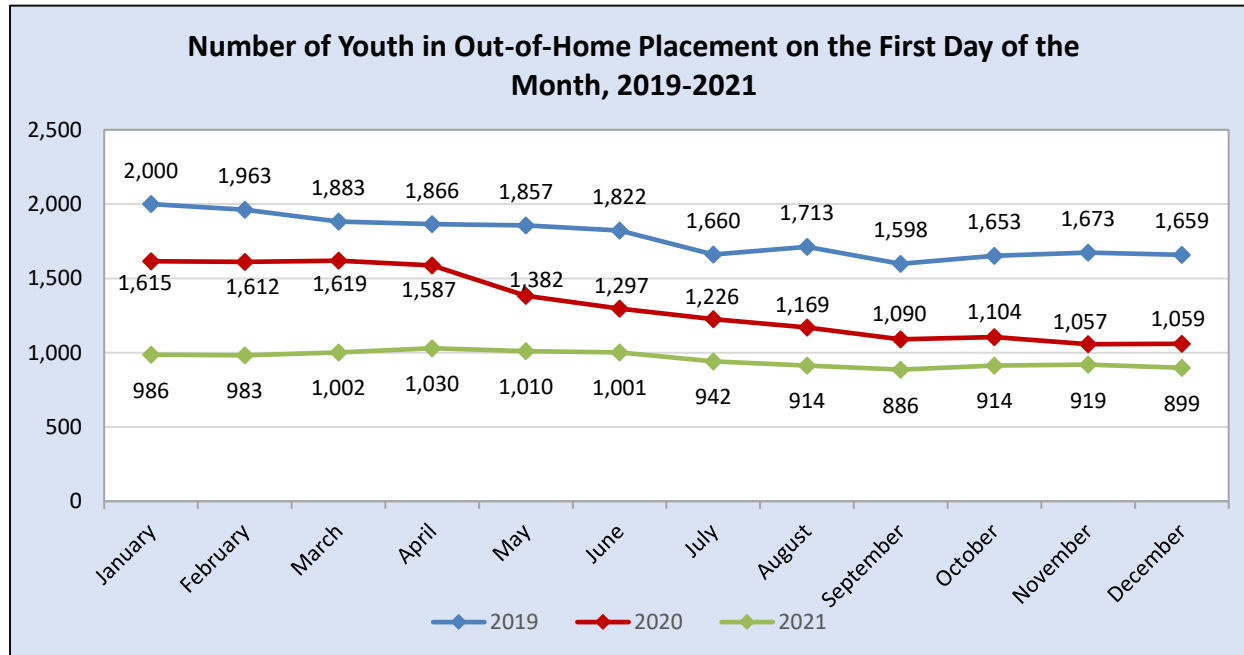

Overall, there were 20.3% fewer releases from placement in the pandemic months of 2020 compared to the pandemic months of 2019, and 46.4% fewer releases from placement in the pandemic months of 2021 compared to the pandemic months of 2019. Between 2020 and 2021, there were 32.8% fewer releases from placement in the pandemic months.

Number of Youth in Out-of-Home Placement on the First Day of the Month, 2019-2021

At the beginning of the pandemic (January through March 2020), there were approximately 1,600 youth in out-of-home placement on the first day of each month. Starting in April 2020, however, the number of youth in out-of-home placement began to decrease, and by the end of the year, the number of youth in placement on the first day of the month had decreased 34.4% (1,615 to 1,059). In 2021, the number of youth in placement on the first day of the month continued to drop and to remain well below both 2019 and 2020 figures for the same time period. There were, on average, only 957 youth in residential placement on the first day of each month. During the pandemic months only, there were only 946 youth, on average, in residential placement on the first day of each month, compared to 1,219 in 2020 and 1,722 in 2019.

The number of youth in residential placement on any given day is a reflection of: (1) the number of youth ordered to placement (placement dispositions) and (2) the number of youth released from placement (release from placement dispositions). Trends in both of these variables impact how many youth are in placement at any given time. As previously noted in this section, the total number of placement dispositions and, to a lesser degree, the total number of releases from placement have been down since the onset of the pandemic. Ultimately, the trends with placement dispositions, not the trends with releases from placement, have driven the decline in the number of youth in placement at the beginning of each month.

Summary of Findings Related to COVID Impact

Between 2019 and 2020, there were notable impacts on written allegations, court hearings and case processing, and out-of-home placements due to the COVID-19 pandemic. There were fewer written allegations to the juvenile justice system, and certain offenses decreased at a higher rate than others. In addition, the total number of court hearings held decreased, though the more notable impact of the pandemic was *how* these hearings were conducted. The system shifted from nearly all hearings being held in person to the majority occurring using advanced communication technology (phone and video). Finally, there were fewer placement dispositions, which ultimately resulted in fewer youth in placement.

In 2021, many, though not all, of these trends continued. First, while the number of written allegations to the system increased, the totals remained below 2019 figures. Second, the total number of court hearings held remained consistent, but the percentage conducted in person increased sharply, almost reaching pre-pandemic rates. Finally, the utilization of residential placement as a disposition continued to decline.

As the pandemic moves into its third year, the Juvenile Court Judges' Commission will continue to monitor and track the impact it has on the state's juvenile justice system.

County Class and Population

Secure Detention Admissions by Section Code 206 and County Class, 2021

The following charts display the utilization of selected codes as a percentage of total secure detention admissions.

Code 206 The child presents extraordinary circumstances requiring secure detention to prevent him/her from absconding. (Such circumstances may include, but are not limited to: the child's age, character, mental condition, ties to the community, the nature of the child's family relationships, drug or alcohol addiction and substance abuse.)

Note: Counties that did not use Section Codes 206, 701, or did not have Unknown/Other codes are not included. Please refer to Appendix 9 for total county detention admissions.

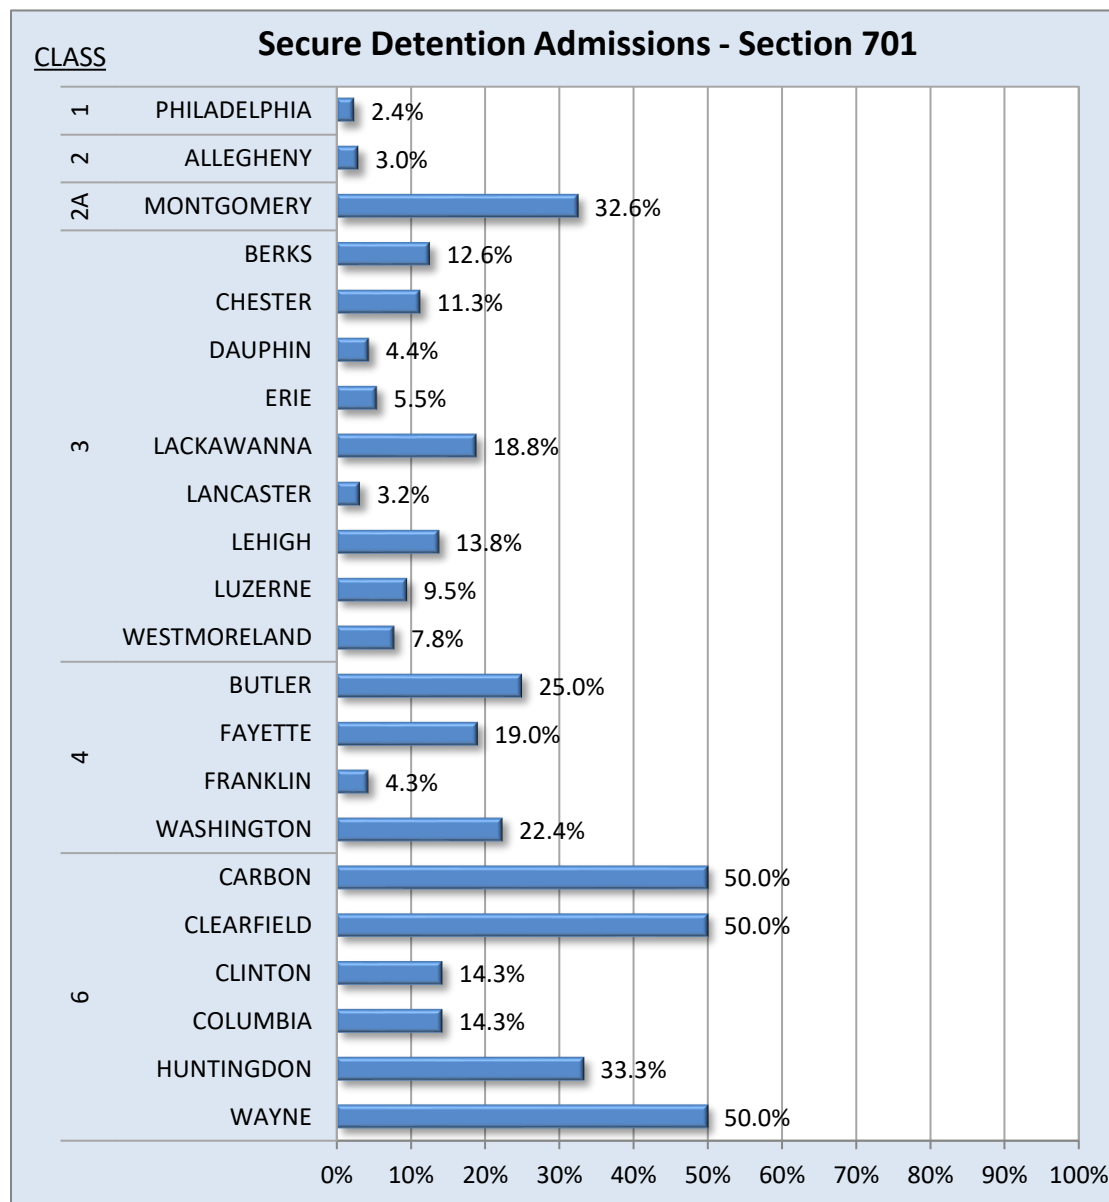

Note: Counties that did not use Section Codes 206, 701, or did not have Unknown/Other codes are not included.

Secure Detention Admissions by Section Code 701 and County Class, 2021

The following charts display the utilization of selected codes as a percentage of total secure detention admissions.

Code 701 Circumstances under which secure detention may be authorized on the basis of extraordinary and exceptional circumstances.

Note: Counties that did not use Section Codes 206, 701, or did not have Unknown/Other codes are not included. Please refer to Appendix 9 for total county detention admissions.

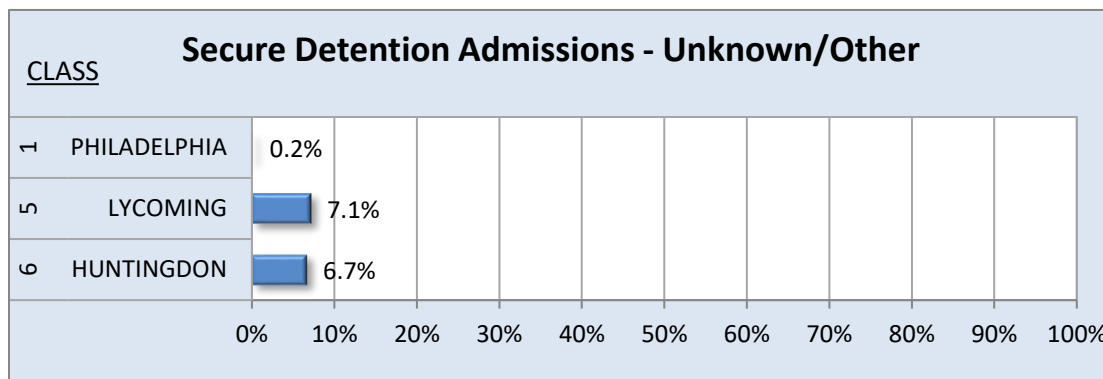

Secure Detention Admissions by Unknown/Other Code and County Class, 2021

The following charts display the utilization of selected codes as a percentage of total secure detention admissions.

Unknown/Other The Unknown/Other category, as shown in this report, indicates that in the majority of cases the admission occurred via a signed court order during a hearing.

Note: Counties that did not use Section Codes 206, 701, or did not have Unknown/Other codes are not included. Please refer to Appendix 9 for total county detention admissions.

Delinquency Dispositions, 2017-2021

The information in this section includes those cases referred to juvenile probation with alleged delinquent offenses. Disposition reviews and Placement reviews, and dispositions involving children alleged to be dependent are not included.

*The following counties had a total of 245 cases where the disposition was reported as deferred adjudication with no reported adjudication of delinquency at the time of disposition. These dispositions have been included in the disposition of Consent Decree. (Chester-1, Franklin-1, Luzerne-5, Philadelphia-237, and York-1).

Outcomes of Delinquency Placement Reviews, 2021

A *placement review* is a hearing conducted by the court regarding a previous disposition that resulted in out-of-home placement.

Note: Out-of-Home Placements do not include detention and shelter stays and diagnostic placements.

Glossary

Advanced Communication Technology: Any communication equipment that is used as a link between parties in physically separate locations and includes, but is not limited to, systems providing for two-way simultaneous audio-visual communication, closed circuit television, telephone and facsimile equipment, and electronic mail.

Delinquency Allegation: The document completed by a law enforcement officer or other person that is necessary to allege a juvenile has committed an act of delinquency. It is synonymous with a “court referral,” though written allegation is the preferred language.

Dependency Allegation: The document alleging that a child is without proper parental care or control, subsistence, education as required by law, or other care or control necessary for his/her physical, mental, or emotional health.

Detention: A secure holding facility utilized to detain a juvenile temporarily. The term detention when used in this report does not include shelter care.

Disposition: The action/decision implemented, or treatment plan decided upon by a juvenile court in response to a delinquency allegation. This is similar to the sentence imposed in criminal court.

Disposition Review Hearing: Hearing that must occur every 6 months for juveniles under court supervision for the purpose of ensuring that the juvenile is receiving necessary treatment and services and that the terms and conditions of the disposition are being met. In this report, disposition review hearings involving out-of-home placement are referred to as placement review hearings (see definition below).

Juvenile: A person who has attained ten years of age and is not yet twenty-one years of age who is alleged to have, upon or after the juvenile’s tenth birthday, committed a delinquent act before reaching eighteen years of age or who is alleged to have violated the terms of juvenile probation prior to termination of juvenile court supervision.

Out-of-Home Placement (or Placement): An out-of-home program utilized as a juvenile court disposition. Included in this definition are placements into group homes, general residential programs, secure residential care, foster care, drug and alcohol programs, residential treatment facilities (RTF), Youth Development Centers (YDC), and Youth Forestry Camps (YFC).

Placement Review Hearing: Hearing that must occur every 6 months for juveniles residing in out-of-home placement for the purpose of ensuring that the juvenile is receiving necessary treatment and services and that the terms and conditions of the placement disposition are being met.
